AUGUST.

Administration Report.

Reviewing the — of the Mannárgudi Municipal Council for 1897–98.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. V. RAMACHANDRA RAO Avargal, Deputy Collector in charge of the Municipal Office, Mannárgudi, to the Secretary to Government, Local and Municipal Department, dated 5th June 1898, No. 125.

I have the honour to submit my report on the administration of this municipality for the year 1897–98, together with the following enclosures :—

(1) Statement of receipts and charges.

(2) Concise report of the civil apothecary on the sanitation of the town and the working of the municipal hospital.

(3) Assistant Inspector's statements and report on education.

(4) Extract from the proceedings of the Municipal Council, Mannárgudi, dated 10th June 1898, in which the report was discussed and passed.

2. The budget and the revised estimates were passed by Government in its Orders, No. 648 M., dated 22nd March 1897, and No. 560 M., dated 12th March 1898, respectively.

3. The accounts of the year under report have not yet been audited.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

4. *Municipal Board.*—The maximum strength of the council is sixteen including one *ex-officio* councillor ; of these, four are nominated and twelve elected.

5. *Nominations and Elections to the Council.*—Six vacancies occurred among the elected seats and all of them were filled up within the year. Among the nominated seats, three became vacant, of which two were filled up within the year.

6. *Office of Chairman.*—The office of Chairman was held by M.R.Ry. M. R. Sreenivasa Rao Avargal till 19th November 1897, when his term of office expired. M.R.Ry. T. V. Srinivasa Aiyar Avargal, the then Deputy Collector of Mannárgudi, took charge of the office on 20th November 1897 and continued to hold it till 10th January 1898, when it passed into my hands.

7. *Meetings of the Council.*—Thirty-five meetings were convened during the year, of which four were adjo[illegible]d for want of quorum. Ordinary meetings used to be held on t[illegible] 2nd and 4th Satu[illegible] of every month, but subsequently the day of the meeting w[illegible]ered into Friday [illegible] suit the convenience of the late Chairman. Special m[illegible]s were held as often as was found necessary. The elective system is in force in thi[illegible]unicipality and there were 305 voters registered at the close of the year.

II.—RECEIPTS.

8. The total receipts of the year amounted to Rs. 26,896–11–9 against Rupees 27,650 of the revised estimate and Rs. 19,219–15–11 in the previous year. The large increase over the actuals of 1896–97 is due to the increased receipts under several of the items as per Statement No. I and to the adjustment of a large amount of advances recovered within the year. The opening balance was *minus* Rupees 1,874–9–3 and thus the net receipts were only Rs. 25,022–2–6. It is much to be regretted that the year closes again with a *minus* balance. It will be observed, however, that liabilities amounting to nearly Rs. 3,500 pertaining to the year 1896–97 have been paid in the year under report, while there was no corresponding increase in the income. The receipts fell short of the revised estimate under some of the principal items of taxes, the explanation for which has been given under each of such items. The sanction of the council was obtained for meeting some liabilities from the deposits of the current year. By a judicious management of the arrear collections and proper control of expenditure, the deficit will be made good and a substantial improvement in the finances of the municipality shown at least before the close of the current year.

9. *Tax on Arts.*—The demand, as originally assessed by the Chairman, was Rupees 2,388 against a revised estimate of Rs. 2,600, which includes arrears amounting to Rs. 424. Rs. 326 was remitted by the council on appeal. The collections amounted to Rs. 1,432, leaving a balance of Rs. 630 at the end of the year. This heavy balance is due to the fact that assessments to the extent of Rs. 682 were made early in the month of January 1898 by my predecessor in office and a large number of appeals were presented in February and March 1898. Rs. 314 were covered by appeals which were disposed of only in May 1898. The amount adjusted after disposal of appeals, together with the amount since collected, is Rs. 223 as shown in the accompanying statement. A sum of Rs. 182 was remitted and Rs. 55 written off. Necessary steps have been taken for the realization of Rs. 170 now outstanding. Under arrears amounting to Rs. 424, Rs. 178 was collected and Rs. 139 remitted or written off, leaving a balance of Rs. 107, the progress made in the collection of which is also shown in the statement. Since the close of the year, Rs. 71 has been collected. Steps have been taken for the realization of the rest. The large amount of remission is due to the fact that the assessments under the last three classes were made newly in the year under report and on information gained at the time. There was no time for making thorough inquiries then. Some money-lenders were all classed under class VII without due regard to their income. Even if the assessees got an income below Rs. 30 per mensem, they were assessed ; but in disposing of the appeals, the provisions of the Act were properly looked into, careful inquiries made and persons who got income below Rs. 30 from any sources were exempted. The tax under the last three classes will be carefully and thoroughly revised in the current year and assessments made.

10. *Tax on Buildings.*—The demand under this head was Rs. 4,574–2–3 under current and Rs. 492–7–0 under arrears, making up a total of Rs. 5,066–9–3 against a revised estimate of Rs. 5,[illegible] The collections under current and arrears were Rs. 4,342–2–0 and Rs. 360–12–0, respectively. Rs. 15–14–3 were remitted by the council on appeal under current demand. Out of a balance of Rs. 216–2–0 under current and Rs. 67–5–6 under arrears, Rs. 117–7–8 has since been collected.

11. *Tax on Lands.*—The current demand under this head was Rs. 926–12–11, of which Rs. 172–1–0 was collected. Under arrears amounting to Rs. 942–14–9, Rs. 34–15–10 was remitted by the Chairman and Rs. 361–10–6 collected. The reason for the very poor progress made in the collection of the arrears under this head has been fully explained by me in my letter, No. 952, dated 29th March 1898, and it is therefore unnecessary to repeat it here. The disposal of the appeals with regard to the tax for 1896–97 late in the year 1897–98, *i.e.*, in February 1898, also accounts for the poor collections of the latter year. It will be observed, however, that the collections in the month of April and May 1898 are pretty satisfactory. There is much difficulty in collection, as a lump sum has been entered in the registers against a number of pattadars in a joint patta. Arrangements have been made to get the tax apportioned individual and vigorous steps have been taken to realize the balance as early as possible.

30. *Common Gymnasium—Contingencies.*—Rs. 36 represents the re[illegible] for the years for the gymnasium ground. [illegible]ections

31. *Progress of Education.*—I need hardly say anything here on this [illegible]ject the accompanying statements and report of the Assistant Inspector of Schools will be found to speak for themselves. It will be observed that there has been a great improvement over the previous year in almost every respect.

12. *Tax on Vehicles, Animals and Carts.*—The receipts under these items amounted to Rs. 3,113 against Rs. 3,019–8–0 in the previous year.

13. *Tolls.*—The collection of tolls was leased out for Rs. 9,720 which was realized within the year. The figure in Statement I is arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	9,720	0	0
Deduct amount of deposit made on account of 1897–98, but credited in 1896–97 as per G.O., No. 1040 M., dated 28th June 1895	1,620	0	0
Balance ..	8,100	0	0
Add interest paid on over-due kists	4	12	6
Add amount deposited in 1897–98 for 1898–99, but credited in 1897–98	1,622	11	9
Total ..	9,727	8	3
Deduct Local fund share	3,239	6	9
Balance ..	6,488	1	6

14. *Fees under Act II of 1888.*—The advent of dramatic and circus companies more than once in the year accounts for the Rs. 250 appearing under this head.

15. *Rent of Buildings.*—Rs. 120 is the rent recovered from the Police department for the years 1896–97 and 1897–98 on account of the police ward attached to the municipal hospital.

16. *Avenue Receipts.*—These were departmentally managed till October 1897 when they were leased out for a period of one year. As the lease amount was expected to be realized within the year under report, the income from this source was put down at Rs. 1,200 in the revised estimate. This, however, could not be done, as the preparation of the necessary registers was delayed by the councillors to whom the work had been entrusted. Hence the regular collections date from 1st April 1898, the receipts for the period during which they were departmentally managed being Rs. 402–15–1. The subsequent collections amount to Rs. 564–0–3.

17. *Conservancy Receipts.*—Owing to the absence of competition, only Rupees 101–8–0 was realized under this head against Rs. 200 of the revised estimate as well as of the previous year.

18. *Income from Markets.*—The figure entered against this head is arrived at as follows:—

	Rs.		
Lease amount for 1897–98	636		0
Deduct amount deposited for 1897–98 credited in 1896–97 ..	159	0	0
Balance ..	477	0	0
Add—			
Amount deposited for 1898–99 credited in 1897–95	172	0	0
Interest	2	6	5
Collections under arrears (Statement I)	0	5	10
Total ..	651	12	3

19. *Income from Slaughter-houses.*—This had been leased out for Rs. 470, of which Rs. 117–8–0 was credited in 1896–97—

	Rs.	A.	P.
Lease amount	470	0	0
Deduct amount credited in 1896–97	117	8	0
Balance ..	352	8	0
Add interest	2	14	1
Total ..	355	6	1
Deduct amount not collected within the year	39	2	8
Balance ..	316	3	5

As the right of collecting slaughter-house fees was not leased out for the current year for want of proper bid, the amount credited in 1896–97 has not been made up. It is being managed departmentally.

20. *Cart-stand Fees.*—No fees were collected within the year, as no stand had been provided for the purpose. The want, however, has since been supplied and it has been resolved to levy a fee of As. 2 per mensem for every jutka.

21. *Fines under Municipal and other Acts.*—The collection under this head was Rs. 172–8–0 against Rs. 50 of the revised estimate and Rs. 383–10–0 in the previous year. A copy of this office letter (enclosed) No. 99, dated 28th May 1898, to the Chairman-Bench of Magistrates, Mannárgudi, will show the grounds for the fall of receipts under this head.

22. *Grants and Contributions.*—Rs. 172–8–0 is the provincial contribution on account of the gymnastic instructor of the municipality for the year 1896–97 and for eleven months of 1897–98. Rs. 3,620 was received from the Taluk Board on account of the municipal hospital for 1896–97 and 1897–98.

23. *Private Scavenging Fees.*—The current demand under this head was Rupees 182–11–8 and the collection Rs. 60–12–2; Rs. 2–8–0 was remitted by the Chairman. Out of the balance, Rs. 17–15–7 has since been collected. Under arrears amounting to Rs. 227–1–11, a sum of Rs. 38–3–0 was written off by the council and Rupees 117–3–4 collected. Steps have been taken to adjust the balance at an early date. It has to be noted here that collections for the current quarter of the year have been in advance.

24. *Fishery Rents.*—Rs. 248–2–0 shown against this head has been arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	161	8	0
Deduct amount of deposit for 1897–98 credited in 1896–97 ..	29	0	0
Balance ..	132	8	0
Add amount of deposit for 1898–99 credited in 1897–98 ..	36	4	0
Total ..	168	12	0
Add arrear collections	79	6	0
Total ..	248	2	0

25. *Advances—vide* remarks against "Advances Recoverable" under charges.

III.—Charges.

26. *Grant 1, Repairs—Communications.*—Rs. 4,037–9–10 was spent under this head against a revised estimate of Rs. 4,500. The unspent balance represents the amount remaining to be paid for road works which were not completed and billed for within the year. The other items call for no remarks.

27. *Grant 2, Training Schools.*—Rs. 15 was paid to the inspecting school-master as extra remuneration for inspecting a sessional school in the year 1896–97.

28. *Municipal Schools—Repairs and Grants.*—The actuals exceed the revised estimate by Rs. 67–12–0, which is due to the payment of a portion of the grant for 1896–97 having been made in the year under report.

29. *Salary Grants.*—The grant for the Hindu lower secondary school for the month of February and that for the Wesleyan Mission High school for January and February were not paid within the year, and hence the variations between the actuals and the revised estimate.

30. *Common Gymnasium—Contingencies.*—Rs. 36 repre[illegible] the rent for three years for the gymnasium ground.

31. *Progress of Education.*—I need hardly say anything here on this subject as the accompanying statements and report of the Assistant Inspector of Schools will be found to speak for themselves. It will be observed that there has been a great improvement over the previous year in almost every respect.

32. *Grant 3, Hospitals and Dispensaries—Medicines and Supplies.*—The amount appearing against this head does not include the cost of European medicines supplied by Messrs. Burgoyne, Burbidges & Co., of London, a portion of which was paid within the year and treated as advance, the balance being paid in May 1898 on receipt of the necessary bill and the sanction of the council. The amount of the bill was Rs. 427–10–7.

33. *Sundries and Contingencies.*—Some of the articles of furniture indented for by the civil apothecary were not supplied within the year; hence the actual amount spent under this head was Rs. 467–12–6 against an estimate of Rs. 700. Some of the articles indented for could not be got early as the council was unable to fix their value and were trying to get articles as cheap and durable as possible. Arrangements have since been made and some of the articles have arrived and some will arrive shortly.

34. *Other Contributions.*—Rs. 300 was paid on behalf of Miss C. Dee, the female apothecary student undergoing training in the Madras Medical College for the second year of her course.

35. *Vaccination—Contingencies.*—The contribution for the Central Vaccine depot at Tanjore on account of the cost of lymph amounted only to Rs. 50–8–2 owing perhaps to the large number of failures during certain months of the year.

36. *Vital Statistics.*—Six hundred and twenty-five births and 657 deaths were registered in the year as against 639 births and 552 deaths in 1896–97. The increase under deaths is noteworthy and is due to cholera in the year, while the decrease under births is very small. The number of prosecutions instituted for failure to register births was nine and for deaths eight. There is only one birth and death registrar, but cases are also reported by the sanitary inspector and his maistries.

37. *Conservancy — Road-cleaning.* — There are 115 dust-bins in the town, the rubbish from which is removed in eleven wooden carts to three depots outside the town. The contents of cesspools, of which there are about 110, are removed in eight sewage carts, which as well as the rubbish carts are supplied by three contractors who are paid at the rate of Rs. 10 per rubbish, and Rs. 7 per sewage, cart.

38. The sanitation of the town is looked after by one certificated sanitary inspector and two maistries. Each of the rubbish and sewage carts is manned by two toties—one for driving the cart and the other for removing filth. The amount spent under this head was Rs. 4,333–10–3 against a revised estimate of Rs. 4,470. The abolition of three rubbish carts for the last two months of the year for want of funds accounts for the difference. Further particulars regarding sanitation and connected points are given in the accompanying report of the civil apothecary.

39. *Private Scavenging.*—The number of houses served by private scavenging agency was the same as in the previous year and the cost of it was Rs. 469–0–11 against Rs. 510 of the revised estimate. Out of nine toties employed for the purpose, three were removed for two months of the year; hence the decrease.

40. *Contingencies.*—During the year under report, a night-soil cart was purchased from the Védáranniyam union at a cost of Rs. 85 and two hand-carts, which were out of repair, were also repaired. The bullock for the large cart is supplied by a contractor at Rs. 6 per mensem.

41. *Cholera Charges.*—Rs. 579–2–2 were spent under this head against a revised estimate of Rs. 480 and Rs. 376–1–8 in the previous year. The increase is due to the prevalence of the disease in a rather severe form and the consequent employment
[illegible]e hands and that for a longer period than was originally contemplated. There
[illegible]85 attacks and 183 deaths from the 15th September 1897, when the dire disease
[illegible]e its appearance till about the middle of March 1898, when it finally subsided.
fi[illegible] taken to combat it are fully described by the civil apothecary in his report.
Th[illegible]

Special Sanitary Arrangements.—A major portion of the amount appearing
und[illegible] head relates to the years 1895–96 and 1896–97 and represents the adjust-
me[illegible]dvances made in those years in connection with the festival arrangements.
D[illegible]t spent for the festival of March last and shown under advances will be
[illegible]sted in the current year.

43. *Grant 4, Lighting, Markets, &c.*—The slight variations between the actuals and the revised estimates under these items call for no special remarks.

44. *Printing.*—The large increase over the revised estimate is due to the payment of Rs. 296–8–1 relating to the year 1896–97 in the year under report.

45. *Grant 5, Contributions for Central Office and Audit Establishment.*—The cost of controlling establishment for the year 1897–98 was Rs. 250, and Rs. 34 was paid on account of 1896–97. The balance represents the contribution paid on behalf of the municipal clerk in the Collector's office, Tanjore.

