AUGUST.

Administration Report.

Reviewing the — of the Anakápalle Municipal Council for 1897–98.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. V. RAMAMURTI CHETTI GARU, Chairman, Municipal Council, Anakápalle, to the Secretary to Government, Local and Municipal Department (through the Head Assistant Collector, Narsapatam), dated Anakápalle, th June 1898, No. 204.

I have the honour to submit my report on the administration of this municipality for the official year 1897–98, together with the prescribed statements of receipts and charges.

I.—CONSTITUTION OF THE COUNCIL.

2. The maximum number of councillors to this municipality is thirteen, as prescribed in G.O., No. 864, Financial, dated 30th April 1883. The constitution of the council was, on the 31st March 1898, one ex-officio, two official and nine non-official councillors, making a total of twelve councillors; and one official seat in the council was in the last part of the year vacated by the transfer of M.R.Ry. K. Sankarayya Puntulu Garu, the Sub-Assistant Inspector of Schools, Vizagapatam Range, who was also a municipal councillor on this council.

3. The office of Chairman having become vacant in consequence of Mr. F. W. Gooch's resignation of chairmanship on the 31st March 1897, the Revenue officer in charge of the Narsapatam division assumed charge of this office, which he held from 1st April 1897 to 15th June 1897, when I succeeded to the office, under Government notification No. 404 published in the *Fort St. George Gazette*, Part I-A, dated 15th June 1897.

My three years' term of office of municipal councillor expired on the 9th October 1897 and consequently I ceased to be the Chairman of the council from that date, under section 17 of the District Municipalities Act. The Revenue Divisional officer again assumed charge of the office of Chairman and continued to be in the office till the 15th February 1898. In the meanwhile, I was re-appointed by Government as councillor of this municipality and was again elected as Chairman of this council on the 10th January 1898. The election was approved and published by Government in notification No. 120, dated 15th February 1898.

4. This municipality, which had not the power of electing its own councillors until recently, has been granted the privilege of electing (4) four of its councillors under notification published in G.O., No. 2260 M., dated 15th October 1897. The Chairman, however, is appointed by election, which privilege this council has been exercising for the last thirteen years.

5. The total number of meetings actually held during the year was 18 (eighteen) against 29 in the previous year.

Besides these, five meetings were adjourned for want of quorum.

6. The average attendance at the meetings actually held was 7·49, viz., 2·22 of official and 5·27 of non-official members. The average attendance of Europeans was ·44, while that of Natives was 7·05.

II.—RECEIPTS.

7. The year opened with a balance of Rs. 4,428–10–4. The total current receipts, inclusive of the opening balance, amounted to Rs. 18,804–13–2 against Rupees 22,755–14–3 of the previous year and Rs. 19,810 anticipated in the revised estimate. The sum of Rs. 22,755–14–3 stated to be the receipts of the previous year includes a sum of Rs. 3,000 borrowed from Government for the construction of the Municipal office building and another sum of Rs. 1,669 realized under magisterial fines. If this loan is excluded, the actual receipts from the ordinary sources of income come to Rs. 19,755–14–3. The decrease under receipts is chiefly due to the short realization under "Fines under Municipal and other Acts." Only Rs. 208 were realized under fines in the year under report.

A.—*Receipts from Taxation.*

8. *House-tax.*—As in previous years, the tax under this head was levied at $6\frac{1}{4}$ per cent. on the actual rent value of the buildings. The assessment of the tax was based on the actual rental in case of buildings let out. As regards houses which were not leased out, the actual rent was deduced from the rent of a model house in the neighbourhood, regard being had to position, extent, accommodation, comforts, and lastly local demand. The house-tax register was last revised in the year 1894–95. The demand originally fixed under this head was Rs. 2,554–12–3. The council remitted on appeal Rs. 14–15–0, leaving Rs. 2,539–13–3 as final demand. Of this amount, Rs. 2,319 or 91·3 per cent. were collected during the year and the balance of Rs. 220–13–3 is to be adjusted in the current year. Of the balance outstanding at the close of the year, a sum of Rs. 119 was subsequently realized and the remaining small balance will be adjusted in the current year.

The arrears outstanding at the commencement of the year, together with those of previous years, amounted to Rs. 95–3–6, of which Rs. 16–6–0 were collected in the year under report and Rs. 1–2–0 were remitted on account of vacant houses, leaving a balance of Rs. 77–11–6 for adjustment in the current year.

9. *Land-tax.*—The demand under this head was Rs. 2,416–14–4, of which Rs. 2,341–1–1 or 96·8 per cent. were collected within the year, leaving a balance of Rs. 75–13–3 to be adjusted in the current year. Of the balance outstanding at the close of the year, Rs. 33–11–5 were since collected.

The arrears outstanding at the beginning of the year, together with those of the previous year, amounted to Rs. 54–8–11, of which Rs. 29–6–0 were collected during the year and Rs. 2–13–0 were written off the accounts as irrecoverable, leaving a balance of Rs. 22–5–11 for adjustment in the current year.

The land-tax register was revised in 1896–97. The assessment is based on the extent of land and the nature of the soil, the rates being $2\frac{5\,8}{1\,2\,1}$ pies on every 80 square yards of land in "Cheruvulopala," $1\frac{1\,1\,7}{1\,2\,1}$ pies in "Etiavala," $1\frac{5\,9}{1\,2\,1}$ pies in "Ava," and $\frac{3\,9}{1\,2\,1}$ pies in "Cheruvuvenaka" divisions, sanctioned in G.O., Mis. No. 948 M., dated 24th September 1886.

10. *Tax on Arts, &c.*—The demand originally fixed by the Chairman under this head was Rs. 1,411. The council remitted on appeal Rs. 171. Thus, the demand as finally settled is Rs. 1,240, of which Rs. 1,171–8–0 or 94·4 per cent. were collected within the year and Rs. 21–8–0 were written off as irrecoverable on account of the poverty and death of certain tax-payers, and a sum of Rs. 47 still remains to be adjusted in the current year.

The arrears outstanding at the opening of the year under report, together with those of the previous years, amounted to Rs. 104–2–0, of which Rs. 2–8–0 were collected within the year, leaving a balance of Rs. 101–10–0 for adjustment in the current year.

The total number of persons finally assessed to the tax on arts, &c., is 420, of whom one was assessed under class I, one under II, 13 under IV, 18 under V, 5 under VI, 43 under VII, 89 under VIII, and 250 under class IX of the schedule A of the Madras Act III of 1897.

11. *Tax on Animals and Vehicles and Registration of Carts.*—The receipts under these heads amounted to Rs. 314–12–0 and Rs. 249 against Rs. 286–12–0 and Rs. 253, respectively, of the previous year.

12. *Coercive Processes.*—In 208 cases distraint warrants were issued, of which 138 were those that were executed and cancelled, and 70 remained unexecuted at the close of the year. In no case was property sold. No prosecutions for non-payment of tax were instituted against defaulters.

13. *Tolls.*—The amount realized by the auction sale of tolls was Rs. 9,400, as compared with Rs. 9,165 of the previous year. The increase was due to keen competition amongst lessees. Of this sum, 60 per cent. or Rs. 5,640 was paid over to the District Board as its share, the balance of Rs. 3,760 was collected from the lessees and credited to Municipal funds during the year under report. No expense was incurred in the collection of this amount, the lessees having the exclusive right of collecting tolls from the six gates.

14. *Incidence of Taxation.*—The population of the town is, according to the last census, 17,010, and the total receipts exclusive of tolls amounting Rs. 6,443, the average incidence was As. 6–1 per head, or if tolls be also included As. 9–6 per head as compared with As. 7–2 and As. 10–7, respectively, in the previous year.

B.—Miscellaneous Receipts.

15. The total receipts under this head amounted to Rs. 4,172–9–9 against Rs. 8,838 of the previous year. The decrease occurs chiefly under "Loans" and "Fines under Municipal and other Acts", as explained in paragraph 7 *supra*.

16. *Fees under Act II of* 1888.—Rupees 20 were realized under this head on account of licenses granted to certain dramatic companies under Places of Public Resort Act.

17. *Produce of Land and Gardens, &c.*—A sum of Rs. 8 was realized during the year on account of the value of grass overgrown in the newly-acquired burning and burial ground near the river embankment.

18. *Sale-proceeds of Old Materials and Empty Oil-cans, &c.*—Rupees 14–4–0 were collected during the year on account of sale-proceeds of empty tins and unserviceable articles against Rs. 36–8–0 of the previous year.

19. *Conservancy Receipts—Sale-proceeds of Night-soil, Street-refuse, &c.*—The sweepings of the municipal cartstand and those of streets were sold in 1896–97, as reported last year, for Rs. 116, of which Rs. 60 only were collected within the close of that year and the arrears balance, viz., Rs. 56, was collected in the year under report. In addition to this, a sum of Rs. 9–4–0 was realized on account of sale-proceeds of old street-refuse deposited in the depot. The sweepings of the year under report were deposited in a depot and sold to a contractor for Rs. 120, exclusive of the annual rent of Rs. 40 for the depot land belonging to a private individual. The season for sale of sweepings having set in in the current year, nothing could be realized within the 31st March 1898. A sum of Rs. 102–8–0 was, however, subsequently collected in the current year (1898–99). The balance will shortly be realized.

20. *Fees from Educational Institutions.*—These amounted to Rs. 1,205–11–9, as compared with Rs. 1,196–0–7 of the previous year and Rs. 1,200 anticipated in the budget. The small increase over the actuals of the previous year is due to the increased strength of the Middle school.

21. *Sale-proceeds of Medicines and other Hospital Receipts.*—These were Rupees 12–13–10 against Rs. 10–0–6 of the last year and Rs. 60 anticipated in the budget.

22. *Income from Markets and Slaughter-houses.*—The right of collecting fees in the municipal markets, viz., vegetable and fish markets, was leased out for Rs. 602 against Rs. 575 of the previous year. The increase was due to the keen competition amongst renters. The whole amount, viz., Rs. 602, was collected during the year. The municipal slaughter-house was leased out for Rs. 143, which amount was fully realized during the year.

The ground-rent of market godowns was collected departmentally, as usual. The total demand was Rs. 120–1–6, of which Rs. 90–2–3 were collected during the year, leaving a balance of Rs. 29–15–3 for adjustment in the current year. Rs. 18–4–6 were subsequently collected in the current year.

The arrears outstanding at the beginning of the year were Rs. 4–4–0, of which Rs. 1–6–6 were collected within the 31st March 1898 and Rs. 2–13–6 remitted on the ground that a certain godown was vacant during the whole year. There was no balance at the close of the year.

23. *License Fees.*—The amount collected as license fees was Rs. 80–7–6 against Rs. 71 of the previous year and Rs. 100 estimated in the revised estimate. The item being of a fluctuating nature, calls for no remark either for increase or decrease.

24. *Cartstand Fees.*—The privilege of collecting cartstand fees was leased out during the year for Rs. 565, as compared with Rs. 535 of the previous year. The increase is due to keen competition amongst lessees. The whole of the leased amount was collected during the year.

25. *Warrant and Distraint Fees*—were Rs. 18–12–0 against Rs. 20 anticipated in the revised estimate. Of this sum (Rs. 18–12–0), Rs. 3–6–0 were on account of distraint fees and Rs. 15–6–0 were on account of warrant fees.

26. *Fines under Municipal and other Acts*—amounted to Rs. 208–4–5 against Rs. 1,668–13–0 of the previous year and Rs. 600 estimated in the budget. The decrease under this head is explained below:—

The causes for the abnormal increase in the amount of receipts under this head during the year 1896–97 have been explained in paragraph 25 of the last year's administration report of this municipality. But the receipts in the year under report fall far below the average amount of fines during the past three years prior to 1896–97.

Apparently no other cause can be attributed to this decline than to the remissness on the part of the police in detecting offence.

27. *Grants and Contributions from Government*—were Rs. 97–10–8 against Rs. 40 estimated in the budget, the increase being due to the collection of arrears contribution from Government towards the pay of the gymnastic instructor.

28. *Grants from Local Funds.*—Rs. 500 were the usual amount of contribution received from the Taluk Board, Narsapatam, for the upkeep of the municipal dispensary.

29. *Recoveries for Services rendered to Private Individuals—Private Scavenging.*—Under this head Rs. 346–15–6 were collected as private scavenging fees against Rs. 325–12–0 of the last year, and Rs. 27 as fees for cleaning cess-pools of certain private individuals against Rs. 13–10–0 of the previous year. The increase is due to the levy of fees at the enhanced rate in the first quarter of the year under report. The private scavenging system is nearly self-supporting during the year under report, the charges for the service being Rs. 380–5–0, inclusive of the value of one iron hand-cart purchased in 1896–97, but the price of which was paid in the year under report.

The number of houses served by the municipal ageney on the 31st March 1898 was 147 against 142 of the last year. The list of houses which have latrines, submitted by the sanitary maistry, discloses that about 35 houses are still to come under Municipal scavenging agency. Measures will be taken to induce the owners of these houses to place them under the said agency. All other houses do not seem to possess latrine accommodation for want of room or way to allow a scavenger to enter the house or yard. It is said that most people being accustomed to resort to places outside the town for easing themselves, did not in the first instance build their houses with latrine accommodation. Thus, most of the houses not being either spacious enough to allow a latrine to be provided or accessible to the scavenger for want of a proper way to their yards, the enforcement of section 207 of the Municipal Act seems to be difficult in this town. The houses and huts in Gavarapalem division are in such a congested state that it is very difficult to find room to provide a latrine for each block of six or more houses. Efforts will, however, be made to provide proper ways or small roads behind the rows of houses which have yards, to admit scavenging being done. When such small roads are opened, it will be possible to extend the private scavenging system to a far larger extent than at present.

30. *Miscellaneous.*—Under this head a sum of Rs. 133–13–4 was collected during the year, which is composed of the following items :—

	RS.	A.	P.
Sale-proceeds of municipal conservancy carts and bullocks, and recoveries on account of damages to municipal lanterns ...	102	2	4
Fees for numbering carts	28	9	0
Fees and charges, &c., collected on unregistered carts seized under section 90 of the Act	3	2	0
Total ...	133	13	4

31. *Advances recovered.*—A sum of Rs. 50 is the amount of last year's outstanding advance paid to the hospital assistant sent for training and adjusted in the year under report under the item of "Advances recovered."

III.—EXPENDITURE.

32. The total expenditure for the year amounted to Rs. 17,487–12–10 against Rs. 18,327–3–11 of the previous year and Rs. 19,500 estimated in the revised estimate.

33. *Grant 1, Public Works.*—The total amount expended on public works was Rs. 3,754–9–7 against Rs. 5,910 allotted in the revised estimate. The details are as follow.

34. *New Works—Communications.*—The earthwork of a portion of Santhabayalu road, which was commenced last year, was completed during the year under report at a cost of Rs. 27–15–8.

35. *Repairs—Communications.*—A sum of Rs. 1,410–2–1 was spent under this head against Rs. 1,700 sanctioned in the revised estimate. There was no proper expenditure on certain roads which wanted repairs, but were left unrepaired during the last quarter of the year, when unfortunately the permanent overseer fell ill and the man put to act for him was new to the work. Some of the works that were sanctioned were left unexecuted for the above reason.

