FEBRUARY.

Municipal Budget.

Reviewing the Tinnevelly — for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers:—

From M.R.Ry. DALAVOY THEETHARAPPA MUDALIYAR Avargal, Chairman, Municipal Council, Tinnevelly, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional Officer and Collector of Tinnevelly), dated 22nd December 1897, No. 460.

I have the honour to submit the budget estimates of receipts and charges of the Tinnevelly Municipality for the year 1898–99, together with the revised estimate for the year 1897–98. The copy of the resolution of the councillors, dated 20th December 1897, passing the same, is enclosed.

REVISED ESTIMATE FOR 1897–98.

Receipts.

2. The total receipts for 1897–98 estimated at Rs. 28,160 in the budget estimate have been raised in the revised estimate to Rs. 28,660. The increase occurs chiefly under tax on buildings, avenue receipts, sale-proceeds of old materials, distraint fees and license fees. This increase is to some extent counterbalanced by a decrease under tax on arts, tax on animals, tax on carts, contribution from local boards—medical, recoveries on account of private scavenging, sale-proceeds from sewage farm. The decrease under tax on arts is due to the assessment with reference to the income of persons under the new Act. The private scavenging system has not spread as rapidly as expected owing to the delay in the opening of lanes. The matter is under correspondence and will be completed during the next year. The other variations are explained in column 7 in Statement VI.

Charges.

3. The total charges shown in the revised estimate for 1897–98 are Rs. 33,730 against Rs. 32,990 provided in the budget. The increase under Grant 1 is due to the completion of drain in the North Mount Road and also to the repair of petty drains. The increase under Grant 4 is due to the high rate in the price of kerosine oil. The decrease under Grant 3 is due partly to the conservancy bulls being departmentally maintained and partly to the savings in the pay of the civil apothecary. The other variations have been explained in column 7 in Statement VI. The revised estimate leaves a balance of Rs. 9,290 and forms an opening balance for 1898–99.

BUDGET ESTIMATES FOR 1898–99.

Receipts.

4. The fees and taxes are proposed to be levied for the next year at the same rate as in the current year in accordance with the provisions under the new Act.

5. The receipts, excluding the opening balance, are estimated at Rs. 28,710 against Rs. 28,657, the sum shown in the revised estimate. The important variations are explained below. During the current year two houses attached to Pennington market had to be sold and the land added to the market; hence the decrease under sale-proceeds of old materials. The drawing master has qualified himself for a first-class certificate and a grant of Rs. 7–8–0 per mensem has been sanctioned on his behalf; hence the increase of Rs. 30 under gymnasium and drawing. Rs. 1,500 have been provided under fees for private scavenging against Rs. 1,200 in the revised estimate; the system is expected to be more largely availed of. The sewage farm is not yet thoroughly organized as expected in the last year. The sewage farm will be completed by the close of the year and grass will be grown in the next year. A sum of Rs. 100 is expected to be realized by the sale of grass. The other items of receipts do not call for special remarks, the figures relating to them being the same or nearly the same as those of the revised estimate for the current year.

Charges.

6. *Grant 1.*—A sum of Rs. 3,900, or nearly 84 per cent. of the estimated income from tolls, is provided under New works and repairs—communications as detailed in Statement II-A. The extension of the bridge over the Krishnaperi surplus channel is estimated at about Rs. 1,400. The work will be commenced during the current year and it will be partly completed with the provision of Rs. 500 during the current year; hence the provision of Rs. 900 under New works for completing the work during the next year. A sum of Rs. 750 is provided under New works—buildings for the purchase of four corrugated iron latrines and also for providing high caste patients ward, a lying in ward, a venereal ward, a suitable isolation shed as recommended by the Surgeon-General with the Government of Madras. A sum of Rs. 300 is provided under New works—drainage for construction of certain petty drains on account of sanitary improvements. A sum of Rs. 3,000 is provided under Repairs to communication for maintenance of roads and streets. A sum of Rs. 600 is provided under Repairs to buildings for repairing the markets, the dispensary and some of the bathing ghâts. A sum of Rs. 250. is provided for the repair of existing drains wherever necessary. The permanent overseer has undergone training in Madras and his pay will have to be raised from Rs. 15 to Rs. 25; hence the increase of Rs. 120 under (3) Establishment.

7. *Grant 2.*—The proposals of the Director of Public Instruction have been fully adopted in reference to the statements submitted by the Inspector of Schools. The council have also provided for the increase in the carriage allowance of the inspecting schoolmaster referred to in G.O., No. 1923 M., dated 2nd September 1897.

8. *Grant 3.*—The civil apothecary in charge of the dispensary is paid at Rs. 75 a month; hence the decrease under Hospital establishment. But it is provided to increase the salary of a compounder on account of his having completed his five years' service under G.O., No. 1662 L., dated 26th July 1889, as recommended by the District Medical and Sanitary officer. The sum of Rs. 300 under Sundries and contingencies includes provision for replacing the wooden cots by iron ones with planks as recommended by the Surgeon-General and for supplying a big almirah for the dispensing room as recommended by the District Medical and Sanitary officer. A sum of Rs. 200 in excess of the revised estimate is provided under Medicines and supplies. The dear rate in the price of articles during the current year has caused the increase of Rs. 50 over the budget estimate under Diet of patients. The same cannot be expected during the next year; hence the provision is less than in the revised estimate by Rs. 50. As the vaccine lymph will be obtained from the Mysore Government vaccine institute at Bangalore, the provision under Vaccination contingencies is reduced to Rs. 100.