46. *Advances Recoverable.*—The greater portion of the amount shown against this head has been adjusted within the year, the large difference between the actuals and the revised estimate being due to the fact that payments to claimants for works done or to be done before the bills were presented or before they were sanctioned by the council have had to be treated as advances as per instructions of the auditor. Rs. 1,900 paid to the gravel contractor before the bills were finally passed and Rs. 312–3–1 to Messrs. Burgoyne, Burbidges & Co. are instances in point.

ENCLOSURE.

CONCISE Report of the Municipal Hospital, Mannárgudi, for the year 1897-98.

I. Public Health.—The public health of the town has been fair during the first half-year. In the second half-year, cholera prevailed in a severe form for a period of five months. The disease was first imported into the town on 15th September 1897 from Negapatam and spread to the attendants and neighbours of the first case. It subsided after a month, but was again imported from the adjacent villages on 12th November 1897 and continued in a sporadic form throughout the town till the middle of March. At the recommendation of the civil apothecary, a special preventive staff was appointed. The hospital assistant attached to the municipal hospital was also deputed on special cholera duty. The proper disinfection and disposal of cholera excreta and things contaminated were carried out very effectively by the special staff. Several water sources that were contaminated were recommended to be excluded from time to time from human use for a sufficiently long time. The sources of water-supply were the river, several tanks fed by it and a few wells. Three tanks and six wells were set apart for drinking purposes. The three reserved tanks were strictly watched by appointing extra watchmen to prevent contamination. There was no necessity for disinfecting any well with permanganate of potash since none was contaminated. There were 285 attacks with 102 recoveries and 183 deaths. Of these, 57 cases were treated by medical subordinates with 33 recoveries and 24 deaths. During the year the Sri Rajagopalaswami festival was held and the sanitary recommendations were fully and efficiently carried out.

II. Vital Statistics.—During the year there were 625 births—males 318 and females 307—and deaths 657 against 639 births and 552 deaths of the previous year. There were 74 deaths from fever, 183 from cholera, 32 from dysentery, 48 from diarrhœa, 1 from suicide, 8 from accidents and 2 from snake-bite and 309 from other causes.

III. Sanitation.—The sanitation of the town was fair. The conservancy staff consists of 22 sweepers on Rs. 5 per mensem with 11 dust-carts. Sixteen toties to remove sewage water with eight carts—eight on Rs. 5 each and eight on Rs. 2–8–0 each. Nine private scavenging toties with one bullock night-soil cart and two hand-carts—six on Rs. 5 each and three on Rs. 3–8–0 each. One toty on Rs. 4 to clean the slaughter-house. A qualified sanitary inspector with two maistries under him work the conservancy staff. The staff is sufficient, but the sweepers and toties are not efficient. The sweepings of private houses and the cattle excreta are stored up in the house compounds to be utilized as manure. The street-sweepings are collected in two rubbish depots and sold as manure for about Rs. 300. The sewage water taken by the tub-carts is thrown into vacant spaces far from living houses. The little night-soil that is removed from the town is buried in trenches in one of the rubbish depots. Tht water-supply of the town is from the river Pamaniar and springs in its bed, by tanks fed by it and another river Vadavar and also from some wells. Except the wells, all other sources are not satisfactory since they are liable to be contaminated. The drainage of the town is natural. All the rain water runs into the river Pamaniar. The natural drainage of house compounds is interfered with by digging hollows in them. The house drains open into house compound or the cesspools in the streets. The cesspools are too big and too many, the existing latrines cannot empty them efficiently. The insanitary condition of the slaughter-house and the fish and butcher stalls is about to be remedied shortly. Neither the long contemplated public latrine was put up nor the [illegible] Muhalla as burial-ground in the main bazaar still [illegible] closed during the year. The roads, streets and lanes are in a fairly good condition.

Regarding cesspools, orders have been received sanctioning the council's proposals to levy fees. Notices have been issued. The council will consider the advisability of increasing the staff, if necessary. It is reported that some of the cesspools have been closed.

Burial-ground.—A fresh site has been handed over. Arrangements are being made for the closure of the present burial-ground.

(Intld.) V. R.

IV. Vaccination.—Vaccination is carried on by a second-class vaccinator on Rs. 10. He has vaccinated 593 cases during the year against 656 of the previous year. Of these, 478 were

32. *Grant 3, Hospitals and Dispensaries—Medicines and Supplies.*—The amount appearing against this head does not include the cost of European medicines supplied by Messrs. Burgoyne, Burbidges & Co., of London, a portion of which was paid within the year and treated as advance, the balance being paid in May 1898 on receipt of the necessary bill and the sanction of the council. The amount of the bill was Rs. 427–10–7.

33. *Sundries and Contingencies.*—Some of the articles of furniture indented for by the civil apothecary were not supplied within the year; hence the actual amount spent under this head was Rs. 467–12–6 against an estimate of Rs. 700. Some of the articles indented for could not be got early as the council was unable to fix their value and were trying to get articles as cheap and durable as possible. Arrangements have since been made and some of the articles have arrived and some will arrive shortly.

34. *Other Contributions.*—Rs. 300 was paid on behalf of Miss C. Dee, the female apothecary student undergoing training in the Madras Medical College for the second year of her course.

35. *Vaccination—Contingencies.*—The contribution for the Central Vaccine depot at Tanjore on account of the cost of lymph amounted only to Rs. 50–8–2 owing perhaps to the large number of failures during certain months of the year.

36. *Vital Statistics.*—Six hundred and twenty-five births and 657 deaths were registered in the year as against 639 births and 552 deaths in 1896–97. The increase under deaths is noteworthy and is due to cholera in the year, while the decrease under births is very small. The number of prosecutions instituted for failure to register births was nine and for deaths eight. There is only one birth and death registrar, but cases are also reported by the sanitary inspector and his maistries.

37. *Conservancy—Road-cleaning.*—There are 115 dust-bins in the town, the rubbish from which is removed in eleven wooden carts to three depots outside the town. The contents of cesspools, of which there are about 110, are removed in eight sewage carts, which as well as the rubbish carts are supplied by three contractors who are paid at the rate of Rs. 10 per rubbish, and Rs. 7 per sewage, cart.

38. The sanitation of the town is looked after by one certificated sanitary inspector and two maistries. Each of the rubbish and sewage carts is manned by two toties—one for driving the cart and the other for removing filth. The amount spent under this head was Rs. 4,333–10–3 against a revised estimate of Rs. 4,470. The abolition of three rubbish carts for the last two months of the year for want of funds accounts for the difference. Further particulars regarding sanitation and connected points are given in the accompanying report of the civil apothecary.

39. *Private Scavenging.*—The number of houses served by private scavenging agency was the same as in the previous year and the cost of it was Rs. 469–0–11 against Rs. 510 of the revised estimate. Out of nine toties employed for the purpose, three were removed for two months of the year; hence the decrease.

40. *Contingencies.*—During the year under report, a night-soil cart was purchased from the Védáranniyam union at a cost of Rs. 85 and two hand-carts, which were out of repair, were also repaired. The bullock for the large cart is supplied by a contractor at Rs. 6 per mensem.

41. *Cholera Charges.*—Rs. 579–2–2 were spent under this head against a revised estimate of Rs. 480 and Rs. 376–1–8 in the previous year. Rs. 1,900 paid to the gravel contractor before the bills were finally passed and Rs. 312–3–1 to Messrs. Burgoyne, Burbidges & Co. are instances in point.

Enclosure.

Concise Report of the Municipal Hospital, Mannárgudi, for the year 1897-98.

I. Public Health.—The public health of the town has been fair during the first half-year. In the second half-year, cholera prevailed in a severe form for a period of five months. The disease was first imported into the town on 15th September 1897 from Negapatam and spread to the attendants and neighbours of the first case. It subsided after a month, but was again imported from the adjacent villages on 12th November 1897 and continued in a sporadic form throughout the town till the middle of March. At the recommendation of the civil apothecary, a special preventive staff was appointed. The hospital assistant attached to the municipal hospital was also deputed on special cholera duty. The proper disinfection and disposal of cholera excreta and things contaminated were carried out very effectively by the special staff. Several water sources that were contaminated were recommended to be excluded from time to time from human use for a sufficiently long time. The sources of water-supply were the river, several tanks fed by it and a few wells. Three tanks and six wells were set apart for drinking purposes. The three reserved tanks were strictly watched by appointing extra watchmen to prevent contamination. There was no necessity for disinfecting any well with permanganate of potash since none was contaminated. There were 285 attacks with 102 recoveries and 183 deaths. Of these, 57 cases were treated by medical subordinates with 33 recoveries and 24 deaths. During the year the Sri Rajagopalaswami festival was held and the sanitary recommendations were fully and efficiently carried out.

II. Vital Statistics.—During the year there were 625 births—males 318 and females 307—and deaths 657 against 639 births and 552 deaths of the previous year. There were 74 deaths from fever, 183 from cholera, 32 from dysentery, 48 from diarrhœa, 1 from suicide, 8 from accidents and 2 from snake-bite and 309 from other causes.

III. Sanitation.—The sanitation of the town was fair. The conservancy staff consists of 22 sweepers on Rs. 5 per mensem with 11 dust-carts. Sixteen toties to remove sewage water with eight carts—eight on Rs. 5 each and eight on Rs. 2–8–0 each. Nine private scavenging toties with one bullock night-soil cart and two hand-carts—six on Rs. 5 each and three on Rs. 3–8–0 each. One toty on Rs. 4 to clean the slaughter-house. A qualified sanitary inspector with two maistries under him work the conservancy staff. The staff is sufficient, but the sweepers and toties are not efficient. The sweepings of private houses and the cattle excreta are stored up in the house compounds to be utilized as manure. The street-sweepings are collected in two rubbish depots and sold as manure for about Rs. 300. The sewage water taken by the tub-carts is thrown into vacant spaces far from living houses. The little night-soil that is removed from the town is buried in trenches in one of the rubbish depots. Tht water-supply of the town is from the river Pamaniar and springs in its bed, by tanks fed by it and another river Vadavar and also from some wells. Except the wells, all other sources are not satisfactory since they are liable to be contaminated. The drainage of the town is natural. All the rain water runs into the river Pamaniar. The natural drainage of house compounds is interfered with by digging hollows in them. The house drains open into house compoun... or the cesspools in the streets. The ces... too big and too many, the existin... cannot empty them efficiently. The ins...ary condition of the slaughter-house [an]... fish and butcher stalls is about to b... sho...y. Neither the long conte... put up nor the ... burial-ground in ... main bazaar ... closed during the year. The roads, streets and lanes are in a fairly good condition.

Regarding cesspools, orders have been received sanctioning the council's proposals to levy fees. Notices have been issued. The council will consider the advisability of increasing the staff, if necessary. It is reported that some of the cesspools have been closed.

Burial-ground.—A fresh site has been handed over. Arrangements are being made for the closure of the present burial-ground.

(Intld.) V. R.

IV. Vaccination.—Vaccination is carried on by a second-class vaccinator on Rs. 10. He has vaccinated 593 cases during the year against 656 of the previous year. Of these, 478 were

successful, 122 unsuccessful and 6 unknown. The civil apothecary has vaccinated thirteen cases, of which two were successful, ten unsuccessful and one unknown. Out of the total of 628 cases, 415 were under one year of age against 552 of the previous year. The lymph used throughout the year was glycerine paste supplied from the Tanjore depot. Its quality was bad occasionally, and hence the large number of failures.

V. Hospitals and Dispensaries.—(*a*) There are two large and spacious wards for accommodating fifteen male and ten female patients and one contagious diseases ward with four beds.

Estimates have been called for.
(Intld.) V. R.

(*b*) The contagious diseases ward requires renewal of flooring. The dispensary and the wards, &c., have been whitewashed during the year.

(*c*) The existing furniture is in good condition.

(*d*) The hospital was inspected during the year once by the District Medical and Sanitary Officer and thrice by the District Collector. Their recommendations were: the repairing and whitewashing of buildings; the supplying of furniture and bedding and clothing and the construction of a proper *operation room*. The local authorities have whitewashed the buildings, supplied the bedding and clothing and are supplying furniture.

Estimate has been called for.
(Intld.) V. R.

(*e*) Only As. 14 have been recovered for dieting patients, since all the patients that were able to pay for their diets dieted themselves—

Year.	Number of in-patients.	Daily average of in-patients.	Number of out-patients.	Daily average of out-patients.
1894-95	430	18·88	16,674	84·52
1895-96	490	22·56	16,798	84·79
1896-97	415	20·05	18,285	93·63
1897-98	461	22·29	16,993	88·94

(*f*) There has been an increase in the admissions and average
Under out-patients there was a fall of over 1,000 due to non-preve certificated sanitary in-
extent as in the previous years. There were 202 self-dieted pa carts is manned by two
160 of the previous year.

(*g*) *Mortality.*—There have be 33-10-3 against a revised estimate of Rs. 4,470.
Two were cases on carts for the last two months of the year for want
One of ruptur difference. Further particulars regarding sanitation and
One of fra ven in the accompanying report of the civil apothecary.
Two of

(*h*) Total nu *enging.*—The number of houses served by private scavenging
me as in the previous year and the cost of it was Rs. 469-0-11
Cured of the revised estimate. Out of nine toties employed for the purpose,

ontingencies.—During the year under report, a night-soil cart was purchased
Védáranniyam union at a cost of Rs. 85 and two hand-carts, which were out of
were also repaired. The bullock for the large cart is supplied by a contractor
cure 6 per mensem.

41. *Cholera Charges.*—Rs. 579-2-2 were spent under this head against a revised
imate of Rs. 480 and Rs. 376-1-8 in the previous year. The increase is due to
e prevalence of the disease in a rather severe form and the consequent employment
e hands and that for a longer period than was originally contemplated. There
85 attacks and 183 deaths from the 15th September 1897, when the dire disease
e its appearance till about the middle of March 1898, when it finally subsided.
aken to combat it are fully described by the civil apothecary in his report.

Special Sanitary Arrangements.—A major portion of the amount appearing
head relates to the years 1895-96 and 1896-97 and represents the adjust-
me dvances made in those years in connection with the festival arrangements.
D t spent for the festival of March last and shown under advances will be
isted in the current year.

43. *Grant 4, Lighting, Markets, &c.*—The slight variations between the actuals and the revised estimates under these items call for no special remarks.

Endt. on Cur. No. 1170-L.

Submitted.

2. The taxation under the principal heads requires thorough revision. Registers have to be prepared newly with sufficient information to enable speedy collection. If this is done, and the funds are managed judiciously, the state of this municipality will improve.

3. The roads are in fair order all through the town.

MANNÁRGUDI,
17*th June* 1898.

(Signed) V. RAMACHANDRA ROW,
Acting Deputy Collector.

Endt. on C. No. 355-Ml.

Submitted.

2. During the four months, the Divisional-officers were in charge, some improvement was effected, especially in collections, but the state of vaccination and registration was worse than ever. Such improvement as has been made will be of little use unless the newly-elected Chairman shows himself capable of extending it, and carrying out the radical reforms which are necessary in all departments of the administration.

3. If the Chairman in his first six months of office does not show himself equal to the task, it will be necessary to recommend the appointment of a Secretary.

28*th June* 1898.

(Signed) J. TWIGG,
Ag. Collector.

ORDER—No. 1382 M., dated 4th August 1898.

The receipts and charges of the Mannárgudi Municipality for 1897-98 are compared below with the budget and revised estimates for the year and the actuals of 1896-97:—

	Actuals, 1896-97.	Budget estimate, 1897-98.	Revised estimate, 1897-98.	Actuals, 1897-98.
	Rs.	Rs.	Rs.	Rs.
			— 1,870	— 1,875
			2,600	1,610
			6,500	5,237
			1,750	1,538
			1,710	1,675
			6,480	6,488
				250

II. Vital Statistics.—During the year there were 625 b and deaths 657 against 639 births and 552 deaths of the previou from fever, 183 from cholera, 32 from dysentery, 48 from diarrh accidents and 2 from snake-bite and 309 from other causes.

