passengers both from the west and
the east are now examined, and
a second inspection station there
seems to ~~be~~ Government to be
quite unnecessary, at any rate
for the present.

2. As regards road passengers, Madras Regulation 29 (page 21 of the Madras Plague Regulations and Rules) has been applied to Malabar and the Collr should ^{with great discretion & not without apparent necessity,} enforce it, reporting his action for the approval of Government. Plague is now confined to the City of Bangalore. Should it extend towards Malabar the question of placing that ^{under}

"under observation" and introducing
the Additional Municipal Regulation
will be considered.

Madras.

Sir

In view of the outbreak of
plague in Bangalore and Hubli I have
the honor to report that the District
Medical and Sanitary Officer and
myself consider that this District should
be placed under observation. The worst
of the monsoon is now over and with
the revival of business there will be a
large influx of people from all parts
into the District.

Query? necessary?

2. I propose for the present to open
three frontier inspection stations. The
first will be a railway frontier &
inspection station at Malayar on the
Madras Railway. The staff will be
sufficiently strong to inspect all trains
and also to watch the road which is
 $\frac{1}{4}$ mile from the railway station.
The road must be watched in order
to prevent persons alighting at some
station on the Podanur side of Malayar
and proceeding into Malabar by road
in order to avoid inspection at

Malayar

Malabar railway station.

3. The other two will be road inspection stations on the two roads leading from the Wynad into Mysore. One will probably be at Edatara near Sultan's Battery on the road thence to Gundalpet and the other at Katti. Kollam near Manantoddy on the road thence to Mysore or at Bavali on the same road.

4. If the Government accepts these proposals further proposals as to the establishments required will be sent in.

I have the honor to be
Sir,

Your Most Obedt Servant.