36. *The total length of Roads in the Municipality is* 13 *miles and* 8 *yards.*—Out of this length, 12 miles 2 furlongs and 170 yards are maintained by the council. The total length of metalled roads is 10 miles 1 furlong and 78 yards; that of gravelled and unmetalled roads is respectively 1 mile 2 furlongs and 120 yards and 1 mile 4 furlongs and 30 yards.

37. *New Works—Buildings.*—Under this head Rs. 1,490–6–3 were spent against Rs. 3,150 sanctioned in the revised estimate. The following is the explanation for the less expenditure under this item :—

(*a*) The construction of the Municipal office building, which was commenced during the year, was expected to be completed before the end of the year. But contrary to our expectation the building was not so finished as the contractor felt great difficulty in procuring four hip rafters of country wood of the length of 30 feet each and applied for an extension of time which was granted to him. During this extension the year closed and there was no full payment of the cost of construction, which payment was expected at the time of the preparation of the revised budget; further reasons for the stoppage of the work of construction were that after the rafters were procured and used for the work there was sagging of the roof of an end room, and that the contractor, who had fallen ill a short time before the work was stopped, died subsequent to the stoppage of work. Instructions have been applied for and now received from the Executive Engineer as to how the work should be completed and the defect discovered removed. A sum of Rs. 1,329–12–5 was spent for the masonry work of the buildings.

(*b*) A mud-wall latrine near the old fort was constructed during the year at a cost of Rs. 35–8–9.

(*c*) Rupees 15–13–6 were spent in the construction of a thatched shed in the hospital compound for patients suffering from certain contagious diseases.

(*d*) The Government having in G.O., Mis. No. 1645 M., dated 23rd July 1897, directed the council to shift the existing toll-gates to municipal borders, a sum of Rs. 31–7–0 was spent towards the construction of three toll-sheds on the said boundaries.

(*e*) Rupees 12–13–3 were spent in constructing temporary latrines and urinals during the Nookalamma's festival.

(*f*) The Municipal Upper Primary school, which was constructed last year, was during the year under report extended by the addition of a room at a cost of Rs. 13–1–4.

(*g*) The balances of payments due for the following works executed last year were paid in the year under report :—

	RS.	A.	P.
(1) Standard plan iron double latrine in Kotina Veedhi	23	11	9
(2) West compound wall of the new burning and burial ground ...	2	2	3
(3) Moveable iron latrine in Payakarao bushes	26	0	0

38. *Repairs—Buildings.*—A sum of Rs. 50–14–4 was spent on petty repairs to the existing public latrines and hospital building.

39. *New Works—Drainage.*—Rs. 97–1–0 were paid as compensation for the land taken up for the extension of Kotina Veedhi drain.

40. *Repairs—Water-supply.*—Rs. 5–2–0 were expended on petty repairs to the drinking-water wells and the tank.

41. *Tolls and Road Charges.*—The total amount expended on municipal roads during the year was Rs. 1,438, or 38·2 per cent. out of Rs. 3,760, municipal share of the total income from tolls. The decrease under the usual percentage of 50 fixed by Government is due to the circumstances explained in paragraph 35 *supra*.

42. *Grant 2, Education.*—There were on the 31st March 1898 one Middle school on salary-on salary system, one Upper Primary school and two Lower Primary schools on salary-results system; in all thirteen schools with 556 pupils on the rolls. The total cost incurred under this head was Rs. 2,404 against Rs. 2,342 of the previous year, as noted below :—

	1896–97. RS.	1897–98. RS.
(1) Municipal Schools—		
(1) Salary system—		
(*a*) Middle school	1,265	1,178
(2) Salary-results system—		
(*a*) Secondary schools	...	...
(*b*) Primary schools	644	694
(3) Grant-in-aid schools—		
(1) Salary grants	...	...
(2) Results grants—		
(*a*) Secondary schools	...	...
(*b*) Primary schools	314	410
Normal stipends	...	...
Miscellaneous	119	122
Total ...	2,342	2,404

The increase in the year under report is chiefly due to increased earnings of result grants.

(*a*) *Municipal Middle School.*—The number of boys under instruction on the 31st March 1898 was 54 against 62 on the corresponding date of the previous year. The decrease seems to be due to the famine that prevailed during a part of the year. In the Lower Secondary Examination, three out of eleven sent up have passed, two completely and the other incompletely. The average net cost of educating each pupil in this school fell to Rs. 5 from Rs. 7 in 1896–97.

(*b*) *Salary-result Schools.*—There were three schools maintained under this system against the same number in the previous year. There were thus one upper primary school, one lower primary school for Pariah boys, and one night school for labouring classes. The total number of pupils reading in all the municipal primary schools was 121 against 120 of the last year. The number of pupils that were presented for examination in these schools was 52 against 79, of whom 44 passed. The cost of educating each pupil was Rs. 3–9–4 against Rs. 4–1–0 in 1896–97. The decrease in the cost is chiefly due to the non-existence of the Muhammadan school throughout the whole year, whereas it existed for seven months in the year 1896–97.

(*c*) *Result Schools.*—There are nine of these schools, and the total number of pupils at the close of the year was 381 against 388 of last year. The decrease being very slight calls for no remark. The number of pupils presented for examination was 275 against 250, of whom 234 passed against 177 in 1896–97. A sum of Rs. 410–1–3 was paid to the teachers as result grants during the year. The teacher of one of the result schools was refused the grant earned in the year for false personation of boys at the grant examination.

(*d*) *Miscellaneous.*—Rupees 121–9–9 were spent under this head towards the salary and famine batta and contingent charges of the common gymnast.

(*e*) The number of boys and girls of school-going age in the town was 2,551, as per last census, of whom 574 boys and 2 girls were under instruction in schools. The usual statements received from the Assistant Inspector of schools are enclosed.

43. *Grant 3, Sanitation and Medical Services, Hospitals and Dispensaries.*—There was one dispensary maintained by the council during the year. The number of out-patients treated in it was 8,121 against 9,376, while that of in-patients was 127 against 101 of the preceding year. The hospital assistant has explained the decrease and the increase in the number of patients in his report herewith submitted. Rupees 2,093 were spent for maintaining the dispensary against Rs. 1,820 of the previous year and Rs. 2,090 estimated in the revised estimate. The increase over the actuals of the previous year was due chiefly to the payment made in the year under report of arrears of salaries and house-rent of the acting hospital assistant and one-eighth pay of the permanent hospital assistant while under training and partly to the adjustment of an advance paid to the latter in the previous year for travelling expenses.

The temporary midwife attached to the municipal dispensary attended 139 labour cases during the first nine months of the year and the permanent one, who returned from the training hospital in the latter part of the year, attended 40 labour cases.

44. *Vaccination.*—There is one second-class vaccinator on a pay of Rs. 10 per mensem. Vaccination has been compulsory in this municipality for the last seven years. The total number of operations performed during the year was 905 against 1,240 of the previous year. The decrease in the number of operations is due to the decrease in the number of unprotected cases, as explained by the local medical officer in his report. Of the total number of vaccinations, 891 were successful and 14 unsuccessful. One hundred and one persons were prosecuted for failure to get their children vaccinated against 89 of the previous year. All the vaccine operations were performed by means of animal lymph supplied from the Local Fund depot, Vizagapatam. The total cost of vaccination during the year was Rs. 153–7–0 against Rs. 159–3–0 of the previous year. The average cost of each successful case is As. 2–8 against As. 2–2 of the previous year. This increase in the cost is due to the decline in the number of operations during the year.

45. *Vital Statistics.*—The total number of births registered is 496 against 563 of 1896–97, of which 261 are males and 235 are females, against 298 males and 265 females in the preceding year or 29·41 per thousand of population as per last census. The total number of deaths registered is 456 against 359 of last year, of which 265 are males and 190 are females against 213 males and 146 females in the previous year or 26·82 per thousand of population as per last census. Twenty-nine prosecutions were instituted for failure to register births and deaths. The following were the causes of

death registered during the year: 29 cholera, 105 fevers, 73 dysentery and diarrhœa, 10 accidents and injuries, and 239 other causes.

46. *Conservancy.*—The total expenditure during the year was Rs. 4,773–5–4 against Rs. 4,420–9–6 of the previous year and Rs. 4,700 sanctioned in the revised estimate. The increase over the actuals of the previous year is chiefly due to (1) the charges incurred in connection with the Bubonic plague, (2) to the payment of salaries to the conservancy establishment at the enhanced rate of pay sanctioned in G.O., No. 173 M., dated 6th February 1897, and also to the payment of a small rate of famine batta, *i.e.*, at one rupee per head. The roads and streets were daily swept and kept clean. There were 5 fixed masonry and 116 moveable iron dust-bins. The town sweepings are daily carted outside the town to the depot of the sweepings contractor, to whom the cart-stand sweepings and town refuse were sold for Rs. 120 for the year, excluding the rent of depot land, viz., Rs. 40. There were 27 public latrines at the close of the year against 26 of last year. There are 16 conservancy carts at work including 12 iron hand-carts for night-soil during the year.

47. *Conservancy—Other Charges.*—Rupees 559–3–11 were spent under this head against Rs. 1,009–0–11 of the previous year and Rs. 460 estimated in the budget. The increase over the budget is on account of the purchase of a piece of land for enlarging the night-soil depot at a cost of Rs. 51–9–0, and to the higher prices of horse-gram, &c., during the last famine for the fodder of conservancy bullocks.

48. *Private Scavenging.*—The number of private latrines under the municipal agency at the close of the year was 147 as compared with 142 of the last year. The number of private latrines in the town being only about 180, the increase that can be expected at present will not be very large for reasons stated in paragraph 29 *supra*.

The total amount of scavenging fees collected was Rs. 373–15–6, while the expenditure, including contingencies and the cost of an iron hand-cart (viz., Rs. 29–8–0) supplied last year, was Rs. 380–5–0. The slight increase of expenditure over the actual receipts under this head may be attributed to the amount of famine batta paid to the scavengers. Thus the private scavenging system in this municipality during the year may be said to have been self-supporting.

49. *Plague Charges.*—A sum of Rs. 201–3–3 was spent under this head against Rs. 500 estimated in the revised estimate, on account of the following items:—

	RS.	A.	P.
Cost of constructing four thatched sheds—one on the railway platform for inspection purposes and three in the segregation camp	66	8	11
Inspection allowance of the local medical officer at the rate of Rs. 10 per mensem	37	10	8
Cost of plague medicines and portable tin-canisters, &c. ...	96	15	8
Total ...	201	3	3

50. *Grant 4, Lighting.*—The town was lighted by 113 lamps against 109 lamps in the previous year, 4 new lamps having been put up during the year on the Kotina Veedhi road leading to the railway station. The total expenditure incurred during the year was Rs. 461–6–8 against Rs. 479–12–5 of the previous year and Rs. 420 of the revised estimate. The decrease in the expenditure was due to the fluctuations in the prices of kerosine-oil, &c., purchased for the purpose, while the increase over the revised estimate was due to the fact that some of the old burners and wooden lamp-posts had to be replaced by new ones during the year under report. The charges were as follow:—

	RS.	A.	P.
(1) Establishment charges	146	10	0
(2) Contingencies	314	12	8

51. *Markets—Contingencies.*—A sum of Rs. 42–12–0 was spent under this head towards the rent of the fish-market.

52. *Avenues—Contingencies.*—A petty sum of Rs. 1–14–6 was expended under this head towards the contingent charges connected with the avenues planted last year.

53. *Survey of Land.*—Under the circumstances reported in this office letter No. 373, dated 25th December 1897, embodied in G.O., No. 406 M., dated 18th February 1898, a sum of Rs. 217–14–5 was spent towards the cost of surveying the lands against Rs. 100 sanctioned in the revised estimate. A half of the former amount (viz., Rs. 217–14–5) will be realized in the current year from the District Board, Vizagapatam, in accordance with the arrangement made in the beginning by the President. The work of survey, which was first commenced with the object of ascertaining the exact area of different lands under cultivation within the municipality and to estimate thereby the loss of land-tax, which would accrue by the contraction of municipal limits, was subsequently given up, the President, District Board, having withdrawn his proposal to exclude certain roads from the municipal limits. The work performed had thus been incomplete. Apart from the question of contraction of limits, if the work is carried on completely, I believe it would be to the advantage of the council, as there is every likelihood of fetching more tax to the council at the existing rates, and the tax imposed after a detailed survey would be more just and equitable. The difficulty that presents itself to the council is the question of funds to carry on the work.

54. *Miscellaneous—Other Charges.*—Rupees 207–3–3 were spent under this head against Rs. 180 sanctioned in the revised estimate. They were composed of the following items:—

Rupees 180–10–3 printing charges, Rs. 15–4–0 contribution to the Queen's Commemoration Committee, Madras, towards the cost of casket, &c., Rs. 8–2–0 tom-tom charges and travelling allowances, and Rs. 3–3–0 wages of coolies employed in detecting the unlicensed carts in the town.

55. *Contributions to Provincial Funds.*—These were Rs. 162, being composed of the following items:—

Rupees 88 contribution to the Medical College, Rs. 55 sanitary inspection, and Rs. 19 Medical Reserve staff.

56. *Supervision and Management.*—The total charges incurred under this head were Rs. 1,417–7–5 against Rs. 1,400 sanctioned in the revised estimate and Rs. 1,608 of the previous year.

The charges were Rs. 587—office establishment, Rs. 69 inspection, Rs. 292—collection establishment, Rs. 136–13–4—purcharse of account books, &c., Rs. 152–10–1—office contingencies, and Rs. 180—contribution to the central office and audit establishments

57. *Repayment of Debt*—Rupees 374–8–0 were spent during the year towards the repayment of the loan of Rs. 3,000 made by Government to build the municipal office and the interest thereon, as detailed below:—

		Rs.	A.	P.
On account of instalment paid during the year	... ...	274	15	0
" of interest for the year under report	... ...	99	8	6

58. *Advances Recoverable.*—A sum of Rs. 21 as paid to the headmaster of the Municipal Middle school for the purchase of library books and Rs. 7 to the surveyor and sanitary head maistry for contingent charges.

59. *Refunds of other than Current Collections.*—Rs. 1,145 as paid towards refunds of magisterial fines reported in paragraph 35 of this office letter, No. 373, dated 25th December 1897, printed in G.O., No. 406 M., dated 18th February 1898, and Rupees 130–4–0 were the amount of magisterial fines under sections 3 to 5 of Towns Nuisance Act credited to Municipal funds in 1896–97 and subsequently transferred to "Law and Justice" as advised by the Treasury officer.

IV.—CLOSING BALANCE.

60. The year closed with a balance of Rs. 1,317–0–4, as compared with Rupees 4,428–10–4 of the previous year and Rs. 310 estimated in the revised estimate. The increase over the revised estimate is due to the incomplete construction of the municipal office building within the close of the year, as explained in paragraph 37 *supra*.

61. *Municipal Accounts.*—The accounts for the year under report were audited in the first two weeks of this month.

