No. 552.

To The Additional medical officer,
Hosur.

Sir, I beg to report that there exists a village named Kolladasapuram belonging to mysore territory surrounded on all sides by the villages of this circle. I heard this noon by rumour that two persons father and daughter came to this village about the 21st instant from Zuzuvadi and the daughter named nanchi had died of plague on the 24th of instt. night.

I at once went to the spot and made enquiries - ~~but~~ the died of plague and some say some of the villagers say out of some other disease. The corpse was buried yesterday As the father of the deceased is now suffering from fever and these have come from Zuzuvadi an infected place, I suspect that he might have died of plague. The man has no swellings of any kind over his body. He is placed in a separate outhouse. Though the village is one of mysore territory I took particular care for more safety, to segregate two persons concerned in another place, remove the earth and burnt it with kerosine. As I did not go to the spot with the disinfectant solution I will have the places disinfected properly tomorrow. Further report about the patients &c will be sent to your honour tomorrow. I will issue orders to

village Munsiffs of the surrounding villages not to allow any of Kolladasapuram people into their villages nor to allow these villagers to go into that village.

I beg &c

(Sd) C. Srinivasachari
Circle Inspector.
Bagalur.

Endt. 48th cir of 29-12-98

Forwarded to District medical and Sanitary Officer, Salem for information & instructions

This circle Inspector has no real right in mysore territory but this "island of mysore" is a source of great danger to madras territory.

Could the mysore Government not be approached to allow our inspectors to trace these cases.

If plague breaks out round here this will no doubt be used as a sort of "Sanctuary" to avoid segregation.

If our inspectors cannot go there, there ought to be some guard to prevent these people coming into Madras territory.

Bagalur
28. Decm. 98

To The Sub collector,
Hosur.

Sir,

In continuation of my report no 51 dated 26. inst. I beg to report as follows:-

At Kolladasapuram, the father of the deceased is free from fever now. The villagers thought that I am an officer of the mysore territory when I went there on the 26. instant. After knowing that I am not so they did not permit me into the village to disinfect &c. So I came away. The contacts are not now in a separate place but all have entered their house. Thus there is no restriction at all here.

The case occurred being an imported one there is no much danger for the present but at the time when there is an outbreak of the disease in this place, I think, the surrounding villagers will have to suffer for the non observance of any plague rules in this village. The village may even be under our observation as far as plague is concerned if the same is sanctioned by the mysore authority. Therefor this may be communicated to the Resident of mysore.

I beg &c
(Sd) C. Srinivasachari
Circle Inspector.

Ref: 958/8 of 7-1-99

Submitted to the Collector of Salem

2.

I request that the Resident of Mysore may be addressed on the subject of exchanging the supervision of Kolladasapuram as far as Plague is concerned for that of Ettikodi & and other isolated British villages in Mysore territory.

No. 24 Plague

Salem Collector's Office,
11th January 1899

12-1-99

From

Robert Bo clegg Esq.,
Ag Collector & Dt Magistrate of Salem

To

The Plague Commissioner.
madras.

Sir,

In the Hosur Taluq there is a village called Kolladasapuram which belongs to the mysore State but is surrounded on all sides by British territory. On the 21st of December, two persons from Zuzuvadi a village infected with plague, proceeded to this place where one of them died on the 26th idem and it is suspected that the death was due to plague. The circle Sanitary Inspector on receipt of information went to the village for the purpose of effecting segregation disinfection &c, but the villagers refused to permit him to do so when they knew that he was not an officer of the mysore State. As it is dangerous to allow this village in the midst of British territory to become an asylum for persons from infected villages as

DEPARTMENT.

FROM

THE COLLECTOR of Salem

To

THE Plague Commissioner, Madras

Dated 10th January 1899.

as long as there is no plague in the British villages adjoining it, I have the honour to suggest that you may arrange with the mysore Authorities either that they look after this village or permit our officers to do the needful in respect of imported cases. Copies of the Circle Inspector's reports are enclosed.

I have the honour to be,

Sir,

Your most obedient Servant.