III. Sanitation.—The sanitation of the town was fair. The conservan sweepers on Rs. 5 per mensem with 11 dust-carts. Sixteen toties to remov eight carts—eight on Rs. 5 each and eight on Rs. 2-8-0 each. Nine private scav one bullock night-soil cart and two hand-carts—six on Rs. 5 each and three on Rs. 3- toty on Rs. 4 to clean the slaughter-house. A qualified sanitary inspector with two ma him work the conservancy staff. The staff is sufficient, but the sweepers and toties are n The sweepings of private houses and the cattle excreta are stored up in the house com to be utilized as manure. The street-sweepings are collected in two rubbish depots and s manure for about Rs. 300. The sewage water taken by the tub-carts is thrown into va spaces far from living houses. The little night-soil that is removed from the to is buri trenches in one of the rubbish depots. The water-supply of the town is from the P and springs in its bed, by tanks fed by it and another river Vadavar and al rom me wells Except the wells, all other sources are no atisfactory since they are liable contaminated. The drainage of the town is natural. All rain water runs into the ri maniar. The natural drainage of house compounds is interfered with by digging holl m. The house drains open into hous s or into cess-pools in the streets. ools the too big and too many, th cannot empty them e ary condition of the s the fish and butcher stalls is edied sho Neither the long on latrin put up nor the Muhamm burial-ground ar stree closed during the year. The roads, streets and lanes are in a fairly go

Regarding cesspools, orders have been received sanctioning the council's proposals to levy fees. Notices have been issued. The council will consider the advisability of increasing the staff, if necessary. It is reported that some of the cesspools have been closed.

Burial-ground.—A fresh site has been handed over. Arrangements are being made for the closure of the present burial-ground.

(Intld.) V. R.

IV. Vaccination.—Vaccination is carried on by a second-class vaccinator 10. He has vaccinated 593 cases during the year against 656 of the previous year. Of these, 478 were

successful, 122 unsuccessful and 6 unknown. The civil apothecary has vaccinated thirteen cases, of which two were successful, ten unsuccessful and one unknown. Out of the total of 628 cases, 415 were under one year of age against 552 of the previous year. The lymph used throughout the year was glycerine paste supplied from the Tanjore depot. Its quality was bad occasionally, and hence the large number of failures.

V. Hospitals and Dispensaries.—(*a*) There are two large and spacious wards for accommodating fifteen male and ten female patients and one contagious diseases ward with four beds.

Estimates have been called for.
(Intld.) V. R.

(*b*) The contagious diseases ward requires renewal of flooring. The dispensary and the wards, &c., have been whitewashed during the year.

(*c*) The existing furniture is in good condition.

(*d*) The hospital was inspected during the year once by the District Medical and Sanitary Officer and thrice by the District Collector. Their recommendations were: the repairing and whitewashing of buildings; the supplying of furniture and bedding and clothing and the construction of a proper *operation room*. The local authorities have whitewashed the buildings, supplied the bedding and clothing and are supplying furniture.

Estimate has been called for.
(Intld.) V. R.

(*e*) Only As. 14 have been recovered for dieting patients, since all the patients that were able to pay for their diets dieted themselves—

Year.	Number of in-patients.	Daily average of in-patients.	Number of out-patients.	Daily average of out-patients.
1894-95	430	18·88	16,674	84·52
1895-96	490	22·56	16,798	84·79
1896-97	415	20·05	18,285	93·63
1897-98	461	22·29	16,993	88·94

(*f*) There has been an increase in the admissions and average daily attendance of in-patients. Under out-patients there was a fall of over 1,000 due to non-prevalence of sore eyes to the same extent as in the previous years. There were 202 self-dieted patients during the year against 160 of the previous year.

(*g*) *Mortality.*—There have been ten deaths in hospital during the year; of these—

Two were cases of enteritis.	One of nephritis.
One of rupture of bowels.	One of paralysis.
One of fracture of skull.	One of cirrhosis of liver.
Two of anæmia.	One of idiopathic tetanus.

(*h*) Total number of operations performed during the year 1,463—

Cured	1,325
Relieved	53
Discharged otherwise	58
Died	1
Remaining	26

The chief classes of operations were removal of elephantoid scrotum, operations for radical cure for hernia and hydroceles, and removal of tumours, &c.

4. (*i*) The establishment is sufficient and efficient.

(*j*) There is one midwife employed in the hospital. Her name is Aiyakutti. She is a [illegible] by caste. She was trained in this hospital and entertained on 29th July 1881. [illegible] a pay of Rs. 8 per mensem and an allowance of As. 8 for every case over the minimum [illegible] in the month. She is efficient and popular in the town. Balance	— 1,875	570	920	— 2,038

2. The number of meetings held by the municipal council was 31 against 39 in the previous year, and four others were adjourned for want of a quorum against eleven in that year. There was an improvement in the average attendance of non-official members, which was fair; but that of officials, though better than in the previous year, was still indifferent. The Collector will again call the attention of the latter to G.O., No. 859 M., dated 10th April 1897. Six seats were filled by election during the year, and all of them were contested, 41·6 per cent. of the registered voters attending the poll.

3. *Receipts.*—(1) The tax on arts having been extended to the last three classes of the schedule during the year, the demand, as originally assessed by the chairman, rose from Rs. 2,096 to Rs. 2,388, notwithstanding the revision of schedule A annexed to the District Municipalities Act, which has caused a large decline in other cases; but as much as 13·7 per cent. of this amount was again remitted by the municipal council on appeal. Notwithstanding the reason given in paragraph 9 of the chairman's report, it would seem that there must have been undue leniency in admitting appeals. The net current demand under this head therefore showed an increase of only Rs. 279. The result of the revision of the last three classes of the schedule, which it is proposed to undertake in the current year, should be reported to Government as soon as it is completed. The rate of the taxes on buildings and lands was raised from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. of the annual value, and the net current demand under these heads increased by Rs. 507 and Rs. 68 respectively.

(2) Owing to delay on the part of the late chairman in making assessments, the current collections under the tax on arts declined and were poor. Under the tax on buildings, however, they improved and were good, while those under the land-tax, though better than in the previous year, were still very discreditable. The arrear realizations, which showed an improvement under the last two heads, were still not satisfactory. From the chairman's report it appears that steps have already been taken to realize the outstanding balances; but no material improvement can be

expected in this direction unless the chairman takes a special interest in the matter. In this connection his attention is drawn to the remarks of the Deputy Collector in paragraph 2 of his endorsement and those of the Collector in paragraphs 2 and 3 of his endorsement. With reference to paragraph 3 of his endorsement, the Collector is requested to submit a report showing the progress made in the collection of taxes in the first six months of office of the newly-elected chairman.

(3) There was a large increase in the number of warrants issued during the year; but execution was not prompt.

(4) There was an increase in the receipts under tolls, realizations under special Acts, license and other fees, contributions from local boards, fishery rents and advances recovered, but a decline under conservancy receipts, slaughter-house fees and fines, and in some cases these variations have not been explained in the chairman's letter.

(5) Notwithstanding the remarks of Government in paragraph 3 (5) of G.O., No. 2492 M., dated 12th November 1897, the number of houses served by the private scavenging agency was only 312, or one less than in the previous year, and the service was worked at a loss of Rs. 448 to the municipal council against Rs. 249 in that year. This is very unsatisfactory and requires explanation, which should be submitted through the Collector. Meanwhile the municipal council should take the matter vigorously in hand and prosecute without hesitation the occupiers of all insanitary premises.

4. *Expenditure*—(1) *Public Works.*—No new work was undertaken during the year. The total outlay on communications amounted to Rs. 4,037, or 62·3 per cent. of the net municipal income from tolls, and the roads are reported by the Revenue Divisional Officer to have been maintained in fair order.

(2) *Education.*—The net expenditure on education amounted to Rs. 2,590, or 15·7 per cent. of the receipts from taxation. Of this sum, Rs. 1,886 were spent on primary, and the remainder on secondary, education. The municipal council continued to maintain two primary schools on the salary result system and a sessional school for the training of teachers conducted by the inspecting schoolmaster. No information has been furnished in the chairman's report regarding the working of this institution, an omission which should not recur. The attendance at the Panchama school remained almost stationary, but at the other municipal school it declined. Both these schools, however, appear to have done well at the departmental examinations. The council also aided two secondary schools with salary grants against one in the previous year and twelve primary schools with result grants as in that year. Owing to the increase in the number of aided schools, the attendance at these institutions showed an improvement. The results of the grant examinations continued to be good, and the allotment for grants was exceeded by more than 9 per cent. The total number of boys under instruction in the municipal and aided schools rose from 1,016 to 1,085, or 74·5 per cent. of the male population of school-going age.

(3) *Medical Relief.*—The number of in-patients treated at the municipal hospital was 461, or 46 more than in the previous year, but that of out-patients fell from 18,285 to 16,993, the large decrease being attributed by the civil apothecary to the less prevalence of sore-eyes. This explanation cannot be accepted. The midwife attached to the municipal hospital attended 239 cases of labour against 231 in 1896–97.

(4) *Vaccination and Vital Statistics.*—The total number of vaccine operations performed during the year fell from 730 to 606, and the quality of the work greatly deteriorated, the percentage of reported success being 79·2 against 87·7 in the previous year, the decline being attributed to the inferiority of the lymph obtained from Tanjore. Infantile vaccination also showed much retrogression, the total number of children under one year successfully vaccinated being 373 or 18·5 per mille of the population against 24·6 per mille in 1896–97 and a registered birth-rate of 30·6 per mille. These unsatisfactory results, which indicate want of supervision on the part of the municipal council, reflect discredit on those concerned.

The number of deaths registered during the year rose from 552 to 657, while that of births fell, being 625 against 639 in the previous year. The returns in the latter case cannot be regarded as accurate, the rate recorded being much below the normal.

(5) *Sanitation.*—The outlay under this head amounted to Rs. 5,878 or 21·9 per cent. of the current receipts against 25·3 per cent. in 1896–97. From paragraph III of the medical report, it appears that some attention was paid to the general sanitation of the town; but much remains to be done before the defects pointed out by the Deputy Sanitary Commissioner in his last inspection notes can be remedied.

5. *General remarks.*—The year again closed with a deficit of Rs. 2,038 instead of a balance of Rs. 570 anticipated in the budget, the large decrease being due to short collections under the principal taxes.

There was some improvement in one or two branches, but on the whole the administration of the municipality during the year under review left much to be desired and cannot be regarded as efficient.

6. The tabular statement, the causes of deaths among in-patients and the particulars regarding the operations performed during the year, given in the medical report, are unnecessary and should be omitted in future reports.

Administration Report.

Reviewing the — of the Mannárgudi Municipal Council for 1897–98.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. V. RAMACHANDRA RAO Avargal, Deputy Collector in charge of the Municipal Office, Mannárgudi, to the Secretary to Government, Local and Municipal Department, dated 5th June 1898, No. 125.

I have the honour to submit my report on the administration of this municipality for the year 1897-98, together with the following enclosures :—

(1) Statement of receipts and charges.

(2) Concise report of the civil apothecary on the sanitation of the town and the working of the municipal hospital.

(3) Assistant Inspector's statements and report on education.

(4) Extract from the proceedings of the Municipal Council, Mannárgudi, dated 10th June 1898, in which the report was discussed and passed.

2. The budget and the revised estimates were passed by Government in its Orders, No. 648 M., dated 22nd March 1897, and No. 560 M., dated 12th March 1898, respectively.

3. The accounts of the year under report have not yet been audited.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

4. *Municipal Board.*—The maximum strength of the council is sixteen including one *ex-officio* councillor ; of these, four are nominated and twelve elected.

5. *Nominations and Elections to the Council.*—Six vacancies occurred among the elected seats and all of them were filled up within the year. Among the nominated seats, three became vacant, of which two were filled up within the year.

6. *Office of Chairman.*—The office of Chairman was held by M.R.Ry. M. R. Sreenivasa Rao Avargal till 19th November 1897, when his term of office expired. M.R.Ry. T. V. Srinivasa Aiyar Avargal, the then Deputy Collector of Mannárgudi, took charge of the office on 20th November 1897 and continued to hold it till 10th January 1898, when it passed into my hands.

7. *Meetings of the Council.*—Thirty-five meetings were convened during the year, of which four were adjourned for want of quorum. Ordinary meetings used to be held on the 2nd and 4th Saturdays of every month, but subsequently the day of the meeting was altered into Friday to suit the convenience of the late Chairman. Special meetings were held as often as was found necessary. The elective system is in force in this municipality and there were 305 voters registered at the close of the year.

II.—RECEIPTS.

8. The total receipts of the year amounted to Rs. 26,896-11-9 against Rupees 27,650 of the revised estimate and Rs. 19,219-15-11 in the previous year. The large increase over the actuals of 1896-97 is due to the increased receipts under several of the items as per Statement No. I and to the adjustment of a large amount of advances recovered within the year. The opening balance was *minus* Rupees 1,874-9-3 and thus the net receipts were only Rs. 25,022-2-6. It is much to be regretted that the year closes again with a *minus* balance. It will be observed, however, that liabilities amounting to nearly Rs. 3,500 pertaining to the year 1896-97 have been paid in the year under report, while there was no corresponding increase in the income. The receipts fell short of the revised estimate under some of the principal items of taxes, the explanation for which has been given under each of such items. The sanction of the council was obtained for meeting some liabilities from the deposits of the current year. By a judicious management of the arrear collections and proper control of expenditure, the deficit will be made good and a substantial improvement in the finances of the municipality shown at least before the close of the current year.

9. *Tax on Arts.*—The demand, as originally assessed by the Chairman, was Rupees 2,388 against a revised estimate of Rs. 2,600, which includes arrears amounting to Rs. 424. Rs. 326 was remitted by the council on appeal. The collections amounted to Rs. 1,432, leaving a balance of Rs. 630 at the end of the year. This heavy balance is due to the fact that assessments to the extent of Rs. 682 were made early in the month of January 1898 by my predecessor in office and a large number of appeals were presented in February and March 1898. Rs. 314 were covered by appeals which were disposed of only in May 1898. The amount adjusted after disposal of appeals, together with the amount since collected, is Rs. 223 as shown in the accompanying statement. A sum of Rs. 182 was remitted and Rs. 55 written off. Necessary steps have been taken for the realization of Rs. 170 now outstanding. Under arrears amounting to Rs. 424, Rs. 178 was collected and Rs. 139 remitted or written off, leaving a balance of Rs. 107, the progress made in the collection of which is also shown in the statement. Since the close of the year, Rs. 71 has been collected. Steps have been taken for the realization of the rest. The large amount of remission is due to the fact that the assessments under the last three classes were made newly in the year under report and on information gained at the time. There was no time for making thorough inquiries then. Some money-lenders were all classed under class VII without due regard to their income. Even if the assessees got an income below Rs. 30 per mensem, they were assessed ; but in disposing of the appeals, the provisions of the Act were properly looked into, careful inquiries made and persons who got income below Rs. 30 from any sources were exempted. The tax under the last three classes will be carefully and thoroughly revised in the current year and assessments made.

10. *Tax on Buildings.*—The demand under this head was Rs. 4,574-2-3 under current and Rs. 492-7-0 under arrears, making up a total of Rs. 5,066-9-3 against a revised estimate of Rs. 5,100. The collections under current and arrears were Rs. 4,342-2-0 and Rs. 360-12-9, respectively. Rs. 15-14-3 were remitted by the council on appeal under current demand. Out of a balance of Rs. 216-2-0 under current and Rs. 67-5-6 under arrears, Rs. 117-7-8 has since been collected.

