SUBJECT.

Sites for vegetable markets — Ellore Municipality.

FOR ORDERS.

in G.O. No 636 M 20-3-97 — A

In para 46 of his letter Submitting the budget for 1897–98, the Chairman of the Municipal Council of Ellore stated that the "Council proposed to levy fees on "the vegetable shops etc, opened on "public site and in the streets," and that an increase of Rs 445 was thus anticipated in the receipts. The Government thereupon

— do — B

requested the chairman to report the authority under which the Council proposed to levy fees on the shops in question. In reply

in G.O. No 1294 M 28-5-97 — C

to this, the Chairman submitted a copy of the council's resolution No 4 dated 16th April 1897, in which it decided to fix, under section 194 of the District Muni cipalities Act, the vacant places on both sides of three of the mai oads for the Sale of vegetables etc and requested the Sanction of Government for the Collection of fees at these places. On this, the Government requested the Chairman to submit a plan showing the road sides which have been allotted for the Sale of vegetables etc, and to state whether these lands belong to the Municipal Council or to Government.

2. With the first letter read above, the Chairman — submits three plans showing the road sides in question and states that by virtue of section 23 of the District Municipalities Act and the definition of "street", the lands belong to the Municipal Council as they form part and parcel of the roads. With his Endorsement No 1259 dated 2nd April 1898, read above, the Collector forwards a letter from the Deputy Collector, Ellore Division, accompanied by evised and correct plans of

the Sites proposed to be used as ma The Deputy Collector recommends that the appropriation of sites o either side of the roads shown plans Nos 1 & 3 may be Sanctione as they form part of the road a as in the case of the sites on plan No 1, the great inconveni now caused to the public by gra cutters and fodder-sellers expos their head loads on other roads will be obviated. The use as a market, of the site marked on plan No 2, is not recommended by the Deputy Collector, as in the opinion the whole breadth of the bit, except 2 or 3 feet outside t drain, does not belong either to t Municipal Council or to Governme and it will greatly inconvenience t tatti makers in their business an trade if it is used otherwise for municipal purposes.

CURRENT No. 1235 M

To V. A. Brodie Esquire
Collector Godavari.

Sir,

Referring to your R. Ref on Cur 1259/Eng dated 6-1-98. I have the honor to state that I have personally seen the 3 sites in question and checked them with the plans as regards dimensions &c.

2. The old plans of Sites Nos. 2 & 3 having been incorrectly prepared, showing north for South. east for west and vice-versa I got all of them revised and prepared afresh through the Municipal

Overseer and Manager showing proper directions and the dimensions. The breadth of the site as per plan No 3 is the average mean as it is almost 3 feet on the South and 3.75 feet on the north.

3. No 3 is wholly Municipal Road with a margin of 3 or 3 3/4 feet broad on either side outside the drains - The margin and the drains by a covering of wooden planks and also a portion of the Main Road at a very busy place in the very heart of the Town, were encroached upon and used for the sale of vegetables and other miscellaneous articles by petty shop keepers &c. Though action should have been taken for the levy of fees and removal of encroachments some time back, the present proposal of the Municipality may be sanctioned.

4. No 2 is not now used as a Vegetable market - The eastern side which was at a low level is now levelled up and included in the main road up to the very limit of houses with a side - Channel intervening. This cannot be converted into any sort of market. There is no vacant site on the western side except a little portion towards North, which is now in front of the houses of bamboo tatti makers. I don't think that the whole breadth of this bit of the site belongs either to the Municipality or Government except a small breadth of 2 or 3 feet outside the drain. It will greatly inconvenience the tatti makers in their business and trade if it is used otherwise for Municipal purposes, and may therefore be left as it is.

5. No 1 also is not now or can in future, be used as a vegetable market. Grass cutters and fodder sellers are now exposing their head and Kavidi loads of grass for sale partly in the Taluq Cutchery Road and partly in Kanyakamavari Choultry Road touching the site in question. This is found to be a great block and nuisance to the public and the Municipality therefore proposes to remove this evil by providing the site in question as a substitute for the purpose with a view to collect fees on the grass and fodder loads sold daily. The Municipality has already undertaken to raise the site

Road connecting it with the Main Roads on North and South shown in the plan. The proposal of the Municipality for converting either side of this new Road into a vegetable or grass market, whatever it may be, may be sanctioned.

6. The old plans, and new plans now prepared together with the original references are submitted herewith.
