1. Submitted.

2. In view of the strongly expressed opinion of the District Surgeon that a male compounder for the "Women's and Children's Hospital" was not desirable, it is surprising that the Council should have insisted on retaining the present male compounder.

3. The 6 Councillors obstinately refused to consider the question of sending a female compounder for training at all.

Sir,

In submitting herewith copy of the Council's Resolution No: 2 (b)/28.5-98, I have the honour to point out that the resolution is extremely objectionable and request that Government will be pleased

to

1974 M

to pass orders thereon.

2. The appointment of a female compounder is strongly recommended by the District Medical Officer, the said recommendation being the result of his late inspection of the Women's Dispensary, so that it must be inferred that his opinions is based upon local enquiries and information given him.

3. I myself had pointed out to him the danger of entertaining a male compounder in a female dispensary, and had explained that my attention had been drawn to this defect on several occasions by respectable people of the town.

4. Considering that a female compounder is obtainable, (after being trained) there can be no possible reason for the continuance of a male compounder.

5. The preference shown by the Council in favour of the present male compounder is in my opinion unreasonable, and except that the resolution, against the recommendation of the District Medical Officer, was carried by the usual party, it would be difficult to understand this extraordinary vote.

I have the honor to be,
Sir,
Your most obedt. servant