11. *Tax on Lands.*—The current demand under this head was Rs. 926-12-11, of which Rs. 172-1-0 was collected. Under arrears amounting to Rs. 942-14-9, Rs. 34-15-10 was remitted by the Chairman and Rs. 361-10-6 collected. The reason for the very poor progress made in the collection of the arrears under this head has been fully explained by me in my letter, No. 952, dated 29th March 1898, and it is therefore unnecessary to repeat it here. The disposal of the appeals with regard to the tax for 1896-97 late in the year 1897-98, *i.e.*, in February 1898, also accounts for the poor collections of the latter year. It will be observed, however, that the collections in the month of April and May 1898 are pretty satisfactory. There is much difficulty in collection, as a lump sum has been entered in the registers against a number of pattadars in a joint patta. Arrangements have been made to get the tax apportioned individual and vigorous steps have been taken to realize the balance as early as possible.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. V. RAMACHANDRA RAO Avargal, Deputy Collector in charge of the Municipal Office, Mannárgudi, to the Secretary to Government, Local and Municipal Department, dated 5th June 1898, No. 125.

I have the honour to submit my report on the administration of this municipality for the year 1897–98, together with the following enclosures :—

(1) Statement of receipts and charges.

(2) Concise report of the civil apothecary on the sanitation of the town and the working of the municipal hospital.

(3) Assistant Inspector's statements and report on education.

(4) Extract from the proceedings of the Municipal Council, Mannárgudi, dated 10th June 1898, in which the report was discussed and passed.

2. The budget and the revised estimates were passed by Government in its Orders, No. 648 M., dated 22nd March 1897, and No. 560 M., dated 12th March 1898, respectively.

3. The accounts of the year under report have not yet been audited.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

4. *Municipal Board.*—The maximum strength of the council is sixteen including one *ex-officio* councillor ; of these, four are nominated and twelve elected.

5. *Nominations and Elections to the Council.*—Six vacancies occurred among the elected seats and all of them were filled up within the year. Among the nominated seats, three became vacant, of which two were filled up within the year.

6. *Office of Chairman.*—The office of Chairman was held by M.R.Ry. M. R. Sreenivasa Rao Avargal till 19th November 1897, when his term of office expired. M.R.Ry. T. V. Srinivasa Aiyar Avargal, the then Deputy Collector of Mannárgudi, took charge of the office on 20th November 1897 and continued to hold it till 10th January 1898, when it passed into my hands.

7. *Meetings of the Council.*—Thirty-five meetings were convened during the year, of which four were adjourned for want of quorum. Ordinary meetings used to be held on the 2nd and 4th Saturdays of every month, but subsequently the day of the meeting was altered into Friday to suit the convenience of the late Chairman. Special meetings were held as often as was found necessary. The elective system is in force in this municipality and there were 305 voters registered at the close of the year.

II.—RECEIPTS.

8. The total receipts of the year amounted to Rs. 26,896–11–9 against Rupees 27,650 of the revised estimate and Rs. 19,219–15–11 in the previous year. The large increase over the actuals of 1896–97 is due to the increased receipts under several of the items as per Statement No. I and to the adjustment of a large amount of advances recovered within the year. The opening balance was *minus* Rupees 1,874–9–3 and thus the net receipts were only Rs. 25,022–2–6. It is much to be regretted that the year closes again with a *minus* balance. It will be observed, however, that liabilities amounting to nearly Rs. 3,500 pertaining to the year 1896–97 have been paid in the year under report, while there was no corresponding increase in the income. The receipts fell short of the revised estimate under some of the principal items of taxes, the explanation for which has been given under each of such items. The sanction of the council was obtained for meeting some liabilities from the deposits of the current year. By a judicious management of the arrear collections and proper control of expenditure, the deficit will be made good and a substantial improvement in the finances of the municipality shown at least before the close of the current year.

9. *Tax on Arts.*—The demand, as originally assessed by the Chairman, was Rupees 2,388 against a revised estimate of Rs. 2,600, which includes arrears amounting to Rs. 424. Rs. 326 was remitted by the council on appeal. The collections amounted to Rs. 1,432, leaving a balance of Rs. 630 at the end of the year. This heavy balance is due to the fact that assessments to the extent of Rs. 682 were made early in the month of January 1898 by my predecessor in office and a large number of appeals were presented in February and March 1898. Rs. 314 were covered by appeals which were disposed of only in May 1898. The amount adjusted after disposal of appeals, together with the amount since collected, is Rs. 223 as shown in the accompanying statement. A sum of Rs. 182 was remitted and Rs. 55 written off. Necessary steps have been taken for the realization of Rs. 170 now outstanding. Under arrears amounting to Rs. 424, Rs. 178 was collected and Rs. 139 remitted or written off, leaving a balance of Rs. 107, the progress made in the collection of which is also shown in the statement. Since the close of the year, Rs. 71 has been collected. Steps have been taken for the realization of the rest. The large amount of remission is due to the fact that the assessments under the last three classes were made newly in the year under report and on information gained at the time. There was no time for making thorough inquiries then. Some money-lenders were all classed under class VII without due regard to their income. Even if the assessees got an income below Rs. 30 per mensem, they were assessed ; but in disposing of the appeals, the provisions of the Act were properly looked into, careful inquiries made and persons who got income below Rs. 30 from any sources were exempted. The tax under the last three classes will be carefully and thoroughly revised in the current year and assessments made.

10. *Tax on Buildings.*—The demand under this head was Rs. 4,574–2–3 under current and Rs. 492–7–0 under arrears, making up a total of Rs. 5,066–9–3 against a revised estimate of Rs. 5,100. The collections under current and arrears were Rs. 4,342–2–0 and Rs. 360–12–9, respectively. Rs. 15–14–3 were remitted by the council on appeal under current demand. Out of a balance of Rs. 216–2–0 under current and Rs. 67–5–6 under arrears, Rs. 117–7–8 has since been collected.

11. *Tax on Lands.*—The current demand under this head was Rs. 926–12–11, of which Rs. 172–1–0 was collected. Under arrears amounting to Rs. 942–14–9, Rs. 34–15–10 was remitted by the Chairman and Rs. 361–10–6 collected. The reason for the very poor progress made in the collection of the arrears under this head has been fully explained by me in my letter, No. 952, dated 29th March 1898, and it is therefore unnecessary to repeat it here. The disposal of the appeals with regard to the tax for 1896–97 late in the year 1897–98, *i.e.*, in February 1898, also accounts for the poor collections of the latter year. It will be observed, however, that the collections in the month of April and May 1898 are pretty satisfactory. There is much difficulty in collection, as a lump sum has been entered in the registers against a number of pattadars in a joint patta. Arrangements have been made to get the tax apportioned individual and vigorous steps have been taken to realize the balance as early as possible.

12. *Tax on Vehicles, Animals and Carts.*—The receipts under these items amounted to Rs. 3,113 against Rs. 3,019–8–0 in the previous year.

13. *Tolls.*—The collection of tolls was leased out for Rs. 9,720 which was realized within the year. The figure in Statement I is arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	9,720	0	0
Deduct amount of deposit made on account of 1897–98, but credited in 1896–97 as per G.O., No. 1040 M., dated 28th June 1895	1,620	0	0
Balance ..	8,100	0	0
Add interest paid on over-due kists	4	12	6
Add amount deposited in 1897–98 for 1898–99, but credited in 1897–98	1,622	11	9
Total ..	9,727	8	3
Deduct Local fund share	3,239	6	9
Balance ..	6,488	1	6

14. *Fees under Act II of 1888.*—The advent of dramatic and circus companies more than once in the year accounts for the Rs. 250 appearing under this head.

15. *Rent of Buildings.*—Rs. 120 is the rent recovered from the Police department for the years 1896–97 and 1897–98 on account of the police ward attached to the municipal hospital.

16. *Avenue Receipts.*—These were departmentally managed till October 1897 when they were leased out for a period of one year. As the lease amount was expected to be realized within the year under report, the income from this source was put down at Rs. 1,200 in the revised estimate. This, however, could not be done, as the preparation of the necessary registers was delayed by the councillors to whom the work had been entrusted. Hence the regular collections date from 1st April 1898, the receipts for the period during which they were departmentally managed being Rs. 402–15–1. The subsequent collections amount to Rs. 564–0–3.

17. *Conservancy Receipts.*—Owing to the absence of competition, only Rupees 101–8–0 was realized under this head against Rs. 200 of the revised estimate as well as of the previous year.

18. *Income from Markets.*—The figure entered against this head is arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	636	0	0
Deduct amount deposited for 1897–98 credited in 1896–97 ..	159	0	0
Balance ..	477	0	0
Add—			
Amount deposited for 1898–99 credited in 1897–98	172	0	0
Interest	2	6	5
Collections under arrears (Statement I)	0	5	10
Total ..	651	12	3

19. *Income from Slaughter-houses.*—This had been leased out for Rs. 470, of which Rs. 117–8–0 was credited in 1896–97—

	Rs.	A.	P.
Lease amount	470	0	0
Deduct amount credited in 1896–97	117	8	0
Balance ..	352	8	0
Add interest	2	14	1
Total ..	355	6	1
Deduct amount not collected within the year	39	2	8
Balance ..	316	3	5

As the right of collecting slaughter-house fees was not leased out for the current year for want of proper bid, the amount credited in 1896–97 has not been made up. It is being managed departmentally.

20. *Cart-stand Fees.*—No fees were collected within the year, as no stand had been provided for the purpose. The want, however, has since been supplied and it has been resolved to levy a fee of As. 2 per mensem for every jutka.

21. *Fines under Municipal and other Acts.*—The collection under this head was Rs. 172–8–0 against Rs. 50 of the revised estimate and Rs. 383–10–0 in the previous year. A copy of this office letter (enclosed) No. 99, dated 28th May 1898, to the Chairman-Bench of Magistrates, Mannárgudi, will show the grounds for the fall of receipts under this head.

22. *Grants and Contributions.*—Rs. 172–8–0 is the provincial contribution on account of the gymnastic instructor of the municipality for the year 1896–97 and for eleven months of 1897–98. Rs. 3,620 was received from the Taluk Board on account of the municipal hospital for 1896–97 and 1897–98.

23. *Private Scavenging Fees.*—The current demand under this head was Rupees 182–11–8 and the collection Rs. 60–12–2; Rs. 2–8–0 was remitted by the Chairman. Out of the balance, Rs. 17–15–7 has since been collected. Under arrears amounting to Rs. 227–1–11, a sum of Rs. 38–3–0 was written off by the council and Rupees 117–3–4 collected. Steps have been taken to adjust the balance at an early date. It has to be noted here that collections for the current quarter of the year have been in advance.

24. *Fishery Rents.*—Rs. 248–2–0 shown against this head has been arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	161	8	0
Deduct amount of deposit for 1897–98 credited in 1896–97 ..	29	0	0
Balance ..	132	8	0
Add amount of deposit for 1898–99 credited in 1897–98 ..	36	4	0
Total ..	168	12	0
Add arrear collections	79	6	0
Total ..	248	2	0

25. *Advances—vide* remarks against "Advances Recoverable" under charges.

III.—CHARGES.

26. *Grant 1, Repairs—Communications.*—Rs. 4,037–9–10 was spent under this head against a revised estimate of Rs. 4,500. The unspent balance represents the amount remaining to be paid for road works which were not completed and billed for within the year. The other items call for no remarks.

27. *Grant 2, Training Schools.*—Rs. 15 was paid to the inspecting school-master as extra remuneration for conducting a sessional school in the year 1896–97.

28. *Municipal Schools—Result Grants.*—The actuals exceed the revised estimate by Rs. 67–12–0, which is due to the payment of a portion of the grant for 1896–97 having been made in the year under report.

29. *Salary Grants.*—The grant for the Hindu lower secondary school for the month of February and that for the Wesleyan Mission High school for January and February were not paid within the year, and hence the variations between the actuals and the revised estimate.

30. *Common Gymnasium—Contingencies.*—Rs. 36 represents the rent for three years for the gymnasium ground.

31. *Progress of Education.*—I need hardly say anything here on this subject as the accompanying statements and report of the Assistant Inspector of Schools will be found to speak for themselves. It will be observed that there has been a great improvement over the previous year in almost every respect.

12. *Tax on Vehicles, Animals and Carts.*—The receipts under these items amounted to Rs. 3,113 against Rs. 3,019–8–0 in the previous year.

13. *Tolls.*—The collection of tolls was leased out for Rs. 9,720 which was realized within the year. The figure in Statement I is arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	9,720	0	0
Deduct amount of deposit made on account of 1897–98, but credited in 1896–97 as per G.O., No. 1040 M., dated 28th June 1895	1,620	0	0
Balance ..	8,100	0	0
Add interest paid on over-due kists	4	12	6
Add amount deposited in 1897–98 for 1898–99, but credited in 1897–98	1,622	11	9
Total ..	9,727	8	3
Deduct Local fund share	3,239	6	9
Balance ..	6,488	1	6

14. *Fees under Act II of 1888.*—The advent of dramatic and circus companies more than once in the year accounts for the Rs. 250 appearing under this head.

15. *Rent of Buildings.*—Rs. 120 is the rent recovered from the Police department for the years 1896–97 and 1897–98 on account of the police ward attached to the municipal hospital.

16. *Avenue Receipts.*—These were departmentally managed till October 1897 when they were leased out for a period of one year. As the lease amount was expected to be realized within the year under report, the income from this source was put down at Rs. 1,200 in the revised estimate. 23. *Private Scavenging Fees.*—The current demand under this head was Rupees 182–11–8 and the collection Rs. 60–12–2; Rs. 2–8–0 was remitted by the Chairman. Out of the balance, Rs. 17–15–7 has since been collected. Under arrears amounting to Rs. 227–1–11, a sum of Rs. 38–3–0 was written off by the council and Rupees 117–3–4 collected. Steps have been taken to adjust the balance at an early date. It has to be noted here that collections for the current quarter of the year have been in advance.

24. *Fishery Rents.*—Rs. 248–2–0 shown against this head has been arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	161	8	0
Deduct amount of deposit for 1897–98 credited in 1896–97 ..	29	0	0
Balance ..	132	8	0
Add amount of deposit for 1898–99 credited in 1897–98 ..	36	4	0
Total ..	168	12	0
Add arrear collections	79	6	0
Total ..	248	2	0

25. *Advances—vide* remarks against "Advances Recoverable" under charges.

III.—Charges.

26. *Grant 1, Repairs—Communications.*—Rs. 4,037–9–10 was spent under this head against a revised estimate of Rs. 4,500. The unspent balance represents the amount remaining to be paid for road works which were not completed and billed for within the year. The other items call for no remarks.

27. *Grant 2, Training Schools.*—Rs. 15 was paid to the inspecting school-master as extra remuneration for conducting a sessional school in the year 1896–97.

28. *Municipal Schools—Result Grants.*—The actuals exceed the revised estimate by Rs. 67–12–0, which is due t[illegible]ne payment of a portion of the grant for 1896–97 having been made in the year under report.

29. *Salary Grants.*—The grant for the Hindu lower secondary school for the month of February and that for the Wesleyan Mission High school for January and February were not paid within the year, and hence the variations between the actuals and the revised estimate.

30. *Common Gymnasium—Contingencies.*—Rs. 36 represents the rent for thre years for the gymnasium ground.

31. *Progress of Education.*—I need hardly say anything here on this subject as the accompanying statements and report of the Assistant Inspector of Schools will be found to speak for themselves. It will be observed that there has been a great improvement over the previous year in almost every respect.

32. *Grant 3, Hospitals and Dispensaries—Medicines and Supplies.*—The amount appearing against this head does not include the cost of European medicines supplied by Messrs. Burgoyne, Burbidges & Co., of London, a portion of which was paid within the year and treated as advance, the balance being paid in May 1898 on receipt of the necessary bill and the sanction of the council. The amount of the bill was Rs. 427–10–7.

33. Sundries and Contingencies.—Some of the articles of furniture indented for by the civil apothecary were not supplied within the year; hence the actual amount spent under this head was Rs. 467–12–6 against an estimate of Rs. 700. Some of the articles indented for could not be got early as the council was unable to fix their value and were trying to get articles as cheap and durable as possible. Arrangements have since been made and some of the articles have arrived and some will arrive shortly.

34. *Other Contributions.*—Rs. 300 was paid on behalf of Miss C. Dee, the female apothecary student undergoing training in the Madras Medical College for the second year of her course.

35. *Vaccination—Contingencies.*—The contribution for the Central Vaccine depot at Tanjore on account of the cost of lymph amounted only to Rs. 50–8–2 owing perhaps to the large number of failures during certain months of the year.

