Water works machinery at
Trichinopoly.

FOR ORDERS.

Please see the notes

J. and orders in G.O. No 2840.m, dated
18th December 1897.

2. In reply to paragraph 2 of
the order above referred to, the Sanitary
Engineer stated that his valuation
of the Trichinopoly water works
machinery, viz Rs 13,387, was made
so long ago as May 1896, that in
the following month, sudden and
heavy floods having occurred
in the Cauvery, various minor
articles belonging to the pumps
and boilers were lost and that
the machinery having thereafter
continued in use until February
1897, it became further depreciated
in value. He added that on hear-
ing that the Superintendent of

Does the machinery
in the C. S. H. S. do
for disinfection?

NOTE FOR THE Sanitary Commissioner
will you kindly state whether
any of the following machinery
purchased for the water works
at Trichinopoly will do for dis-
infection

- (1) Two No 8 pulomuter pumps
- (2) One No 7 do
- (3) One Donkey pump
- (4) One force pump
- (5) One fire engine
- (6) Three boilers

V. Raghava Charlu
1/4/98

- (1) (2) (3) No use unless
boiler is with each.
- (4) of use if boiler is attached
- (5) of steam fire and not manual
- (6) of use. Mr. C. S. H. S.

Public Works Stores had valued the said machinery at Rs 5,700 only he deputed the Boiler Inspector to examine and revalue it and that that officer estimated its value at Rs 8,850. This valuation has been accepted by the Superintendent, Public Works Stores - vide the memorandum of the Public Works Department in G.O. No 448 M, dated 28th February 1898.

3. The municipal council of Trichinopoly also accepts this estimate and is willing to part with the machinery for Rs 8,850 and it requests that the Public Works Department may be asked to dispose of it and to credit the amount in favour of the municipality, as funds are urgently needed to carry out certain repairs and alterations in the main pumping station, for which proposals have already been submitted to Government. These proposals are now under reference to the Chief Engineer, Public Works Department.

4. The questions for decision now are (1) whether Government

L.

Vide c. no 1115 M. M.

vide the notes on the margin of page 6, (para 5) of the note for orders in the G.O. quoted. N.

should purchase the whole of the machinery or at least a portion of it, or whether the municipal council should be left to make its own arrangements for its disposal, and (2) at what rate the cost of the machinery should be recovered from those municipalities in which it may be used hereafter. In the notes in G.O. No 2840 M, dated 18th December 1897, the Government considered that at least one of the No 8 pulsometer pumps with a 12 H.P. Boiler, which are stated to be required for the Tirupati waterworks should be bought by Government, if the council would sell them at the valuation of the Public Works Department. In view of the circumstances explained in para. 3. of the note for orders above referred to, it is submitted that the whole of the machinery may be purchased by Government. The machinery will form part of the Public Works Stores and its cost will be paid by the Public Works Department in the first instance the same being recovered from such of the municipalities in

O.

which the machinery may be used. The rate of recovery may be fixed at 20 per cent of the cost of the actual machinery used in the execution of the works, as suggested by the Sanitary Engineer in his letter disposed of in G.O. No 1261 m, dated 19th September 1893, but it will perhaps be better to consult the Public Works Department before any definite conclusion is arrived at on this point.

Has P.W. any objection to the above proposals?

H.T.
5-4-98

To The Public Works Department for Counter initials.

P.W. has no objection, but I think the rate of recovery should be fixed at 50 not 20 per cent, it being very unlikely that the machinery will last for more than two more works.

H.T. Submitted that which this may be accepted. 13.4.98

To,

The Chief Secretary to Government,
Local and Municipal Department,

FORT ST. GEORGE.

Through the Dy. Collector of Trichinopoly.

SIR, With reference to G.O. No 448 h/ his dated 28th February, I have the honor to inform the Government that the Municipal Council accept the valuation and is willing to sell the machinery for the sum of Rs 8,850, and to request that the Public Works Department may be asked to dispose of the same and to Credit the amount, in favour of this Municipality. Funds are urgently needed to carry out the repairs and alterations to the main Pumping station, the proposals for which are now before Government.
