Don't forget

SUBJECT.

List of infected areas.

FOR ORDERS.

In the current read above, The
Collector of N. Arcot states that
the Vellore Municipality may be
removed from the list of infected
areas. The list was ^{last} re-
vised in G.O. no. 950-P. A
statement is ~~is~~ appended showing
the names of places that reported
plague cases from the 1st Juneth to
date, & with reference to this
statement, the list of infected
areas may be revised.

(2.) In the 2. Arcot dt., Vellore
& Wallajah Municipalities & Ranip-
pettai union were shown as
infected. Vellore had its last
case on the 28th May & since
that date it has been free.
Ranipettai reported one indigenous
case

case ~~was~~ on the 21st June.
Wallajah reported only 1 (indigenous
fatal) case ^{on the 2nd} in the month of June.
When the list was revised in
May last, Wallajah was removed
but included in June, as two
indigenous cases occurred at
^{one on the 22nd May & the other on the 2nd June.}
that place. As it is ~~now~~ more
than one month since the oc-
currence of the last case, it
is submitted that Wallajah may
be removed from the list. Vellore
Municipality also may be omitted,
excepting ^{at} Rampettai & Wallajah,
there were no plague cases in
the N. Arcot D. during June 28.

3. Of the villages in the Salem
D. declared as infected in
G.O. no. 950.P ^{19.6.28}, only Hosur reported
1 infected case in June, the
rest being free. It is submitted
that Periyakondapalli, Ragonda-
palli, Mukondubilli, and Hosur
may be removed from the list.
As regards Thorapalli, the Addl.
Medical Officer's reports (C. no 1660.P.)
that the village ~~was~~ under
inspicion & observation & that
the mortality is unusually high.

Orders

Plague has apparently stopped at
Thorapalli & Uechanapalli, it seems
unnecessary to declare them infected,
unless fresh cases are reported.

Note for the Secy

G.O. on this note was
despatched to the Madras Office
on Monday

5/7/28

H. K.

Asst
7.7.28

orders are solicited as to
whether this village should be
included in the list. The 1st
& the last attack in this village
occurred on the 22nd June.
Uechanapalli reported 2
fatal indigenous cases on the
24th June & 1 indigenous
seizure on the next date.

4. No other D. reported
plague during the last month.

5. As regards the places
outside the Madras Presidency
to be shown as infected, a
note has already been
submitted.

4/7/28

See N. Arcot District. It
will be submitted be-
lieving to remove Vellore
from the list of infected
areas.

There is still plague in
Rampettai, or has been recently.
Wallajah is very close, only
3 or 4 miles off. It would
be safer to retain it as
^{mid} 4/7/28 infected.

In Salem. ~~to~~ also. I think
 are held hot for the present
 makes any alterations,
 The additional medical officers
 reports that there are
 several infected villages ^{in Mysore} all
 along the borders of the Hosur
 Taluk.
 we may wait & see if
 any more cases are reported
 from the villages of Channarayana
 Anandapur or Matagudi before
 declaring them infected.
 If new cases keep occurring
 along these border villages
 it will be best to declare the
 Taluk or portions of it
 infected.

6th
 6.7.99.
