Plague Commission Local & Munl. (1898) Department.

CURRENT No. 146

1293
order
The Com. is encl. Sh. in the
interacted as hospital attached to
the plague station to train the
equipment necessary to
carry down for houses &
any other on page 109 of the
Regulation.

From

The Collector of Bellary

In Orders

It is submitted the Collector's interpretation is correct. Hospitals attached to inspection stations are semi-permanent, & differ from the plague hospitals which may be started at a moment's notice when plague breaks out. The staff attached to the former will be recruited from the existing establishment, while that for the latter will be temporary will have to be temporarily obtained from any private practitioners or from England, as in the case of nurses & it is necessary that the latter class of hospitals should be provided.

SUBJECT.

Submitting letter, from the Medical Officer in charge of Jungabhadra Inspection Station, requesting whether the equipment, referred to in G.O. No. 1106 of 17.9.98, should be obtained for the nurses and hospital assistants in charge of the plague hospital attached to the Jungabhadra camp.

Plague

Copy of letter No. $\frac{609}{25-9-98}$ from the Medical officer in charge of Tungabhadra inspection station to the Collector of Bellary.

Referring to your endorsement No. Sir:

$\frac{399-P}{22-9-98}$ on Government order $\frac{1106-P}{17-9-98}$ I have

the honour to request to be informed if the equipment asked for nurses & hospital assistants in charge of plague hospital attached to this camp and said to relate to plague hospitals should be obtained for furnishing the quarters of nurses and hospital assistants who may be deputed to plague duty on patients being admitted.

2. As the wording of the Government order is ambiguous I request that if you think it is not applicable the opinion of Government may be obtained as great inconvenience would be felt if hospital assistants and nurses arrived here counting on furnished quarters.

3. I may here point out that Government

P.A.
Please call
have papers

in their proceedings No. 568-P. mis have
11-8-98
styled the plague camp here as hospital.

Ref. 1634-P

28-9-98

Forwarded to the Plague Commissioner
for favour of orders. The medical officer's
contention seems to be that the hospital
camp attached to the inspection station
is a plague hospital and that the
equipment should therefore be main-
tained. Government has, however, in
my opinion clearly ruled that the
equipment does not relate to camps
(including the hospital camp) attached
to inspection stations.

Acting Collector