62. *Concluding Remarks.*—In conclusion, I beg to submit that the small arrears outstanding at the close of the year could have been accounted for, viz., whether they are recoverable or irrecoverable, had the administration throughout the year been an uninterrupted one. Frequent change of hands in the Chairmanship, as represented in the beginning of this report (*vide* paragraph 3), might have slightly affected the usual run of business. This also accounts for a less number of meetings held in the year. A certain length of time is generally taken up for the disposal of papers by the councillors, to whom are referred lists of persons who are unable to pay their taxes on account of extreme poverty or dead or have left the place for good. This is probably owing to a desire to probe into the solvency or otherwise of a referred tax-payer. I further beg to submit that nearly a month's delay in the submission of this report is owing to certain circumstances beyond my control. The Assistant Accountant-General and Inspector of Local Fund Accounts gave notice that the audit of this office accounts would be taken up on or about the 25th of May last. With a view to get audited figures available, the preparation of this report was deferred till the audit was over. But to our disappointment the audit or could only reach this place on the 5th of this month. He remained here till the 11th instant. In the meanwhile, I, the local Sub-Registrar, was suddenly ordered by the District Registrar to proceed at once to Chódavaramu (a place 12 miles off from this town) to relieve the acting Sub-Registrar of that station. This was a temporary arrangement which was first thought to be only for 3 or 4 days, but it lasted 8 days. So I returned here on the 15th instant, from which date the preparation of this report was taken up. In the meanwhile a meeting of the council had to be held to read the draft report for adoption. The above causes and the fact that I have to attend to my own legitimate duties contributed to the delay which was unavoidable. A copy of the council's resolution adopting the report is herewith submitted.

ENCLOSURE.

CONCISE Annual Report of the Municipal Hospital at Anakápalle, for the official year 1897–98.

1. *Public Health.*—The public health of the town of Anakápalle was on the whole fair. Cholera made its appearance in the second quarter of the year, but not epidemically. It occurred in its milder form sporadically among the lower classes of people, but measures were successfully adopted by the municipality to arrest its progress. Ague, itch and ulcers prevailed to a small extent.

2. *Vital Statistics.*—The total number of births registered was 496 and that of deaths 455 against 563 and 359, respectively, of the previous year.

3. *Sanitation.*—The sanitary condition of the town was good. The roads and streets were daily swept and the rubbish carted away to depots outside the town. But the condition of the side drains continues to be unsatisfactory. No addition was made to the number of latrines brought under the private scavenging system. The water-supply was good and sufficient.

4. *Vaccination.*—Infantile vaccination was very satisfactory. The number of infants vaccinated under one year of age was 498 against 477 of the previous year. The total number of cases vaccinated was 905 (891 successful and 14 unsuccessful), the number for the previous year being 1,240. The decrease is certainly due to the fact that year after year the number of persons unprotected in the town is being reduced. The number of re-vaccination cases was 114. The second-class municipal vaccinator B. Appalaswamy worked satisfactorily.

5. *Hospitals and Dispensaries.*—(*a*) The accommodation for the hospital consists of—(1) a main building partitioned into a hall and two rooms; the hall accommodates eight male in-patients and the two small rooms are the office and the dispensing rooms, respectively; (2) a kitchen; and (3) a female ward containing two beds for

The hospital accommodation is quite inadequate for a town of 17,000 population.
(Intld.) A. H. L.

female in-patients. The accommodation for office and for dispensing medicines was not quite sufficient. The want of an operation room for surgical cases is much felt.

(*b*) The buildings are in good repairs.

(*c*) The furniture is in good repairs.

(*d*) On the recommendation of the District Medical and Sanitary officer, a temporary thatched shed was erected by the municipality in the hospital compound to receive sick persons from famine kitchens.

(*e*) Rs. 12–13–10 was recovered from patients for their medicines, but no recoveries were made for diet, as those who were able provided their own diet.

(*f*) One hundred and twenty-seven in-patients and 8,121 out-patients were treated in the year against 101 and 9,376, respectively, of the previous year. The increase in the number of in-patients was due to the admission of a large number of famine-stricken persons and the decrease in the number of out-patients to the comparatively small extent of the prevalence of ague, itch and ulcer and to the frequent closing * of the hospital on account of the absence of the medical officer at the Sessions Court.

(*g*) There were 16 deaths in the hospital, but none from septic diseases.

(*h*) Three hundred and twenty surgical operations were performed during the year. Eleven of these were among the in-patients and 309 among the out-patients. All were successful.

(*i*) The establishment was sufficient and efficient.

(*j*) The pupil-midwife sent by the municipality for training at Madras joined her post here on the 1st of January 1898. She conducted 40 labour cases during the last quarter of the official year. The temporary midwife who acted for her conducted 139 cases during the first nine months of the year.

* Nineteen days in all.

Reg. No. 264.

Forwarded.

(Signed) A. H. LEAPINGWELL, Surg.-Lieut.-Col.,
District Medical and Sanitary Officer.

29*th April* 1898.

From R. B. WOOD, Esq., Head Assistant Collector, Narsipatam, to the Collector of Vizagapatam, dated 1st July 1898, Dis. No. 540.

In forwarding the administration report of the Anakápalle Municipality, I have the honour to remark that the Chairman's explanation for the delay is intelligible, though not quite satisfactory.

2. The roads of the municipality are in good order. The Chairman takes a great interest in his work and is doing well.

Submitted to Government.

2. The short expenditure on communications is unsatisfactory.

3. The delay in the submission of the report is sufficiently explained.

(Signed) W. O. HORNE,
Acting Collector.

3*rd July* 1898.

Order—No. 1468 M., dated 17th August 1898.

The receipts and charges of the Anakápalle Municipality for 1897–98 are compared below with the budget and revised estimates for the year and the actuals of 1896–97 :—

—	Actuals, 1896–97.	Budget estimate, 1897–98.	Revised estimate, 1897–98.	Actuals, 1897–98.

Grand Total	18,327	19,110	19,500	17,507
Balance	4,429	310	310	1,317

2. The Municipal Council held eighteen meetings against 29 in 1896–97, and five others were adjourned for want of a quorum against one in that year. There was an improvement in the average attendance of official members, which was satisfactory, while that of non-officials declined, but continued to be fair.

3. *Receipts.*—(1) The demand under the tax on arts, as originally assessed by the Chairman, amounted to Rs. 1,411, but as much as 12·1 per cent. of this sum was again remitted by the Municipal Council on appeal. For this no explanation has been offered in the Chairman's report, but it points to undue leniency in appeal. The net current demand under this head fell from Rs. 1,674 to Rs. 1,240, the decrease being apparently due to the adoption of the revised schedule A annexed to the District Municipalities Act. The demand under the tax on buildings, however, showed an increase of Rs. 163, while that under the tax on lands remained almost stationary.

(2) The current collections under the principal taxes continued to be on the whole good, but the arrear realizations declined and were very poor. Steps should be taken to adjust the outstanding balances without delay.

(3) There was a decrease in the receipts under fines, which is explained in paragraph 26 of the Chairman's report. The attention of the Inspector-General of Police will be drawn in the Judicial department to the remissness of the Police in the detection of offences under the Towns Nuisances and the District Municipalities Acts.

(4) The number of houses served by the private scavenging agency was only 147, or five more than in the previous year, and the service was worked at a loss of Rs. 33 to the Municipal Council. The Government trusts that the efforts made to extend this service will not be relaxed until all the private latrines in the town are brought under the control of the municipal agency.

4. *Expenditure*—(1) *Public Works.*—The construction of the municipal office building, on which a sum of Rs. 1,330 was spent during the year, was the only new work of importance undertaken by the Municipal Council. The total outlay on communications amounted to Rs. 1,438, or only 38·4 per cent. of the net municipal revenue from tolls, against the minimum of 50 per cent. prescribed by Government, the short outlay being explained in paragraph 35 of the Chairman's report. The roads are, however, reported by the Head Assistant Collector to have been in good order.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,118, or 10·9 per cent. of the receipts from taxation. Of this sum, all but Rs. 238 was spent on primary education. As in the previous year, the Municipal Council maintained a lower secondary school on the salary system and three primary schools on the salary-result system, and aided nine primary schools with result grants against ten in that year. Taken together, the attendance at these institutions declined slightly, but the results of the lower secondary, departmental and grant examinations continued to be on the whole fair. The allotment for result grants was slightly exceeded, but the total number of boys under instruction in the municipal and aided schools fell from 569 or 44·8 per cent. of the male population of school-going age to 554 or 43·5 per cent.

(3) *Medical Relief.*—The number of in-patients treated at the municipal hospital was 127, or 26 more than in the previous year, but that of out-patients fell from 9,376 to 8,121, the variations being explained in paragraph 5 (*f*) of the medical report. The temporary and the permanent midwives attended between them 179 cases of labour against 65 attended by the former during the last five months of the previous year. The attention of the Municipal Council is drawn to the remarks of the District Medical and Sanitary Officer on paragraph 5 of the medical report regarding the inadequacy of the hospital accommodation.

(4) *Vaccination and Vital Statistics.*—It is observed with regret that the total number of persons vaccinated during the year again fell from 1,240 to 905; but the quality of the work improved and was good, the ratio of reported success being 98·5 against 95·6 in 1896–97. Infantile vaccination received fair attention, the number of children under one year successfully vaccinated being 497, or 29·2 per mille of the population, against 470 or 27·6 per mille in the previous year.

There was an increase in the number of deaths, but a decline in that of births, registered during the year. In both cases, however, the returns cannot be regarded as trustworthy, the rates recorded being much below the normal. The attention of the Municipal Council is drawn to instructions issued in paragraph 2 of G.O., No. 926 M., dated 17th May 1898, regarding the registration of vital statistics.

(5) *Sanitation.*—Owing apparently to the absence of cholera in the town in an epidemic form, more than eight per cent. of the allotment under this head remained unutilized; but the expenditure amounted to Rs. 4,773, or 33·2 per cent. of the current receipts against 22·1 per cent. in the previous year. From paragraph 46 of the Chairman's and paragraph 3 of the Medical officer's report, it appears that some attention was paid to the sanitation of the town; but much yet remains to be done before all the defects pointed out by the Deputy Sanitary Commissioner in his last inspection notes can be remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 1,317, or 9·2 per cent. of the current receipts.

The collection of arrears, the extension of the private scavenging system and improvement of the registration of vital statistics and sanitation demand increased attention. In other respects, the administration of the municipality during the year under review continued to be tolerably efficient.

The Government notes with pleasure the testimony borne by the Head Assistant Collector in paragraph 2 of his letter to the interest taken by the Chairman, M.R.Ry. V. Ramamurti Chetti, in his work, and hopes that he will be able in the current year to remedy the shortcomings that have been pointed out.

AUGUST.

Administration Report.

Reviewing the — of the Anakápalle Municipal Council for 1897–98.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. V. RAMAMURTI CHETTI GARU, Chairman, Municipal Council, Anakápalle, to the Secretary to Government, Local and Municipal Department (through the Head Assistant Collector, Narsapatam), dated Anakápalle, th June 1898, No. 204.

I have the honour to submit my report on the administration of this municipality for the official year 1897–98, together with the prescribed statements of receipts and charges.

I.—Constitution of the Council.

2. The maximum number of councillors to this municipality is thirteen, as prescribed in G.O., No. 864, Financial, dated 30th April 1883. The constitution of the council was, on the 31st March 1898, one ex-officio, two official and nine non-official councillors, making a total of twelve councillors; and one official seat in the council was in the last part of the year vacated by the transfer of M.R.Ry. K. Sankarayya Puntulu Garu, the Sub-Assistant Inspector of Schools, Vizagapatam Range, who was also a municipal councillor on this council.

3. The office of Chairman having become vacant in consequence of Mr. F. W. Gooch's resignation of chairmanship on the 31st March 1897, the Revenue officer in charge of the Narsapatam division assumed charge of this office, which he held from 1st April 1897 to 15th June 1897, when I succeeded to the office, under Government notification No. 404 published in the *Fort St. George Gazette*, Part I-A, dated 15th June 1897.

My three years' term of office of municipal councillor expired on the 9th October 1897 and consequently I ceased to be the Chairman of the council from that date, under section 17 of the District Municipalities Act. The Revenue Divisional officer again assumed charge of the office of Chairman and continued to be in the office till the 15th February 1898. In the meanwhile, I was re-appointed by Government as councillor of this municipality and was again elected as Chairman of this council on the 10th January 1898. The election was approved and published by Government in notification No. 120, dated 15th February 1898.

4. This municipality, which had not the power of electing its own councillors until recently, has been granted the privilege of electing (4) four of its councillors under notification published in G.O., No. 2260 M., dated 15th October 1897. The Chairman, however, is appointed by election, which privilege this council has been exercising for the last thirteen years.

5. The total number of meetings actually held during the year was 18 (eighteen) against 29 in the previous year.

Besides these, five meetings were adjourned for want of quorum.

6. The average attendance at the meetings actually held was 7·49, viz., 2·22 of official and 5·27 of non-official members. The average attendance of Europeans was ·44, while that of Natives was 7·05.

II.—Receipts.

7. The year opened with a balance of Rs. 4,428–10–4. The total current receipts, inclusive of the opening balance, amounted to Rs. 18,804–13–2 against Rupees 22,755–14–3 of the previous year and Rs. 19,810 anticipated in the revised estimate. The sum of Rs. 22,755–14–3 stated to be the receipts of the previous year includes a sum of Rs. 3,000 borrowed from Government for the construction of the Municipal office building and another sum of Rs. 1,669 realized under magisterial fines. If this loan is excluded, the actual receipts from the ordinary sources of income come to Rs. 19,755–14–3. The decrease under receipts is chiefly due to the short realization under "Fines under Municipal and other Acts." Only Rs. 208 were realized under fines in the year under report.

A.—*Receipts from Taxation.*

8. *House-tax.*—As in previous years, the tax under this head was levied at $6\frac{1}{4}$ per cent. on the actual rent value of the buildings. The assessment of the tax was based on the actual rental in case of buildings let out. As regards houses which were not leased out, the actual rent was deduced from the rent of a model house in the neighbourhood, regard being had to position, extent, accommodation, comforts, and lastly local demand. The house-tax register was last revised in the year 1894–95. The demand originally fixed under this head was Rs. 2,554–12–3. The council remitted on appeal Rs. 14–15–0, leaving Rs. 2,539–13–3 as final demand. Of this amount, Rs. 2,319 or 91·3 per cent. were collected during the year and the balance of Rs. 220–13–3 is to be adjusted in the current year. Of the balance outstanding at the close of the year, a sum of Rs. 119 was subsequently realized and the remaining small balance will be adjusted in the current year.

The arrears outstanding at the commencement of the year, together with those of previous years, amounted to Rs. 95–3–6, of which Rs. 16–6–0 were collected in the year under report and Rs. 1–2–0 were remitted on account of vacant houses, leaving a balance of Rs 77–11–6 for adjustment in the current year.

9. *Land-tax.*—The demand under this head was Rs. 2,416–14–4, of which Rs. 2,341–1–1 or 96·8 per cent. were collected within the year, leaving a balance of Rs. 75–13–3 to be adjusted in the current year. Of the balance outstanding at the close of the year, Rs. 33–11–5 were since collected.

The arrears outstanding at the beginning of the year, together with those of the previous year, amounted to Rs. 54–8–11, of which Rs. 29–6–0 were collected during the year and Rs. 2–13–0 were written off the accounts as irrecoverable, leaving a balance of Rs. 22–5–11 for adjustment in the current year.

The land-tax register was revised in 1896–97. The assessment is based on the extent of land and the nature of the soil, the rates being $2\frac{5\,8}{1\,2\,1}$ pies on every 80 square yards of land in "Cheruvulopala," $1\frac{1\,1\,7}{1\,2\,1}$ pies in "Etiavala," $1\frac{5\,9}{1\,2\,1}$ pies in "Ava," and $\frac{1\,2\,9}{1\,2\,1}$ pies in "Cheruvuvenaka" divisions, sanctioned in G.O., Mis. No. 948 M., dated 24th September 1886.

