FURTHER PAPERS.

G.O.	No.	Department.	Date.

Copy of letter from the Plague Commissioner in Mysore to the First Assistant Resident in Mysore No.10967 dated Bangalore 17" June 1899

With reference to your letter No.2268 P dated 10" June 1899 forwarding copy of letter No.802 P.Mis., dated 29" May 1899 from the Secretary to the Government of Madras Local and Municipal Department I have the honour to forward herewith copy of letter No.1505 dated 15" June 1899 from the Special Plague Officer Kolar Gold Fields and to observe that though the girl attacked with plague died on the 2nd May ,all the members of the family excepting the mother - who had been inoculated- were segregated after disinfection on the 28" April,the day on which the girl was taken ill and that they did not leave the infected district till the 8" May i.e. after the expiry of 10 clear days from the date of segregation . It is obvious therefore that the rules regarding segregation have been properly enforced in the case of the persons referred to in the correspondence under reply,and that the remarks of the Health Officer Madras Municipal Commission,are evidently due to a misapprehension on his part that the contacts were not segregated until the death of the girl .

The enclosures are herewith returned.

From the Special Plague Officer Kolar Gold Fields to the Plague Commissioner in Mysore Bangalore,dated 15" June 1899 General No1505

With reference to your No.10719 of 10" instant forwarding for enquiry and report letter No. 2268 P dated the 10" June 1899 and its enclosures from the First Assistant to the Resident in Mysore I have the honour to submit the following particulars of the case.

A niece of the station master of Oorgaum took ill with Plague on the 28" April 1899.On the 29" April all the members of his family with the exception of the girl and her mother were disinfected and removed to another building .The sick girl and her mother continued to live in a portion of the infected house.The girl died on 2nd May and her mother joined the rest of the family after infection .This family consisting of the Station master his

and three children and his sister and sister in law left for Madras on the night of the 8" May. So the only contact who left the fields prior to ten days segregation was the mother of the deceased and not any one of the three passport holders referred to in the letter of the President Municipal Commission, Madras. This woman was inoculated and was one of the four alluded to by the Health Officer of Madras as holding valid certificates of inoculation and she was as such not liable to the segregation (Regulation 32 of Mofussil Plague Regulations)

Moreover, permission to proceed to Madras was granted only to the Station Master his wife and three chilfren (vide copy of District Medical Officers certificate attached)

The enclosed passports were issued to the Station Master and his two children who had been as already stated kept under Home segregation from the 29" April to 8" May (vide Regulation 3(b) of Mufassil Plague Regulations).

Copy of certificate.

Certified that Station Master Arcolanda Pillay of Oorgaum, his wife and three children have been properly disinfected.

(signed) T.T.O.Donnell
District Medical Officer
Kolar Gold Fields.

Dated 8" May 1899.