One third grade inspector on Rs. 20 proposed in the last budget was entertained till September 1897. Subsequently the council resolved that one maistry on Rs. 15 be entertained and accordingly his pay is reduced from October 1897. This difference of Rs. 5 accounts for decrease of Rs. 60 under Conservancy establishment. The conservancy bulls being departmentally maintained, the provision of Rs. 1,800 is considered to be quite sufficient under Other charges as detailed hereunder: Rs. 1,200 for maintenance of bulls, Rs. 300 for making new carts, Rs. 200 for repair of carts and Rs. 100 for other miscellaneous purposes. As the private scavenging system is gradually extended, additional toties will be required during the next year; hence the provision of Rs. 1,620 under Private scavenging establishment.

9. *Grant 4—Lighting Contingencies.*—As the high rate in the price of kerosine oil cannot be expected in the next year also, the provision under this head is less than that of the revised estimate by Rs. 200.

Compensation for Lands.—A sum of Rs. 1,000 is provided for acquiring lands for the opening of lanes behind houses whose backyards are at present inaccessible for the purpose of private scavenging and for acquiring suitable sites for placing the iron latrines or for constructing additional latrines.

10. *Grant 5, Office Establishment.*—As the office work is much increased and the auditors have pointed out that the duties of shroff and accountant cannot be entrusted to one person, it is considered that the appointment of an accountant on salary Rs. 12 is essentially necessary; hence the provision of Rs. 140 in excess of the current budget.

The other items of charges are almost the same as in the revised estimate and do not call for any remarks, and the year 1898–99 will close with a balance of Rs. 7,420.

A proposition statement for changes proposed in the establishment under several heads accompanies.

Submitted.

2. The actuals of Rs. 643-5-0 derived from private scavenging fees for the first eight months of the current year are very discouraging. At this rate another sum of Rs. 322 alone can be expected from this source for the remaining four months of the year. It is therefore doubtful if even the reduced figure of Rs. 1,200, adopted in the revised estimate against Rs. 1,500 of the original estimate, can be reached. In their budget proposals for the current year the council promised to effect a large extension in the private scavenging service by opening up lanes for gaining access to backyards and by employing Oddars and Koravars in the place of Pallars against whose entry into the houses of high caste Hindus there was opposition. But nothing has been done in these directions and the result is that, instead of the expected expansion of the service, there are signs of its decline. [Compare the actuals of 1896–97 (Rs. 1,056–8–0) with the actuals of the first eight months of the current year.] The council will do well to take early steps to remove the obstacles that lie in the way of the satisfactory working of the service and to avail themselves to a larger extent, than is at present done, of the penal provisions of the Act against keeping filthy backyards.

3. Pure drinking water is one of the chief wants of the town of Tinnevelly. The supply of water brought down by the irrigation channels, which is very largely used for drinking, is impure and is one of the causes of the ever recurring cholera. In G.O., No. 1342 M., dated 12th August 1896, Government impressed on the council the importance of sinking wells in suitable localities and the council in their budget proposals for the current year provided the sum of Rs. 1,500 for the purpose. But only a sum of Rs. 121–3–0 was actually spent for the first eight months of the year. No sites have yet been selected for the wells proposed to be sunk and it is very unlikely that the allotment will be fully utilized within the year. No provision has been made in the budget of 1898–99 for this purpose.

4. The high caste patients' ward, which the council proposed in its last budget to open by renting out the compound adjoining the hospital, has not yet been opened; and no attempts have been made for securing the compound for the said use.

5. The want of a cholera shed at a convenient distance from the hospital is keenly felt. But no site has yet been selected and the provision made in the original and the revised budgets of the current year for acquiring land for the shed is not likely to be utilized.

6. In the budget estimate for the next year the paltry sum of Rs. 250, which is too small to meet the cost of any one of the marginally-noted works, has been allotted for all of them.

1. The construction of a high-caste patients' ward.
2. The construction of a lying-in ward.
3. Do. of venereal ward.
4. Do. of an isolation shed.

7. Adequate provision has been made under "Communications"—New works as well as repairs both in the revised estimate of the current year and in the budget estimate of the coming year.

29*th December* 1897.

(Signed) T. RAGHAVIAH,
Head-quarter Deputy Collector.

Submitted to Government.

2. In framing the budget the council were of opinion that agricultural lands are exempt from taxation under the new Act. This wrong interpretation of the section was pointed out to them and the figures had to be sent back for revision.

3. The remarks of the Divisional officer on the various points referred to in his endorsement are fully approved. The council's attention was drawn by Government in the last administration report to the importance of sinking good drinking water wells in suitable localities and still they have not been prompt in taking action in that direction except making some provision in the budget. The best season for sinking wells in the current year when there is a provision of Rs. 1,500 has gone and no allotment has been made in the budget for 1898–99.

4. The provision of Rs. 500 for four new latrines is satisfactory.

5. There is at present a combined shroff and accountant on Rs. 15 and the council proposes to have a separate accountant on Rs. 12 besides the shroff on Rs. 15. Sufficiently adequate reasons have not been adduced for the entertainment of a shroff. There is very little shroffing work to be done in the office, and all daily collections, which are not large, are then and there remitted to the treasury by means of chellans. If the present incumbent on Rs. 15 cannot do the combined duties of shroff and accountant without his work being condemned by the audit department, the council should see their way to replace him by a better man instead of applying for extra establishment. The amount provided under this head may well be spent under sanitation or added to the sum allotted under Buildings—new works, for which sufficient provision has not been made as remarked by the Divisional officer in paragraph 6 of his endorsement.

