Submitted to Government with the following remarks

2. I am in favour of the opening of a fourth form on the same understanding as that on which I supported a similar proposal two years ago. (See para 2 of my letter read in G. O. No 497 M

Order

dated 21 March 1896).

3. Bimlipatam is nothing if not a business town, & if the youth of the town, most of whom will in all probability have to follow business pursuits in after life, receive a commercial education, they are far more likely to benefit by that than by being prepared for a University education which very few of them will ever be able to follow up.

4. If the Municipal council agrees with me I shall at once take the necessary steps to put the council in the way of organizing an Upper Secondary School with a commercial side.

Submitted

2. The townspeople of Bimlipatam desire that a fourth form may be added to the Town Middle School, & their request is supported by the Chairman & members of the Municipal Council.

3. The proposal was not included in the Budget for 1898-99 as the results of the Lower Secondary Examination were not known at the time. They have since been published, & I understand that 9 boys passed out of 12 presented. I am informed that these 9 boys & at least 3 others who passed the L.S. Examination before will join the new class. A sum of Rs 360 from school fees is thus guaranteed for the first year while the extra charge will amount to Rs 324 - being the pay of a 3rd Assistant Master & a Telugu Pundit. The Head Master is capable & qualified to teach the new 4th form, & the cost of the necessary apparatus will be borne by the townspeople interested. This accounts for the

24/1/98

Camp.

24/1/98

-4 FEB 1898

lowness of the extra charges.

4. I recommend that the opening of a 4th form may be sanctioned tentatively for one year. The Council may be given to understand that the new form will be maintained after that period only so long as it continues to be a financial success, & that it will not be permitted to be a charge to any extent on the Municipal revenues.

5. I beg to draw attention to the need for very early orders in this matter, as terms in neighbouring High Schools are commencing now & some of the boys who would join the new form may continue their studies in Vizianagram so as to be sure of not losing a year.

Municipal Office

To

The Chairman Municipal Council
Bimlipatam

Respected Sir,

We the inhabitants of Bimlipatam request you will be good enough to bring the following few lines into your kind consideration.

We beg to submit that the local Municipal School is up to the Lower Secondary Department; hence those that pass the Lower Secondary Examination must either discontinue their studies or must go to vizag or vizianagaram if they desire to continue their studies as there is no higher class here. Considering their tender age (on average they are not more than 13) we are not in a position to send our lads to such places as vizag &c where they will be put to much inconvenience and trouble.

Moreover many of us are too poor to afford to pay the expenses for boarding &c.

Again if they will be sent to other places, there will be no one to see, whether they are doing their work properly and there will also be scope for them to mix themselves freely in bad company into which the young are apt to fall.

The opening of the 4th Form will not in financial point of view be a burden on the Municipality, on the ground that there are 12 pupils ready to join the class and the annual income from the class in shape of fees will amt. to Rs 360p. The present staff being strong enough, it is only necessary that a Telugu Pundit & a teacher to the first Form should be appointed on a salary of Rs 12 & 15 respectively, which will amount to Rs 324 per

21.1.98

Manager
circulate this amongst the Councillors for favour of their opinion as I have to forward this with my covering letter to the Govt. thro' the Director of Public Instruction tomorrow.

Municipal Office

year. The remaining Rs 36 will thus be a saving to the Municipality.

On a former occassion, the government were kind kind enough to sanction the 4th Form to be opened on the express of understanding of meeting all the charges from the school fees obtained from that class.

Now that the number of students is too large, there is every scope of meeting all the charges from the school fees.

In conclusion we beg to state that in case the Municipality cannot afford to expend money towards the purchase of the science apparatus for the 4th Form, we will very gladly pay the amount required for from our own purse. Hoping and trusting that you will do your best to open the class soon.

