SUBJECT

FOR ORDERS.

The H.M. wanted to know exactly the cost of preventive circles, the staff employed & the practical results obtained therefrom. This information not being available in the office, reference was made to the Collector concerned & vide para 5 of G.O. No. 870 P. d. 12-6-99 (the original of which is now at O.O.S.). The replies of the Collectors of Bellary & N. Chik have been received & disposed of in G.O. ¹⁰⁶¹ 10-7-99 & G.O. No. ¹⁰²⁸ 13-7-99, & that from the Collr. of Anantapur (Chs 1541 P.) is under disposal. Kurnool reply was recd. only today & is submitted for orders.

2. In Bellary, the preventive circles were not kept longer than necessary

necessary. In Antwerp, they
were abolished some time ago.

In N. India they have been ordered
to be abolished on the expiration
of one month from the date of the
last indigenous plague case in
the district. There are 7 districts
in Karnool still, and the Coll.
& his S.M.S.O. recommend their
continuance. There has been
no plague in the district since the
5th May, and it seems quite
unnecessary to maintain these
circles any longer. The Coll.
may be informed accordingly
by telegram and by letter.

Dis No. 611 of 99
ENCLOSURES.

C to 19507.
KURNOOL COLLECTOR'S OFFICE,
KURNOOL,
Dated 13th July 1899.

FROM Mr. B. A.

Gewan Bahadur R. V. Srinivasar, A. B. A.
of COLLECTOR OF KURNOOL,

TO

THE SECRETARY TO Government,

Local and Municipal Department,
Madras.

SIR,

According to para 5 of Government
order no. 878 P I have the honor to state
12.6.99
that the 7 Circles (with 5 to 7 miles dia-
meter) named in the accompanying
list and situated in the Pandikona
Taluk are still maintained in this
district. Three of these circles (A B C)
were formed in September 98 in accordance
with the marginally noted Communications
with a view to ensure systematic
observation to a depth of 20 miles from
Guntakal where plague was prevalent
at the time. The remaining four circles
were subsequently established agree-
ably to a telegram dated 15.12.98 received
from

* Telegram from Sanitary Commission

dated 16.9.98

Do from Government

D 17.9.98

from the Plague Commission who desired that the system of observation round Guntakal should be extended to as to Coor Molaganalli also. After plague broke out in this district these circles were treated as preventive circles somewhat answering to the description given in the Government Order under reply.

2. The Staff employed in these circles at present and their cost are as follows:-

Establishment	Monthly Cost
1 Supervisor	Rs 195
1 Certified Sanitary Inspector	75
6 Temporary do do	
@ Rs 70 each	420
5 Salt peons at Rs 7/- each	35
4 do do @ Rs 6/- do	24
5 Extra Post peons @ Rs 7/- do	35
Total	784

3. The practical results obtained are that the Sanitary Staff has been useful in (1) detecting cases of plague (2) furnishing prompt information to the higher authorities of the occurrence of cases in view to the adoption of the necessary measures and assisting in carrying out

such measures and (3) bringing about considerable improvement in village sanitation.

4. Circles B.C.8 and 9 contain villages where plague existed for a considerable period in an indigenous form and Circle 8 adjoins three of these and the Bellary District. The District Medical and Sanitary Officer is of opinion that it would be advisable to retain the five circles (B to F) above referred to dividing them among three Sanitary Inspectors placed under a Supervisor and I concur with him. If these proposals are approved the cost of the staff to be retained will be as follows:-

	Rs
1 Supervisor	195
1 Certified Sanitary Inspector	75
2 Temporary Sanitary Inspectors	140
@ 70 each	
3 Salt peons @ Rs 7/- each	21
2 do on Rs 6/- each	12
3 Post peons	21
Total	464

I have the honour to be,
Your most obedient servant,
Sd/-
H. S. Subramanian
District Collector