10*th January* 1898.

(Signed) R. B. CLEGG,
Acting Collector.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 7th January 1898, No. 116.

Referring to the budget estimates of the Tinnevelly Municipality for 1898–99, I have the honour to state that the provision made therein for education is sufficient and may be accepted. The net expenditure proposed is Rs. 3,520 (Rs. 3,760—240) or about 15·4 per cent. of the estimated income from taxation, markets and rents.

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 11th January 1898, No. 22.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Tinnevelly Municipality for the year 1898–99 is sufficient.

2. All the recommendations of the District Medical and Sanitary officer have been attended to.

3. A sum of Rs. 250 is allotted for providing a ward for high caste patients, a lying-in ward, a venereal ward and a suitable isolation shed and Rs. 100 for repair of dispensary.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Fort St. George, 24th January 1898, No. 102-S.

I have the honour to state that the expenditure proposed by the Tinnevelly Municipal Council for the conduct of vaccination during 1898–99 calls for no remarks. The conservancy charges are placed at Rs. 9,470 against Rs. 10,430 for the current year. The proportion which the assignment bears to the estimated receipts cannot be

ascertained as the latter have nowhere been shown. Statement II-B shows that there are 45 sweepers and 41 scavengers. For the requirements of the town population a staff of 25 sweepers and 63 scavengers is necessary, as already advised by me in my notes recorded in G.O., No. 745 M., dated 2nd May 1896. The supervising staff also does not appear to have been as yet placed on the footing suggested in the notes above referred to.

ORDER—No. 332 M., dated 4th February 1898.

The estimated receipts and charges of the Tinnevelly Municipality for 1898–99, as passed by Government, are compared below with the budget and revised estimates for the year 1897–98 and the actuals of 1896–97 :—

REVISED ESTIMATE FOR 1897–98.

2. The current receipts and charges are now estimated at Rs. 28,660 and Rs. 33,730, respectively, against Rs. 28,160 and Rs. 32,990 anticipated in the sanctioned budget. The increase in the receipts, which occurs chiefly under the tax on buildings, sale-proceeds of old materials, and distraint and license fees is partly counterbalanced by a decrease under the taxes on arts and carts and private scavenging fees, while the increase in the charges which appears mainly under advances recoverable is partly met by a decrease under Grant 3. The collections under the taxes on arts and lands and private scavenging fees, and the expenditure on buildings and new works—communications and water-supply during the first eight months of the year were very unsatisfactory. With reference to the remarks of the Revenue Divisional Officer and the Collector in paragraph 3 of their endorsements, the allotment for new works—water-supply in the current year will be reduced from Rs. 1,500 to Rs. 500 and a provision of Rs. 1,000 will be made under this head in the budget estimate for 1898–99. The municipal council should see that these allotments are fully utilized and that the ward for high caste patients and the cholera shed referred to in paragraphs 4 and 5, respectively, of the Divisional Officer's endorsement are provided without any further delay. The entertainment of a sanitary maistry on Rs. 15 in lieu of the existing third grade sanitary inspector on Rs. 20, referred to in paragraph 8 of the Chairman's letter, cannot be approved, as the Government considers it a retrograde step. The balance to be carried forward to the ensuing year's budget will be Rs. 10,290.

BUDGET ESTIMATE FOR 1898–99.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 28,710 against the revised estimate of Rs. 28,660, the increase which appears under private scavenging fees being partly counterbalanced by a decrease under sale-proceeds of old materials. The estimated income from private scavenging fees will be raised from Rs. 1,500 to Rs. 1,800, so as to make it more nearly cover the cost of the service. Early steps should be taken to make the backyards of houses accessible to scavengers and thus largely extend the system. In this connection the attention of the municipal council is drawn to the remarks of the Divisional Officer in paragraph 2 of his endorsement.

4. *Charges.*—(1) The probable charges are put down at Rs. 31,640 against Rs. 32,730 in the revised estimate, the decrease being under Grant 3 and advances recoverable.

(2) *Grant 1.*—The attention of the municipal council is drawn to the remarks of the Divisional Officer in paragraph 6 of his endorsement regarding the inadequacy of the allotment for the works specified therein.

(3) *Grant 3.*—The Sanitary Commissioner's remarks in his letter read above, regarding the revision of the conservancy establishment, will be commended to the municipal council for careful consideration. The omission to furnish him with information regarding the estimated receipts of the year should not be allowed to recur.

(4) *Grant 5.*—For the reasons assigned by the Collector in paragraph 5 of his endorsement, the entertainment of an accountant on Rs. 12 in the municipal office, proposed in paragraph 10 of the Chairman's letter, cannot be sanctioned. With reference to G.O., No. 2473 L., dated 22nd December 1897, the contribution for the central office establishments will be reduced from Rs. 270 to Rs: 238 or Rs. 240 in round figures.

5. As revised by Government, the budget closes with a balance of Rs. 7,830 or 27 per cent. of the estimated receipts. Of this sum, however, the greater portion will be required for expenditure on the water-supply scheme now under investigation.

FEBRUARY.

Municipal Budget.

Reviewing the Tinnevelly — for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From M.R.Ry. DALAVOY THEETHARAPPA MUDALIYAR Avargal, Chairman, Municipal Council, Tinnevelly, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional Officer and Collector of Tinnevelly), dated 22nd December 1897, No. 460.

