In G.O. No. 407. A. M. dated 19th February 1898, the proposal of the Municipal Council of Binichipatan to open a fourth form in its Middle School was sanctioned on the understanding that the pupils were prepared for the Government Upper Secondary examination and that commercial subjects were brought up as optional subjects. In his letter read above, the Chairman states that the Council declines to comply with the above conditions on the following grounds:—

(1) That the people of the town, though themselves mostly merchants, are eager to have their children trained for a University course and seem reluctant

reluctant to have a commercial education imparted to them and

(2) that if commercial subjects are brought up as optional subjects, the services of an experienced specialist who cannot be got for a salary of less than Rs 50 a month, will be required and that in the present state of its finances, the Municipal Council is unable to bear such a heavy charge.

As regards the first objection the Director in para. 3. of his endorsement in G.O. No. 407. A. M. dated 19th February 1898 has already observed that it is likely that in a place like Binnipalam very few people will be able to follow up a University education. The Director has not met the Council's second objection. As the Council states that the fourth form which has already been opened will be self-supporting and that the people are very anxious to have the class in which their children may be taught for the University course, it is

(Through the Director of Public Instruction)

Sir

With reference to your Proceedings No. 409
Am. No. dated 19th February 98. I have the honor to
inform you that the fourth form was opened on
22nd February last and that the present strength of the
class is seven.

As the order was received late in the term, students
who would have joined the school were obliged of course
to the neighboring centers of education but most of them
are likely to return to this place to join the class in the
2nd term and make up the expected strength of sixteen
boys as stated in my letter No. 376 dated 21st January 98.

I beg to inform you also that the parents of
the youths of this town though themselves were merchants
for the most part are eager to have their children trained
for a university course and seem reluctant to have a
commercial education imparted to them. Of commercial
subjects were to be optional the services of an experienced
specialist would be required and they cannot be secured
unless a decent salary say 50 Rupees is offered. The
finances of the Municipality are however ^{not} so bright
as to permit such a heavy charge. Moreover the very fact
that the parents of the boys are willing to bring back their
children for the furtherance of education, evinces a
desire on their part to have their children educated
only of the university course.

I beg to state that the receipts of the class
from school fees will come to Rs 337-8-0.

and the expenditure will be Rs 324-... to the Municipality.

As stated in my letter addressed to Government the wealthy citizens of this town promised to meet the cost of the police apparatus and thereby the class will be almost self supporting.

As it is expected that the fourth form would thrive very well in course of time and prove a great boon to the town, I beg you will sanction its continuance as yet present established.

The usual proposition statement and the application for the allotment of funds are herewith enclosed as requested.

I have the honor to be,
Sir

Your most obedient servant

M. S. Lachan

Lachan Mani.

Strongly recommended on the ground that Bimlipatam needs a High School as the only places available for boys after passing the Lower Secondary Examination are Vozaga-patam and Virianagaram, 16 miles distant respectively and in my opinion they are not suitable localities for young students from other localities.
