Office of Sanitary Commissioner,
Fort Saint George, 23rd August 1898.

From

Surgeon-Major H. Thomson, M.B., D.P.H.,

Ag: Sanitary Commissioner for Madras,

TO

The Secretary to Government,

Local and Municipal Department.

Sir,

With reference to G.O. NO. 841 P dated 18th August 1898, I have the honour to inform that the disinfection apparatus now under construction at the P.W. Workshops, Madras will be completed by the 25th instant. As material for the construction of a Plague camp at Jallipet is only being collected, I would suggest the apparatus being forwarded to Jallipet when the camp is ready for its reception, under charge of fitters from the workshop who will erect the apparatus on the spot selected for it; also that the workshop be asked to supply a competent man for the working of the machine after its erection. I request you will inform me if it is your desire that I should inspect the apparatus prior to its despatch. I would strongly recommend that orders be issued for the construction of two more Disinfection machines after the pattern of those already made by the Superintendent, P.W. Workshops.

✓ Kondapalli and Ganjam will probably require Disinfection machines and there is none available. The machines made at the P.W. Workshops are superior to the one supplied by the Southern Mahratta Railway Company to Hospet and are to be preferred.

I have the honour to be,

Sir,

Your Most Obedient Servant,

H. Thomson -

Surgeon-Major,

Acting Sanitary Commissioner for Madras.

SUBJECT.

Steam disinfecting apparatus.

FOR ORDERS.

To P.W. Dept for C.C.

& cost Rs 1400

Mr. King, the Sanitary Commr, had a steam disinfecting apparatus made at the P.W. Workshops. It is now working at Jungpeth and the Ag. Sanitary Commr. Certifies after personal inspection that it is preferable to that supplied by the S. & R. Company for Hospet. The cost of the former is Rs 1800 + Rs 16 a month for the use of ^{one of the two} pulsometers which he first purchased from the Trichy Municipality on account of the Municipality carrying out water supply schemes.

2 A second apparatus ^{similar to the first} was ordered to be kept ready for emergencies. It is now complete and is awaiting despatch to the newly

newly established plague
inspection station at Jalarpet,
pending the erection of a disinfection
camp there. The S.C. suggests
that when the camp is ready for its
reception, it should be sent under
the charge of fitters from the P.W.
Workshop, and that the workshop
should be asked to supply a competent
man for the working of the machine.
This is a detail which could be
attended to by the S.C. and which
Dr. King did not trouble the Govt with
in regard to the Durgabhadra apparatus.
The S.C. also inquires whether he
should inspect the apparatus before
sending it to Jalarpet. It is submitted
that he should ~~not~~ satisfy himself
that it is in proper working ~~order~~
order before despatch, so that any
defects may be remedied at once.

Yes H-1

3. The S.C. states that similar
apparatus may be required for
Kondapalli & for the proposed
inspection station at ~~it~~ in Ganjam,
and suggests that two more machines
of the same kind may be ordered &
be constructed. Orders requested
on this suggestion.

Long
25/10/54

S.C. & put himself
in commⁿ with Mr.
Moss, & ascertain
whether & how soon
two more could be supplied,
& at what cost.