I have the honour to submit the budget estimates of receipts and charges of the Tinnevelly Municipality for the year 1898–99, together with the revised estimate for the year 1897–98. The copy of the resolution of the councillors, dated 20th December 1897, passing the same, is enclosed.

Revised Estimate for 1897–98.

Receipts.

2. The total receipts for 1897–98 estimated at Rs. 28,160 in the budget estimate have been raised in the revised estimate to Rs. 28,660. The increase occurs chiefly under tax on buildings, avenue receipts, sale-proceeds of old materials, distraint fees, license fees. This increase is to some extent counterbalanced by decrease under tax on arts, tax on animals, tax on carts, contribution from local boards, medical, recoveries on account of private scavenging, sale-proceeds from sewage farm. The decrease under tax on arts is due to the assessment with reference to the income of persons under the new Act. The private scavenging system has not spread as rapidly as expected owing to the delay in the opening of lanes. The matter is under correspondence and will be completed during the next year. The other variations are explained in column 7 in Statement VI.

Charges.

3. The total charges shown in the revised estimate for 1897–98 are Rs. 33,730 against Rs. 32,990 provided in the budget. The increase under Grant 1 is due to the completion of drain in the North Mount Road and also to the repair of petty drains. The increase under Grant 4 is due to the high rate in the price of kerosine oil. The decrease under Grant 3 is due partly to the conservancy bulls being departmentally maintained and partly to the savings in the pay of the civil apothecary. The other variations have been explained in column 7 in Statement VI. The revised estimate leaves a balance of Rs. 9,290 and forms an opening balance for 1898–99.

Budget Estimates for 1898–99.

Receipts.

4. The fees and taxes are proposed to be levied for the next year at the same rate as in the current year in accordance with the provisions under the new Act.

5. The receipts, excluding the opening balance, are estimated at Rs. 28,710 against Rs. 28,657, the sum shown in the revised estimate. The important variations are explained below. During the current year two houses attached to Pennington market had to be sold and the land added to the market; hence the decrease under sale-proceeds of old materials. The drawing master has qualified himself for a first-class certificate and a grant of Rs. 7–8–0 per mensem has been sanctioned on his behalf; hence the increase of Rs. 30 under gymnasium and drawing. Rs. 1,500 have been provided under fees for private scavenging against Rs. 1,200 in the revised estimate; the system is expected to be more largely availed of. The sewage farm is not yet thoroughly organized as expected in the last year. The sewage farm will be completed by the close of the year and grass will be grown in the next year. A sum of

Rs. 100 is expected to be realized by the sale of grass. The other items of receipts do not call for special remarks, the figures relating to them being the same or nearly the same as those of the revised estimate for the current year.

Charges.

6. *Grant 1.*—A sum of Rs. 3,900, or nearly 84 per cent. of the estimated income from tolls, is provided under New works and repairs—communications as detailed in Statement II-A. The extension of the bridge over the Krishnaperi surplus channel is estimated at about Rs. 1,400. The work will be commenced during the current year and it will be partly completed with the provision of Rs. 500 during the current year; hence the provision of Rs. 900 under New works for completing the work during the next year. A sum of Rs. 750 is provided under New works—buildings for the purchase of four corrugated iron latrines and also for providing high caste patients ward, a lying-in ward, a venereal ward, a suitable isolation shed as recommended by the Surgeon-General with the Government of Madras. A sum of Rs. 300 is provided under New works—drainage for construction of certain petty drains on account of sanitary improvements. A sum of Rs. 3,000 is provided under Repairs to communication for maintenance of roads and streets. A sum of Rs. 600 is provided under Repairs to buildings for repairing the markets, the dispensary and some of the bathing ghâts. A sum of Rs. 250 is provided for the repair of existing drains wherever necessary. The permanent overseer has undergone training in Madras and his pay will have to be raised from Rs. 15 to Rs. 25; hence the increase of Rs. 120 under (3) Establishment.

7. *Grant 2.*—The proposals of the Director of Public Instruction have been fully adopted in reference to the statements submitted by the Inspector of Schools. The council have also provided for the increase in the carriage allowance of the inspecting schoolmaster referred to in G.O., No. 1923 M., dated 2nd September 1897.

8. *Grant 3.*—The civil apothecary in charge of the dispensary is paid at Rs. 75 a month; hence the decrease under Hospital establishment. But it is provided to increase the salary of a compounder on account of his having completed his five years' service under G.O., No. 1662 L., dated 26th July 1889, as recommended by the District Medical and Sanitary officer. The sum of Rs. 300 under Sundries and contingencies includes provision for replacing the wooden cots by iron ones with planks as recommended by the Surgeon-General and for supplying a big almirah for the dispensing room as recommended by the District Medical and Sanitary officer. A sum of Rs. 200 in excess of the revised estimate is provided under Medicines and supplies. The dear rate in the price of articles during the current year has caused the increase of Rs. 50 over the budget estimate under Diet of patients. The same cannot be expected during the next year; hence the provision is less than in the revised estimate by Rs. 50. As the vaccine lymph will be obtained from the Mysore Government vaccine institute at Bangalore, the provision under Vaccination contingencies is reduced to Rs. 100.

One third grade inspector on Rs. 20 proposed in the last budget was entertained till September 1897. Subsequently the council resolved that one maistry on Rs. 15 be entertained and accordingly his pay is reduced from October 1897. This difference of Rs. 5 accounts for decrease of Rs. 60 under Conservancy establishment. The conservancy bulls being departmentally maintained, the provision of Rs. 1,800 is considered to be quite sufficient under Other charges as detailed hereunder: Rs. 1,200 for maintenance of bulls, Rs. 300 for making new carts, Rs. 200 for repair of carts and Rs. 100 for other miscellaneous purposes. As the private scavenging system is gradually extended, additional toties will be required during the next year; hence the provision of Rs. 1,620 under Private scavenging establishment.