10. *Tax on Arts, &c.*—The demand originally fixed by the Chairman under this head was Rs. 1,411. The council remitted on appeal Rs. 171. Thus, the demand as finally settled is Rs. 1,240, of which Rs. 1,171–8–0 or 94·4 per cent. were collected within the year and Rs 21–8–0 were written off as irrecoverable on account of the poverty and death of certain tax-payers, and a sum of Rs. 47 still remains to be adjusted in the current year.

The arrears outstanding at the opening of the year under report, together with those of the previous years, amounted to Rs. 104–2–0, of which Rs. 2–8–0 were collected within the year, leaving a balance of Rs. 101–10–0 for adjustment in the current year.

The total number of persons finally assessed to the tax on arts, &c., is 420, of whom one was assessed under class I, one under II, 13 under IV, 18 under V, 5 under VI, 43 under VII, 89 under VIII, and 250 under class IX of the schedule A of the Madras Act III of 1897.

11. *Tax on Animals and Vehicles and Registration of Carts.*—The receipts under these heads amounted to Rs. 314–12–0 and Rs. 249 against Rs. 286–12–0 and Rs. 253, respectively, of the previous year.

12. *Coercive Processes.*—In 208 cases distraint warrants were issued, of which 138 were those that were executed and cancelled, and 70 remained unexecuted at the close of the year. In no case was property sold. No prosecutions for non-payment of tax were instituted against defaulters.

13. *Tolls.*—The amount realized by the auction sale of tolls was Rs. 9,400, as compared with Rs. 9,165 of the previous year. The increase was due to keen competition amongst lessees. Of this sum, 60 per cent. or Rs. 5,640 was paid over to the District Board as its share, the balance of Rs. 3,760 was collected from the lessees and credited to Municipal funds during the year under report. No expense was incurred in the collection of this amount, the lessees having the exclusive right of collecting tolls from the six gates.

14. *Incidence of Taxation.*—The population of the town is, according to the last census, 17,010, and the total receipts exclusive of tolls amounting Rs. 6,443, the average incidence was As. 6–1 per head, or if tolls be also included As. 9–6 per head as compared with As. 7–2 and As. 10–7, respectively, in the previous year.

B.—Miscellaneous Receipts.

15. The total receipts under this head amounted to Rs. 4,172–9–9 against Rs. 8,838 of the previous year. The decrease occurs chiefly under "Loans" and "Fines under Municipal and other Acts", as explained in paragraph 7 *supra*.

16. *Fees under Act II of* 1888.—Rupees 20 were realized under this head on account of licenses granted to certain dramatic companies under Places of Public Resort Act.

17. *Produce of Land and Gardens, &c.*—A sum of Rs. 8 was realized during the year on account of the value of grass overgrown in the newly-acquired burning and burial ground near the river embankment.

18. *Sale-proceeds of Old Materials and Empty Oil-cans, &c.*—Rupees 14–4–0 were collected during the year on account of sale-proceeds of empty tins and unserviceable articles against Rs. 36–8–0 of the previous year.

19. *Conservancy Receipts—Sale-proceeds of Night-soil, Street-refuse, &c.*—The sweepings of the municipal cartstand and those of streets were sold in 1896–97, as reported last year, for Rs. 116, of which Rs. 60 only were collected within the close of that year and the arrears balance, viz., Rs. 56, was collected in the year under report. In addition to this, a sum of Rs. 9–4–0 was realized on account of sale-proceeds of old street-refuse deposited in the depot. The sweepings of the year under report were deposited in a depot and sold to a contractor for Rs. 120, exclusive of the annual rent of Rs. 40 for the depot land belonging to a private individual. The season for sale of sweepings having set in in the current year, nothing could be realized within the 31st March 1898. A sum of Rs. 102–8–0 was, however, subsequently collected in the current year (1898–99). The balance will shortly be realized.

20. *Fees from Educational Institutions.*—These amounted to Rs. 1,205–11–9, as compared with Rs. 1,196–0–7 of the previous year and Rs. 1,200 anticipated in the budget. The small increase over the actuals of the previous year is due to the increased strength of the Middle school.

21. *Sale-proceeds of Medicines and other Hospital Receipts.*—These were Rupees 12–13–10 against Rs. 10–0–6 of the last year and Rs. 60 anticipated in the budget.

22. *Income from Markets and Slaughter-houses.*—The right of collecting fees in the municipal markets, viz., vegetable and fish markets, was leased out for Rs. 602 against Rs. 575 of the previous year. The increase was due to the keen competition amongst renters. The whole amount, viz., Rs. 602, was collected during the year. The municipal slaughter-house was leased out for Rs. 143, which amount was fully realized during the year.

The ground-rent of market godowns was collected departmentally, as usual. The total demand was Rs. 120–1–6, of which Rs. 90–2–3 were collected during the year, leaving a balance of Rs. 29–15–3 for adjustment in the current year. Rs. 18–4–6 were subsequently collected in the current year.

The arrears outstanding at the beginning of the year were Rs. 4–4–0, of which Rs. 1–6–6 were collected within the 31st March 1898 and Rs. 2–13–6 remitted on the ground that a certain godown was vacant during the whole year. There was no balance at the close of the year.

23. *License Fees.*—The amount collected as license fees was Rs. 80–7–6 against Rs. 71 of the previous year and Rs. 100 estimated in the revised estimate. The item being of a fluctuating nature, calls for no remark either for increase or decrease.

24. *Cartstand Fees.*—The privilege of collecting cartstand fees was leased out during the year for Rs. 565, as compared with Rs. 535 of the previous year. The increase is due to keen competition amongst lessees. The whole of the leased amount was collected during the year.

25. *Warrant and Distraint Fees*—were Rs. 18–12–0 against Rs. 20 anticipated in the revised estimate. Of this sum (Rs. 18–12–0), Rs. 3–6–0 were on account of distraint fees and Rs. 15–6–0 were on account of warrant fees.

26. *Fines under Municipal and other Acts*—amounted to Rs. 208–4–5 against Rs. 1,668–13–0 of the previous year and Rs. 600 estimated in the budget. The decrease under this head is explained below:—

The causes for the abnormal increase in the amount of receipts under this head during the year 1896–97 have been explained in paragraph 25 of the last year's administration report of this municipality. But the receipts in the year under report fall far below the average amount of fines during the past three years prior to 1896–97.

Apparently no other cause can be attributed to this decline than to the remissness on the part of the police in detecting offence.

27. *Grants and Contributions from Government*—were Rs. 97–10–8 against Rs. 40 estimated in the budget, the increase being due to the collection of arrears contribution from Government towards the pay of the gymnastic instructor.

28. *Grants from Local Funds.*—Rs. 500 were the usual amount of contribution received from the Taluk Board, Narsapatam, for the upkeep of the municipal dispensary.

29. *Recoveries for Services rendered to Private Individuals—Private Scavenging.*—Under this head Rs. 346–15–6 were collected as private scavenging fees against Rs. 325–12–0 of the last year, and Rs. 27 as fees for cleaning cess-pools of certain private individuals against Rs. 13–10–0 of the previous year. The increase is due to the levy of fees at the enhanced rate in the first quarter of the year under report. The private scavenging system is nearly self-supporting during the year under report, the charges for the service being Rs. 380–5–0, inclusive of the value of one iron hand-cart purchased in 1896–97, but the price of which was paid in the year under report.

The number of houses served by the municipal ageney on the 31st March 1898 was 147 against 142 of the last year. The list of houses which have latrines, submitted by the sanitary maistry, discloses that about 35 houses are still to come under Municipal scavenging agency. Measures will be taken to induce the owners of these houses to place them under the said agency. All other houses do not seem to possess latrine accommodation for want of room or way to allow a scavenger to enter the house or yard. It is said that most people being accustomed to resort to places outside the town for easing themselves, did not in the first instance build their houses with latrine accommodation. Thus, most of the houses not being either spacious enough to allow a latrine to be provided or accessible to the scavenger for want of a proper way to their yards, the enforcement of section 207 of the Municipal Act seems to be difficult in this town. The houses and huts in Gavarapalem division are in such a congested state that it is very difficult to find room to provide a latrine for each block of six or more houses. Efforts will, however, be made to provide proper ways or small roads behind the rows of houses which have yards, to admit scavenging being done. When such small roads are opened, it will be possible to extend the private scavenging system to a far larger extent than at present.

30. *Miscellaneous.*—Under this head a sum of Rs. 133–13–4 was collected during the year, which is composed of the following items :—

	RS.	A.	P.
Sale-proceeds of municipal conservancy carts and bullocks, and recoveries on account of damages to municipal lanterns ...	102	2	4
Fees for numbering carts	28	9	0
Fees and charges, &c., collected on unregistered carts seized under section 90 of the Act	3	2	0
Total ...	133	13	4

31. *Advances recovered.*—A sum of Rs. 50 is the amount of last year's outstanding advance paid to the hospital assistant sent for training and adjusted in the year under report under the item of "Advances recovered."

III.—EXPENDITURE.

32. The total expenditure for the year amounted to Rs. 17,487–12–10 against Rs. 18,327–3–11 of the previous year and Rs. 19,500 estimated in the revised estimate.

33. *Grant 1, Public Works.*—The total amount expended on public works was Rs. 3,754–9–7 against Rs. 5,910 allotted in the revised estimate. The details are as follow.

34. *New Works—Communications.*—The earthwork of a portion of Santhabayalu road, which was commenced last year, was completed during the year under report at a cost of Rs. 27–15–8.

35. *Repairs—Communications.*—A sum of Rs. 1,410–2–1 was spent under this head against Rs. 1,700 sanctioned in the revised estimate. There was no proper expenditure on certain roads which wanted repairs, but were left unrepaired during the last quarter of the year, when unfortunately the permanent overseer fell ill and the man put to act for him was new to the work. Some of the works that were sanctioned were left unexecuted for the above reason.

36. *The total length of Roads in the Municipality is* 13 *miles and* 8 *yards.*—Out of this length, 12 miles 2 furlongs and 170 yards are maintained by the council. The total length of metalled roads is 10 miles 1 furlong and 78 yards; that of gravelled and unmetalled roads is respectively 1 mile 2 furlongs and 120 yards and 1 mile 4 furlongs and 30 yards.

37. *New Works—Buildings.*—Under this head Rs. 1,490–6–3 were spent against Rs. 3,150 sanctioned in the revised estimate. The following is the explanation for the less expenditure under this item :—

(*a*) The construction of the Municipal office building, which was commenced during the year, was expected to be completed before the end of the year. But contrary to our expectation the building was not so finished as the contractor felt great difficulty in procuring four hip rafters of country wood of the length of 30 feet each and applied for an extension of time which was granted to him. During this extension the year closed and there was no full payment of the cost of construction, which payment was expected at the time of the preparation of the revised budget; further reasons for the stoppage of the work of construction were that after the rafters were procured and used for the work there was sagging of the roof of an end room, and that the contractor, who had fallen ill a short time before the work was stopped, died subsequent to the stoppage of work. Instructions have been applied for and now received from the Executive Engineer as to how the work should be completed and the defect discovered removed. A sum of Rs. 1,329–12–5 was spent for the masonry work of the buildings.

(*b*) A mud-wall latrine near the old fort was constructed during the year at a cost of Rs. 35–8–9.

(*c*) Rupees 15–13–6 were spent in the construction of a thatched shed in the hospital compound for patients suffering from certain contagious diseases.

(*d*) The Government having in G.O., Mis. No. 1645 M., dated 23rd July 1897, directed the council to shift the existing toll-gates to municipal borders, a sum of Rs. 31–7–0 was spent towards the construction of three toll-sheds on the said boundaries.

(*e*) Rupees 12–13–3 were spent in constructing temporary latrines and urinals during the Nookalamma's festival.

(*f*) The Municipal Upper Primary school, which was constructed last year, was during the year under report extended by the addition of a room at a cost of Rs. 13–1–4.

(*g*) The balances of payments due for the following works executed last year were paid in the year under report :—

	RS.	A.	P.
(1) Standard plan iron double latrine in Kotina Veedhi	23	11	9
(2) West compound wall of the new burning and burial ground ...	2	2	3
(3) Moveable iron latrine in Payakarao bushes	26	0	0

38. *Repairs—Buildings.*—A sum of Rs. 50–14–4 was spent on petty repairs to the existing public latrines and hospital building.

39. *New Works—Drainage.*—Rs. 97–1–0 were paid as compensation for the land taken up for the extension of Kotina Veedhi drain.

40. *Repairs—Water-supply.*—Rs. 5–2–0 were expended on petty repairs to the drinking-water wells and the tank.

41. *Tolls and Road Charges.*—The total amount expended on municipal roads during the year was Rs. 1,438, or 38·2 per cent. out of Rs. 3,760, municipal share of the total income from tolls. The decrease under the usual percentage of 50 fixed by Government is due to the circumstances explained in paragraph 35 *supra*.

42. *Grant 2, Education.*—There were on the 31st March 1898 one Middle school on salary system, one Upper Primary school and two Lower Primary schools on salary-results system; in all thirteen schools with 556 pupils on the rolls. The total cost incurred under this head was Rs. 2,404 against Rs. 2,342 of the previous year, as noted below :—

	1896–97. RS.	1897–98. RS.
(1) Municipal Schools—		
(1) Salary system—		
(*a*) Middle school	1,265	1,178
(2) Salary-results system—		
(*a*) Secondary schools	...	...
(*b*) Primary schools	644	694
(3) Grant-in-aid schools—		
(1) Salary grants	...	...
(2) Results grants—		
(*a*) Secondary schools	...	...
(*b*) Primary schools	314	410
Normal stipends	...	...
Miscellaneous	119	122
Total ...	2,342	2,404

The increase in the year under report is chiefly due to increased earnings of result grants.

(*a*) *Municipal Middle School.*—The number of boys under instruction on the 31st March 1898 was 54 against 62 on the corresponding date of the previous year. The decrease seems to be due to the famine that prevailed during a part of the year. In the Lower Secondary Examination, three out of eleven sent up have passed, two completely and the other incompletely. The average net cost of educating each pupil in this school fell to Rs. 5 from Rs. 7 in 1896–97.

(*b*) *Salary-result Schools.*—There were three schools maintained under this system against the same number in the previous year. There were thus one upper primary school, one lower primary school for Pariah boys, and one night school for labouring classes. The total number of pupils reading in all the municipal primary schools was 121 against 120 of the last year. The number of pupils that were presented for examination in these schools was 52 against 79, of whom 44 passed. The cost of educating each pupil was Rs. 3–9–4 against Rs. 4–1–0 in 1896–97. The decrease in the cost is chiefly due to the non-existence of the Muhammadan school throughout the whole year, whereas it existed for seven months in the year 1896–97.

(*c*) *Result Schools.*—There are nine of these schools, and the total number of pupils at the close of the year was 381 against 388 of last year. The decrease being very slight calls for no remark. The number of pupils presented for examination was 275 against 250, of whom 234 passed against 177 in 1896–97. A sum of Rs. 410–1–3 was paid to the teachers as result grants during the year. The teacher of one of the result schools was refused the grant earned in the year for false personation of boys at the grant examination.

(*d*) *Miscellaneous.*—Rupees 121–9–9 were spent under this head towards the salary and famine batta and contingent charges of the common gymnast.

