Pay and Allowances of Sanitary Inspectors.

Passing orders on Cuddapah Collector's reference regarding the —.

PROCEEDINGS OF THE PLAGUE COMMISSIONER.

READ—the following paper :—

From H. O. D. HARDING, Esq., Acting Collector of Cuddapah, to the Plague Commissioner, Madras, dated 11th December 1898, Ref. No. 195-P.

I have the honour to enquire what pay should be given to the sanitary inspector attached to ambulance corps. A sanitary inspector's pay when employed as circle inspector is Rs. 40 plus Rs. 15 horse allowance plus Rs. 15 travelling allowance. This is reasonable, because he is perpetually on the march from village to village, and requires a horse and a cart for his goods. But a sanitary inspector attached to the ambulance corps is in quite a different position. He is stationary doing nothing for his pay till plague occurs somewhere. He may then be sent with his corps for some days and he will go out where the plague is. He may after a week or ten days in one place be moved to another, but he will travel with his corps. His possessing a pony is no advantage to the public; this is not required to ride all over the place like a circle inspector and as far as fixed travelling allowance of Rs. 15 goes, he may only travel to one place in a month and then return. I would recommend for such men pay at Rs. 40 and such travelling allowance as they earn when travelling like other Government officials who draw the same pay and no horse allowance. As I am hesitating to admit various claims by these men, many of whom have abandoned ordinary clerk's posts on Rs. 15 a month to get as they thought the large sum of Rs. 70, I beg that early orders may be passed to alter the question in the best interests of the employers as well as of the employed.
