4/12/99

To
The Calcutta Electric Supply Corporation
President. M.C. Madras.
Dated 6/12/99

NOTE FOR THE Secretary.

The rules issued by the Governor General in Council under Act XIII of 1887, are published at pages 257 to 260 of the Gazette of India, dated 4th May 1889, which is put up below. Under No. 2 of these rules, the Commissioner of Police on receipt of the notice, referred to in Section 3 of the Act, of the intention of any person to undertake the business of supplying electricity for a public purpose, has to report the circumstances to the Local Government, who may thereupon authorize an officer to inspect and examine any place, carriage or vessel in which any appliances or apparatus used in the generation or supply of electricity are, and any building or place in which electricity is to be supplied and used. Under Rule 3, the Local Government may instruct the Commissioner of Police as to the roads or public places in which overhead electric supply lines are not to be allowed.

as 4 to 41 lay down certain
 instructions as to the appliances
 and apparatus which should be
 used in the generation or the supply
 and use of Electricity. Rule 42
 says that full particulars of the
 proposed installation must be
 furnished when required to the
 officers appointed by Government
 under rule 2. Rules 43 to 49 are
 intended for preventing telegraph
 lines from being injuriously af-
 fected by any appliances or appa-
 ratus used in the generation or supply
 of Electricity. The rules, however,
 do not require the approval of
 Government to the present
 proposals of the Calcutta
 Electric Supply Corporation.

V.R.

SUBJECT.

FOR ORDERS.

The Secretary is not expected
 to be omniscient but the Office
 is! I must have been misled by the
 letter which speaks of an Act being
 now drafted - hence I inferred
 that there was no Act existing

I must apologise humbly for not
 having noted the Act XIII of 1887. I
 cannot imagine how it escaped me.
 This Act, however, is not the Act to
 which the letter of the Calcutta
 Electric Supply Corporation refers.
 The letter evidently
 refers to the Calcutta Electric
 Lighting Act of 1895. [Bengal Act 9
 of 95.] now submitted - under
 which licenses are issued.

Under Act XIII of 87 no license
 appears to be necessary.

As it is apparently there is nothing
 to prevent any person starting
 a centre for electric lighting - tho'
 of course he comes with take up the
 roads on place for the wires in
 the roads without sanction from
 the Municipality.

and lat.

1/12/99 quarters of the City within two years from the date of the grant

As a general act is apparently being
drafted, probably it will not be
thought necessary to legislate locally
on the lines of the Calcutta Act -

Perhaps the opinion of the President
of the Madras Municipality might
be asked on the point - referring
him to the Calcutta Act. Unless
a Govt of India Act is likely to
be passed soon - it might be
well to legislate here for the
Madras City, if there is no real
chance of the Company getting the
work soon -

It will be seen that Act XIII
of 1887 is really only for protection
of the public and does not appear
to bear on the present proposals
of the Calcutta Company -

MR
21/11/99
17/

We had better ascertain
what rules, if any, have
been issued by the G.O.
under Act XIII of 1887.

HA
20.11.99.

F. Act

In Bengal there is a special
Act - Act 9 of 1895 - 6
which apparently the

(1) Letter refers - put it up -

(2) The office on 2nd Nov have
overlooked the Act XIII of
87 when putting up the
papers - I don't know how
it escaped me -

HA
21/11/99

(1) Bengal Act IX of 1895 is put up
(2) The oversight is regretted

PR
17/11/99

NOTE FOR THE Secretary

From the preamble to Act XIII of
1887 it appears that the object of
the Act is not the exercise of control
by means of licenses or other like me-
thods, but only to protect person and
property from the risks incident to
the supply of electricity. Section 4
authorizes the Governor-General in
Council to frame rules for the latter
purpose; but it is not known whether
any rules have been issued by the
Government of India under this section
and whether under these rules, if any,
the approval of Government is necessary
to the present proposals of the Calcutta
Electric Supply Corporation. It is sub-
mitted that the Judicial Depart-
ment may be asked (u.o.) to say
whether there are any rules in the matter.
In the absence of any such rules, the
Company has only to give notice to
the Commissioner of Police under Section
3 of its intention to undertake the
business of supplying electricity in the
town.

CURRENT No. 2723 m

From

THE PRESIDENT,

Municipal Commission,
Madras.

For Orders

G. No. 4/3

It is not known under what provision of law a license from Government is necessary for the supply of electric lighting in the City of Madras. The Govt. has nothing to do with the lighting of the City, which is a duty devolving on the Municipality and the Calcutta Electric Supply Corporation may make its own arrangements with the Municipality.

SUBJECT.

Forwarding a copy of letter from the Calcutta Electric Supply Corporation (Ld) dated 29th September 1899. For disposal.

The President Muncip. Madras has been informed that at present there is no law dealing with Electric Lighting as license appears necessary & the Calcutta Electric Supply Corp. may negotiate with the Municipality direct on the subject of lighting the Madras City with electric lights.

How about Act XIII of 1887? The question is one for consideration by the M.C. with ref. to Act XIII of 1887.

Enclosed to G. No 413.

The Calcutta Electric Supply Corporation
Limited.