(*e*) The number of boys and girls of school-going age in the town was 2,551, as per last census, of whom 574 boys and 2 girls were under instruction in schools. The usual statements received from the Assistant Inspector of schools are enclosed.

43. *Grant 3, Sanitation and Medical Services, Hospitals and Dispensaries.*—There was one dispensary maintained by the council during the year. The number of out-patients treated in it was 8,121 against 9,376, while that of in-patients was 127 against 101 of the preceding year. The hospital assistant has explained the decrease and the increase in the number of patients in his report herewith submitted. Rupees 2,093 were spent for maintaining the dispensary against Rs. 1,820 of the previous year and Rs. 2,090 estimated in the revised estimate. The increase over the actuals of the previous year was due chiefly to the payment made in the year under report of arrears of salaries and house-rent of the acting hospital assistant and one-eighth pay of the permanent hospital assistant while under training and partly to the adjustment of an advance paid to the latter in the previous year for travelling expenses.

The temporary midwife attached to the municipal dispensary attended 139 labour cases during the first nine months of the year and the permanent one, who returned from the training hospital in the latter part of the year, attended 40 labour cases.

44. *Vaccination.*—There is one second-class vaccinator on a pay of Rs. 10 per mensem. Vaccination has been compulsory in this municipality for the last seven years. The total number of operations performed during the year was 905 against 1,240 of the previous year. The decrease in the number of operations is due to the decrease in the number of unprotected cases, as explained by the local medical officer in his report. Of the total number of vaccinations, 891 were successful and 14 unsuccessful. One hundred and one persons were prosecuted for failure to get their children vaccinated against 89 of the previous year. All the vaccine operations were performed by means of animal lymph supplied from the Local Fund depot, Vizagapatam. The total cost of vaccination during the year was Rs. 153–7–0 against Rs. 159–3–0 of the previous year. The average cost of each successful case is As. 2–8 against As. 2–2 of the previous year. This increase in the cost is due to the decline in the number of operations during the year.

45. *Vital Statistics.*—The total number of births registered is 496 against 563 of 1896–97, of which 261 are males and 235 are females, against 298 males and 265 females in the preceding year or 29·41 per thousand of population as per last census. The total number of deaths registered is 456 against 359 of last year, of which 265 are males and 190 are females against 213 males and 146 females in the previous year or 26·82 per thousand of population as per last census. Twenty-nine prosecutions were instituted for failure to register births and deaths. The following were the causes of

death registered during the year: 29 cholera, 105 fevers, 73 dysentery and diarrhœa, 10 accidents and injuries, and 239 other causes.

46. *Conservancy.*—The total expenditure during the year was Rs. 4,773–5–4 against Rs. 4,420–9–6 of the previous year and Rs. 4,700 sanctioned in the revised estimate. The increase over the actuals of the previous year is chiefly due to (1) the charges incurred in connection with the Bubonic plague, (2) to the payment of salaries to the conservancy establishment at the enhanced rate of pay sanctioned in G.O., No. 173 M., dated 6th February 1897, and also to the payment of a small rate of famine batta, *i.e.*, at one rupee per head. The roads and streets were daily swept and kept clean. There were 5 fixed masonry and 116 moveable iron dust-bins. The town sweepings are daily carted outside the town to the depot of the sweepings contractor, to whom the cart-stand sweepings and town refuse were sold for Rs. 120 for the year, excluding the rent of depot land, viz., Rs. 40. There were 27 public latrines at the close of the year against 26 of last year. There are 16 conservancy carts at work including 12 iron hand-carts for night-soil during the year.

47. *Conservancy—Other Charges.*—Rupees 559–3–11 were spent under this head against Rs. 1,009–0–11 of the previous year and Rs. 460 estimated in the budget. The increase over the budget is on account of the purchase of a piece of land for enlarging the night-soil depot at a cost of Rs. 51–9–0, and to the higher prices of horse-gram, &c., during the last famine for the fodder of conservancy bullocks.

48. *Private Scavenging.*—The number of private latrines under the municipal agency at the close of the year was 147 as compared with 142 of the last year. The number of private latrines in the town being only about 180, the increase that can be expected at present will not be very large for reasons stated in paragraph 29 *supra*.

The total amount of scavenging fees collected was Rs. 373–15–6, while the expenditure, including contingencies and the cost of an iron hand-cart (viz., Rs. 29–8–0) supplied last year, was Rs. 380–5–0. The slight increase of expenditure over the actual receipts under this head may be attributed to the amount of famine batta paid to the scavengers. Thus the private scavenging system in this municipality during the year may be said to have been self-supporting.

49. *Plague Charges.*—A sum of Rs. 201–3–3 was spent under this head against Rs. 500 estimated in the revised estimate, on account of the following items:—

	RS.	A.	P.
Cost of constructing four thatched sheds—one on the railway platform for inspection purposes and three in the segregation camp	66	8	11
Inspection allowance of the local medical officer at the rate of Rs. 10 per mensem	37	10	8
Cost of plague medicines and portable tin-canisters, &c. ...	96	15	8
Total ...	201	3	3

50. *Grant 4, Lighting.*—The town was lighted by 113 lamps against 109 lamps in the previous year, 4 new lamps having been put up during the year on the Kotina Veedhi road leading to the railway station. The total expenditure incurred during the year was Rs. 461–6–8 against Rs. 479–12–5 of the previous year and Rs. 420 of the revised estimate. The decrease in the expenditure was due to the fluctuations in the prices of kerosine-oil, &c., purchased for the purpose, while the increase over the revised estimate was due to the fact that some of the old burners and wooden lamp-posts had to be replaced by new ones during the year under report. The charges were as follow:—

	RS.	A.	P.
(1) Establishment charges	146	10	0
(2) Contingencies	314	12	8

51. *Markets—Contingencies.*—A sum of Rs. 42–12–0 was spent under this head towards the rent of the fish-market.

52. *Avenues—Contingencies.*—A petty sum of Rs. 1-14-6 was expended under this head towards the contingent charges connected with the avenues planted last year.

53. *Survey of Land.*—Under the circumstances reported in this office letter No. 373, dated 25th December 1897, embodied in G.O., No. 406 M., dated 18th February 1898, a sum of Rs. 217-14-5 was spent towards the cost of surveying the lands against Rs. 100 sanctioned in the revised estimate. A half of the former amount (viz., Rs. 217-14-5) will be realized in the current year from the District Board, Vizagapatam, in accordance with the arrangement made in the beginning by the President. The work of survey, which was first commenced with the object of ascertaining the exact area of different lands under cultivation within the municipality and to estimate thereby the loss of land-tax, which would accrue by the contraction of municipal limits, was subsequently given up, the President, District Board, having withdrawn his proposal to exclude certain roads from the municipal limits. The work performed had thus been incomplete. Apart from the question of contraction of limits, if the work is carried on completely, I believe it would be to the advantage of the council, as there is every likelihood of fetching more tax to the council at the existing rates, and the tax imposed after a detailed survey would be more just and equitable. The difficulty that presents itself to the council is the question of funds to carry on the work.

54. *Miscellaneous—Other Charges.*—Rupees 207-3-3 were spent under this head against Rs. 180 sanctioned in the revised estimate. They were composed of the following items:—

Rupees 180-10-3 printing charges, Rs. 15-4-0 contribution to the Queen's Commemoration Committee, Madras, towards the cost of casket, &c., Rs. 8-2-0 tom-tom charges and travelling allowances, and Rs. 3-3-0 wages of coolies employed in detecting the unlicensed carts in the town.

55. *Contributions to Provincial Funds.*—These were Rs. 162, being composed of the following items:—

Rupees 88 contribution to the Medical College, Rs. 55 sanitary inspection, and Rs. 19 Medical Reserve staff.

56. *Supervision and Management.*—The total charges incurred under this head were Rs. 1,417-7-5 against Rs. 1,400 sanctioned in the revised estimate and Rs. 1,608 of the previous year.

The charges were Rs. 587—office establishment, Rs. 69 inspection, Rs. 292—collection establishment, Rs. 136-13-4—purcharse of account books, &c., Rs. 152-10-1—office contingencies, and Rs. 180—contribution to the central office and audit establishments

57. *Repayment of Debt.*—Rupees 374-8-0 were spent during the year towards the repayment of the loan of Rs. 3,000 made by Government to build the municipal office and the interest thereon, as detailed below:—

	Rs.	A.	P.
On account of instalment paid during the year	274	15	0
„ of interest for the year under report	99	8	6

58. *Advances Recoverable.*—A sum of Rs. 21 as paid to the headmaster of the Municipal Middle school for the purchase of library books and Rs. 7 to the surveyor and sanitary head maistry for contingent charges.

59. *Refunds of other than Current Collections.*—Rs. 1,145 as paid towards refunds of magisterial fines reported in paragraph 35 of this office letter, No. 373, dated 25th December 1897, printed in G.O., No. 406 M., dated 18th February 1898, and Rupees 130-4-0 were the amount of magisterial fines under sections 3 to 5 of Towns Nuisance Act credited to Municipal funds in 1896-97 and subsequently transferred to "Law and Justice" as advised by the Treasury officer.

IV.—Closing Balance.

60. The year closed with a balance of Rs. 1,317-0-4, as compared with Rupees 4,428-10-4 of the previous year and Rs. 310 estimated in the revised estimate. The increase over the revised estimate is due to the incomplete construction of the municipal office building within the close of the year, as explained in paragraph 37 *supra*.

61. *Municipal Accounts.*—The accounts for the year under report were audited in the first two weeks of this month.

62. *Concluding Remarks.*—In conclusion, I beg to submit that the small arrears outstanding at the close of the year could have been accounted for, viz., whether they are recoverable or irrecoverable, had the administration throughout the year been an uninterrupted one. Frequent change of hands in the Chairmanship, as represented in the beginning of this report (*vide* paragraph 3), might have slightly affected the usual run of business. This also accounts for a less number of meetings held in the year. A certain length of time is generally taken up for the disposal of papers by the councillors, to whom are referred lists of persons who are unable to pay their taxes on account of extreme poverty or dead or have left the place for good. This is probably owing to a desire to probe into the solvency or otherwise of a referred tax-payer. I further beg to submit that nearly a month's delay in the submission of this report is owing to certain circumstances beyond my control. The Assistant Accountant-General and Inspector of Local Fund Accounts gave notice that the audit of this office accounts would be taken up on or about the 25th of May last. With a view to get audited figures available, the preparation of this report was deferred till the audit was over. But to our disappointment the audit or could only reach this place on the 5th of this month. He remained here till the 11th instant. In the meanwhile, I, the local Sub-Registrar, was suddenly ordered by the District Registrar to proceed at once to Chódavaramu (a place 12 miles off from this town) to relieve the acting Sub-Registrar of that station. This was a temporary arrangement which was first thought to be only for 3 or 4 days, but it lasted 8 days. So I returned here on the 15th instant, from which date the preparation of this report was taken up. In the meanwhile a meeting of the council had to be held to read the draft report for adoption. The above causes and the fact that I have to attend to my own legitimate duties contributed to the delay which was unavoidable. A copy of the council's resolution adopting the report is herewith submitted.

—

Enclosure.

Concise Annual Report of the Municipal Hospital at Anakápalle, for the official year 1897-98.

1. *Public Health.*—The public health of the town of Anakápalle was on the whole fair. Cholera made its appearance in the second quarter of the year, but not epidemically. It occurred in its milder form sporadically among the lower classes of people, but measures were successfully adopted by the municipality to arrest its progress. Ague, itch and ulcers prevailed to a small extent.

2. *Vital Statistics.*—The total number of births registered was 496 and that of deaths 455 against 563 and 359, respectively, of the previous year.

3. *Sanitation.*—The sanitary condition of the town was good. The roads and streets were daily swept and the rubbish carted away to depots outside the town. But the condition of the side drains continues to be unsatisfactory. No addition was made to the number of latrines brought under the private scavenging system. The water-supply was good and sufficient.

4. *Vaccination.*—Infantile vaccination was very satisfactory. The number of infants vaccinated under one year of age was 498 against 477 of the previous year. The total number of cases vaccinated was 905 (891 successful and 14 unsuccessful), the number for the previous year being 1,240. The decrease is certainly due to the fact that year after year the number of persons unprotected in the town is being reduced. The number of re-vaccination cases was 114. The second-class municipal vaccinator B. Appalaswamy worked satisfactorily.

5. *Hospitals and Dispensaries.*—(*a*) The accommodation for the hospital consists of—(1) a main building partitioned into a hall and two rooms; the hall accommodates eight male in-patients and the two small rooms are the office and the dispensing rooms, respectively; (2) a kitchen; and (3) a female ward containing two beds for

The hospital accommodation is quite inadequate for a town of 17,000 population.
(Intld.) A. H. L.

female in-patients. The accommodation for office and for dispensing medicines was not quite sufficient. The want of an operation room for surgical cases is much felt.

(*b*) The buildings are in good repairs.

(*c*) The furniture is in good repairs.

(*d*) On the recommendation of the District Medical and Sanitary officer, a temporary thatched shed was erected by the municipality in the hospital compound to receive sick persons from famine kitchens.

(*e*) Rs. 12–13–10 was recovered from patients for their medicines, but no recoveries were made for diet, as those who were able provided their own diet.

(*f*) One hundred and twenty-seven in-patients and 8,121 out-patients were treated in the year against 101 and 9,376, respectively, of the previous year. The increase in the number of in-patients was due to the admission of a large number of famine-stricken persons and the decrease in the number of out-patients to the comparatively small extent of the prevalence of ague, itch and ulcer and to the frequent closing * of the hospital on account of the absence of the medical officer at the Sessions Court.

* Nineteen days in all.

(Intld.) A. H. L.

(*g*) There were 16 deaths in the hospital, but none from septic diseases.

(*h*) Three hundred and twenty surgical operations were performed during the year. Eleven of these were among the in-patients and 309 among the out-patients. All were successful.

(*i*) The establishment was sufficient and efficient.

(*j*) The pupil-midwife sent by the municipality for training at Madras joined her post here on the 1st of January 1898. She conducted 40 labour cases during the last quarter of the official year. The temporary midwife who acted for her conducted 139 cases during the first nine months of the year.

(Signed) KAREEM SAHIB, Hospital Assistant,
In Medical charge.

ANAKAPALLE,
16*th April* 1898.

Reg. No. 264.

Forwarded.

(Signed) A. H. LEAPINGWELL, Surg.-Lieut.-Col.,
District Medical and Sanitary Officer.

29*th April* 1898.

From R. B. WOOD, Esq., Head Assistant Collector, Narsipatam, to the Collector of Vizagapatam, dated 1st July 1898, Dis. No. 540.

In forwarding the administration report of the Anakápalle Municipality, I have the honour to remark that the Chairman's explanation for the delay is intelligible, though not quite satisfactory.

2. The roads of the municipality are in good order. The Chairman takes a great interest in his work and is doing well.

Submitted to Government.

2. The short expenditure on communications is unsatisfactory.

3. The delay in the submission of the report is sufficiently explained.

(Signed) W. O. HORNE,
Acting Collector.

3*rd July* 1898.

ORDER—No. 1468 M., dated 17th August 1898.

