To,

The Sanitary Commissioner
MADRAS

Sir,

I have the honor to report an outbreak of Bubonic Plague at the hamlet of Kotāloo, a hamlet of Guntakur and situated about 2½ miles S.W. of it. It appears that a man called Pedde Babanna with two sons and a daughter resided together. The villagers state that 10 days ago the father died and about five days afterwards his younger son died. Three days after the second death the elder son went away to a village in Cuddapah District (Velibinda) and two days afterwards that is yesterday, the daughter was found dead. I saw the corpse of the latter this morning. The house a Kutcha one made of Chalmu stalks & grass roofs were burned down & the floor will be treated with method. All clothing & in house destroyed as they were worthless.

The Cuddapah authorities were at once communicated with regarding the son Pedde Subbanna.

The hamlet is a small one and occasions no apprehension.

I have the honor to be

Yours

Dr. Robertson

ENCLOSURE.

Subject.

Reporting about the
presence of Plague
at Kothalo a hamlet
of Guntakal village

22nd Dec 1898

Copy of the Sanitary Commission
forwarded to
enclosure with the sent to

the Collector of Anantapur.
for early report as to the action
taken. The contraction of circles
from 10 to 5 miles was done in
M.S. Order No 86 of 17-10-98

1/12/98

Note.

The 3 cases were reported in the
statement for 22nd Nov.

To The Collector of Anantapur
Sanitary Commission.

No 2890
S

Forwarded to the Plague
Commissioner, with the
remark that the occurrence
of a succession of cases
in this hamlet, in a
period of ten days, close
to Guntakal, without in-
formation reaching the
District Medical and
Sanitary Officer, points to
carelessness in the village
Reddi concerned, and to
the necessity for con-
tracting "observation
circles" - ten miles dia-
meter - to five miles dia-
meter - "preventive circles"
within twenty miles of
indigenously affected
areas, as already advised
by undersigned.