36. *Vital Statistics.*—Six hundred and twenty-five births and 657 deaths were registered in the year as against 639 births and 552 deaths in 1896–97. The increase under deaths is noteworthy and is due to cholera in the year, while the decrease under births is very small. The number of prosecutions instituted for failure to register births was nine and for deaths eight. There is only one birth and death registrar, but cases are also reported by the sanitary inspector and his maistries.

37. *Conservancy — Road-cleaning.* — There are 115 dust-bins in the town, the rubbish from which is removed in eleven wooden carts to three depots outside the town. The contents of cesspools, of which there are about 110, are removed in eight sewage carts, which as well as the rubbish carts are supplied by three contractors who are paid at the rate of Rs. 10 per rubbish, and Rs. 7 per sewage, cart.

38. The sanitation of the town is looked after by one certificated sanitary inspector and two maistries. Each of the rubbish and sewage carts is manned by two toties—one for driving the cart and the other for removing filth. The amount spent under this head was Rs. 4,333–10–3 against a revised estimate of Rs. 4,470. The abolition of three rubbish carts for the last two months of the year for want of funds accounts for the difference. Further particulars regarding sanitation and connected points are given in the accompanying report of the civil apothecary.

39. *Private Scavenging.*—The number of houses served by private scavenging agency was the same as in the previous year and the cost of it was Rs. 469–0–11 against Rs. 510 of the revised estimate. Out of nine toties employed for the purpose, three were removed for two months of the year; hence the decrease.

40. *Contingencies.*—During the year under report, a night-soil cart was purchased from the Védáranniyam union at a cost of Rs. 85 and two hand-carts, which were out of repair, were also repaired. The bullock for the large cart is supplied by a contractor at Rs. 6 per mensem.

41. *Cholera Charges.*—Rs. 579–2–2 were spent under this head against a revised estimate of Rs. 480 and Rs. 376–1–8 in the previous year. The increase is due to the prevalence of the disease in a rather severe form and the consequent employment of more hands and that for a longer period than was originally contemplated. There were 285 attacks and 183 deaths from the 15th September 1897, when the dire disease first made its appearance till about the middle of March 1898, when it finally subsided. The steps taken to combat it are fully described by the civil apothecary in his report.

42. *Special Sanitary Arrangements.*—A major portion of the amount appearing under this head relates to the years 1895–96 and 1896–97 and represents the adjustment of advances made in those years in connection with the festival arrangements. The amount spent for the festival of March last and shown under advances will be finally adjusted in the current year.

43. *Grant 4, Lighting, Markets, &c.*—The slight variations between the actuals and the revised estimates under these items call for no special remarks.

44. *Printing.*—The large increase over the revised estimate is due to the payment of Rs. 296–8–1 relating to the year 1896–97 in the year under report.

45. *Grant 5, Contributions for Central Office and Audit Establishment.*—The cost of controlling establishment for the year 1897–98 was Rs. 250, and Rs. 34 was paid on account of 1896–97. The balance represents the contribution paid on behalf of the municipal clerk in the Collector's office, Tanjore.

46. *Advances Recoverable.*—The greater portion of the amount shown against this head has been adjusted within the year, the large difference between the actuals and the revised estimate being due to the fact that payments to claimants for works done or to be done before the bills were presented or before they were sanctioned by the council have had to be treated as advances as per instructions of the auditor. Rs. 1,900 paid to the gravel contractor before the bills were finally passed and Rs. 312–3–1 to Messrs. Burgoyne, Burbidges & Co. are instances in point.

Enclosure.

Concise Report of the Municipal Hospital, Mannárgudi, for the year 1897-98.

I. Public Health.—The public health of the town has been fair during the first half-year. In the second half-year, cholera prevailed in a severe form for a period of five months. The disease was first imported into the town on 15th September 1897 from Negapatam and spread to the attendants and neighbours of the first case. It subsided after a month, but was again imported from the adjacent villages on 12th November 1897 and continued in a sporadic form throughout the town till the middle of March. At the recommendation of the civil apothecary, a special preventive staff was appointed. The hospital assistant attached to the municipal hospital was also deputed on special cholera duty. The proper disinfection and disposal of cholera excreta and things contaminated were carried out very effectively by the special staff Several water sources that were contaminated were recommended to be excluded from time to time from human use for a sufficiently long time. The sources of water supply were the river, several tanks fed by it and a few wells. Three tanks and six wells were set apart for drinking purposes. The three reserved tanks were strictly watched by appointing extra watchmen to prevent contamination. There was no necessity for disinfecting any well with permanganate of potash since none was contaminated. There were 285 attacks with 102 recoveries and 183 deaths. Of these, 57 cases were treated by medical subordinates with 33 recoveries and 24 deaths. During the year the Sri Rajagopalaswami festival was held and the sanitary recommendations were fully and efficiently carried out.

II. Vital Statistics.—During the year there were 625 births—males 318 and females 307—and deaths 657 against 639 births and 552 deaths of the previous year. There were 74 deaths from fever, 183 from cholera, 32 from dysentery, 48 from diarrhœa, 1 from suicide, 8 from accidents and 2 from snake-bite and 309 from other causes.

III. Sanitation.—The sanitation of the town was fair. The conservancy staff consists of 22 sweepers on Rs. 5 per mensem with 11 dust-carts. Sixteen toties to remove sewage water with eight carts—eight on Rs. 5 each and eight on Rs. 2–8–0 each. Nine private scavenging toties with one bullock night-soil cart and two hand-carts—six on Rs. 5 each and three on Rs. 3–8–0 each. One toty on Rs. 4 to clean the slaughter-house. A qualified sanitary inspector with two maistries under him work the conservancy staff. The staff is sufficient, but the sweepers and toties are not efficient. The sweepings of private houses and the cattle excreta are stored up in the house compounds to be utilized as manure. The street-sweepings are collected in two rubbish depots and sold as manure for about Rs. 300. The sewage water taken by the tub-carts is thrown into vacant spaces far from living houses. The little night-soil that is removed from the town is buried in trenches in one of the rubbish depots. Tht water-supply of the town is from the river Pamaniar and springs in its bed, by tanks fed by it and another river Vadavar and also from some wells. Except the wells, all other sources are not satisfactory since they are liable to be contaminated. The drainage of the town is natural. All the rain water runs into the river Pamaniar. The natural drainage of house compounds is interfered with by digging hollows in them. The house drains open into house compounds or into cesspools in the streets. The cesspools being too big and too many, the existing tub-carts cannot empty them efficiently. The insanitary condition of the slaughter-house and the fish and butcher stalls is about to be remedied shortly. Neither the long contemplated iron latrine was put up nor the objectionable Muhammadan burial-ground in the main bazaar street was closed during the year The roads, streets and lanes are in a fairly good condition.

Regarding cesspools, orders have been received sanctioning the council's proposals to levy fees. Notices have been issued. The council will consider the advisability of increasing the staff, if necessary. It is reported that some of the cesspools have been closed.

Burial-ground.—A fresh site has been handed over. Arrangements are being made for the closure of the present burial-ground.

(Intld.) V. R.

IV. Vaccination.—Vaccination is carried on by a second-class vaccinator on Rs. 10. He has vaccinated 593 cases during the year against 656 of the previous year. Of these, 478 were

successful, 122 unsuccessful and 6 unknown. The civil apothecary has vaccinated thirteen cases, of which two were successful, ten unsuccessful and one unknown. Out of the total of 628 cases, 415 were under one year of age against 552 of the previous year. The lymph used throughout the year was glycerine paste supplied from the Tanjore depot. Its quality was bad occasionally, and hence the large number of failures.

V. Hospitals and Dispensaries.—(*a*) There are two large and spacious wards for accommodating fifteen male and ten female patients and one contagious diseases ward with four beds.

Estimates have been called for.
(Intld.) V. R.

(*b*) The contagious diseases ward requires renewal of flooring. The dispensary and the wards, &c., have been whitewashed during the year.

(*c*) The existing furniture is in good condition.

(*d*) The hospital was inspected during the year once by the District Medical and Sanitary Officer and thrice by the District Collector. Their recommendations were: the repairing and whitewashing of buildings; the supplying of furniture and bedding and clothing and the construction of a proper *operation room*. The local authorities have whitewashed the buildings, supplied the bedding and clothing and are supplying furniture.

Estimate has been called for.
(Intld.) V. R.

(*e*) Only As. 14 have been recovered for dieting patients, since all the patients that were able to pay for their diets dieted themselves—

Year.	Number of in-patients.	Daily average of in-patients.	Number of out-patients.	Daily average of out-patients.
1894-95	430	18·88	16,674	84·52
1895-96	490	22·56	16,798	84·79
1896-97	415	20·05	18,285	93·63
1897-98	461	22·29	16,993	88·94

(*f*) There has been an increase in the admissions and average daily attendance of in-patients. Under out-patients there was a fall of over 1,000 due to non-prevalence of sore eyes to the same extent as in the previous years. There were 202 self-dieted patients during the year against 160 of the previous year.

(*g*) *Mortality.*—There have been ten deaths in hospital during the year; of these—

Two were cases of enteritis.	One of nephritis.
One of rupture of bowels.	One of paralysis.
One of fracture of skull.	One of cirrhosis of liver.
Two of anæmia.	One of idiopathic tetanus.

(*h*) Total number of operations performed during the year 1,463—

Cured	1,325
Relieved	53
Discharged otherwise	58
Died	1
Remaining	26

The chief class of operations were removal of elephantoid scrotum, operations for radical cure for hernia and hydroceles, and removal of tumours, &c.

(*i*) The establishment is sufficient and efficient.

(*j*) There is one midwife employed in the hospital. Her name is Aiyakutti. She is a barber woman by caste. She was trained in this hospital and entertained on 29th July 1881. She gets a pay of Rs. 8 per mensem and an allowance of As. 8 for every case over the minimum of eight cases in the month. She is efficient and popular in the town. Her work is contrasted in the table below:—

1894-95	210
1895-96	229
1896-97	231
1897-98	239

(*k*) Nil.

(*l*) All the affairs of the hospital are discussed in the several municipal meetings of this municipal council.

(Signed) B. L. DAVY SINGH,
Civil Apothecary.

Mannárgudi,
14*th April* 1898.

Endt. on Cur. No. 1170-L.

Submitted.

2. The taxation under the principal heads requires thorough revision. Registers have to be prepared newly with sufficient information to enable speedy collection. If this is done, and the funds are managed judiciously, the state of this municipality will improve.

3. The roads are in fair order all through the town.

Mannárgudi,
17*th June* 1898.

(Signed) V. RAMACHANDRA ROW,
Acting Deputy Collector.

Endt. on C. No. 355-Ml.

Submitted.

2. During the four months, the Divisional-officers were in charge, some improvement was effected, especially in collections, but the state of vaccination and registration was worse than ever. Such improvement as has been made will be of little use unless the newly-elected Chairman shows himself capable of extending it, and carrying out the radical reforms which are necessary in all departments of the administration.

3. If the Chairman in his first six months of office does not show himself equal to the task, it will be necessary to recommend the appointment of a Secretary.

(Signed) J. TWIGG,
Ag. Collector.

28*th June* 1898.

Order—No. 1382 M., dated 4th August 1898.

The receipts and charges of the Mannárgudi Municipality for 1897–98 are compared below with the budget and revised estimates for the year and the actuals of 1896–97:—

Balance	— 1,875	570	920	— 2,038

2. The number of meetings held by the municipal council was 31 against 39 in the previous year, and four others were adjourned for want of a quorum against eleven in that year. There was an improvement in the average attendance of non-official members, which was fair; but that of officials, though better than in the previous year, was still indifferent. The Collector will again call the attention of the latter to G.O., No. 859 M., dated 10th April 1897. Six seats were filled by election during the year, and all of them were contested, 41·6 per cent. of the registered voters attending the poll.

3. *Receipts.*—(1) The tax on arts having been extended to the last three classes of the schedule during the year, the demand, as originally assessed by the chairman, rose from Rs. 2,096 to Rs. 2,388, notwithstanding the revision of schedule A annexed to the District Municipalities Act, which has caused a large decline in other cases; but as much as 13·7 per cent. of this amount was again remitted by the municipal council on appeal, notwithstanding the reason given in paragraph 9 of the chairman's report, it would seem that there must have been undue leniency in admitting appeals. The net current demand under this head therefore showed an increase of only Rs. 279. The result of the revision of the last three classes of the schedule, which it is proposed to undertake in the current year, should be reported to Government as soon as it is completed. The rate of the taxes on buildings and lands was raised from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. of the annual value, and the net current demand under these heads increased by Rs. 507 and Rs. 68 respectively.

(2) Owing to delay on the part of the late chairman in making assessments, the current collections under the tax on arts declined and were poor. Under the tax on buildings, however, they improved and were good, while those under the land-tax, though better than in the previous year, were still very discreditable. The arrear realizations, which showed an improvement under the last two heads, were still not satisfactory. From the chairman's report it appears that steps have already been taken to realize the outstanding balances, but no material improvement can be

expected in this direction unless the chairman takes a special interest in the matter. In this connection his attention is drawn to the remarks of the Deputy Collector in paragraph 2 of his endorsement and those of the Collector in paragraphs 2 and 3 of his endorsement. With reference to paragraph 3 of his endorsement, the Collector is requested to submit a report showing the progress made in the collection of taxes in the first six months of office of the newly-elected chairman.

(3) There was a large increase in the number of warrants issued during the year, but execution was not prompt.

(4) There was an increase in the receipts under tolls, realizations under special Acts, license and other fees, contributions from local boards, fishery rents and advance recovered, but a decline under conservancy receipts, slaughter-house fees and fines, and in some cases these variations have not been explained in the chairman's letter.

(5) Notwithstanding the remarks of Government in paragraph 3 (5) of G.O., No. 2192 M., dated 12th November 1897, the number of houses served by the private scavenging agency was only 312, or one less than in the previous year, and the service was worked at a loss of Rs. 448 to the municipal council against Rs. 249 in that year. This is very unsatisfactory and requires explanation, which should be submitted through the Collector. Meanwhile the municipal council should take the matter vigorously in hand and prosecute without hesitation the occupiers of all insanitary premises.

4. *Expenditure*—(1) *Public Works.*—No new work was undertaken during the year. The total outlay on communications amounted to Rs. 4,037, or 62·3 per cent. of the net municipal income from tolls, and the roads are reported by the Revenue Divisional Officer to have been maintained in fair order.

(2) *Education.*—The net expenditure on education amounted to Rs. 2,590, or 15·7 per cent. of the receipts from taxation. Of this sum, Rs. 1,886 were spent on primary, and the remainder on secondary, education. The municipal council continued to maintain two primary schools on the salary result system and a sessional school for the training of teachers conducted by the inspecting schoolmaster. No information has been furnished in the chairman's report regarding the working of this institution, an omission which should not recur. The attendance at the Panchama school remained almost stationary, but at the other municipal school it declined. Both these schools, however, appear to have done well at the departmental examinations. The council also aided two secondary schools with salary grants against one in the previous year and twelve primary schools with result grants as in that year. Owing to the increase in the number of aided schools, the attendance at these institutions showed an improvement. The results of the grant examination continued to be good, and the allotment for grants was exceeded by more than 9 per cent. The total number of boys under instruction in the municipal and aided schools rose from 1,016 to 1,085, or 74·5 per cent. of the male population of school-going age.

(3) *Medical Relief.*—The number of in-patients treated at the municipal hospital was 461, or 46 more than in the previous year, but that of out-patients fell from 18,285 to 16,993, the large decrease being attributed by the civil apothecary to the less prevalence of sore-eyes. The explanation cannot be accepted. The midwife attached to the municipal hospital attended 239 cases of labour against 231 in 1896–97.

(4) *Vaccination and Vital Statistics.*—The total number of vaccine operations performed during the year fell from 730 to 606, and the quality of the work greatly deteriorated, the percentage of reported success being 79·2 against 87·7 in the previous year, the decline being attributed to the inferiority of the lymph obtained from Tanjore. Infantile vaccination also showed much retrogression, the total number of children under one year successfully vaccinated being 373 or 18·5 per mille of the population against 24·6 per mille in 1896–97 and a registered birth-rate of 30·6 per mille. These unsatisfactory results, which indicate want of supervision on the part of the municipal council, reflect discredit on those concerned.