The receipts and charges of the Anakápalle Municipality for 1897–98 are compared below with the budget and revised estimates for the year and the actuals of 1896–97:—

2. The Municipal Council held eighteen meetings against 29 in 1896–97, and five others were adjourned for want of a quorum against one in that year. There was an improvement in the average attendance of official members, which was satisfactory, while that of non-officials declined but continued to be fair.

3. *Receipts.*—(1) The demand under the tax on arts, as originally assessed by the Chairman, amounted to Rs. 1,411, but as much as 12·1 per cent. of this sum was again remitted by the Municipal Council on appeal. For this no explanation has been offered in the Chairman's report, but it points to undue leniency in appeal. The net current demand under this head fell from Rs. 1,674 to Rs. 1,240, the decrease being apparently due to the adoption of the revised schedule A annexed to the District Municipalities Act. The demand under the tax on buildings, however, showed an increase of Rs. 163, while that under the tax on lands remained almost stationary.

(2) The current collections under the principal taxes continued to be on the whole good, but the arrear realizations declined and were very poor. Steps should be taken to adjust the outstanding balances without delay.

(3) There was a decrease in the receipts under fines, which is explained in paragraph 26 of the Chairman's report. The attention of the Inspector-General of Police will be drawn in the Judicial department to the remissness of the police in the detection of offences under the Towns Nuisances and District Municipalities Acts.

(4) The number of houses served by the private scavenging agency was only 147, or five more than in the previous year, and the service was worked at a loss of Rs. 33 to the Municipal Council. The Government trusts that the efforts made to extend this service will not be relaxed until all the private latrines in the town are brought under the control of the municipal agency.

4. *Expenditure*—(1) *Public Works.*—The construction of the municipal office building, on which a sum of Rs. 1,330 was spent during the year, was the only new work of importance undertaken by the Municipal Council. The total outlay on communication amounted to Rs. 1,438, or only 38·4 per cent. of the net municipal revenue from tolls, against the minimum of 50 per cent. prescribed by Government, the short outlay being explained in paragraph 35 of the Chairman's report. The roads are, however, reported by the Head Assistant Collector to have been in good order.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,118, or 10·9 per cent. of the receipts from taxation. Of this sum, all but Rs. 238 was spent on primary education. As in the previous year, the Municipal Council maintained a lower secondary school on the salary system and three primary schools on the salary-result system, and aided nine primary schools with result grants against ten in that year. Taken together, the attendance at these institutions declined slightly, but the results of the lower secondary, departmental and grant examinations continued to be on the whole fair. The allotment for results grants was slightly exceeded, but the total number of boys under instruction in the municipal and aided schools fell from 569 or 44·8 per cent. of the male population of school-going age to 554 or 43·5 per cent.

(3) *Medical Relief.*—The number of in-patients treated at the municipal hospital was 127, or 26 more than in the previous year, but that of out-patients fell from 9,376 to 8,121, the variations being explained in paragraph 5 (*f*) of the medical report. The temporary and the permanent midwives attended between them 179 cases of labour against 65 attended by the former during the last five months of the previous year. The attention of the Municipal Council is drawn to the remarks of the District Medical and Sanitary Officer on paragraph 5 of the medical report regarding the inadequacy of the hospital accommodation.

(4) *Vaccination and Vital Statistics.*—It is observed with regret that the total number of persons vaccinated during the year again fell from 1,240 to 905, but the quality of the work improved and was good, the ratio of reported success being 98·5 against 95·6 in 1896–97. Infantile vaccination received fair attention, the number of children under one year successfully vaccinated being 497, or 29·2 per mille of the population, against 470 or 27·6 per mille in the previous year.

There was an increase in the number of deaths, but a decline in that of births registered during the year. In both cases, however, the returns cannot be regarded as trustworthy, the rates recorded being much below the normal. The attention of the Municipal Council is drawn to instructions issued in paragraph 2 of G.O., No. 926 M., dated 17th May 1898, regarding the registration of vital statistics.

(5) *Sanitation.*—Owing apparently to the absence of cholera in the town in an epidemic form, more than eight per cent. of the allotment under this head remained unutilized, but the expenditure amounted to Rs. 4,773, or 33·2 per cent. of the current receipts against 22·1 per cent. in the previous year. From paragraph 46 of the Chairman's and paragraph 3 of the Medical officer's report, it appears that some attention was paid to the sanitation of the town; but much yet remains to be done before all the defects pointed out by the Deputy Sanitary Commissioner in his last inspection notes can be remedied.

5. *General Remarks.*—The year closed with a balance of Rs. 1,317, or 9·2 per cent. of the current receipts.

The collection of arrears, the extension of the private scavenging system and improvement of the registration of vital statistics and sanitation demand increased attention. In other respects, the administration of the municipality during the year under review continued to be tolerably efficient.

The Government notes with pleasure the testimony borne by the Head Assistant Collector in paragraph 2 of his letter to the interest taken by the Chairman M.R.Ry. V. Ramamurti Chetti in his work, and hopes that he will be able in the current year to remedy the shortcomings that have been pointed out.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. V. RAMAMURTI CHETTI GARU, Chairman, Municipal Council, Anakápalle, to the Secretary to Government, Local and Municipal Department (through the Head Assistant Collector, Narsapatam), dated Anakápalle, — th June 1898, No. 204.

I have the honour to submit my report on the administration of this municipality for the official year 1897–98, together with the prescribed statements of receipts and charges.

I.—Constitution of the Council.

2. The maximum number of councillors to this municipality is thirteen, as prescribed in G.O., No. 864, Financial, dated 30th April 1883. The constitution of the council was, on the 31st March 1898, one ex-officio, two official and nine non-official councillors, making a total of twelve councillors; and one official seat in the council was in the last part of the year vacated by the transfer of M.R.Ry. K. Sankarayya Puntulu Garu, the Sub-Assistant Inspector of Schools, Vizagapatam Range, who was also a municipal councillor on this council.

3. The office of Chairman having become vacant in consequence of Mr. F. W. Gooch's resignation of chairmanship on the 31st March 1897, the Revenue officer in charge of the Narsapatam division assumed charge of this office which he held from 1st April 1897 to 15th June 1897, when I succeeded to the office under Government notification No. 404 published in the *Fort St. George Gazette*, Part I-A, dated 15th June 1897.

My three years' term of office of municipal councillor expired on the 9th October 1897 and consequently I ceased to be the Chairman of the council from that date, under section 17 of the District Municipalities Act. The Revenue Divisional officer again assumed charge of the office of the Chairman and continued to be in the office till the 15th February 1898. In the meanwhile, I was re-appointed by Government as councillor of this municipality and was again elected as Chairman of this council on the 10th January 1898. The election was approved and published by Government in notification No. 120, dated 15th February 1898.

4. This municipality, which had not the power of electing its own councillors until recently, has been granted the privilege of electing (4) four of its councillors under notification published in G.O., No. 2216 M., dated 15th October 1897. The Chairman, however, is appointed by election, which privilege this council has been exercising for the last thirteen years.

5. The total number of meetings actually held during the year was 18 (eighteen) against 29 in the previous year.

Besides these, five meetings were adjourned for want of quorum.

6. The average attendance at the meetings actually held was 7·49, viz., 2·22 of official and 5·27 of non-official members. The average attendance of Europeans was ·44, while that of Natives was 7·05.

II.—Receipts.

7. The year opened with a balance of Rs. 4,428–10–4. The total current receipts, inclusive of opening balance, amounted to Rs. 18,804–13–2 against Rupees 22,755–14–3 of the previous year, and Rs. 19,810 anticipated in the revised estimate. The sum of Rs. 22,755–14–3 stated to be the receipts of the previous year includes a sum of Rs. 3,000 borrowed from Government for the construction of the Municipal office building and another sum of Rs. 1,669 realized under magisterial fines. If this loan is excluded, the actual receipts from the ordinary sources of income come to Rs. 19,755–14–3. The decrease under receipts is chiefly due to the short realization under "Fines under Municipal and other Acts." Only Rs. 203 were realized under fines in the year under report.

A.—*Receipts from Taxation.*

8. *House-tax.*—As in previous years, the tax under this head was levied at $6\frac{1}{4}$ per cent. on the actual rent value of the buildings. The assessment of the tax was based on the actual rental in case of buildings let out. As regards houses which were not leased out, the actual rent was deduced from the rent of a model house in the neighbourhood, regard being had to position, extent, accommodation, comforts, and lastly local demand. The house-tax register was last revised in the year 1894–95. The demand originally fixed under this head was Rs. 2,554–12–3. The council remitted on appeal Rs. 14–15–0, leaving Rs. 2,539–13–3 as final demand. Of this amount, Rs. 2,319 or 91·3 per cent. were collected during the year and the balance of Rs. 220–13–3 is to be adjusted in the current year. Of the balance outstanding at the close of the year, a sum of Rs. 119 was subsequently realized and the remaining small balance will be adjusted in the current year.

The arrears outstanding at the commencement of the year, together with those of previous years, amounted to Rs. 95–3–6, of which Rs. 16–6–0 were collected in the year under report and Rs. 1–2–0 were remitted on account of vacant houses, leaving a balance of Rs. 77–11–6 for adjustment in the current year.

9. *Land-tax.*—The demand under this head was Rs. 2,416–14–4, of which Rs. 2,341–1–1 or 96·8 per cent. were collected within the year, leaving a balance of Rs. 75–13–3 to be adjusted in the current year. Of the balance outstanding at the close of the year, Rs. 33–11–5 were since collected.

The arrears outstanding at the beginning of the year, together with those of the previous year, amounted to Rs. 54–8–11, of which Rs. 29–6–0 were collected during the year and Rs. 2–13–0 were written off the accounts as irrecoverable, leaving a balance of Rs. 22–5–11 for adjustment in the current year.

The land-tax register was revised in 1896–97. The assessment is based on the extent of land and the nature of the soil, the rates being $2\frac{5\,8}{1\,2\,1}$ pies on every 80 square yards of land in "Cheruvulopalli," $1\frac{1\,1}{7\,7}$ pies in "Etiavala," $1\frac{5\,9}{1\,2\,1}$ pies in "Ava," and $\frac{1\,2\,0}{1\,2\,1}$ pies in "Cheruvupenaka" divisions, sanctioned in G.O., Mis. No. 948 M., dated 24th September 1886.

10. *Tax on Arts, &c.*—The demand originally fixed by the Chairman under this head was Rs. 1,411. The council remitted on appeal Rs. 171. Thus, the demand as finally settled is Rs. 1,240, of which Rs. 1,171–8–0 or 94·4 per cent. were collected within the year and Rs 21–8–0 were written off as irrecoverable on account of the poverty and death of certain tax-payers, and a sum of Rs. 47 still remains to be adjusted in the current year.

The arrears outstanding at the opening of the year under report, together with those of the previous years, amounted to Rs. 104–2–0, of which Rs. 2–8–0 were collected within the year, leaving a balance of Rs. 101–10–0 for adjustment in the current year.

The total number of persons finally assessed to the tax on arts, &c., is 420, of whom one was assessed under class I, one under II, 13 under IV, 18 under V, 5 under VI, 43 under VII, 89 under VIII, and 250 under class IX of the schedule A of the Madras Act III of 1897.

11. *Tax on Animals and Vehicles and Registration of Carts.*—The receipts under these heads amounted to Rs. 314–12–0 and Rs. 249 against Rs. 286–12–0 and Rs. 253, respectively, of the previous year.

12. *Coercive Processes.*—In 208 cases distraint warrants were issued, of which 138 were those that were executed and cancelled, and 70 that remained unexecuted at the close of the year. In no case was property sold. No prosecutions for non-payment of tax were instituted against defaulters.

13. *Tolls.*—The amount realized by the auction sale of tolls was Rs. 9,400 as compared with Rs. 9,165 of the previous year. The increase was due to the keen competition amongst lessees. Of this sum, 60 per cent. or Rs. 5,640 was paid over to the district board as its share, the balance Rs. 3,760 was collected from the lessees and credited to Municipal funds during the year under report. No expense was incurred in the collection of this amount, the lessees having the exclusive right of collecting tolls from the six gates.

14. *Incidence of Taxation.*—The population of the town is, according to the last census, 17,010, and the total receipts exclusive of tolls amounting Rs. 6,443, the average incidence was As. 6–1 per head, or if tolls be also included As. 9–6 per head as compared with As. 7–2 and As. 10–7, respectively, in the previous year.

B.—Miscellaneous Receipts.

15. The total receipts under this head amounted to Rs. 4,172–9–9 against Rs. 8,838 of the previous year. The decrease occurs chiefly under "Loans" and "Fines under Municipal and other Acts" as explained in paragraph 7 *supra*.

16. *Fees under Act II of* 1888.—Rupees 20 were realized under this head on account of licenses granted to certain dramatic companies under Places of Public Resort Act.

17. *Produce of Land and Gardens, &c.*—A sum of Rs. 8 was realized during the year on account of the value of grass overgrown in the newly-acquired burning and burial ground near the river embankment.

18. *Sale-proceeds of Old Materials and Empty Oil-cans, &c.*—Rupees 14–4–0 were collected during the year on account of sale-proceeds of empty tins and unserviceable articles against Rs. 36–8–0 of the previous year.

19. *Conservancy Receipts—Sale-proceeds of Night-soil, Street-refuse, &c.*—The sweepings of the municipal cartstand and those of streets were sold in 1896–97, as reported last year, for Rs. 116, of which Rs. 60 only were collected within the close of that year and the arrears balance, viz., Rs. 56, were collected in the year under report. In addition to this a sum of Rs. 9–4–0 was realized on account of sale-proceeds of old street-refuse deposited in the depot. The sweepings of the year under report were deposited in a depot and sold to a contractor for Rs. 120 exclusive of the annual rent of Rs. 40 for the depot land belonging to a private individual. The season for sale of sweepings having set in in the current year, nothing could be realized within the 31st March 1898. A sum of Rs. 102–8–0 was, however, subsequently collected in the current year (1898–99). The balance will shortly be realized.

20. *Fees from Educational Institutions.*—These amounted to Rs. 1,205–11–9 as compared with Rs. 1,196–0–7 of the previous year and Rs. 1,200 anticipated in the budget. The small increase over the actuals of the previous year is due to the increased strength of the Middle school.

21. *Sale-proceeds of Medicines and other Hospital Receipts.*—These were Rupees 12–13–10 against Rs. 10–0–6 of the last year and Rs. 60 anticipated in the budget.

22. *Income from Markets and Slaughter-houses.*—The right of collecting fees in the municipal markets, viz., vegetable and fish markets, was leased out for Rs. 602 against Rs. 575 of the previous year. The increase was due to the keen competition amongst renters. The whole amount, viz., Rs. 602, was collected during the year. The municipal slaughter-house was leased out for Rs. 143, which amount was fully realized during the year.

The ground-rent of market godowns was collected departmentally as usual. The total demand was Rs. 120–1–6, of which Rs. 90–2–3 were collected during the year, leaving a balance of Rs. 29–15–3 for adjustment in the current year. Rs. 18–4–6 was subsequently collected in the current year.

The arrears outstanding at the beginning of the year were Rs. 4–4–0, of which Rs. 1–6–6 were collected within the 31st March 1898 and Rs. 2–13–6 remitted on the ground that a certain godown was vacant during the whole year. There was no balance at the close of the year.

23. *License Fees.*—The amount collected as license fees was Rs. 80–7–6 against Rs. 71 of the previous year and Rs. 100 estimated in the revised estimate. The item being of a fluctuating nature, calls for no remark either for increase or decrease.