Municipal Office

I am of opinion that the request of the Public of this town can be granted as it would not be an additional burden on the municipality. From the mahazar it seems that the people are quite willing to pay the money required for the Science Apparatus, in case the municipality cannot afford to allot any amount to that purpose. It is true that the town is in a ~~the~~ thriving state and is such, the status of the school should be raised at least by opening the Fourth Form for the present. I know it as a fact that many parents are not educating their sons simply because that there is only a middle school here

W. S. Maclachlan

Chairman M.C. 21/1/98

I endorse the Chairman's opinion that the opening of a higher standard would be entirely beneficial to the town, more especially as it is likely to be self supporting. I would suggest that a subscription list be started to provide funds for the required Science appliances.

W. J. Bydenham

M.C.

21. 1. 98

I agree with the above gentlemen & recommend to open the 4th Form as applied for by the towns people -

Ch. [illegible]

M.C.

From
M.R.Ry K. B. Nilachalam Pantulu Ga
Chairman, Municipal Council
Bimlipatam

789 M

To
The Secretary to Government,
Local & Municipal Departt
Fort St George.
(Through the Director of Public Instruction, Madras)

Sir,

I have the honor to request that you will give a favourable consideration to the following suggestion which is purely made in the interests of the citizens and of the students of the local Middle School.

1. This town contains only a Middle School. The large number of students who complete their course, as far as it is taught here, increases every year. Thus the boys that have no prospect of receiving further instruction here are put to the necessity of either discontinuing their studies or of resorting to distant localities where they expect suitable instruction, consentin to undergo the disadvantages and trouble of an isolated life. The parents of the tender boys thus undergoing difficul-ties in a strange town also share thei anxieties and troubles which, persons in their position are generally expecte to be liable to. Some poor boys who cannot afford to go to any place are entirely deprived of the advantages of

higher education. Thus the number of students that are in need of higher education, increases every year so as to afford ample material for further improvement of the Existing institution.

2. While matters stand thus the inhabitants of the place who are hopelessly afraid of the evil consequences of sending their boys of tender years to distant towns and who think that, without their personal supervision, the boys would fall into evil ways, have unanimously Expressed their desire as can be seen from the Mahazar submitted herewith, to make speedy arrangements to start the higher class for the instruction of their youths.

3. The Existing circumstances also favor this popular view as it would not entail any loss on the Municipality for the reason that there are, it seems, nearly 14 boys to constitute the new class each paying a fee of Rs3/12/- per instalment, thus making a total of about Rs420 per year. The Expenses that will be incurred will come to about Rs 324- It seems that the wealthy citizens of the place are quite willing to meet the Expenses required for the Science Apparatus &c in case the Municipality cannot afford to allot any amount on that score. The other requirements can be met with very satisfactorily from the Existing sources.

The fact that the opening of the fourth form was sanctioned in previous years by the Director of Public Instruction at the time of his advent to this town on the unanimous and earnest application

Of

of the citizens of this place and considering the disadvantages they and their sons are labouring under, shows that desideratum of the kind expressed in the above lines and in the Mahazar hereto annexed was actually and keenly felt in previous years and was made known to the educational authorities on more occasions than one. The idea of the absence of higher education in this important town has discouraged some of the inhabitants to give any education to their sons. Hence the raising of the status of the local Middle School to that of a high school by starting only the Fourth Form for the present, will surely encourage many to educate their children on the hope of having higher education for their sons in the place where they are. Consequently I endorse the above popular view and kindly solicit the early favor of sanctioning the starting of the Fourth Form as the students have very little or in fact no time to join any school for prosecuting their studies.

In the G.O. No 1405 M, dated 20th August 1896, the Government is pleased to remark that 'the proposal to open a Fourth Form in the Municipal Middle School may be embodied in the Budget for the ensuing year, if sufficient funds are available.' Now the question of opening a Fourth Form was not included in the Budget for 1898–99 as the results of the Lower Secondary Examination were not known at the time.

Hoz B.

Since sufficient funds in shape of school fees from boys who wish to join The Fourth Form are available for the maintenance of the said form, Government early sanction by wire is earnestly solicited.

In conclusion, I in conformity with The unanimous opinion of my brother Councillors, request that you will kindly sanction the immediate Opening of the Fourth Form and thereby supply a long felt want in this town which is of great mercantile importance and is on that reason in urgent need of educational improvement.

I have the honor to be
Sir
Your most obedient Servant
W. S. Sitachalam
