Enclosure.

SIR,

I have the honor to offer the following remarks on the Ellor Municipal Budget for 1898-98, extracts from which have this day been received by me:-

(1) The allotment for vaccination is the same as that for the current year, and calls for no special notice.

(2) The increase of salary proposed to be given to the Registrar of births and deaths is necessary, and has my support as an incentive to better work being shown. During the year registration work has shown an improvement, and is possibly as good as one man's efforts can secure. But, the results are far below what may

to be expected. It would, therefore, be desirable to employ a second Registrar on Rs 10.

(3) The proposed expenditure on currency is about 27 percent of the estimated receipts, against 25.4 percent apportioned for the year that is passing. There are two certificated Sanitary Inspectors in the service of this Municipality, and three more unqualified men designated as Sub-Inspectors.

I do not see the necessity of these latter, and would recommend that their services be dispensed with and that the saving thus effected be utilized in raising the pay of the second Sanitary Inspector to the minimum fixed by Government viz Rs 20, and in giving each of the Inspectors a pony allowance of Rs 15. I need not say that without such an allowance, efficient work marked by promptitude of action hardly be expected of them. This would involve an extra

cost of Rs 9 only. (a month)

(4) No copy of statement I have been forwarded and in consequence I am unable to see whether the private scavenging service worked at a loss last year is expected to pay its way in the year to come.

(5) Under Grant I a sum of Rs 1750 is provided for the execution of works of a sanitary nature.

I have the honor to be

Yours most obedt Servt