24. *Cartstand Fees.*—The privilege of collecting cartstand fees was leased out during the year for Rs. 565, as compared with Rs. 535 of the previous year. The increase is due to the keen competition amongst lessees. The whole of the leased amount was collected during the year.

25. *Warrant and Distraint Fees*—were Rs. 18–12–0 against Rs. 20 anticipated in the revised estimate. Of this sum (Rs. 18–12–0), Rs. 3–6–0 were on account of distraint fees and Rs. 15–6–0 were on account of warrant fees.

26. *Fines under Municipal and other Acts*—amounted to Rs. 208–4–5 against Rs. 1,668–13–0 of the previous year and Rs. 600 estimated in the budget. The decrease under this head is explained below:—

The causes for the abnormal increase in the amount of receipts under this head during the year 1896–97 have been explained in paragraph 25 of the last year's administration report of this municipality. But the receipts in the year under report fall far below the average amount of fines during the past three years prior to 1896–97.

Apparently no other cause can be attributed to this decline than to the remissness on the part of the police in detecting offence.

27. *Grants and Contributions from Government*—were Rs. 97–10–8 against Rs. 40 estimated in the budget, the increase being due to the collection of arrears contribution from Government towards the pay of the gymnastic instructor.

28. *Grants from Local Funds.*—Rs. 500 were the usual amount of contribution received from the taluk board, Narsapatam, for the upkeep of the municipal dispensary.

29. *Recoveries for Services rendered to Private Individuals—Private Scavenging.*—Under this head Rs 346–15–6 were collected as private scavenging fees against Rs. 325–12–0 of the last year, and Rs. 27 as fees for cleaning cess-pools of certain private individuals against Rs. 13–10–0 of the previous year. The increase is due to the levy of fees at the enhanced rate in the first quarter of the year under report. The private scavenging system is nearly self-supporting during the year under report, the charges for the service being Rs. 380–5–0 inclusive of the value of one iron hand-cart purchased in 1896–97, but the price of which was paid in the year under report.

The number of houses served by the municipal ageney on the 31st March 1898 was 147 against 142 of the last year. The list of houses which have latrines, submitted by the sanitary maistry, discloses that about 35 houses are still to come under Municipal scavenging agency. Measures will be taken to induce the owners of these houses to place them under the said agency. All other houses do not seem to possess latrine accommodation for want of room or way to allow a scavenger to enter the house or yard. It is said that most people being accustomed to resort to places outside the town for easing themselves did not in the first instance build their houses with latrine accommodation. Thus, most of the houses not being either spacious enough to allow a latrine to be provided or accessible to the scavenger for want of a proper way to their yards, the enforcement of section 207 of the Municipal Act seems to be difficult in this town. The houses and huts in Gavarapalem division are in such a congested state that it is very difficult to find room to provide a latrine for each block of six or more houses. Efforts will, however, be taken to provide proper ways or small roads behind the rows of houses which have yards, to admit scavenging being done. When such small roads are opened it will be possible to extend the private scavenging system to a far larger extent than at present.

30. *Miscellaneous.*—Under this head a sum of Rs. 133–13–4 was collected during the year, which is composed of the following items :—

	Rs.	A.	P.
Sale-proceeds of municipal conservancy carts and bullocks, and recoveries on account of damages to municipal lanterns ...	102	2	4
Fees for numbering carts	28	9	0
Fees and charges, &c., collected on unregistered carts seized under section 90 of the Act	3	2	0
Total ...	133	13	4

31. *Advances recovered.*—A sum of Rs. 50 is the amount of last year's outstanding advance paid to the hospital assistant sent for training and adjusted in the year under report under the item of "Advances recovered."

III.—Expenditure.

32. The total expenditure for the year amounted to Rs. 17,487–12–10 against Rs. 18,327–3–11 of the previous year and Rs. 19,500 estimated in the revised estimate.

33. *Grant 1, Public Works.*—The total amount expended on public works was Rs. 3,754–9–7 against Rs. 5,910 allotted in the revised estimate. The details are as follow.

34. *New Works—Communications.*—The earthwork of a portion of Santhabayalu road, which was commenced last year, was completed during the year under report at a cost of Rs. 27–15–8.

35. *Repairs—Communications.*—A sum of Rs. 1,410–2–1 was spent under this head against Rs. 1,700 sanctioned in the revised estimate. There was no proper expenditure on certain roads which wanted repairs, but were left unrepaired during the last quarter of the year, when unfortunately the permanent overseer fell ill and the man put to act for him was new to the work. Some of the works that were sanctioned were left unexecuted for the above reason.

36. *The total length of Roads in the Municipality is* 13 *miles and* 8 *yards.*—Out of this length, 12 miles 2 furlongs and 170 yards are maintained by the council. The total length of metalled roads is 10 miles 1 furlong and 78 yards; that of gravelled and unmetalled roads is respectively 1 mile 2 furlongs and 120 yards and 1 mile 4 furlongs and 30 yards.

37. *New Works—Buildings.*—Under this head Rs. 1,490–6–3 were spent against Rs. 3,150 sanctioned in the revised estimate. The following is the explanation for the less expenditure under this item :—

(*a*) The construction of the Municipal office building, which was commenced during the year, was expected to be completed before the end of the year. But contrary to our expectation the building was not so finished as the contractor felt great difficulty in procuring four hip rafters of country wood of the length of 30 feet each and applied for an extension of time which was granted to him. During this extension the year closed and there was no full payment of the cost of construction, which payment was expected at the time of the preparation of the revised budget; further reasons for the stoppage of the work of construction were that after the rafters were procured and used for the work there was sagging of the roof of an end room, and that the contractor, who had fallen ill a short time before the work was stopped, died subsequent to the stoppage of work. Instructions are applied for and now received from the Executive Engineer as to how the work should be completed and the defect discovered removed. A sum of Rs. 1,329–12–5 was spent for the masonry work of the buildings.

(*b*) A mud-wall latrine near the old fort was constructed during the year at a cost of Rs. 35–8–9.

(*c*) Rupees 15–13–6 were spent in the construction of a thatched shed in the hospital compound for patients suffering from certain contagious diseases.

(*d*) The Government having in G.O., Mis. No. 1645 M., dated 23rd July 1897, directed the council to shift the existing toll-gates to municipal borders, a sum of Rs. 31–7–0 was spent towards the construction of three toll-sheds on the said boundaries.

(*e*) Rupees 12–13–3 were spent in constructing temporary latrines and urinals during the Nookalamma's festival.

(*f*) The Municipal Upper Primary school, which was constructed last year, was during the year under report extended by the addition of a room at a cost of Rs. 13–1–4.

(*g*) The balances of payments due for the following works executed last year were paid in the year under report :—

	Rs.	A.	P.
(1) Standard plan iron double latrine in Kotina Veedhi	23	11	9
(2) West compound wall of the new burning and burial ground ...	2	2	3
(3) Moveable iron latrine in Payakarao bushes	26	0	0

38. *Repairs—Buildings.*—A sum of Rs 50–14–1 was spent on petty repairs to the existing public latrines and hospital building.

39. *New Works—Drainage.*—Rs. 97–1–0 were paid as compensation for the land taken up for the extension of Kotina Veedhi drain.

40. *Repairs—Water-supply.*—Rs. 5–2–0 were expended on petty repairs to the drinking-water wells and the tank.

41. *Tolls and Road Charges.*—The total amount expended on municipal roads during the year was Rs. 1,438, or 38·2 per cent. out of Rs. 3,760, municipal share of the total income from tolls. The decrease under the usual percentage of 50 fixed by Government is due to the circumstances explained in paragraph 35 *supra*.

42. *Grant 2, Education.*—There were on the 31st March 1898 one Middle school on salary system, one Upper Primary school and two Lower Primary schools on salary-results system; in all thirteen schools with 556 pupils on the rolls. The total cost incurred under this head was Rs. 2,104 against Rs. 2,342 of the previous year as noted below :—

	1896–97. Rs.	1897–98. Rs.
(1) Municipal Schools—		
(1) Salary system—		
(*a*) Middle school	1,265	1,178
(2) Salary-results system—		
(*a*) Secondary schools	...	...
(*b*) Primary schools	644	694
(3) Grant-in-aid schools—		
(1) Salary grants		...
(2) Results grants—		
(*a*) Secondary schools	...	...
(*b*) Primary schools	314	410
Normal stipends	...	...
Miscellaneous	119	122
Total ...	2,342	2,404

The increase in the year under report is chiefly due to increased earnings of results grants.

(*a*) *Municipal Middle School.*—The number of boys under instruction on the 31st March 1898 was 54 against 62 on the corresponding date of the previous year. The decrease seems to be due to the famine that prevailed during a part of the year. In the Lower Secondary Examination, three out of eleven sent up have passed, two completely and the other incompletely. The average net cost of educating each pupil in this school fell to Rs. 5 from Rs. 7 in 1896–97.

(*b*) *Salary-result Schools.*—There were three schools maintained under this system against the same number in the previous year. There were thus one upper primary school, one lower primary school for Pariah boys, and one night school for labouring classes. The total number of pupils reading in all the municipal primary schools was 121 against 120 of the last year. The number of pupils that were presented for examination in these schools was 52 against 79, of whom 44 passed. The cost of educating each pupil was Rs. 3–9–4 against Rs. 4–1–0 in 1896–97. The decrease in the cost is chiefly due to the non-existence of the Muhammadan school throughout the whole year, whereas it existed for seven months in the year 1896–97.

(*c*) *Result Schools.*—There are nine of these schools, and the total number of pupils at the close of the year was 381 against 388 of last year. The decrease being very slight calls for no remark. The number of pupils presented for examination was 275 against 250, of whom 234 passed against 177 in 1896–97. A sum of Rs. 410–1–3 was paid to the teachers as result grants during the year. The teacher of one of the result schools was refused the grant earned in the year for false personation of boys at the grant examination.

(*d*) *Miscellaneous.*—Rupees 121–9–9 were spent under this head towards the salary and famine batta and contingent charges of the common gymnast.

(*e*) The number of boys and girls of school-going age in the town was 2,551, as per last census, of whom 574 boys and 2 girls were under instruction in schools. The usual statements received from the Assistant Inspector of schools are enclosed.

43. *Grant 3, Sanitation and Medical Services, Hospitals and Dispensaries.*—There was one dispensary maintained by the council during the year. The number of out-patients treated in it was 8,121 against 9,376, while that of in-patients was 127 against 101 of the preceding year. The hospital assistant has explained the decrease and the increase in the number of patients in his report herewith submitted. Rupees 2,093 were spent for maintaining the dispensary against Rs. 1,820 of the previous year and Rs. 2,090 estimated in the revised estimate. The increase over the actuals of the previous year was due chiefly to the payment made in the year under report of arrears of salaries and house-rent of the acting hospital assistant and one-eighth pay of the permanent hospital assistant while under training and partly to the adjustment of an advance paid to the latter in the previous year for travelling expenses.

The temporary midwife attached to the municipal dispensary attended 139 labour cases during the first nine months of the year and the permanent one, who returned from the training hospital in the latter part of the year, attended 40 labour cases.

44. *Vaccination.*—There is one second-class vaccinator on a pay of Rs. 10 per mensem. Vaccination has been compulsory in this municipality for the last seven years. The total number of operations performed during the year was 905 against 1,240 of the previous year. The decrease in the number of operations is due to the decrease in the number of unprotected cases as explained by the local medical officer in his report. Of the total number of vaccinations, 891 were successful and 14 unsuccessful. One hundred and one persons were prosecuted for failure to get their children vaccinated against 89 of the previous year. All the vaccine operations were performed by means of animal lymph supplied from the local fund depot, Vizagapatam. The total cost of vaccination during the year was Rs. 153–7–0 against Rs. 159–3–0 of the previous year. The average cost of each successful case is As. 2–8 against As. 2–2 of the previous year. This increase in the cost is due to the decline in the number of operations during the year.

45. *Vital Statistics.*—The total number of births registered is 496 against 563 of 1896–97, of which 261 are males, 235 are females, against 298 males and 265 females, respectively, of the preceding year or 29·41 per thousand of population as per last census. The total number of deaths registered is 456 against 359 of last year, of which 265 are males and 190 are females against 213 males and 146 females, respectively, of the previous year or 26·82 per thousand of population as per last census. Twenty-nine prosecutions were instituted for failure to register births and

deaths. The following were the causes of death registered during the year: 29 cholera, 105 fevers, 73 dysentery and diarrhœa, 10 accidents and injuries, and 239 other causes.

46. *Conservancy.*—The total expenditure during the year was Rs. 4,773–5–4 against Rs. 4,420–9–6 of the previous year and Rs. 4,700 sanctioned in the revised estimate. The increase over the actuals of the previous year is chiefly due to (1) the charges incurred in connection with the Bubonic plague, (2) to the payment of salaries to the conservancy establishment at the enhanced rate of pay sanctioned in G.O., No. 173 M., dated 6th February 1897, and also to the payment of a small rate of famine batta, *i.e.*, at one rupee per head. The roads and streets were daily swept and kept clean. There were 5 fixed masonry and 116 moveable iron dust-bins. The town sweepings are daily carted outside the town to the depot of the sweepings contractor, to whom the cart-stand sweepings and town refuse were sold for Rs. 120 for the year, excluding the rent of depot land, viz., Rs. 40. There were 27 public latrines at the close of the year against 26 of last year. There are 16 conservancy carts at work including 12 iron hand-carts for night-soil during the year.

47. *Conservancy—Other Charges.*—Rupees 559–3–11 were spent under this head against Rs. 1,009–0–11 of the previous year and Rs. 460 estimated in the budget. The increase over the budget is on account of the purchase of a piece of land for enlarging the night-soil depot at a cost of Rs. 51–9–0, and to the higher prices of horse-gram, &c., during the last famine for the fodder of conservancy bullocks.

48. *Private Scavenging.*—The number of private latrines under the municipal agency at the close of the year was 147 as compared with 142 of the last year. The number of private latrines in the town being only about 180, the increase that can be expected at present will not be very large for reasons stated in paragraph 29 *supra.*

The total amount of scavenging fees collected was Rs. 373–15–6, while the expenditure, including contingencies and the cost of an iron hand-cart (viz., Rs. 29–8–0) supplied last year, was Rs. 380–5–0. The slight increase of expenditure over the actual receipts under this head may be attributed to the amount of famine batta paid to the scavengers. Thus the private scavenging system in this municipality during the year may be said to have been self-supporting.

49. *Plague Charges.*—A sum of Rs. 201–3–3 was spent under this head against Rs. 500 estimated in the revised estimate on account of the following items:—

	Rs.	A.	P.
Cost of constructing four thatched sheds—one on the railway platform for inspection purposes and three in the segregation camp	66	8	11
Inspection allowance of the local medical officer at the rate of Rs. 10 per mensem	37	10	8
Cost of plague medicines and portable tin-canisters, &c. ...	96	15	8
Total ...	201	3	3

50. *Grant 4, Lighting.*—The town was lighted by 113 lamps against 109 lamps in the previous year, 4 new lamps having been put up during the year on the Kotina Veedhi road leading to the railway station. The total expenditure incurred during the year was Rs. 461–6–8 against Rs. 479–12–5 of the previous year and Rs. 420 of the revised estimate. The decrease in the expenditure was due to the fluctuations in the prices of kerosine-oil, &c., purchased for the purpose, while the increase over the revised estimate was due to the fact that some of the old burners and wooden lamp-posts had to be replaced by new ones during the year under report. The charges were as follow:—

	Rs.	A.	P.
(1) Establishment charges	146	10	0
(2) Contingencies	314	12	8

51. *Markets—Contingencies.*—A sum of Rs. 42–12–0 was spent under this head towards the rent of the fish-market.

