No. Order. N^o 85 P. mis. d 25-2-98

The Government cannot agree with para 2 of the ^{of the 18 Feb.} Surgeon-General's letter. The medical staff of a district consists of a St Medical and Sanitary officer and an Asst Surgeon, and the theory is that one or the other will constantly be absent on tours of inspection when the officer left at head-quarters will by himself look after the duties mentioned. This being so, there can be no ^{whole} reason why the duty of inspecting vessels should be ~~wholly~~ thrown on a single apothecary. The D.S. & S.O. and his assistant should take their share of work, touring being suspended under the present circumstances of such and

If ^{notwithstanding the above arrangements} ~~the above arrangements~~ ^{is carried out} an additional apothecary is required for plague inspection work, the Government thinks that the District Board ^{should} ~~might well~~ pay half the his salary as the preventive measures taken benefit the whole district. As pointed out by the Collector in his endorsement on the Chairman's letter, the apothecary is not entitled to the special allowance of Rs 25 sanctioned in G.O. No 322 Public, of 23-3-97 ^{as he has not been} ~~unless~~ he is deputed to a distance from the scene of his ordinary work.

Misc ORDER.

I

The Chairman is referred to para. 1 of G.O. No. 720 Financial, dated 4th September 1897. Communicated with G.O. No. 2106. dated 27th September 1897, under which the cost of the Subordinate Medical staff employed in connection with the plague is payable from Local or Municipal Funds as the case may be. As, however, the population living outside the Mangalore Municipal area is also interested in the plague inspection in the present case, the Government considers that the emoluments of the Civil Apothecary should be borne from Local and Municipal Funds in equal shares.

I

2. With reference to para 3 of the Chairman's letter, it is observed that under para 2 of G.O. No. 322 Public, dated 23rd March 1897, the apothecary is entitled to an allowance of Rs 25 per mensem on

assistant

the apothecary with

he is deputed to a distance from scene of his ordinary work. As, in the present case, the apothecary has only been transferred from duty at the Municipal hospital to duty at the port in the same town, he is, as pointed out by the Collector in his endorsement, not entitled to the allowance.

The Surgeon-General is requested to state why the District Medical and Sanitary Officer or the Assistant Surgeon has not been entrusted with the duty of inspecting the steamers and examining the passengers. In the opinion of Government one or the other of these officers ought to undertake the work.

(From Orders.)

" " 393 M. " 1893, d/ 24-1-93, " " Surgeon-General.

H.M.
FOR ORDERS

As to whether in the circumstances stated in the Chairman's letter the apothecary in question should be granted an allowance of Rs. 25 per mensem and whether his emoluments should be paid from Provincial or Municipal funds.

I

I agree except that I think L. funds might well pay half the cost of the apothecary if he is required. But why doesn't the B. M. & S. O. for the Asst Surgeon do the work? In their briefs -

MS
1/2/98

Under para 2 of G.O. No. 322 Public dated 23rd March 1897, the apothecary is entitled to this allowance only when he is deputed to a distance from the scene of his ordinary work. As, in the present case, the apothecary has only been transferred from duty at the Municipal hospital to duty at the port in the same town, it is submitted that, as pointed out by the Collector in his endorsement, he is not entitled to the allowance, though the Surgeon-General recommends it on the ground that his duties are hard and trying.

As regards the funds to which the apothecary's emoluments should be debited, it is submitted that the Council may be referred to para. 1 of G.O. No. 720 Financial dated 4th September 1897, communicated with G.O. No. 2106 M dated 27th September 1897, under which the subordinate medical staff employed in connection with the plague is payable from Local or Municipal funds.

The medical officer has to go on board the steamer to conduct the medical examination. The steamer generally anchors about 3 or 4 miles from the port and it takes at least one hour to reach the steamer in good weather. The segregation shed is located on the sand spit which runs between the sea and the mouth of the Mangalore river.

