SIR,

Answering to your Ref. No.

No/962 dated 1st March 1899 regarding

the high rates of Estimate for the Sheds

of the Observation Camp at Hincupur

I have the honor to explain as follows:

Owing to the outbreak of plague

Hincupur and other adjoining villages

have been evacuated and materials

as well as workmen had to be procured

from distant places. Moreover

There were some fatal cases of
Plague in the Camp itself and Coolies
refused to work in the Camp being
afraid of the disease. The Coolies
had therefore to be paid liberally.

2. The materials had to be obtained
from Mandal in the Kurnool
District. The dearth of materials
there and the transportation charges
as well, resulted in high rates.

The Head Assistant Collector

Pemkonda, who was then Super-

-vising the work reports that

he is satisfied with the correctness of

Charges. I am, Sir,

Yours faithfully,

Sd/- Shri G. V. S. Rao

THE

Collector of

Anantapur

SIR,

In reply to your Refr

~~P 629~~
18.12.98

I have the honour to state that I have not yet seen the estimate referred to. I understand that it was sent to you direct.

2. As regards provision for wells I have made arrangements with the Southern Mahratta Railway authorities to take water to the camp from the Railway tank by pipes. The piping has been ordered from Messrs: Richardson & Girdas Bombay and is expected soon. A 400 gallon tank has been provided from which the water will be drawn for the camp

As regards

As regards bathing places for natives the disinfecting sheds were up till now considered sufficient for the purpose. As the observation camp is now considerably enlarged it will be necessary to provide separate accommodation for bathing purposes and this will be done, and will be included in the Supplemental estimate

I have the honour to be