Mansion House Buildings,

London E.C., Sep: 29th '99.

The Secretary

to the Municipality of

Madras.

Sir,

This Company was formed in 1897 with the object of establishing and working electric light undertakings in Calcutta and other parts of India, and under a License from the Government of Bengal the Company have established Works and are carrying on the supply of electric lighting in the City of Calcutta.

My directors are now desirous of extending their operations and I am therefore instructed to make formal application to the Government of Madras for a License for the supply of electricity to the City of Madras.

Mr. R.E. Crompton, the well known Electrical Engineer, who advises this Company, is preparing, at the request of the Supreme Government, a draft Electric Lighting Act for the whole of India, but my Directors presume it will not be necessary to wait for the passing of such an Act before the establishment of electric lighting in Madras.

The following are the terms which my Directors propose should be the conditions of the License which we ask should be granted to the Company :-

- (1) The License to be for a period of twenty-one years.
- (2) At the expiration of the twenty-one years the License to be renewed on the same terms and conditions, or failing renewal that the Works and undertaking of the Company shall be purchased either by the Government of Madras or by the Municipality, on the basis of the value of the undertaking as a going concern.
- (3) The Undertakers to be under obligation to establish Works and lay down mains, and supply electricity, within the principal

quarters of the City within two years from the date of the granting

2.
of the License.

(4) The Undertakers to be entitled to charge for the actual quantity of electrical energy supplied to any consumer at a rate not exceeding 12 annas per unit, but for any quantity up to 20 units the charge may be 20 Rs.

(5) The Government to have power to revoke any License granted in the event of the Company failing to carry out the provisions of the License, or becoming Bankrupt.

(6) The License to be granted subject to the conditions generally applied by the Board of Trade in London to Provisional Orders for electric lighting, with such modifications as may be necessary to suit the peculiar requirements of the City of Madras.

I am instructed to state that if this proposal is entertained by the Government, a Representative of the Company will visit the City and submit such further details of the proposed scheme and information as may be required.

Requesting the favour of an early reply.

We are, Sir,

Your obedient servants,

PROSPECTUS.

S COMPANY has been formed to take up and work a License which has been granted to Messrs. Kilburn & Co. as Agents for this Company by the Government of Bengal for the supply of Electrical energy for lighting and power in Calcutta. This License, which takes the

place of Statutory Powers in this Country, is for a period of 21 years, from the 29th December, 1896. The Government or the Municipality of Calcutta are authorised to purchase the undertaking on the expiration of the License on the basis of its value as a going concern. Twenty-one years is the longest period for which under the Calcutta Electric Lighting Act, 1895, such a License can at present be granted, but the Agents of the Company have applied to the Government of Bengal for an assurance that unless the undertaking is purchased the License shall be renewed for a further like period and upon the same terms. The Government of Bengal have intimated their willingness to grant such a promise of renewal, and have applied to the Supreme Government of India for the needful authority.

The City of Calcutta, the Capital of British India, has a population of 850,000, and it is confidently expected that there will be a very considerable demand for electric current both for lighting and motor purposes, the latter including the working of punkahs and electric ventilating fans.

The electric light is particularly suited for use in the tropics, but owing to the cost of separate installations it has hitherto been adopted in only a few instances in Calcutta, and it is anticipated that the public and the Municipality will be eager to avail themselves of a supply of current at a moderate cost.

It is now generally recognised that investments in Electric Supply Companies offer remunerative employment for capital, and the Shares of the leading Companies in this country are in demand at high premiums.

It is intended to employ what is known as the three wire system, with electrical energy supplied on the continuous current principle, which has worked so well here. A Contract has been entered into with Messrs. Crompton & Co., Limited, who have been the Contractors for many successful Companies, to provide and fix all the necessary electric mains within the compulsory area, to erect and equip a generating and distributing station fitted with electric generating plant complete, estimated to be sufficient to meet an initial demand for supplying 60,000 8 c.p. lamps attached to the system, for the sum of £65,000, in which is included the initial expense incurred by Messrs. Crompton & Co. and their Calcutta agents, Messrs. Kilburn & Co., in obtaining the license.

It is expected that by the middle of next year the works will be so far advanced that the supply of electrical energy may be then commenced.

Careful estimates (based upon the present rate of exchange) have been prepared by the intending Contractors, which have been checked and approved by Mr. Scott Moncrieff, as engineer of the Company, and by Messrs. Kilburn & Co., both of the anticipated Revenue and of the working costs, and after making allowance for depreciation of plant, cost of management and all other expenses, it is reckoned that the net Revenue will be sufficient to pay satisfactory and progressive dividends upon the Share Capital of the Company, the low cost both of Coal and Labour in Calcutta materially assisting in this result.

Messrs. Kilburn & Co., of 4, Fairlie Place, Calcutta, have consented to act as the Managing Agents of the Company in Calcutta, and with this object have entered into an agreement to supply the Local Offices, to pay the salaries of the Engineers, Book-keepers, and Collectors, and to manage the business of the Company in Calcutta upon fixed terms of payment, and also to act as the Chief Engineers of the Company in Calcutta.