52. *Avenues—Contingencies.*—A petty sum of Rs. 1-14-6 was expended under this head towards the contingent charges connected with the avenues planted last year.

53. *Survey of Land.*—Under the circumstances reported in this office letter No. 373, dated 25th December 1897, embodied in G.O., No. 406 M., dated 18th February 1898, a sum of Rs. 217-14-5 was spent towards the cost of surveying the lands against Rs. 100 sanctioned in the revised estimate. A half of the former amount (viz., Rs. 217-14-5) will be realized in the current year from the District Board, Vizagapatam, in accordance with the arrangement made in the beginning by the President. The work of survey, which was first commenced with the object of ascertaining the exact area of different lands under cultivation within the municipality and to estimate thereby the loss of land-tax, which would accrue by the contraction of municipal limits, was subsequently given up, the President, District Board, having withdrawn his proposal to exclude certain roads from the municipal limits. The work performed had thus been incomplete. Apart from the question of contraction of limits, if the work is carried on completely, I believe it would be to the advantage of the council as there is every likelihood of fetching more tax to the council at the existing rates, and the tax imposed after a detailed survey would be more just and equitable. The difficulty that presents itself to the council is the question of funds to carry on the work.

54. *Miscellaneous—Other Charges.*—Rupees 207-3-3 were spent under this head against Rs. 180 sanctioned in the revised estimate. They were composed of the following items:—

Rupees 180-10-3 printing charges, Rs. 15-4-0 contribution to the Queen's Commemoration Committee, Madras, towards the cost of casket, &c., Rs. 8-2-0 tom-tom charges and travelling allowances, and Rs. 3-3-0 wages of coolies employed in detecting the unlicensed carts in the town.

55. *Contributions to Provincial Funds.*—These were Rs. 162, being composed of the following items:—

Rupees 88 contribution to the Medical College, Rs. 55 sanitary inspection, and Rs. 19 Medical Reserve staff.

56. *Supervision and Management.*—The total charges incurred under this head were Rs. 1,417-7-5 against Rs. 1,400 sanctioned in the revised estimate and Rs. 1,608 of the previous year.

The charges were Rs. 587-office establishment, Rs. 69 inspection, Rs. 292 collection establishment, Rs. 136-13-4 purcharse of account books, &c., Rs. 152-10-1 office contingencies, and Rs. 180 contribution to the central office and audit establishments.

57. *Repayment of Debt.*—Rupees 374-8-0 were spent during the year towards the repayment of loan of Rs. 3,000 lent by Government to build municipal office and the interest thereon as detailed below:—

	Rs.	A.	P.
On account of instalment paid during the year	274	15	0
" of interest for the year under report	99	8	6

58. *Advances Recoverable.*—A sum of Rs. 21 were paid to the headmaster of the Municipal Middle school for the purchase of library books and Rs. 7 to the surveyor and sanitary head maistry for contingent charges.

59. *Refunds of other than Current Collections* —Rs 1,145 were paid towards refunds of magisterial fines reported in paragraph 35 of this office letter, No 373, dated 25th December 1897, printed in G.O., No. 406 M., dated 18th February 1898, and Rupees 130-4-0 were the amount of magisterial fines under sections 3 to 5 of Towns Nuisance Act credited to Municipal funds in 1896-97 and subsequently transferred to "Law and Justice" as advised by the Treasury officer.

IV.—Closing Balance.

60. The year closed with a balance of Rs. 1,317-0-4, as compared with Rupees 4,428-10-4 of the previous year and Rs. 310 estimated in the revised estimate. The increase over the revised estimate is due to the incomplete construction of the municipal office building within the close of the year as explained in paragraph 37 *supra*.

61. *Municipal Accounts.*—The accounts for the year under report were audited in the first two weeks of this month.

62. *Concluding Remarks.*—In conclusion, I beg to submit that the small arrears outstanding at the close of the year could have been accounted for, viz., whether they are recoverable or irrecoverable, had the administration throughout the year been an uninterrupted one. Frequent change of hands in the Chairmanship, as represented in the beginning of this report (*vide* paragraph 3), might have slightly effected the usual run of business. This also accounts for a less number of meetings held in the year. A certain length of time is generally taken up for the disposal of papers by the councillors, to whom are referred lists of persons who are either unable to pay their taxes on account of extreme poverty or dead or left the place for good. This is probably owing to a desire to probe into the solvency or otherwise of a referred tax-payer. I further beg to submit that nearly a month's delay in the submission of this report is owing to certain circumstances beyond my control. The Assistant Accountant-General and Inspector of Local Fund Accounts gave notice that the audit of this office accounts would be taken up on or about the 25th of May last, with a view to get audited figures available, the preparation of this report was deferred till the audit was over. But to our disappointment the audit could only reach this place on the 5th of this month. He remained here till the 11th instant. In the meanwhile I, the local sub-registrar, was suddenly ordered by the district registrar to proceed at once to Chódavaramu (a place 12 miles off from this town) to relieve the acting sub-registrar of that station. This was only a temporary arrangement which was first thought to be only for 3 or 4 days but it lasted 8 days. So I returned here on the 15th instant, from which date the preparation of this report was taken up. In the meanwhile a meeting of the council had to be held to read the draft report for adoption. The above causes and the fact that I have to attend to my own legitimate duties contributed to the delay which was unavoidable. A copy of the council's resolution adopting the report is herewith submitted.

Enclosure.

Concise Annual Report of the Municipal Hospital at Anakápalle, for the official year 1897-98.

Public Health.—The public health of the town of Anakápalle was on the whole fair. Cholera made its appearance in the second quarter of the year, but not epidemically. It occurred in its milder form sporadically among the lower classes of people, but measures were successfully adopted by the municipality to arrest its progress. Ague, itch and ulcers prevailed to a small extent.

Vital Statistics.—The total number of births registered was 496 and that of deaths 455 against 563 and 359, respectively, of the previous year.

Sanitation.—The sanitary condition of the town was good. The roads and streets were daily swept and the rubbish carted away to depots outside the town. But the condition of the side drains continues to be unsatisfactory. No addition was made to the number of latrines brought under the private scavenging system. The water-supply was good and sufficient.

Vaccination.—Infantile vaccination was very satisfactory. The number of infants vaccinated under one year of age was 498 against 477 of the previous year. The total number of cases vaccinated was 905 (891 successful and 14 unsuccessful), the number for the previous year being 1,240. The decrease is certainly due to the fact that year after year the number of persons unprotected in the town is being reduced. The number of re-vaccination cases was 114. The second-class municipal vaccinator B. Appalaswamy worked satisfactorily.

Hospitals and Dispensaries.—(*a*) The accommodation for the hospital consists of—(1) a main building partitioned into a hall and two rooms; the hall accommodates eight male in-patients and the two small rooms are the office and the dispensing rooms, respectively; (2) a kitchen; and (3) a female ward containing two beds for

The hospital accommodation is quite inadequate for a town of 17,000 population.
(Intld.) A. H. L.

female in-patients. The accommodation for office and for dispensing medicines was not quite sufficient. The want of an operation room for surgical cases is much felt.

(*b*) The buildings are in good repairs.

(*c*) The furniture is in good repairs.

(*d*) On the recommendation of the District Medical and Sanitary officer a temporary thatched shed was erected by the municipality in the hospital compound to receive sick persons from famine kitchens.

(*e*) Rs. 12–13–10 was recovered from patients for their medicines, but no recoveries were made for diet, as those who were able provided their own diet.

(*f*) One hundred and twenty-seven in-patients and 8,121 out-patients were treated in the year against 101 and 9,376, respectively, of the previous year. The increase in the number of in-patients was due to the admission of a large number of famine-stricken persons and the decrease in the number of out-patients to the comparatively small extent of the prevalence of ague, itch and ulcer and to the frequent closing * of the hospital on account of the absence of the medical officer at the Sessions Court.

(*g*) There were 16 deaths in the hospital, but none from the septic diseases.

(*h*) Three hundred and twenty surgical operations were performed during the year. Eleven of these were among the in-patients and 309 among the out-patients. All were successful.

(*i*) The establishment was sufficient and efficient.

(*j*) The pupil-midwife sent by the municipality for training at Madras joined her post here on the 1st of January 1898. She conducted 40 labour cases during the last quarter of the official year. The temporary midwife who acted for her conducted 139 cases during the first nine months of the year.

* Nineteen days in all.
(Intld.) A. H. L.

(Signed) KAREEM SAHIB, Hospital Assistant,
In Medical charge.

ANAKAPALLE, Rcd. 264 29.4.98 Forwarded
16*th April* 1898.

(Sd). A. H. Leapingwell Surg. Rep. of Dt. Medical & S.G.

From R. B. WOOD, Esq., Head Assistant Collector, Narsipatam, to the Collector of Vizagapatam, dated 1st July 1898, Dis. No. 540.

In forwarding the administration report of the Anakápalle Municipality, I have the honour to remark that the Chairman's explanation for the delay is intelligible, though not quite satifactory.

The roads of the municipality are in good order. The Chairman takes a great interest in his work and is doing well.

(Sd) R B Wood

Submitted to Government.

2. The short expenditure on communications is unsatisfactory.

3. The delay in the submission of the report is sufficiently explained.

3*rd July* 1898.

(Signed) W. O. HORNE,
Acting Collector.

Anakapalle Municipal Report 1897-98

LOCAL AND MUNICIPAL DEPARTMENT.

Papers to be read in Proceedings:—

Current No. 2318 of 1898, dated June from the Chmn. Anakapalle

Current No of 189 , dated from the

Current No. of 189 , dated from the

Current No. of 189 , dated from the

Order.

M. 1468 M 8 17/8/98

The ~~estimated~~ receipts and charges of the Anakapalle Municipality for 1897-98, ~~passed by Government~~, are compared below with the budget and revised estimates for the year and the actuals of 1896-97.

2. The municipal council held eighteen meetings against 29 in 1896-97 and five others were adjourned for want of a quorum against one in that year. There was an improvement in the average attendance of official members, which was satisfactory, while that of non-officials declined continued to be fair.

3. Receipts (1). The demand under the tax on arts, as originally assessed by the Chairman amounts to Rs 1,411, but as much as 12·1 per cent of this sum was again remitted by the Municipal Council and appeals thereon no explanation has been offered in the Chairman's report. The net current demand under this head fell from Rs 1674 to Rs 1240 the decrease being apparently due to the adoption of the revised schedule A annexed to the District Municipalities Act. The demand under the tax on buildings however showed an increase of Rs 163, while that under the tax on the lands remained almost stationary.

(2) The current collections under the principal taxes continued to be on the whole good, but the arrear realizations declined

should be taken to adjust the balances outstanding with-out delay.

(3) There was a decrease in the receipts under Grants, contribu-tions from other bodies which is explained in para 26 of the chairman's report. The attention of the Inspector General of Police will be drawn in the judicial department to the remissness on the part of the Police in the detection of offences under the Towns Nuisances & District Municipalities Acts. Vide para 26 of this report. in the above paragraphs. There was also no income under contributions from other bodies and loans.

(4) The number of houses served by the private scavenging agency was only 147 or five more than in the previous year, and the service was worked at a loss of Rs 33 to the municipal Council. The Government trusts that the efforts made to increase the number of private latrines in the town and to extend this service will not be relaxed until all the private latrines in the town are brought under the control of the municipal agency and their number is considerably increased.

4. Expenditure (1) Public Works.

The construction of the municipal office building, on which a sum of Rs 1330 was spent during the year, was the only new work of importance undertaken by the municipal Council. The total outlay on communications amounted to Rs 1438 or only 38.4 per cent of the net municipal revenue from tolls against the minimum of 50 per cent prescribed by Government, the short outlay being explained in para 35 of the chairman's report. The roads are, however, reported by the Head assistant Collector to have been in good order. Para 29 of this report.

(2) Education. The net expenditure under this head amounted to Rs 1,118 or 10.9 per cent of the receipts from taxation. Of this sum, all but Rs 238 was spent on primary education. As in the previous year, the municipal Council maintained a lower secondary school on the salary system and three primary schools on the salary result system and aided nine primary schools with result grants. Taken together the attendance at these institutions declined slightly, but the results of the lower secondary department and grant was against ten in that year

declined and were very fair. The out-turn whole
ntained to be fair. The
otment per result grants
as slightly exceeded, but the total
umber of boys under instruction
the Municipal and aided
chools fell from 569 or 46.8
er cent of the male population
f schoolgoing age to 554 or
3.5 per cent.

(3) Medical Relief. The number
of in-patients treated at the
Municipal hospital was 127
or 26 more than in the previous
year, but that of out-patients
fell from 9376 to 8121 and
the variations being explained
in para 5(ii) of the medical report.
His attention is drawn to the want
the temporary and the permanent
midwives attended between
them 179 cases of labour against
65 attended by the former during
the last five months of the
previous year. The attention
of the Municipal Council
is drawn to the remarks of the District Medical and Sanitary
officer on para 5 of the medical
report regarding the inadequacy
of the hospital accommodation
in the town.

Vide para. 5(iii) of medical report

(4) Vaccination and vital
statistics. It is observed with regret that
of persons vaccinated during
the year again fell from 12
to 905, but the quality of the
work improved and was g
the ratio of reported success
being 98.5 against 95.6 in
1896-97. Infantile vaccinated
received fair attention, the
number of children under
one year successfully vaccina
having being 497 or 29.2 per
mille of the population again
470 or 27.6 per mille in the
previous year.

There was an increase in
the number of deaths but a
decline in that of births
registered during the year. In
both cases, however, the
returns cannot be regarded
as trustworthy, the rates
recorded being much below
the normal. On this occasion
The attention of the Munic
Council is drawn to instruc
R. issued in para 2 of G.O. No 926
dated 17th May 1878 regarding the
registration of vital statistics.

(5) Sanitation. Owing apparently
to the absence of cholera in the
town in an epidemic form
nearly more than eight per cent
of the allotment under

Vide para. 1. of medical report.

d

had remained unutilized,
on the expenditure amounted
to Rs 4773 or 33.2 percent of the
current receipts against 22.1
percent in the previous year
(from para 46 of the chair
-man's and para 3 of the
Medical officer's report, it
appears that some attention
was paid to the Sanitation
of the town, but much yet
remains to be done before
all the defects pointed out
by the Deputy Sanitary
Commissioner in his last
inspection notes can be remedied

General Remarks. The year
closed with a balance of
Rs 1317 or 9.2 per cent of the
current receipts.

The extension of the private
Scavenging system and the
improvement of the regis tra
-tion of vital statistics and
Sanitation demand increased
attention. In other respects,
the administration of the
Municipality during the
year under review continued
to be tolerably Efficient.

The Government notes

Boys.	Girls.	
6	7	8
54	–	The loss in pupils was chiefly confined to the Lower Secondary school. The absence of the Head Master on leave in the last quarter of the year and the famine which visited the town last year brought about this [illegible]. The loss of one Anglo-Tamil school was due to the teacher having been refused the grant earned for false personation of boys at the Grant Examination.