The Secretary to Government,
Local and Municipal Department,
Madras.
Through the Collector of South Canara

Sir,

Enclosures.-
Nil.

Owing to recrudescence of the bubonic plague in the Bombay Presidency, the pre-cautionary measures which were adopted by the Municipality at this port till the break of the South west monsoon at the end of May last, were resumed early in September when the port reopened for communication, and two Municipal hospital-assistants were deputed to the necessary work of inspecting steamers and other vessels on their arrival here, examining their passengers and disinfecting their baggage, etc. with the assistance of the Municipal Sanitary Inspector as well as of attending to the quarantine arrangements at the place set apart for the purpose on the seashore outside the Municipal limits.

2. On the 1st of October, however, the

Distric

District Medical and Sanitary Officer who is the Health Officer of the port represented to the Municipal Council that "it is absolutely necessary that a man of better qualifications than a Hospital assistant should be posted for Plague duty, the work being one of great responsibility, and at the same time deputed Second grade Civil Apothecary C. F. R. Saldanha who was doing duty in the Mangalore Municipal Hospital, to the work, in anticipation of sanction from the Municipal Council, so that his salary and allowance may be paid from Municipal Funds.

3. The Municipal Council, of course, concurs in the opinion of the Health Officer as to the advisability of employing the apothecary for the important work, but finds itself unable to bear his emoluments which, including the allowance of Rs 25 fixed in G.O. No 322, Public, dated 23rd March, 1897, amount to Rs 100 per mensem, and it has consequently asked me to address Government on the subject in order that the payment may be sanctioned from Provincial Funds for the following

reasons

Q. March 1897.

reasons.

4. The provision in the current year's budget for plague charges is only Rs 500 (vide paragraph 4(4) of G.O. No 222 M., dated 16th February 1897), while the actuals have already come to about Rs 1700, to say nothing of the monthly expenditure of Rs 213-12-0 voted by the Council for being incurred hereafter.

Owing to the reduction in the Profession Tax assessments to half the usual amount in consequence of the new schedule, the financial equilibrium of the Municipality has considerably been disturbed, and the Council has not yet been able to decide from what source this large unforeseen expenditure on the plague purposes could be met.

5. Under No 6 of the regulations contained in the Government Notification, dated April 8, 1897, Marine Department, the duties of Health Officer at this port are to be discharged by the District Medical and Sanitary Officer. But practically most of these duties are performed by the apothecary with the assistance

baggage, &c., at the quarantine station being done under the supervision of the Municipal Sanitary Inspector.

6. In these circumstances, I have the honour to request that Government may be pleased to sanction the payment of the Civil Apothecary's emoluments while employed on plague duty, from Provincial Funds.

7. Hitherto, his salary was paid from the same source while doing duty in the Municipal Hospital under orders from the Surgeon-General.

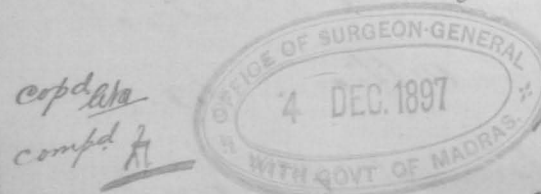

I have the honour to be,

DEPARTMENT.

SIR,

With reference to memorandum
No. 155 L.M. dated the 8th February 1898, I have the
honor to state that every week two shepherd steamers
arrive at Mangalore bringing a large number of passengers
and packages from Bombay and daily three or four and sometimes
six native crafts arrive from Bombay side. All these
vessels anchor far out ^{at} sea and the vessels have to be
seen as they arrive and therefore the Apothecary
has to work from 6 A.M. to 6 P.M. daily to inspect
these vessels and to attend to the disinfection of
passengers &c.

2. The District Medical and Sanitary Officer
and his assistant have important duties at the
Civil, Jail and Police institutions and cannot find
time to inspect vessels without serious detriment to
their legitimate work.

I have the honor to be
Sir