9. *Grant 4—Lighting Contingencies.*—As the high rate in the price of kerosine oil cannot be expected in the next year also, the provision under this head is less than that of the revised estimate by Rs. 200.

Compensation for Lands.—A sum of Rs. 1,000 is provided for acquiring lands for the opening of lanes behind houses whose backyards are at present inaccessible for the purpose of private scavenging and for acquiring suitable sites for placing the iron latrines or for constructing additional latrines.

10. *Grant 5, Office Establishment.*—As the office work is much increased and the auditors have pointed out that the duties of shroff and accountant cannot be entrusted to one person, it is considered that the appointment of an accountant on salary Rs. 12 is essentially necessary; hence the provision of Rs. 140 in excess of the current budget.

The other items of charges are almost the same as in the revised estimate and do not call for any remarks, and the year 1898–99 will close with a balance of Rs. 7,420.

A proposition statement for changes proposed in the establishment under several heads accompanies.

Submitted.

2. The actuals of Rs. 643-5-0 derived from private scavenging fees for the first eight months of the current year are very discouraging. At this rate another sum of Rs. 322 alone can be expected from this source for the remaining four months of the year. It is therefore doubtful if even the reduced figure of Rs. 1,200, adopted in the revised estimate against Rs. 1,500 of the original estimate, can be reached. In their budget proposals for the current year the council promised to effect a large extension in the private scavenging service by opening up lanes for gaining access to backyards and by employing Oddars and Koravars in the place of Pallars against whose entry into the houses of high caste Hindus there was opposition. But nothing has been done in these directions and the result is that, instead of the expected expansion of the service, there are signs of its decline. [Compare the actuals of 1896–97 (Rs. 1,056-8-0) with the actuals of the first eight months of the current year.] The council will do well to take early steps to remove the obstacles that lie in the way of the satisfactory working of the service and to avail themselves to a larger extent, than is at present done, of the penal provisions of the Act against keeping filthy backyards.

3. Pure drinking water is one of the chief wants of the town of Tinnevelly. The supply of water brought down by the irrigation channels, which is very largely used for drinking, is impure and is one of the causes of the ever recurring cholera. In G.O., No. 1342 M., dated 12th August 1896, Government impressed on the council the importance of sinking wells in suitable localities and the council in their budget proposals for the current year provided the sum of Rs. 1,500 for the purpose. But only a sum of Rs. 121-3-0 was actually spent for the first eight months of the year. No sites have yet been selected for the wells proposed to be sunk and it is very unlikely that the allotment will be fully utilized within the year. No provision has been made in the budget of 1898–99 for this purpose.

4. The high caste patients' ward, which the council proposed in its last budget to open by renting out the compound adjoining the hospital, has not yet been opened; and no attempts have been made for securing the compound for the said use.

5. The want of a cholera shed at a convenient distance from the hospital is keenly felt. But no site has yet been selected and the provision made in the original and the revised budgets of the current year for acquiring land for the shed is not likely to be utilized.

6. In the budget estimate for the next year the paltry sum of Rs. 250, which is too small to meet the cost of any one of the marginally-noted works, has been allotted for all of them.

1. The construction of a high-caste patients' ward.
2. The construction of a lying-in ward.
3. Do. of venereal ward.
4. Do. of an isolation shed.

7. Adequate provision has been made under "Communications"—New works as well as repairs both in the revised estimate of the current year and in the budget estimate of the coming year.

(Signed) T. RAGHAVIAH,
Head-quarter Deputy Collector.

29*th December* 1897.

Submitted to Government.

2. In framing the budget the council were of opinion that agricultural lands are exempt from taxation under the new Act. This wrong interpretation of the section was pointed out to them and the figures had to be sent back for revision.

3. The remarks of the Divisional officer on the various points referred to in his endorsement are fully approved. The council's attention was drawn by Government in the last administration report to the importance of sinking good drinking water wells in suitable localities and still they have not been prompt in taking action in that direction except making some provision in the budget. The best season for sinking wells in the current year when there is a provision of Rs. 1,500 has gone and no allotment has been made in the budget for 1898–99.

4. The provision of Rs. 500 for four new latrines is satisfactory.

5. There is at present a combined shroff and accountant on Rs. 15 and the council proposes to have a separate accountant on Rs. 12 besides the shroff on Rs. 15. Sufficiently adequate reasons have not been adduced for the entertainment of a shroff. There is very little shroffing work to be done in the office, and all daily collections, which are not large, are then and there remitted to the treasury by means of chellans. If the present incumbent on Rs. 15 cannot do the combined duties of shroff and accountant without his work being condemned by the audit department, the council should see their way to replace him by a better man instead of applying for extra establishment. The amount provided under this head may well be spent under sanitation or added to the sum allotted under Buildings—new works, for which sufficient provision has not been made as remarked by the Divisional officer in paragraph 6 of his endorsement.

(Signed) R. B. CLEGG,
Acting Collector.

10*th January* 1898.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 7th January 1898, No. 116.

Referring to the budget estimates of the Tinnevelly Municipality for 1898–99, I have the honour to state that the provision made therein for education is sufficient and may be accepted. The net expenditure proposed is Rs. 3,520 (Rs. 3,760—240) or about 15·4 per cent. of the estimated income from taxation, markets and rents.

