Municipal Department with reference to its telegram dated 16th August 1898.

2. The undersigned has been present at the inspection of the train several times of late and can say that the general principles ^{observed} in the case of passengers arriving from places declared to be infected with plague are as follows:—

- (a) All persons found to be suffering from fever without any obvious cause are detained.
- (b) Of those not found to be so suffering all persons considered suspicious under additional regulation 5 (b) are detained.
- (c) All persons travelling 3rd class who, though they do not fall under (a) and (b), are not provided with a formal certificate signed by a Plague Authority or Medical Officer of the Bombay Presidency to the effect that they have within the previous 24 hours been discharged from an observation camp or been examined and found free from plague are detained.

Persons falling under (b) merely because they are dirty and persons falling under (c) are detained for disinfection in the morning and then allowed to proceed on their way, unless the examination of their bodies during the course of the process of disinfection results in their being placed under