The number of deaths registered during the year rose from 552 to 657, while that of births fell, being 625 against 639 in the previous year. The returns in the latter case cannot be regarded as accurate, the rate recorded being much below the normal.

(5) *Sanitation.*—The outlay under this head amounted to Rs. 5,878 or 21·9 per cent. of the current receipts against 25·3 per cent. in 1896–97. From paragraph III of the medical report, it appears that some attention was paid to the general sanitation of the town, but much remains to be done before the defects pointed out by the Deputy Sanitary Commissioner in his last inspection notes can be remedied.

5. *General remarks.*—The year again closed with a deficit of Rs. 2,038 instead of a balance of Rs. 570 anticipated in the budget, the large decrease being due to short collections under the principal taxes.

There was some improvement in one or two branches, but on the whole the administration of the municipality during the year under review left much to be desired and cannot be regarded as efficient.

6. The tabular statement, the causes of deaths among in-patients and the particulars regarding the operations performed during the year, given in the medical report, are unnecessary and should be omitted in future reports.

Mannargudi

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. V. RAMACHANDRA ROW Avargal, Deputy Collector in charge of the Municipal Council, Mannárgudi, to the Secretary to Government, Local and Municipal Department, dated 5th June 1898, No. 125.

I have the honour to submit my report on the administration of this municipality for the year 1897–98, together with the following enclosures :—

(1) Statement of receipts and charges.

(2) Concise report of the civil apothecary on the sanitation of the town and the working of the municipal hospital.

(3) Assistant Inspector's statements and report on education.

(4) Extract from the proceedings of the Municipal Council, Mannárgudi, dated 10th June 1898, in which the report was discussed and passed.

2. The budget and the revised estimates were passed by Government in its Orders, No. 648 M., dated 22nd March 1897, and No. 560 M., dated 12th March 1898, respectively.

3. The accounts of the year under report have not yet been audited.

I.—CONSTITUTION OF THE MUNICIPAL COUNCIL.

4. *Municipal Board.*—The maximum strength of the council is sixteen including one *ex-officio* councillor ; of these, four are nominated and twelve elected.

5. *Nominations and Elections to the Council.*—Three vacancies occurred among the elected seats and all of them were filled up within the year. Among the nominated seats, three became vacant, of which two were filled up within the year.

6. *Office of Chairman.*—The office of Chairman was held by M.R.Ry. M. R. Sreenivasa Row Avargal till 19th November 1897, when his term of office expired. M.R.Ry. T. V. Sreenivasaier Avargal, the then Deputy Collector of Mannárgudi, took charge of the office on 20th November 1897 and continued to hold it till 10th January 1898, when it passed into my hands.

7. *Meetings of the Council.*—Thirty-five meetings were convened during the year, of which four were adjourned for want of quorum. Ordinary meetings used to be held on the 2nd and 4th Saturdays of every month, but subsequently the day of the meeting was altered into Friday to suit the convenience of the late Chairman. Special meetings were held as often as was found necessary. The elective system is in force in this municipality and there were 305 voters registered at the close of the year.

II.—RECEIPTS.

8. The total receipts of the year amounted to Rs. 26,896–11–9 against Rupees 27,650 of the revised estimate and Rs. 19,219–15–11 in the previous year. This large increase over the actuals of 1896–97 is due to the increased receipts under several of the items as per Statement No. I and to the adjustment of a large amount of advances recovered within the year. The opening balance was *minus* Rupees 1,874–9–3 and thus the net receipts are only Rs. 25,022–2–6. It is much to be regretted that the year closes again with a *minus* balance. It will be observed, however, that liabilities amounting to nearly Rs. 3,500 pertaining to the year 1896–97 have been paid in the year under report, while there was no corresponding increase in the income. The receipts fell short of the revised estimate under some of the principal items of taxes, the explanation for which has been given under each of such items. The sanction of the council was obtained for meeting some liabilities from the deposits of the current year. By a judicious management of the arrear collections and proper control of expenditure, the deficit will be made good and a substantial improvement in the finances of the municipality shown at least before the close of the current year.

9. *Tax on Arts.*—The demand, as originally assessed by the Chairman, was Rupees 2,388 against a revised estimate of Rs. 2,600, which includes arrears amounting to Rs. 424. Rs. 326 was remitted by the council on appeal. The collections amounted to Rs. 1,432, leaving a balance of Rs. 630 at the end of the year. This heavy balance is due to the fact that assessments to the extent of Rs. 682 were made early in the month of January 1898 by my predecessor in office and a large number of appeals were presented in February and March 1898. Rs. 314 were covered by appeals which were disposed of only in May 1898. The amount adjusted after disposal of appeals, together with the amount since collected, is Rs. 223 as shown in the accompanying statement. A sum of Rs. 182 was remitted and Rs. 55 written off. Necessary steps have been taken for the realization of Rs. 170 now outstanding. Under arrears amounting to Rs. 424, Rs. 178 was collected and Rs. 139 remitted or written off, leaving a balance of Rs. 107, the progress made in the collection of which is also shown in the statement. Since the close of the year, Rs. 71 has been collected. Steps have been taken for the realization of the rest. The large amount of remission is due to the fact that the assessments under the last three classes were made newly in the year under report and on information gained at the time. There was no time for making thorough inquiries then. Some money-lenders were all classed under class VII without due regard to their income. Even if the assessees got an income below Rs. 30 per month, they were assessed ; but in disposing of the appeals, the provisions of the Act were properly looked into, careful inquiries made and persons who got income below Rs. 30 from any sources were exempted. The tax under the last three classes will be carefully and thoroughly revised in the current year and assessments made.

10. *Tax on Buildings.*—The demand under this head was Rs. 4,574–2–3 under current and Rs. 492–7–0 under arrears, making up a total of Rs. 5,066–9–3 against a revised estimate of Rs. 5,100. The collections under current and arrears were Rs. 4,342–2–0 and Rs. 360–12–9, respectively. Rs. 15–14–3 were remitted by the council on appeal under current. Out of a balance of Rs. 216–2–0 under current and Rs. 67–5–6 under arrears, Rs. 117–7–8 has since been collected.

11. *Tax on Lands.*—The current demand under this head was Rs. 926–12–11, of which Rs. 172–1–0 was collected. Under arrears amounting to Rs. 942–14–9, Rs. 34–15–10 was remitted by the Chairman and Rs. 361–10–6 collected. The reason for the very poor progress made in the collection of the arrears under this head has been fully explained by me in my letter, No. 952, dated 29th March 1898, and it is therefore unnecessary to repeat it here. The disposal of the appeals with regard to the tax for 1896–97 late in the year 1897–98, *i.e.*, in February 1898, also accounts for the poor collections of the latter year. It will be observed, however, that the collections in the month of April and May 1898 are pretty satisfactory. There is much difficulty in collection, as a lump sum has been entered in the registers against a number of pattadars in a joint patta. Arrangements have been made to get the tax apportioned individualwar and vigorous steps have been taken to realize the balance as early as possible.

12. *Tax on Vehicles, Animals and Carts.*—The receipts under these items amounted to Rs. 3,113 against Rs. 3,019–8–0 in the previous year.

13. *Tolls.*—The collection of tolls were leased out for Rs. 9,720 which was realized within the year. The figure in Statement I is arrived at as follows:—

	Rs.	A	P.
Lease amount for 1897–98	9,720	0	0
Deduct amount of deposit made on account of 1897–98, but credited in 1896–97 as per G.O., No. 1040 M., dated 28th June 1895	1,620	0	0
Balance ..	8,100	0	0
Add interest paid on over-due kists	4	12	6
Add amount deposited in 1897–98 for 1898–99, but credited in 1897–98	1,622	11	9
Total ..	9,727	8	3
Deduct Local fund share	3,239	6	9
Balance ..	6,488	1	6

14. *Fees under Act II of 1888.*—The advent of dramatic and circus companies more than once in the year accounts for the Rs. 250 appearing under this head.

15. *Rent of Buildings.*—Rs. 120 is the rent recovered from the Police department for the years 1896–97 and 1897–98 on account of the police ward attached to the municipal hospital.

16. *Avenue Receipts.*—These were departmentally managed till October 1897 when they were leased out for a period of one year. As the lease amount was expected to be realized within the year under report, the income from this source was put down at Rs. 1,200 in the revised estimate. This, however, could not be done, as the preparation of the necessary registers was delayed by the councillors to whom the work had been entrusted. Hence the regular collections date from 1st April 1898, the receipts for the period during which they were departmentally managed being Rs. 402–15–1. The subsequent collections amount to Rs. 564–0–3.

17. *Conservancy Receipts.*—Owing to the absence of competition, only Rupees 101–8–0 was realized under this head against Rs. 200 of the revised estimate as well as of the previous year.

18. *Income from Markets.*—The figure entered against this head is arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	636	0	0
Deduct amount deposited for 1897–98 credited in 1896–97 ..	159	0	0
Balance ..	477	0	0
Add—			
Amount deposited for 1898–99 credited in 1897–98	172	0	0
Interest	2	6	5
Collections under arrears (Statement I)	0	5	10
Total ..	651	12	3

19. *Income from Slaughter-houses.*—This had been leased out for Rs. 470, of which Rs. 117–8–0 was credited in 1896–97—

	Rs.	A.	P.
Lease amount	470	0	0
Deduct amount credited in 1896–97	117	8	0
Balance ..	352	8	0
Add interest	2	14	1
Total ..	355	6	1
Deduct amount not collected within the year	39	2	8
Balance ..	316	3	5

As the right of collecting slaughter-house fees was not leased out for the current year for want of proper bid, the amount credited in 1896–97 has not been made up. It is being managed departmentally.

20. *Cartstand Fees.*—No fees were collected within the year, as no stand had been provided for the purpose. The want, however, has since been supplied and it has been resolved to levy a fee of As. 2 per mensem for every jutka.

21. *Fines under Municipal and other Acts.*—The collection under this head was Rs. 172–8–0 against Rs. 50 of the revised estimate and Rs. 383–10–0 in the previous year. A copy of this office letter (enclosed) No. 99, dated 28th May 1898, to the Chairman-Bench of Magistrates, Mannárgudi, will show the grounds for the fall of receipts under this head.

22. *Grants and Contributions.*—Rs. 172–8–0 is the provincial contribution on account of the gymnastic instructor of the municipality for the year 1896–97 and for eleven months of 1897–98. Rs. 3,620 was received from the taluk board on account of the municipal hospital for 1896–97 and 1897–98.

23. *Private Scavenging.*—The current demand under this head was Rs. 182–11–8 and the collection Rs. 60–12–2; Rs. 2–8–0 was remitted by the Chairman. Out of the balance, Rs. 17–15–7 has since been collected. Under arrears amounting to Rupees 227–1–11, a sum of Rs. 38–3–0 was written off by the council and Rs. 117–3–4 collected. Steps have been taken to adjust the balance at an early date. It has to be noted here that collections for the current quarter of the year have been in advance.

24. *Fishery Rents.*—Rs. 248–2–0 shown against this head has been arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	161	8	0
Deduct amount of deposit for 1897–98 credited in 1896–97 ..	29	0	0
Balance ..	132	8	0
Add amount of deposit for 1898–99 credited in 1897–98 ..	36	4	0
Total ..	168	12	0
Add arrear collections	79	6	0
Total ..	248	2	0

25. *Advances—vide* remarks against "Advances Recoverable" under charges.

III.—Charges.

26. *Grant 1, Repairs—Communications.*—Rs. 4,037–9–10 was spent under this head against a revised estimate of Rs. 4,500. The unspent balance represents the amount remaining to be paid for road works which were not completed and billed for within the year. The other items call for no remarks.

27. *Grant 2, Training Schools.*—Rs. 15 was paid to the inspecting school-master as extra remuneration for conducting a sessional school in the year 1896–97.

28. *Municipal Schools—Results Grants.*—The actuals exceed the revised estimate by Rs. 57–12–0, which is due to the payment of a portion of the grant for 1896–97 having been made in the year under report.

29. *Salary Grants.*—The grant for the Hindu lower secondary school for the month of February and that for the Wesleyan Mission high school for January and February were not paid within the year, and hence the variations between the actuals and the revised estimate.

30. *Common Gymnasium—Contingencies.*—Rs. 36 represents the rent for three years for the gymnasium ground.

31. *Progress of Education.*—I need hardly say anything here on this subject as the accompanying statements and report of the Assistant Inspector of Schools will be found to speak for themselves. It will be observed that there has been a great improvement over the previous year in almost every respect.

32. *Grant 3, Hospitals and Dispensaries—Medicines and Supplies.*—The amount appearing against this head does not include the cost of European medicines supplied

12. *Tax on Vehicles, Animals and Carts.*—The receipts under these items amounted to Rs. 3,113 against Rs. 3,019–8–0 in the previous year.

13. *Tolls.*—The collection of tolls were leased out for Rs. 9,720 which was realized within the year. The figure in Statement I is arrived at as follows:—

	Rs.	A	P.
Lease amount for 1897–98	9,720	0	0
Deduct amount of deposit made on account of 1897–98, but credited in 1896–97 as per G.O., No. 1040 M., dated 28th June 1895	1,620	0	0
Balance ..	8,100	0	0
Add interest paid on over-due kists	4	12	6
Add amount deposited in 1897–98 for 1898–99, but credited in 1897–98	1,622	11	9
Total ..	9,727	8	3
Deduct Local fund share	3,239	6	9
Balance ..	6,488	1	6

14. *Fees under Act II of 1888.*—The advent of dramatic and circus companies more than once in the year accounts for the Rs. 250 appearing under this head.

15. *Rent of Buildings.*—Rs. 120 is the rent recovered from the Police department for the years 1896–97 and 1897–98 on account of the police ward attached to the municipal hospital.

16. *Avenue Receipts.*—These were departmentally managed till October 1897 when they were leased out for a period of one year. As the lease amount was expected to be realized within the year under report, the income from this source was put down at Rs. 1,200 in the revised estimate. This, however, could not be done, as the preparation of the necessary registers was delayed by the councillors to whom the work had been entrusted. Hence the regular collections date from 1st April 1898, the receipts for the period during which they were departmentally managed being Rs. 402–15–1. The subsequent collections amount to Rs. 564–0–3.

17. *Conservancy Receipts.*—Owing to the absence of competition, only Rupees 101–8–0 was realized under this head against Rs. 200 of the revised estimate as well as of the previous year.

18. *Income from Markets.*—The figure entered against this head is arrived at as follows:—

	Rs.	A.	P.
Lease amount for 1897–98	636	0	0
Deduct amount deposited for 1897–98 credited in 1896–97 ..	159	0	0
Balance ..	477	0	0
Add—			
Amount deposited for 1898–99 credited in 1897–98	172	0	0

Total ..	168	12	0
Add arrear collections	79	6	0
Total ..	248	2	0

25. *Advances—vide* remarks against "Advances Recoverable" under charges.

III.—Charges.

26. *Grant 1, Repairs—Communications.*—Rs. 4,037–9–10 was spent under this head against a revised estimate of Rs. 4,500. The unspent balance represents the amount remaining to be paid for road works which were not completed and billed for within the year. The other items call for no remarks.

27. *Grant 2, Training Schools.*—Rs. 15 was paid to the inspecting school-master as extra remuneration for conducting a sessional school in the year 1896–97.

28. *Municipal Schools—Results Grants.*—The actuals exceed the revised estimate by Rs. 57-12-0, which is due to the payment of a portion of the grant for 1896–97 having been made in the year under report.

29. *Salary Grants.*—The grant for the Hindu lower secondary school for the month of February and that for the Wesleyan Mission high school for January and February were not paid within the year, and hence the variations between the actuals and the revised estimate.

30. *Common Gymnasium—Contingencies.*—Rs. 36 represents the rent for three years for the gymnasium ground.

