SIR,

I have the honour to state that up to ^{date} 1928 persons got themselves inoculated by my example and inducement - many more educated persons are willing to be inoculated provided that they are given some privilege over unprotected persons; they wish that in their cases at least the ten days observation when going to another station from the infected area may not be enforced and that they may be permitted to travel by road or rail without a pass when they are provided with a certificate of inoculation. I think that this concession may well be shown to them, and if granted it will make inoculation more popular.

I have the honour to

Sir,

your most obedient

Bannabene
