23 JUN. 1899

Plague Report Salem District.

Date 18th June 99, *No.*

1. Name of town or village.— Jolarpet

2. Population of town or village.—

3. Plague cases up to date of last report
   - Number of seizures.— 77
   - Number of deaths.— 45
   - Date of last report.— 17.6.99

4. Date of present attack.— 18.6.99

5. When reported by telegram?— 18.6.99

6. Imported or indigenous?— Imported from Marikuppam

7. Brief history of case.— Goundan son of Ramagoundan Age - 30 Caste Hindu proceeding on the 17th Instant from Marikuppam to Jolarpet and going to a neighbouring village Chinnakammiampatty. Platform temperature 102°

8. If imported, had patient a passport?— No

9. Steps taken to isolate and treat the patient.— He was kept in an isolated shed last night and this morning was removed into the Hospital for treatment.

10. Steps taken towards the segregation of contacts.—

The patient was travelling alone and to had no contacts

11. Steps taken towards the evacuation and disinfection of the infected house.—

The shed the patient occupied in the Suttpeck Camp has been disinfected with corrosive Sublimate Solution

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures?—

13. Remarks.—

On removal into the hospital this morning, patient had a temperature of 102° and has a large bouncy swelling on the left side of his neck covering the parotid gland. He has great difficulty in swallowing, and is hardly able to utter a word. He saliva dribbles out of his mouth and he feels suffocated. He is gasping for breath, keeping his mouth open and has a rattling sound in his throat. Tongue is coated in the centre and red along the edges. His eyes are red, injected and staining. Pulse weak and compressible. No glandular enlargement nor tenderness found anywhere except on the left side

of neck and that appears entirely confined to the Parotid. He has no lung complication, but despite a copy amount of mucous freely which gathers in his throat, probably the increased salivation is due to pressure and irritation on the gland. Owing to his inability to swallow, he is getting nutrient enemata

Plague Report Hosur. Salem District.

Date 22d June 99, *No.* 1

1. Name of town or village.— Thorápalli (This is not the same village as Doripalli from which an imported case from Hosur occurred on 12-4-99)

2. Population of town or village.— 838

3. Plague cases up to date of last report { Number of seizures.— "
Number of deaths.— "
Date of last report.— "

4. Date of present attack.— 18-6-99 found 21-6-99

5. When reported by telegram?— 22-6-99

6. Imported or indigenous?— Indigenous.

7. Brief history of case.— A man Kempadu, aged 50 years, a Pariah ~~On 17-6-99 he went~~ to Arikirifalli, a village [illegible] miles from Berikai in Mysore territory to see some of his relatives. He was, however, taken ill there and returned to Thorapalli the [illegible]ing day 18th inst, when he complained of stomachache and pain in the [illegible] ribs right side. The people taking it for indigestion gave him physic with [illegible] so that he has been violently purged since. When I saw him today he was [illegible] even to sit up; he spoke however connectedly; eyes suffused; pulse very soft; ~~running~~ [illegible]. In both groins he has palpable enlarged glands in the femoral [illegible]; they were, however, movable and elastic; they did not seem tender. No infiltration wound. This is being enquired into. His temperature 102°.

8. If imported, had patient a passport?— No.

9. Steps taken to isolate and treat the patient.— The patient has been moved into a ~~fr~~ separate hut outside village.

10. Steps taken towards the segregation of contacts.— The contacts also removed outside village. The whole pariah quarter which is isolated & cut off from rest of village have been instructed to build sheds for themselves and remove into the fields.

11. Steps taken towards the evacuation and disinfection of the infected house.— The houses occupied by patient and contacts have been evacuated. These houses will be disinfected tomorrow by the ambulance staff under the supervision of the Circle Inspector and the surface floor dug up and burnt in the shed occupied by patient.

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures?— No.

13. Remarks.— The "disinfection Coolies" are now busily employed in Mukondapalli. So I have asked the A.M.G to put the ambulance on this village as they are doing nothing.

Plague Report Salem District.

Date 25th June 1899, No.

H. Sec. ? 4.7.99
for perusal
? 3.7.99

1. Name of town or village.— Jalarpet

2. Population of town or village.—

3. Plague cases up to date of last report
   - Number of seizures.— 78
   - Number of deaths.— 45
   - Date of last report.— 18-6-99.