31. *Progress of Education.*—I need hardly say anything here on this subject as the accompanying statements and report of the Assistant Inspector of Schools will be found to speak for themselves. It will be observed that there has been a great improvement over the previous year in almost every respect.

32. *Grant 3, Hospitals and Dispensaries—Medicines and Supplies.*—The amount appearing against this head does not include the cost of European medicines supplied

by Messrs. Burgoyne, Burbidges & Co., of London, a portion of which was paid within the year and treated as advance, the balance being paid in May 1898 on receipt of the necessary bill and the sanction of the council. The amount of the bill was Rs. 427–10–7.

33. *Sundries and Contingencies.*—Some of the articles of furniture indented for by the civil apothecary were not supplied within the year; hence the actual amount spent under this head was Rs. 467–12–6 against an estimate of Rs. 700. Some of the articles indented for could not be got early as the council was unable to fix their value and were trying to get articles as cheap and durable as possible. Arrangements have since been made and some of the articles have arrived and some will arrive shortly.

34. *Other Contributions.*—Rs. 300 was paid on behalf of Miss C. Dee, the lady apothecary student undergoing training in the Madras Medical College for the second year of her course.

35. *Vaccination—Contingencies.*—The contribution for the Central Vaccine depot at Tanjore on account of the cost of lymph amounted only to Rs. 50–8–2 owing perhaps to the large number of failures during certain months of the year.

36. *Vital Statistics.*—Six hundred and twenty-five births and 657 deaths were registered in the year as against 639 births and 552 deaths in 1896–97. The increase under deaths is noteworthy and is due to cholera in the year, while the decrease under births is very small. The number of prosecutions instituted for failure to register births was nine and for deaths eight. There is only one birth and death registrar, but cases are also reported by the sanitary inspector and his maistries.

37. *Conservancy — Road-cleaning.* — There are 115 dust-bins in the town, the rubbish from which is removed in eleven wooden carts to three depots outside the town. The contents of cesspools, of which there are about 110, are removed in eight sewage carts, which as well as the rubbish carts are supplied by three contractors who are paid at the rate of Rs. 10 per rubbish and Rs. 7 per sewage cart.

38. The sanitation of the town is looked after by one certificated sanitary inspector and two maistries. Each of the rubbish and sewage carts is manned by two toties—one for driving the cart and the other for removing filth. The amount spent under this head was Rs. 4,333–10–3 against a revised estimate of Rs. 4,470. The abolition of three rubbish carts for the last two months of the year for want of funds accounts for the difference. Further particulars regarding sanitation and connected points are given in the accompanying report of the civil apothecary.

39. *Private Scavenging.*—The number of houses served by private scavenging agency was the same as in the previous year and the cost of it was Rs. 469–0–11 against Rs. 510 of the revised estimate. Out of nine toties employed for the purpose, three were removed for two months of the year; hence the decrease.

40. *Contingencies.*—During the year under report, a night-soil cart was purchased from the Védáranniyam union at a cost of Rs. 85 and two hand-carts, which were out of repair, were also repaired. The bullock for the large cart is supplied by a contractor at Rs. 6 per mensem.

41. *Cholera Charges.*—Rs. 579–2–2 were spent under this head against a revised estimate of Rs. 480 and Rs. 376–1–8 in the previous year. The increase is due to the prevalence of the disease in a rather severe form and the consequent employment of more hands and that for a longer period than was originally contemplated. There were 285 attacks and 183 deaths from the 15th September 1897, when the dire disease first made its appearance till about the middle of March 1898 when it finally subsided. The steps taken to combat it are fully described by the civil apothecary in his report.

42. *Special Sanitary Arrangements.*—A major portion of the amount appearing under this head relates to the years 1895–96 and 1896–97 and represents the adjustment of advances made in those years in connection with the festival arrangements. The amount spent for the festival of March last and shown under advances will be finally adjusted in the current year.

43. *Grant 4, Lighting, Markets, &c.*—The slight variations between the actuals and the revised estimates under these items call for no special remarks.

44. *Printing.*—The large increase over the revised estimate is due to the payment of Rs. 296–8–1 relating to the year 1896–97 in the year under report.

45. *Grant 5, Contributions for Central Office and Audit Establishment.*—The cost of controlling establishment for the year 1897–98 was Rs. 250, and Rs. 34 was paid on account of 1896–97. The balance represents the contribution paid on behalf of the municipal clerk in the Collector's office, Tanjore.

46. *Advances Recoverable.*—The greater portion of the amount shown against this head has been adjusted within the year, the large difference between the actuals and the revised estimate being due to the fact that payments to claimants for works done or to be done before the bills were presented or before they were sanctioned by the council have had to be treated as advances as per instructions of the auditor. Rs. 1,900 paid to the gravel contractor before the bills were finally passed and Rs. 312–3–1 to Messrs. Burgoyne, Burbidges & Co. are instances in point.

ENCLOSURE.

CONCISE Report of the Municipal Hospital, Mannárgudi, for the year 1897–98.

I. Public Health.—The public health of the town has been fair during the first half-year. In the second half-year, cholera prevailed in a severe form for a period of five months. The disease was first imported into the town on 15th September 1897 from Negapatam and spread to the attendants and neighbours of the first case. It subsided after a month. But was again imported from the adjacent villages on 12th November 1897 and continued in a sporadic form throughout the town till the middle of March. At the recommendation of the civil apothecary, a special preventive staff was appointed. The hospital assistant attached to the municipal hospital was also deputed on special cholera duty. The proper disinfection and disposal of cholera excreta and things contaminated were carried out very effectively by the special staff. Several water sources that were contaminated were recommended to be excluded from time to time from human use for a sufficiently long time. The sources of water supply were the river, several tanks fed by it and a few wells. Three tanks and six wells were set apart for drinking purposes. The three reserved tanks were strictly watched by appointing extra watchmen to prevent contamination. There was no necessity for disinfecting any well with permanganate of potash since none was contaminated. There were 285 attacks with 102 recoveries and 183 deaths. Of these, 57 cases were treated by medical subordinates with 33 recoveries and 24 deaths. During the year the Sri Rajahgopalaswami festival was held and the sanitary recommendations were fully and efficiently carried out.

II. Vital Statistics.—During the year there were 625 births—males 318 and females 307—and deaths 657 against 639 births and 552 deaths of the previous year. There were 74 deaths from fever, 183 from cholera, 32 from dysentery, 48 from diarrhœa, 1 from suicide, 8 from accidents and 2 from snake-bite and 309 from other causes.

III. Sanitation.—The sanitation of the town was fair. The conservancy staff consists of 22 sweepers on Rs. 5 per mensem with 11 dust-carts. Sixteen toties to remove sewage water with eight carts—eight on Rs. 5 each and eight on Rs. 2–8–0 each. Nine private scavenging toties with one bullock night-soil cart and two hand-carts—six on Rs. 5 each and three on Rs. 3–8–0 each. One toty on Rs. 4 to clean the slaughter-house. A qualified sanitary inspector with two maistries under him work the conservancy staff. The staff is sufficient, but the sweepers and toties are not efficient. The sweepings of private houses and the cattle excreta are stored up in the house compounds to be utilized as manure. The street-sweepings are collected in two rubbish depots and sold as manure for about Rs. 300. The sewage water taken by the tub-carts is thrown into vacant spaces far from living houses. The little night-soil that is removed from the town is buried in trenches in one of the rubbish depots. Tht water-supply of the town is from the river Pamaniar and springs in its bed, by tanks fed by it and another river Vadavar and also from some wells. Except the wells, all other sources are not satisfactory since they are liable to be contaminated. The drainage of the town is natural. All the rain water runs into the river Pamaniar. The natural drainage of house compounds is interfered with by digging hollows in them. The house drains open into house compounds or into cesspools in the streets. The cesspools being too big and too many, the existing tub-carts cannot empty them efficiently The insanitary condition of the slaughter-house and the fish and butcher stalls is about to be remedied shortly. Neither the long contemplated iron latrine was put up nor the objectionable Muhammadan burial-ground in the main bazaar street was closed during the year. The roads, streets and lanes are in a fairly good condition.

Regarding cesspools, orders have been received sanctioning the council's proposals to levy fees. Notices have been issued. The council will consider the advisability of increasing the staff, if necessary. It is reported that some of the cesspools have been closed.

Burial-ground.—A fresh site has been handed over. Arrangements are being made for the closure of the present burial-ground.

(Intld.) V. R.

by Messrs. Burgoyne, Burbidges & Co., of London, a portion of which was paid within the year and treated as advance, the balance being paid in May 1898 on receipt of the necessary bill and the sanction of the council. The amount of the bill was Rs. 427–10–7.

33. *Sundries and Contingencies.*—Some of the articles of furniture indented for by the civil apothecary were not supplied within the year; hence the actual amount spent under this head was Rs. 467–12–6 against an estimate of Rs. 700. Some of the articles indented for could not be got early as the council was unable to fix their value and were trying to get articles as cheap and durable as possible. Arrangements have since been made and some of the articles have arrived and some will arrive shortly.

34. *Other Contributions.*—Rs. 300 was paid on behalf of Miss C. Dee, the lady apothecary student undergoing training in the Madras Medical College for the second year of her course.

35. *Vaccination—Contingencies.*—The contribution for the Central Vaccine depot at Tanjore on account of the cost of lymph amounted only to Rs. 50–8–2 owing perhaps to the large number of failures during certain months of the year.

36. *Vital Statistics.*—Six hundred and twenty-five births and 657 deaths were registered in the year as against 639 births and 552 deaths in 1896–97. The increase under deaths is noteworthy and is due to cholera in the year, while the decrease under births is very small. The number of prosecutions instituted for failure to register births was nine and for deaths eight. There is only one birth and death registrar, but cases are also reported by the sanitary inspector and his maistries.

37. *Conservancy — Road-cleaning.* — There are 115 dust-bins in the town, the rubbish from which is removed in eleven wooden carts to three depots outside the town. The contents of cesspools, of which there are about 110, are removed in eight sewage carts, which as well as the rubbish carts are supplied by three contractors who are paid at the rate of Rs. 10 per rubbish and Rs. 7 per sewage cart.

38. The sanitation of the town is looked after by one certificated sanitary inspector and two maistries. Each of the rubbish and sewage carts is manned by two toties—one for driving the cart and the other for removing filth. The amount spent under this head was Rs. 4,333–10–3 against a revised estimate of Rs. 4,470. The abolition of three rubbish carts for the last two months of the year for want of funds accounts for the difference. Further particulars regarding sanitation and connected points are given in the accompanying report of the civil apothecary.

39. *Private Scavenging.*—The number of houses served by private scavenging agency was the same as in the previous year and the cost of it was Rs. 469–0–11 against Rs. 510 of the revised estimate. Out of nine toties employed for the purpose, three were removed for two months of the year; hence the decrease.

40. *Contingencies.*—During the year under report, a night-soil cart was purchased from the Védáranniyam union at a cost of Rs. 85 and two hand-carts, which were out of repair, were also repaired. The bullock for the large cart is supplied by a contractor at Rs. 6 per mensem.

41. *Cholera Charges.*—Rs. 579–2–2 were spent under this head against a revised estimate of Rs. 480 and Rs. 376–1–8 in the previous year. The increase is due to the prevalence of the disease in a rather severe form and the consequent employment of more hands and that for a longer period than was originally contemplated. There were 285 attacks and 183 deaths from the 15th September 1897, when the dire disease first made its appearance till about the middle of March 1898 when it finally subsided. The steps taken to combat it are fully described by the civil apothecary in his report.

42. *Special Sanitary Arrangements.*—A major portion of the amount appearing under this head relates to the years 1895–96 and 1896–97 and represents the adjustment of advances made in those years in connection with the festival arrangements. The amount spent for the festival of March last and shown under advances will be finally adjusted in the current year.

43. *Grant 4, Lighting, Markets, &c.*—The slight variations between the actuals and the revised estimates under these items call for no special remarks.

44. *Printing.*—The large increase over the revised estimate is due to the payment of Rs. 296–8–1 relating to the year 1896–97 in the year under report.

45. *Grant 5, Contributions for Central Office and Audit Establishment.*—The cost of controlling establishment for the year 1897–98 was Rs. 250, and Rs. 34 was paid on account of 1896–97. The balance represents the contribution paid on behalf of the municipal clerk in the Collector's office, Tanjore.

46. *Advances Recoverable.*—The greater portion of the amount shown against this head has been adjusted within the year, the large difference between the actuals and the revised estimate being due to the fact that payments to claimants for works done or to be done before the bills were presented or before they were sanctioned by the council have had to be treated as advances as per instructions of the auditor. Rs. 1,900 paid to the gravel contractor before the bills were finally passed and Rs. 312–3–1 to Messrs. Burgoyne, Burbidges & Co. are instances in point.

ENCLOSURE.

CONCISE Report of the Municipal Hospital, Mannárgudi, for the year 1897–98.

I. Public Health.—The public health of the town has been fair during the first half-year. In the second half-year, cholera prevailed in a severe form for a period of five months. The disease was first imported into the town on 15th September 1897 from Negapatam and spread to the attendants and neighbours of the first case. It subsided after a month. But was again imported from the adjacent villages on 12th November 1897 and continued in a sporadic form throughout the town till the middle of March. At the recommendation of the civil apothecary, a special preventive staff was appointed. The hospital assistant attached to the municipal hospital was also deputed on special cholera duty. The proper disinfection and disposal of cholera excreta and things contaminated were carried out very effectively by the special staff. Several water sources that were contaminated were recommended to be excluded from time to time from human use for a sufficiently long time. The sources of water supply were the river, several tanks fed by it and a few wells. Three tanks and six wells were set apart for drinking purposes. The three reserved tanks were strictly watched by appointing extra watchmen to prevent contamination. There was no necessity for disinfecting any well with permanganate of potash since none was contaminated. There were 285 attacks with 102 recoveries and 183 deaths. Of these, 57 cases were treated by medical subordinates with 33 recoveries and 24 deaths. During the year the Sri Rajahgopalaswami festival was held and the sanitary recommendations were fully and efficiently carried out.

II. Vital Statistics.—During the year there were 625 births—males 318 and females 307—and deaths 657 against 639 births and 552 deaths of the previous year. There were 74 deaths from fever, 183 from cholera, 32 from dysentery, 48 from diarrhœa, 1 from suicide, 8 from accidents and 2 from snake-bite and 309 from other causes.

III. Sanitation.—The sanitation of the town was fair. The conservancy staff consists of 22 sweepers on Rs. 5 per mensem with 11 dust-carts. Sixteen toties to remove sewage water with eight carts—eight on Rs. 5 each and eight on Rs. 2–8–0 each. Nine private scavenging toties with one bullock night-soil cart and two hand-carts—six on Rs. 5 each and three on Rs. 3–8–0 each. One toty on Rs. 4 to clean the slaughter-house. A qualified sanitary inspector with two maistries under him work the conservancy staff. The staff is sufficient, but the sweepers and toties are not efficient. The sweepings of private houses and the cattle excreta are stored up in the house compounds to be utilized as manure. The street-sweepings are collected in two rubbish depots and sold as manure for about Rs. 300. The sewage water taken by the tub-carts is thrown into vacant spaces far from living houses. The little night-soil that is removed from the town is buried in trenches in one of the rubbish depots. Tht water-supply of the town is from the river Pamaniar and springs on its bed, by tanks fed by it and another river Vadavar and also from some wells. Except the wells, all other sources are not satisfactory since they are liable to be contaminated. The drainage of the town is natural. All the rain water runs into the river Pamaniar. The natural drainage of house compounds is interfered with by digging hollows in them. The house drains open into house compounds or into cesspools in the streets. The cesspools being too big and too many, the existing tub-carts cannot empty them efficiently The insanitary condition of the slaughter-house and the fish and butcher stalls is about to be remedied shortly. Neither the long contemplated iron latrine was put up nor the objectionable Muhammadan burial-ground in the main bazaar street was closed during the year. The roads, streets and lanes are in a fairly good condition.

Regarding cesspools, orders have been received sanctioning the council's proposals to levy fees. Notices have been issued. The council will consider the advisability of increasing the staff, if necessary. It is reported that some of the cesspools have been closed.