From Surgeon-Major-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 11th January 1898, No. 22.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Tinnevelly Municipality for the year 1898–99 is sufficient.

2. All the recommendations of the District Medical and Sanitary officer have been attended to.

3. A sum of Rs. 250 is allotted for providing a ward for high caste patients, a lying-in ward, a venereal ward and a suitable isolation shed and Rs. 100 for repair of dispensary.

From Surgeon-Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Fort St. George, 24th January 1898, No. 102-S.

I have the honour to state that the expenditure proposed by the Tinnevelly Municipal Council for the conduct of vaccination during 1898–99 calls for no remarks. The conservancy charges are placed at Rs. 9,470 against Rs. 10,430 for the current year. The proportion which the assignment bears to the estimated receipts cannot be

the current year will be reduced

endorsement are provided without any further delay. The entertainment of a sanitary maistry on Rs. 15 in lieu of the existing third grade sanitary inspector on Rs. 20, referred to in paragraph 8 of the Chairman's letter cannot be approved, as the Government considers it a retrograde step. The balance to be carried forward to the ensuing year's budget will be Rs. 10,290.

Budget Estimate for 1898–99.

3. *Receipts.*—The receipts for the ensuing year are placed at Rs. 28,710 against the revised estimate of Rs. 28,660, the increase which appears under private scavenging fees being partly counterbalanced by a decrease under sale-proceeds of old materials. The estimated income from private scavenging fees will be raised from Rs. 1,500 to Rs. 1,800, so as to make it more nearly cover the cost of the service. Early steps should be taken to make the backyards of houses accessible to scavengers and thus largely extend the system. In this connection, the attention of the municipal council is drawn to the remarks of the Divisional Officer in paragraph 2 of his endorsement.

4. *Charges.*—(1) The probable charges are put down at Rs. 31,640 against Rs. 32,730 in the revised estimate, the decrease being under Grant 3 and advances recoverable.

(2) *Grant 1.*—The attention of the municipal council is drawn to the remarks of the Divisional Officer in paragraph 6 of his endorsement regarding the inadequacy of the allotment for the works specified therein.

(3) *Grant 3.*—The Sanitary Commissioner's remarks in his letter read above, regarding the revision of the conservancy establishment, will be commended to the municipal council for careful consideration. The omission to furnish him with information regarding the estimated receipts of the year should not be allowed to recur.

(4) *Grant 5.*—For the reasons assigned by the Collector in paragraph 5 of his endorsement, the entertainment of an accountant on Rs. 12 in the municipal office, proposed in paragraph 10 of the Chairman's letter, cannot be sanctioned. With reference to G.O., No. 2473 L., dated 22nd December 1897, the contribution for the central office establishments will be reduced from Rs. 270 to Rs. 238 or Rs. 240 in round figures.

5. As revised by Government, the budget closes with a balance of Rs. 7,830 or 27 per cent. of the estimated receipts. Of this sum, however, the greater portion will be required for expenditure on the water-supply scheme now under investigation.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. DALAVOY THEETHARAPPA MUDALIAR Avargal, Chairman, Municipal Council, Tinnevelly, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional Officer and Collector of Tinnevelly), dated 22nd December 1897, No. 460.

I have the honour to submit the budget estimates of receipts and charges of the Tinnevelly Municipality for the year 1898–99, together with the revised estimate for the year 1897–98. The copy of the resolution of the councillors, dated 20th December 1897, passing the same, is enclosed.

REVISED ESTIMATE FOR 1897–98.

Receipts.

2. The total receipts for 1897–98 estimated at Rs. 28,160 in the budget estimate have been raised in the revised estimate to Rs. 28,657. The increase occurs chiefly under Tax on buildings, Avenue receipts, Sale-proceeds of old materials, Distraint fees, License fees. This increase is to some extent counterbalanced by decrease under Tax on arts, Tax on animals, Tax on carts, Contribution from local boards, Medical, Recoveries on account of private scavenging, Sale-proceeds from sewage farm. The decrease under Tax on arts is due to the assessment with reference to the income of persons under the new Act. The private scavenging system has not spread as rapidly as expected owing to the delay in the opening of lanes. The matter is under correspondence and will be completed during the next year. The other variations are explained in column 7 in Statement VI.

Charges.

3. The total charges shown in the revised estimate for 1897–98 are Rs. 33,730 against Rs. 32,990 provided in the budget. The increase under Grant 1 is due to the completion of drain in the North Mount Road and also to the repair of petty drains. The increase under Grant 4 is due to the high rate in the price of kerosine oil. The decrease under Grant 3 is due partly to the conservancy bulls being departmentally maintained and partly to the savings in the pay of the civil apothecary. The other variations have been explained in column 7 in Statement VI. The revised estimate leaves a balance of Rs. 9,290 and forms an opening balance for 1898–99.

BUDGET ESTIMATES FOR 1898–99.

Receipts.

4. The fees and taxes are proposed to be levied for the next year at the same rate as in the current year in accordance with the provisions under the new Act.