4. Date of present attack.— 21-6-99

5. When reported by telegram?— 21-6-99

6. Imported or indigenous?— Imported from Balaghat mines

7. Brief history of case.— Munichi. age 35
Travelling from Balaghat mines to Arcot on the 12th June 99.

8. If imported, had patient a passport?— No

9. Steps taken to isolate and treat the patient.— Patient was removed into the Plague Hospital for treatment.

17

10. Steps taken towards the segregation of contacts.— Five contact-cases have been detained in the camp and will be kept for the full period of 10 days after the removal of the patient to the Hospital

11. Steps taken towards the evacuation and disinfection of the infected house.—
The shed in the suspect camp has been thoroughly disinfected

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures?—

13. Remarks.— This was one of the most acute cases of plague we had in the Camp. She was under observation for fully 10 days in the camp and on the day of her discharge about 3. p.m she fainted and on examination was found to have a temperature of 101°. In the morning it was quite normal. Towards the evening a diffused swelling and tenderness was discovered on the left side of the neck and a large bubo in the Right groin, Very tender on pressure. Tongue was dry and parched. Patient suddenly became unconscious and extremely prostrated had stertorous breathing and covered with a cold clammy perspiration. Eyes are red and injected. Temperature at 6.30 p.m 102° and at 7 p.m. she died with a subnormal temperature.

Plague Report Salem District.

Date 24th June 1899, No. 1

1. Name of town or village.— Mutigiri (bazar)

2. Population of town or village.— Removed 2442

3. Plague cases up to date of last report { Number of seizures.— 1 / Number of deaths.— 1 / Date of last report.—

4. Date of present attack.— 20th June 99 (found 23rd)

5. When reported by telegram?— 24th June

6. Imported or indigenous?— Imported

7. Brief history of case.— The patient (Sampangi Rama chetti) went to "Bennagetta" Mysore territory on 18th instant to worship in a temple in his wife Child and brother; left Bennagetta on 20th to return to Mutigiri did not stop anywhere on way but began to get fever near Anikal - arrived here same day - began to get a bubo in right groin on 21st — three occupants were not reported but were discovered by Circle Inspector on 23rd

8. If imported, had patient a passport?— No passport - evaded frontier station Sittu Kumarapalli or Gummalapuram

9. Steps taken to isolate and treat the patient.— Patient taken this morning to Plague Hospital Mutigiri

(To be submitted within 48 hours under Plague Commissioner's Proceedings No. 845, dated 5th December 1898.)

Plague Commissioner's Office.

CURRENT No. 1

Date of Receipt. 1 JUL 1899

Plague Report Hosur Salem District.

Date June 26th., No. 1

1. Name of town or village.— Rockanapalli (on frontier with Kaliciricle)

2. Population of town or village.— 194 (Rockanapalli)

3. Plague cases up to date of last report — Number of seizures.— Nil; Number of deaths.— Nil; Date of last report.— Nil

4. Date of present attack.— (a) 21-6-99 died 24-6-99. (b) 23-6-99 died 26-6-99. (c) 23-6-99 Still living

5. When reported by telegram?— 26-6-99

6. Imported or indigenous?— Infection Imported.

7. Brief history of case.— Timmy N. age 35 reported by Village Munsiff to have been suffering from fever since 2 days with large swelling under jaw; and (b) Kalya M. aged 32. brother of (a) with high fever from 2 days back. Both Pariahs. Died on night of 24th. Among contacts I found another boy of same family aged 7 yrs with high fever and large tender swelling right side neck; surrounding tissue much infiltrated and other symptoms Plague.

8. If imported, had patient a passport?— No. This village is less than a quarter mile distant from Krishnapalli (over the Mysore border) where I understood 7 cases of Plague have recently occurred.

9. Steps taken to isolate and treat the patient.— Corpses a and (b) found by circle Inspector on 25th - not yet burnt or buried; no one in village dared touch. This he got accomplished after much difficulty, loaded on to hand cart and buried. The remaining patient is segregated in a hut in field. Mother unwilling to have him brought to Hosur

10. Steps taken towards the segregation of contacts.— Thirteen contacts removed to malagai observation sheds.

11. Steps taken towards the evacuation and disinfection of the infected house.— House evacuated and sealed up, will be disinfected today

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures?— No opposition, only great reluctance to leave the house. Names of two after Contacts not given yesterday formed today and segregated with others.

13. Remarks.— There was no case in this house during last one month, but in houses on either side. The mother is still alive - fever temperature 102° - large lumbo inguinal glands right groin eyes red - hard breathing - in state of Collapse. Rest of family all right so far.

(Signed) T. French Capt.
Special Plague Officer

DESPATCHED 30 JUN 1899

10. Steps taken towards the segregation of contacts.— I found the grandmother and 2 young children in an exposed position out in the fields, surrounded by their household goods but without shelter.

The rest of villagers were unwilling to approach or render assistance. The Village Munsiff undertook to have a hut constructed at once in another position in the neighbourhood, to which the patient & contacts were to remove.

11. Steps taken towards the evacuation and disinfection of the infected house.— The whole village was evacuated voluntarily on the 26th & 25th in accordance with the previous instructions of the Special Plague Officer. The inhabitants were well aware of the infection at Mensenapalli. The villagers have been instructed to untile their houses at once and coolies will be sent down there under charge of the Ambulance Sanitary Inspector to disinfect not only the infected house but the whole village.

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures?— No. The people had been previously warned by the Special Plague Officer to have no dealings with Mensenapalli and of the precautions to adopt.

