Report of Plague cases.

Drawing the attention of the Collectors of Districts bordering on Mysore to the G.O. requiring them to send to the Resident in Mysore telegraphic intimation of any cases of plague occurring in their districts; and prescribing the procedure to be adopted by Collectors in communicating to Government the occurrence of plague cases.

No. 829 P., 17TH AUGUST 1898.

GOVERNMENT OF MADRAS.
LOCAL AND MUNICIPAL DEPARTMENT.

ORDER—No. 829 P., dated 17th August 1898.

The attention of the Collectors of the districts bordering on Mysore is drawn to G.O. No. 231 P. Mis., dated 18th March 1898, requiring them to send to the Resident in Mysore telegraphic intimation of any cases of plague occurring in their districts. The Collectors of Bellary and Anantapur are requested to report whether these instructions were followed in respect to the cases recently reported from Hospet and Guntakal.

2. When a case of plague is discovered in any district, the Collector should immediately telegraph the fact to Government in the Local and Municipal Department, to the Sanitary Commissioner, and to the Surgeon-General, stating how the case was discovered, whether it was indigenous or imported and in the latter case, whence it was imported, what steps have been taken for the treatment of the patient and for the segregation of the contacts, what assistance is required by the Collector, and such further particulars with dates as may be thought necessary. A telegram should be followed by a detailed report, which should be sent by the same day. Next, a deferred telegram should be sent to Government every day in regard to the condition of the patient and the measures taken, until all danger of infection is over. Should there be no more cases, a final report with such suggestions as experience may have suggested should be forwarded to Government through the Sanitary Commissioner and the Surgeon-General.

ORDER.

The The attention of the Collectors of the districts bordering on Mysore is drawn to the G.O. No. 231 P. Mis. of 18-3-98, requiring them to send to the Resident in Mysore telegraphic intimation of any cases of plague occurring in their districts. The Collectors of Bellary and Anantapur are requested to report whether these instructions were followed in respect to the cases recently reported from Hospet and Guntakal.

2. When a case of plague is discovered in any district, the Collector should immediately telegraph the fact to Govt in the Local Dept. to the Sanitary Commr., and to the Surgeon-General, stating how the case was discovered, whether it was indigenous or imported and in the latter case, whence it was imported, what steps have been taken for the treatment of the patient and for the segregation of the contacts, what assistance is required by the Collector, and such further particulars with dates as may be thought necessary. A telegram should be followed by a detailed report, which should be sent by the same day. Next, a deferred telegram should be sent to Government every day in regard to the condition of the patient and the measures taken, until all danger of infection is over. Should there be no more cases, a final report with such suggestions as experience may have suggested should be forwarded to Government through the Sanitary Commissioner and the Surgeon-General.

was discovered, whether it was
indigenous or imported and in the
latter case, whence it was imported,
what steps ^{have been} taken for the treatment
of the patient and for the segregation
of the contacts, what assistance is
required by the Colls, and such ^{further} particulars
with dates as may be ~~necessary~~ ^{thought necessary}. ~~that~~
This telegram should be followed by
a detailed report, which should be
sent by post the same day. ^{Want,} ~~Then~~
a deferred telegram should be sent to
Government, ^{every day in regard to} ~~stating~~ the condition of the
patient and the measures taken, until
all danger of infection is over.
Should there be no more cases, a final
report with such suggestions as
experience ^{may} have suggested should
be forwarded to post through the
Sanitary Comm. and the Surgeon General.