5. The receipts, excluding the opening balance, are estimated at Rs. 28,710 against Rs. 28,657, the sum shown in the revised estimate. The important variations are explained below. During the current year two houses attached to Pennington market had to be sold and the land added to the market; hence the decrease under Sale-proceeds of old materials. The drawing master has qualified himself for a first-class certificate and a grant of Rs. 7–8–0 per mensem has been sanctioned on his behalf; hence the increase of Rs. 30 under Gymnasium and drawing. Rs. 1,500 have been provided under Fees for private scavenging against Rs. 1,200 in the revised estimate;

the system is expected to be more largely availed of. The sewage farm is not yet thoroughly organized as expected in the last year. The sewage farm will be completed by the close of the year and grass will be grown in the next year. A sum of Rs. 100 is expected to be realized by the sale of grass. The other items of receipts do not call for special remarks, the figures relating to them being the same or nearly the same as those of the revised estimate for the current year.

CHARGES.

6. *Grant 1.*—A sum of Rs. 3,900, or nearly 84 per cent. of the estimated income from tolls, is provided under New works and repairs—communications as detailed in Statement II-A. The extension of the bridge over the Krishnaperi surplus channel is estimated at about Rs. 1,400. The work will be commenced during the current year and it will be partly completed with the provision of Rs. 500 during the current year; hence the provision of Rs. 900 under New works for completing the work during the next year. A sum of Rs. 750 is provided under New works—buildings for the purchase of four corrugated iron latrines and also for providing high caste patients ward, a lying in ward, a venereal ward, a suitable isolation shed as recommended by the Surgeon-General with the Government of Madras. A sum of Rs. 300 is provided under New works—drainage for construction of certain petty drains on account of sanitary improvements. A sum of Rs. 3,000 is provided under Repairs to communication for maintenance of roads and streets. A sum of Rs. 600 is provided under Repairs to buildings for repairing the markets, the dispensary and some of the bathing ghâts. A sum of Rs. 250 is provided for the repair of existing drains wherever necessary. The permanent overseer has undergone training in Madras and his pay will have to be raised from Rs. 15 to Rs. 25; hence the increase of Rs. 120 under (3) Establishment.

7. *Grant 2.*—The proposals of the Director of Public Instruction have been fully adopted in reference to the statements submitted by the Inspector of Schools. The council have also provided for the increase in the carriage allowance of the inspecting schoolmaster referred to in G.O., No. 1923 M., dated 2nd September 1897.

8. *Grant 3.*—The civil apothecary in charge of the dispensary is paid at Rs. 75 a month; hence the decrease under Hospital establishment. But it is provided to increase the salary of a compounder on account of his having completed his five years' service under G.O., No. 1662 L., dated 26th July 1889, as recommended by the District Medical and Sanitary officer. The sum of Rs. 300 under Sundries and contingencies includes provision for replacing the wooden cots by iron ones with planks as recommended by the Surgeon-General and for supplying a big almirah for the dispensing room as recommended by the District Medical and Sanitary officer. A sum of Rs. 200 in excess of the revised estimate is provided under Medicines and supplies. The dear rate in the price of articles during the current year has caused the increase of Rs. 50 over the budget estimate under Diet of patients. The same cannot be expected during the next year; hence the provision is less than in the revised estimate by Rs. 50. As the vaccine lymph will be obtained from the Mysore Government vaccine institute at Bangalore, the provision under Vaccination contingencies is reduced to Rs. 100.

One third-grade inspector on Rs. 20 proposed in the last budget was entertained till September 1897. Subsequently the council resolved that one maistry on Rs. 15 be entertained and accordingly his pay is reduced from October 1897. This difference of Rs. 5 accounts for decrease of Rs. 60 under Conservancy establishment. The conservancy bulls being departmentally maintained, the provision of Rs. 1,800 is considered to be quite sufficient under Other charges as detailed hereunder: Rs. 1,200 for maintenance of bulls, Rs. 300 for making new carts, Rs. 200 for repair of carts and Rs. 100 for other miscellaneous purposes. As the private scavenging system is gradually extended, additional toties will be required during the next year; hence the provision of Rs. 1,620 under Private scavenging establishment.

9. *Grant 4—Lighting Contingencies.*—As the high rate in the price of kerosine oil cannot be expected in the next year also, the provision under this head is less than that of the revised estimate by Rs. 200.

Compensation for Lands.—A sum of Rs. 10,000 is provided for acquiring lands for the opening of lanes behind houses whose backyards are at present inaccessible for the purpose of private scavenging and for acquiring suitable sites for placing the iron latrines or for constructing additional latrines.

10. *Grant 5, Office Establishment.*—As the office work is much increased and the auditors have pointed out that the duties of shroff and accountant cannot be entrusted to one person, it is considered that the appointment of an accountant on salary Rs. 12 is essentially necessary; hence the provision of Rs. 140 in excess of the current budget.

The other items of charges are almost the same as in the revised estimate and do not call for any remarks, and the year 1898–99 will close with a balance of Rs. 7,420.

A proposition statement for changes proposed in the establishment under several heads accompanies.

Submitted.

2. The actuals of Rs. 643–5–0 derived from private scavenging fees for the first eight months of the current year are very discouraging. At this rate another sum of Rs. 322 alone can be expected from this source for the remaining four months of the year. It is therefore doubtful if even the reduced figure of Rs. 1,200, adopted in the revised estimate against Rs. 1,500 of the original estimate, can be reached. In their budget proposals for the current year the council promised to effect a large extension in the private scavenging service by opening up lanes for gaining access to backyards and by employing Oddars and Koravars in the place of Pallars against whose entry into the houses of high caste Hindus there was opposition. But nothing has been done in these directions and the result is that, instead of the expected expansion of the service, there are signs of its decline. [Compare the actuals of 1896–97 (Rs. 1,056–8–0) with the actuals of the first eight months of the current year.] The council will do well to take early steps to remove the obstacles that lie in the way of the satisfactory working of the service and to avail themselves to a larger extent, than is at present done, of the penal provisions of the Act against keeping filthy backyards.