It was only with — difficulty that assistance could be obtained for the disposal of the 1st & 2nd corpses or assistance rendered to the family concerned. Information should have been given earlier by the infected party family.

13. Remarks.— 2 rats were seen lying dead on the floor of the infected house some 8 days previous to the 1st attack. Nothing however was said about this. On the discovery of the sick & buboes by the neighbours the whole village was promptly evacuated.

Submitting abstract
report on plague cases
for the week ending
June 24th. —

C. No. 1088

To The Plague Commissioner- Madras -

2nd The Addl. Medical Officer
Salem Distt.

Sir

I have the honour to submit my abstract report for the week ending June 24th -

2 fresh attacks notified this week in Erode Taluk.
(1) at Thorapalli (indigenous) in Erode
the Kodumapalli area
(2) at Chatigiri (imported).

There are several infected villages and in Coimbatore territory, all along the borders of the Erode & Bhavanigiri Taluks - in the case of Thorapalli Erode & another village in close proximity & neighbouring villages in this area - from which importation of Plague infection is likely to occur.
The Village Munsiffs of people have been duly cautioned with regard to their dealings with such.

(1) at Thorapalli - a pariah was found on 21st Inst. suffering from symptoms of plague, on the 17th he had been to Annikkapalli in Coimbatore, but seems to have been taken ill on the morning of arrival here, and returned to Thorapalli the following day. There was one glandular enlargement in Rt. Groin, though not of particular diagnostic character.
Mortality here has been unusually high of late, and the village has been under suspicion and Segregation for the past month. Since 18th May last - three deaths under suspicious circumstances occurred here in a family who had left Erode when relatives were being evacuated. These deaths being

attributable to other causes were, not ~~suspected~~ insufficiently
~~as Plague~~ definite to be reported as Plague -
The usual precautions were however taken.
The child whose death in Hosur was reported
as suspicious last week, ~~is~~ belongs to the
same family.
In the present case at Throapalli - if the statements
of relatives can be relied on - it seems clear
that the infection must have been incubating
in the man's system before he left the village,
and was not contracted in Mysore territory.

(2) At Mattigiri. a man (Chetty caste) was
found suffering with Bubonic Plague on
the evening of 23rd inst. He had been
constantly trafficking of late in Mysore
territory. He had no passport.
He was returning from Bannagetta
(Mysore) on 20th inst. and was attacked
with fever on his way back near
Anikal - He ~~had~~ was removed the following
morning to the Plague Hospital, Mattigiri
together with 12 contacts to the segregation
sheds. The House has been untiled and
disinfected.

The Supervisor of Observation Group III reports that
the people coming from the Uppanapalli area
into Mysore are avoiding the tracks on
which the guards are stationed at this part
of the frontier and are passing round to
the westward of these or through the forest tracks
I am proposing to ~~place~~ have a guard stationed
at Singiripalli to prevent this
The 2nd Ambulance Staff stationed at Krishnagiri
has been abolished this week [illegible] have [illegible] to the

Hosur.

To.
The Secretary to Government
Local and Municipal Department
Madras.

Abstract report for week ending
July 1st 1899.

Sir, A fresh outbreak of Plague was
reported on the 26th Ult. from the village
of Uchanapalli on the Thalli frontier
of Hosur - 2 cases were reported by the
village Munsiff on 25th a third in
the same family was found by me on
26th.
(1) a woman reported to be suffering
from fever from the 21st June and (2) her
brother attacked 23rd both died on 24th.
(3) a boy about 12 years of age and
child of (1) had high fever and a
bubo in right side of neck all the
3 belong to the same family Pariahs.
The village had already been com-
pletely evacuated on the death of
the first 2 cases. The people having

been warned owing to the outbreak at Menshenapalli hardly 1/4 mile off way (in Mysore territory) from which infection was doubtless imported rats being carriers in all probability as the villagers themselves were afraid to venture there.

3 dead rats has been found in the house of family affected a few days before the woman (1) was taken sick.

A number of dead rats were also found at the frontier inspection sheds at Tuguvadi on 29th Ult. The sheds were promptly evacuated and tents supplied for the use of the Hospital assistant, clerk and establishment.

1 Patient (admitted on 23-5-99) was discharged from this station on the 1st Inst. 1 convalescent still remains.

The case of Plague from Malajini (imported) lodged in the Malajini Plague hospital died on the 27th (ultimo) Inst. There has been no further sickness among the contacts of this family. Not reported.

The pariah quarter at Thorapalli has been completely evacuated and a block of 15 houses and sheds disinfected there during the week also 2 houses have been disinfected in Honur and burning and removal of the floors at Mukundapalli has been proceeded with at a more rapid rate.

I have proposed the establishment of 2 additional posts on the Vepanapalli frontier to guard the roads by which people are crossing to and fro to the adjacent infected areas of Mysore.

I have the honor to be