No promotion money of any kind has been or will be paid, but the charges incurred in registering and forming the Company, issuing and obtaining the Capital, will be borne by the Company.

An application will be made in due course to the London Stock Exchange for an official quotation of the Shares of the Company.

The only Contracts entered into are: one dated 21st May, 1897, and made between the Company of the one part, and Messrs. Crompton & Co., Limited, of the other part, relating to the construction of the Company's works, and two Contracts dated 21st May, 1897, and made between the Company of the one part and Messrs. Kilburn & Co., of Calcutta, of the other part, relating to the management of the Company's business in Calcutta and the Company's Engineering Works respectively.

Applications for Shares must be made on the accompanying form. Where no allotment is made the deposit will be returned in full. If the number of Shares be less than those applied for the surplus will be credited in reduction of the payments on allotment.

Copies of the above-mentioned Contracts and of the License from the Government of Bengal, together with the Memorandum and Articles of the Association of Company, can be seen at the Offices of the Company and of the Solicitors.

Prospectuses and Forms of Application for Shares can be obtained of the Brokers, Bankers, and Solicitors, and at the Offices of the Company.

PROSPECTUS.

Memorandum of Association OF THE CALCUTTA ELECTRIC SUPPLY CORPORATION, LIMITED.

1. The name of the Company is "THE CALCUTTA ELECTRIC SUPPLY CORPORATION, LIMITED."
2. The Registered Office of the Company will be situate in England.
3. The objects for which the Company is established are:-
 - (A) To carry on, in the Empire of India and elsewhere, the business of an electric light and power Company in all its branches;
 - (B) To construct, lay down, establish, fix and carry out all necessary buildings, works, machinery, mains, cables, wires, lines, accumulators, lamps, and appliances, and to generate, accumulate, distribute, and supply electricity and to light streets, markets, buildings and places, both public and private;
 - (C) To acquire, whether by purchase, lease, or otherwise, and to construct, equip, work, and manage tramways, railways, and other methods of using electrical energy for traction or motive power;
 - (D) To carry on the business of electricians, mechanical engineers, suppliers of electricity for the purposes of light, heat, and motive power, or otherwise, and manufacturers of, and dealers in all apparatus and things required for, or capable of being used in connection with the generation, distribution, supply, accumulation, and employment of electricity;
 - (E) To carry on all or any of the businesses of iron, brass, steel, and other foundries and smiths, mechanical engineers, metal workers, colliery owners, ship owners, and ship builders, transit owners, or any other business which can be conveniently carried on in connection with any business which the Company is authorised to carry on or which may seem to the Company to be part of the business or property, and to benefit this Company, directly or indirectly, to benefit the part of the business or property, and to undertake any liabilities of any person, firm, association or company possessed of property suitable for any of the purposes of this Company; or carrying on any such business as aforesaid, and as the consideration for the same to pay cash or to issue any shares, stocks or obligations of this Company;
 - (F) To purchase, take on lease or in exchange, hire, or otherwise acquire, any real or personal property, rights or privileges, which the Company may think suitable or convenient for any purpose of its business, and to erect and construct buildings and works of all kinds;
 - (G) To purchase, subscribe for, or otherwise acquire, and to hold the shares, stocks or obligations of any company in the Empire of India, or in the United Kingdom, or elsewhere, and upon a distribution of assets or division of profits, to distribute any
4. such shares, stocks or obligations amongst the Members of this Company in specie:
 - (A) To borrow or raise money for any purposes of the Company, and for the purpose of securing the same or charge the undertaking, or all or any part of the property of the Company, present or after acquired, or its uncalled capital, and to create, issue, make, draw, accept, and negotiate perpetual or redeemable debentures or debenture stock, bills of exchange, promissory notes, or other obligations or negotiable instruments;
 - (B) To sell, let, develop, dispose of, or otherwise deal with the undertaking or all or any part of the property of the Company upon any terms, with power to accept as the consideration on any shares, stocks or obligations of any other company;
 - (C) To pay out of the funds of the Company all expenses or of incidental to the formation, registration, its capital, including brokerage and commissions for obtaining applications for or placing shares, Imperial Parliament for any extension of the Company's powers;
 - (D) To obtain either from the Imperial Government or from any Government of competent authority or from any Municipal Authority, any Provisional Order or license or concession, or other form of statutory or official authority, for enabling the Company to carry any of its objects into effect;
 - (E) If thought fit to obtain any Act of Parliament dissolving the Company, and re-incorporating its Members as a new Company, for any of the objects specified in this Memorandum of Association, or for effecting any other modification in the Company's constitution;
 - (F) To carry out all or any of the foregoing objects in partnership with any person, firm, association, or company, or to do all such other things as are incidental or conducive to the attainment of the above objects;
 - (G) The liability of the members is limited.
5. The capital of the Company is £100,000, divided into 20,000 shares of £5 each, with power to increase and with power from time to time to issue any shares of the original or new capital with any preference or priority in the payment of dividends, or the distribution of assets, or otherwise, and whether issued or not, and to give effect to any such preference or priority, and upon the subdivision of a share to apportion the right to participate in profits in any manner as between the shares resulting from such subdivision.
