Harbour Trust Drain used by the Madras Municipality
Suggesting to the Board, with remarks, that the storm water overflow drain
constructed from Harbour funds be handed over to the Municipality as its property
and for future maintenance.

GOVERNMENT OF MADRAS.

MARINE DEPARTMENT.

READ—the following papers:—

From the Chairman, Harbour Trust Board, Madras, dated 1st June 1899, No. 210.
 „ President, Municipal Commission, „ „ 1st July „ „ 314.
 „ Chairman, Harbour Trust Board, „ „ 27th Sept. „ „ 210/2.

ORDER—No. 1005, Marine, dated 8th November 1899.

The correspondence above recorded relates to a storm water overflow drain which was constructed from Harbour funds, but which has been utilized by the Municipal Commission for carrying sewage. The Trustees desire it to be placed on record that the drain in question belongs to them, the object being to meet the possibility, in case of harbour extensions, of the Board being called upon to reconstruct the drain for the convenience of the Municipality. The Municipal Commission, while admitting the claim of the Trustees to a proprietary right in the drain, considers that it should now be formally handed over to the Municipality. The Trustees have no objection to the drain being utilized by the Municipality, but they are not prepared to surrender their title to its owner ship.

2. It will be suggested to the Harbour Trust Board that the drain be handed over to the Municipality as its property and for future maintenance. If the Board accedes to this, it will be placed on record that, if, at any future time, owing to harbour extensions, the drain has to be reconstructed, the Harbour Trust Board will only be liable for the cost of such reconstruction to the extent of the original capacity of the drain, any expenditure on enlargement in excess of this capacity being borne by the Municipality. This will, in the opinion of Government, safeguard the Harbour Trust Board in the direction desired by the Chairman.