Burial-ground.—A fresh site has been handed over. Arrangements are being made for the closure of the present burial-ground.

(Intld.) V. R.

IV. Vaccination.—Vaccination is carried on by a second-class vaccinator on Rs. 10. He has vaccinated 615 cases during the year against 656 of the previous year Of these, 487 were successful, 122 unsuccessful and 6 unknown. The civil apothecary has vaccinated thirteen cases, of which two were successful, ten unsuccessful and one unknown. Out of the total of 628 cases, 415 were under one year of age against 552 of the previous year. The lymph used throughout the year was glycerine paste supplied from the Tanjore depot. Its quality was bad occasionally, and hence the large number of failures.

V. Hospitals and Dispensaries.—(*a*) There are two large and spacious wards for accommodating fifteen male and ten female patients and one contagious with four beds.

Estimates have been called for.
(Intld.) V. R.

(*b*) The contagious ward requires renewal of flooring. The dispensary and the wards, &c., have been whitewashed during the year.

(*c*) The existing furniture is in good condition.

(*d*) The hospital was inspected during the year once by the District Medical and Sanitary Officer and thrice by the District Collector. Their recommendations were: the repairing and whitewashing of buildings; the supplying of furniture, and bedding and clothing and the construction of a proper *operation room*. The local authorities have whitewashed the buildings, supplied the bedding and clothing and are supplying furniture.

Estimate has been called for.
(Intld.) V. R.

(*e*) Only As. 14 have been recovered for dieting patients, since all the patients that were able to pay for their diets dieted themselves—

Year.	Number of in-patients.	Daily average of in-patients.	Number of out-patients.	Daily average of out-patients.
1894-95	430	18·88	16,674	84·52
1895-96	490	22·56	16,798	84·79
1896-97	415	20·05	18,285	93·63
1897-98	461	22·29	16,993	88·94

(*f*) There has been an increase in the admissions and average daily attendance of in-patients. Under out-patients there was a fall of over 1,000 due to non-prevalence of sore eyes to the same extent as in the previous years. There were 202 self-dieted patients during the year against 160 of the previous year.

(*g*) *Mortality.*—There have been ten deaths in hospital during the year; of these—

Two were cases of enteritis.	One of nephritis.
One of rupture of bowels.	One of paralysis.
One of fracture of skull.	One of cirrhosis of liver.
Two of anæmia.	One of idiopathic tetanus.

(*h*) Total number of operations performed during the year 1,463—

Cured	1,325
Relieved	53
Discharged otherwise	58
Died	1
Remaining	26

The chief class of operations were removal of elephantoid scrotum, operations for radical cure for hernia and hydroceles, and removal of tumours, &c.

(*i*) Establishment sufficient and efficient.

(*j*) There is one midwife employed. Her name is Aiyakutti. She is a barber woman by caste. She was trained in this hospital and entertained on 29th July 1881. She gets a pay of Rs. 8 per mensem and an allowance of As. 8 for every case over the minimum of eight cases in the month. She is efficient and popular in the town. Her work is contrasted in the table below:—

1894-95	210
1895-96	229
1896-97	231
1897-98	239

(*k*) Nil.

(*l*) All the affairs of the hospital are discussed in the several municipal meetings of this municipality.

MANNÁRGUDI,
14th April 1898.

(Signed) B. L. DAVY SINGH,
Civil Apothecary.

Endt. on Cur. No. 1170-L.

Submitted.

2. The taxation under the principal heads requires thorough revision. Registers have to be prepared newly with sufficient information to enable speedy collection. If this is done, and the funds are managed judiciously, the state of this municipality will improve.

3. The roads are in fair order all through the town.

MANNÁRGUDI,
17th June 1898.

(Signed) V. RAMACHANDRA ROW,
Acting Deputy Collector.

Endt. on C. No. 355-Ml.

Submitted.

2. During the four months, the Divisional-officers were in charge, some improvement was effected, especially in collections, but the state of vaccination and registration was worse than ever. Such improvement as has been made will be of little use unless the newly-elected Chairman shows himself capable of extending it, and carrying out the radical reforms which are necessary in all departments of the administration.

3. If the Chairman in his first six months of office does not show himself equal to the task, it will be necessary to recommend the appointment of a Secretary.

(Signed) J. TWIGG,
Ag. Collector.

28th June 1898.

2. The number of meetings held by the Municipal Council was 31 against 39 in the previous year and four others were adjourned for want of a quorum against eleven in that year. This was an improvement in the average attendance of non-official members, which was fair, but that of officials, though better than in the previous year, was still indifferent. The Collector will again call the attention of the latter to G.O. No 859 M dated 10th April 1897. Six seats were filled by election during the year and all of them were contested, 41.6 per cent of the registered voters attending the poll.

3. Receipts. (1) - The tax on arts having been extended to the last three classes of the schedule during the year and the demand as originally assessed by the Chairman in those classes rose from Rs 2096 to Rs 2,388 but as much as 13.7 per cent of this amount was again remitted

Vide para 9 of the Chairman's report

22

2. The number of meetings held by the Municipal Council was 31 against 39 in the previous year and four others were adjourned for want of a quorum against three in that year. This was an improvement in the average attendance of non-official members, which was fair, but that of officials, though better than in the previous year, was still in- different. The Collector will again call the attention of the latter to f.o. No 859 m dated 10th April 1897. Six seats were filled by election during the year and all of them were contested, 41.6 per cent of the registered voters attending the poll.

3. Receipts. (1) - The tax on arts having been extended to the last three classes of the schedule during the year and the demand as originally assessed by the Chairman in those classes rose from Rs 2096 to Rs 2,388 but as much as 13.7 per cent of this amount was again remitted

Vide para 9 of the Chairman report

notwithstanding the revision of Schedule A annexed to the District Municipalities Act, which has caused a large decline in other cases

by the Munl Council on appeal ~~These assessments indicate either undue leniency on the part of the Council in admitting appeals or in-accurate assessments on the part of the Chairman.~~

The net current demand under this head ~~therefore~~ showed an increase of only Rs 279. The result of the revision of the last three classes of the schedule, which it is pro-posed to undertake in the current year, should be reported to Government as soon as it is completed. The rate of the taxes on buildings and lands was raised from 7½ to 8½ per cent of the annual value and the net current demand under these heads ~~showed an~~ increased by Rs 507 and Rs 68 respectively.

(2) Owing to ~~the~~ delay on the part of the late Chairman in making assessments, the current collections under the tax on arts declined and were ~~poor~~

J G.O. No 2492 M 12-11-97

Notwithstanding for the reason explained in para 9 of the Chairman's report, it w^d seem that there must have been undue leniency in admitting appeals

Vide para. 9 of the report.

K Vide G.O. No 2495 M 12-11-97

Vide para 9 of the Chairman's report

7

Please see para 11 of the Chairman's report.

satisfactory. Under the tax on buildings ~~they~~, however, improved and were good, ~~while~~ those under the land tax, though better than in the previous year, were still very ~~poor~~ discreditably. The arrear realization ~~which all these heads~~ showed an improvement ~~generally but~~ under the last two heads were still ~~far~~ not satisfactory. From the Chairman's report it appears that steps have already been taken to realize the outstanding balances, but no material im-provement can be expected in this direction unless the chair-man takes special interest in the matter. In this connection his attention ~~of the Chairman~~ is drawn to the remarks of the Deputy Collector in para 2 of his endorsement and those of the Collector in paras 2 and 3 of his Endorsement. With reference to para 3 of his Endorsement, the Collector is requested to submit a report showing the progress made in the collection of taxes in the first six months of office of the newly elected Chairman

Stet

(3) There was a large increase in the number of warrants issued during the year, but their execution was not prompt.

(4) There was an increase in the receipts under tolls, realizations under special acts, license and other fees, contributions from Local Boards, fishery rents and advances recovered, but a decline under Conservancy receipts, Slaughter house fees and fines, and there variations have not been explained in some cases the Chairman's letter in some cases.

(5) Notwithstanding the remarks of government in para 2(5) of J. No 2492 M dated 12th November 1877, the number of houses served by the private scavenging agency was only 312 or one less than in the previous year and the service was worked at a loss of Rs 448 to the Municipal Council against Rs 249 in that year. This is very unsatisfactory reprehensible and should have been explained in the Chairman's letter and requires explanation

Out of the total no of 3278 houses assessed to the tax on buildings only 312 have been brought under the system

See 221

Please see para 3 of the Deputy Collector's endorsement.

which should be submitted through the Collector. Meanwhile the Municipal Council should take the matter in hand and prosecute without hesitation the occupiers of all insanitary premises.

4. Expenditure (1) Public works

No new work was undertaken during the year. The total outlay on Communications amounted to Rs 4037 or 62.3 per cent of the net Municipal income from tolls and the roads are reported by the Revenue Divisional officer to have been maintained in fair order.

(2) Education. The net expenditure on education amounted to Rs 2590 or 15.7 per cent of the receipts from taxation. Of this sum, Rs 1846 were spent on primary, and the remainder on secondary, education. The Municipal Council continued to maintain two primary schools on the salary system

system and ~~as in the previous year~~ a municipal school for the training of teachers, ~~was~~ conducted by the inspecting schoolmaster. No information has been furnished in the chairmans report regarding the working of this institution - an omission which should not occur. The attendance at the Panchayat School remained almost stationary but at the other Municipal School it declined. Both these schools, however, appear to have done well at the departmental examinations. The Council also aided two secondary schools with salary grants against one in the previous year and twelve primary schools with result grants, as in that year. Owing to the increase in the number of aided schools, the attendance at these institutions showed an

Vide para 27 of the Chairmans report

an improvement. The results of the grant in aid system continued to be good and the allotment for grants was exceeded by more than 9 per cent. ~~This satisfactory to note that~~ the total number of boys under instruction in the Municipal and aided schools rose from 1016 to 1085 or 74.5 per cent of the male population of school going age.

(3) Medical Relief. The number of in-patients treated at the Municipal hospital was 461 or 46 more than in the previous year, but that of out-patients fell from 18,285 to 16,993, the large decrease being attributed by the Civil Apothecary to the less prevalence of sore eyes. The midwife attached to the Municipal hospital attended 239 cases of labour against 231 in 1896-97.

Please see para V (f) of the Medical Report.

(4) Vaccination and Vital Statistics. The total number

-formed during the year
fell from 730 to 606 and
the quality of the work
greatly deteriorated the
percentage of the reported
success being 79.2 against
87.7 in the previous year, the decline being attributed to the inferiority of the lymph obtained from Jaypore
Infantile vaccination
also showed much retrogression,
the total number of children
under one year successfully
vaccinated being 373 or
18.5 per mille of the population
against 24.6 per mille in
1896-97 and a registered
birth rate of 30.6 per mille
These unsatisfactory results which
~~so reflect discredit on those~~
~~concerned and~~ indicate want
of supervision on the part
of the Municipal Council reflect discredit on those concerned

Vide para IV of the Medical Report

The number of deaths registered
during the year rose from
552 to 687 while that of births
fell being 625 against 639
~~fell being 625 only~~ as shown
in the previous year. The returns
in the latter case cannot be
regarded as accurate, the rate

Vide fo No 562-M
16-3-97. L

recorded being much below
the normal.

(5) Sanitation. The outlay
under this head amounted
to Rs 5878 or 21.9 per cent
of the current receipts against
25.3 per cent in 1896-97. From
para III of the Medical report
it appears that some attention
was paid to the general
sanitation of the town, but
much remains to be done
before the defects pointed
out by the Deputy Sanitary
Commissioner in his last
inspection notes can be
remedied.

5. General Remarks. The
year again closed with
a deficit of Rs 2038 instead
of a balance of Rs 570
anticipated in the large
budget, the large decrease
being due to short collections
under the principal taxes.

There was some improvement
in the collection of taxes and

of vaccine operations for

on the whole.

~~Education~~, but ~~in other~~
respects the administration
of the ~~municipality~~ during
the year under review left.
much to be desired and
cannot be regarded
as efficient.

6. The tabular statements
the causes of deaths among
in-patients and the
particulars regarding
the operations performed
during the year, given
in the Medical report
are unnecessary and
should be omitted in future
reports.

Note to Statement I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes.
2. Tax on buildings is levied at 8½ per cent. and tax on lands at 8½ annas per cent. of rent value. for every 80 square yards.
3. Water-tax on buildings and lands is levied at per cent.
4. Tax on vehicles and animals is levied at the maximum rates.
5. Tax on carts, &c., is levied at Rs. 4 per cart. per annum.
6. Tolls are levied at the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. 669 Local 9.7.86 & 1029 Local 8.10.86.
8. The house-tax registers were last revised in the official year 96-97 and the land tax registers in the official year 96
9. Total extent of land assessed is 1600 acres.
10. The mode of estimating the annual rental of houses and lands is as follows:—

House tax— according to the extent, accommodation, construction, comforts, & local demand.

Land tax— The principle on which the tax is assessed is that for lands which are actually leased out for rent, the rent is taken for assessment & for other lands, the Council levy Rs 8-0-0 for every Rs 100 obtained from the produce after deducting the Kudivaram & cultivation expenses.

[signature]

Deputy Collector in charge.

Statement I-A.—Endowments entrusted to the Municipal Council under Sections 25 and 26 of Act V of 1884 for the official year 1897-98.

Note to Statement I.

1. Tax on arts, &c., is levied on ~~the first~~ all classes.
2. Tax on buildings is levied at 8½ per cent. and tax on lands at 8½ annas per cent. of rent value. for every 80 square yards.
3. Water-tax on buildings and lands is levied at per cent.
4. Tax on vehicles and animals is levied at the maximum rates.
5. Tax on carts, &c., is levied at Rs. 4 per cart. per annum.
6. Tolls are levied at the maximum rates.
7. License-fees are levied at the rates sanctioned in G.O. 669 9.7.86 & 1029 8.10.86.
8. The house-tax registers were last revised in the official year 96-97 and the land tax registers in the official year 96
9. Total extent of land assessed is 1600 acres.
10. The mode of estimating the annual rental of houses and lands is as follows :—

House tax— according to the extent, accommodation, Construction, comforts, & Local demand.

Land tax— The principle on which the tax is assessed is that for lands which are actually leased out for rent, the rent is taken for assessment & for other lands, the Council levy Rs 8-0-0 for every Rs 100 obtained from the produce after deducting the Kudivaram & cultivation expenses.

Do.

The Chairman
Bench of Magistrates
Nuwara Eliya.

Sir,

Replying to your letter Reg. No
Current No 202/4 of 98 dated 22nd May 98,
I have the honor to inform you that
the fall of 87 cases has been distributed
under the several offences as shown
in the margin and seems to be due to
the following causes:—

(1) Offences under by-law 27 (driving at
dark nights without light):— The
difference is due to the strict observance
of the rule on the part of Jutka drivers.

(2) Under sections 188+189 of the Municipal
Act (Carrying on offensive & dangerous
trade without license):— Reluctance

To
The Chairman
Bench of Magistrates
Mamangudi.

Sir,

Replying to your letter Ref. in current no. 202/A of 98 dated 22nd May 98, I have the honor to inform you that the fall of 87 cases has been distributed under the several offences as shown in the margin and seems to be due to the following causes:—

(1) Cattle cases under bye law 27 (driving at dark nights without light):— The difference is due to the strict observance of the rule on the part of Jutka drivers.

(2) Under sections 188+189 of the Municipal Act (carrying on offensive & dangerous trade without license):— Rule

difference is due to the fact that in the year 1896 a large number of prosecutions were instituted against persons who failed to take out licenses in time which seems to have had a wholesome effect upon them in the next year.

(3) The small difference under offences under sections 247 & 283 (omission to register births & deaths) calls for no special remarks.

(4) Under section 138 (Omission to get vaccinated):— Due to the increased appreciation of the benefits of vaccination on the part of the public.

(5) Under section 155 (Pollution of water) As many of the prosecutions were thrown out on the ground that the reserved tanks were not provided with su... known people agai... water for purpos... those for which it ...

it has been resolved to supply the wants at an early date.

I have the honor to be
Sir,
