In order. A passenger day from Bangalore to Madras may give his true name & address at the latter place where he is likely to be known but not at the former or perhaps if he intends to evade the rules. There is no remedy to check this, except quarantine. The work of taking down names & addresses at the inspection stations is done by Hospital Assistants or clerks, who probably cannot be expected to know the geography of the whole of the country & therefore to be able to detect when any person gives apparently a false address.

THE *Plague Commissioner,*
Madras.

SIR,

Adverting to your reference dated the 29th November 1898 on C^N 1645/1898, I have the honour to state that "19th Instant" in this office letter Dis^N $\frac{393}{\text{Four}}$ of 98 dated 23rd November 1898, is a clerical error for the "19"th idem.

2. With reference to para 2 of your reference I have to state that it is necessary to follow up persons who come to this District from infected parts whose tickets have for any reason not been specially marked. The District medical and Sanitary officer should be able not only to check the work of passport issuing officers but to be reasonably satisfied that no person arrives from an affected area who has not been examined at the inspection station he passes through. Where the Inspecting Medical Officer advises the departure of a passenger and where no passport has been issued to such a person, it is necessary to institute enquiries

SUBJECT

Requesting to instruct the
Medical officers at the
Railway ~~fronts~~ frontier
inspection stations not
to ~~allow~~ ^{fail to have intimations of passengers} ~~transport~~ ^{to transport}
coming from blue infected parts
in future.

Ref on Cus 1645/12

The Coll^r states that the passenger in question left Bangalore on the 16th Oct last and arrived at Bagraha on the 19th instant. If this statement is correct, ~~the Coll^r~~ is requested to ascertain the ten days' period of observation had long expired before the passenger reached Bagraha & ~~to inform~~ the report of the medical officer in charge of the frontier dep^t: station was probably sent to some other St. ~~Heads~~ The Coll^r is requested to ascertain the facts.

2. The passport issuing officers must ~~be~~ find ~~pass~~ trace passengers from infected areas with the aid of their tickets & the punch mark thereon and not wait till they get intimation from S. H. A. V. O. The reports of the medical officers are intended to check the work of the passport issuing officers.

TO

THE Plague Commissioner,
Kistna Madras.

SIR,

The marginally noted persons
left Bangalore on the 16th October last and

- (1) G. Rangappa
- (2) M. Ramaswami
- (3) M. Lyana Rao
- (4) M. Satyanarayana
- (5) M. Mahalakshmi
- (6) M. Ranganayakamma
- (7) M. Narasamma
- (8) K. Bushamma
- (9) K. Sreeramamurti

arrived at Belwada on or
about the 19th Instant. They
travelled via Gujral Kal.

No intimation was received
about them by the District
Medical and Sanitary Officer
from any of the Railway fron-
tier inspection stations. They
proceeded to Masulpatam

from Belwada. The Sanitary Inspector
on Plague Duty at Belwada however detained
them at the station and issued passports.
The omission on the part of the Medical
Officers at the Railway frontier inspection
stations to send intimations to the District
Medical and Sanitary Officer is a
serious one and I have the honour to

request that you will be so good as to
instruct the medical officers at the
Railway frontier inspection stations
not to allow such omissions in future.

I have the honour to be
Sir,

your most obedient servant