3. Pure drinking water is one of the chief wants of the town of Tinnevelly. The supply of water brought down by the irrigation channels, which is very largely used for drinking, is impure and is one of the causes of the ever recurring cholera. In G.O., No. 1342 M., dated 12th August 1896, Government impressed on the council the importance of sinking wells in suitable localities and the council in their budget proposals for the current year provided the sum of Rs. 1,500 for the purpose. But only a sum of Rs. 121–3–0 was actually spent for the first eight months of the year. No sites have yet been selected for the wells proposed to be sunk and it is very unlikely that the allotment will be fully utilized within the year. No provision has been made in the budget of 1898–99 for this purpose.

4. The high caste patients' ward, which the council proposed in its last budget to open by renting out the compound adjoining the hospital, has not yet been opened; and no attempts have been made for securing the compound for the said use.

5. The want of a cholera shed at a convenient distance from the hospital is keenly felt. But no site has yet been selected and the provision made in the original and the revised budgets of the current year for acquiring land for the shed is not likely to be utilized.

6. In the budget estimate for the next year the paltry sum of Rs. 250, which is too small to meet the cost of any one of the marginally-noted works, has been allotted for all of them.

1. The construction of a high-caste patients' ward.
2. The construction of a lying-in ward.
3. Do. of venereal ward.
4. Do. of an isolation shed.

7. Adequate provision has been made under "Communications"—New works as well as repairs both in the revised estimate of the current year and in the budget estimate of the coming year.

(Signed) T. RAGHAVIAH,
Head-quarter Deputy Collector.

29*th December* 1897.

Submitted to Government.

2. In framing the budget the council were of opinion that agricultural lands are exempt from taxation under the new Act. This wrong interpretation of the section was pointed out to them and the figures had to be sent back for revision.

3. The remarks of the Divisional officer on the various points referred to in his endorsement are fully approved. The council's attention was drawn by Government in the last administration report to the importance of sinking good drinking water wells in suitable localities and still they have not been prompt in taking action in that direction except making some provision in the budget. The best season for sinking wells in the current year when there is a provision of Rs. 1,500 has gone and no allotment has been made in the budget for 1898–99.

4. The provision of Rs. 500 for four new latrines is satisfactory.

5. There is at present a combined shroff and accountant on Rs. 15 and the council proposes to have a separate accountant on Rs. 12 besides the shroff on Rs. 15. Sufficiently adequate reasons have not been adduced for the entertainment of a shroff. There is very little shroffing work to be done in the office, and all daily collections which are not large, are then and there remitted to the treasury by means of chellans. If the present incumbent on Rs. 15 cannot do the combined duties of shroff and accountant without his work being condemned by the audit department, the council should see their way to replace him by a better man instead of applying for extra establishment. The amount provided under this head may well be spent under sanitation or added to the sum allotted under Buildings—new works, for which sufficient provision has not been made as remarked by the Divisional officer in paragraph 6 of his endorsement.

The current year will be reduced

of Rs 1000 will be made under this head in the budget estimate for 1898-99. The Municipal Council should see that these allotments are fully utilized and that the ward for hyle caste patients and the Cholera shed referred to in paras. 4 and 5 respectively of the Divisional officer's endorsement are provided without any further delay. The balance to be carried forward to the ensuing years budget will be Rs 10290.

Budget Estimate for 1898-99

3. Receipts. The receipts for the ensuing year are placed at Rs 28710 against the revised estimate of Rs 28660, the increase which appears under private Scavenging fees being partly counterbalanced by a decrease under Sale proceeds of old materials. The estimated income from private Scavenging fees will be raised from Rs 1500 to Rs 1800, so as to make it more nearly cover the cost of the service. Early steps should be taken to make the backyards of houses accessible to Scavengers and thus largely extend the system. In this connection, the attention of the Municipal Council is drawn to the remarks of the Divisional officer

[1] The entertainment of a Sanitary Maistry on Rs 15 in lieu of the existing third grade Sanitary inspector on Rs 20, referred to in para. 8 of the Chairman's letter, cannot be approved, as the Govt. considers it a retrograde step.

Vide G.O. 1581 Mis. A 16-9-96

4. Charges (1) The probable Charges are put down at Rs 31640 against Rs 32730 in the revised estimate, the decrease being under Grant 3 and Advances recoverable.

(2) Grant 1. The attention of the Municipal Council is drawn to the remarks of the Divisional officer in para. 6 of his endorsement regarding the inadequacy of the allotment for the works specified therein.

(3) Grant 3. The Sanitary Commissioner's remarks, in his letter read above, regarding the revision of the conservancy establishment will be commended to the Municipal Council for careful consideration. The omission to furnish him with information regarding the estimated receipts for the year should not be allowed to occur.

(4) Grant 5. For the reasons assigned by the Collector in para. 5 of his endorsement, the entertainment of an accountant at Rs 12 in the Municipal office, proposed in para. 10 of the Chairman's letter, cannot be sanctioned. With reference to G.O. No 2478 Z.

1897, the contribution for the central office establishments will be reduced from Rs 270 to Rs 238 or Rs 240 in round figures.

5. As revised by Government, the budget closes with a balance of Rs 7830 or 27 per cent of the estimated receipts. Of this sum, however, the greater portion will be required for expenditure on the water supply scheme now under investigation.

V.R.
3/2/98

To
The Ch. M. C. Tinnevelly
