READ—the following paper:—

From the Plague Commissioner, Ref. on C. Nos. 264 and 2175, dated 31st December 1898.

Read—the following papers:—

From the Collector of North Arcot, dated 5th October 1898, Dis. No. 122-P.

ABSTRACT.—Suggesting that separate forms of passport may be prescribed under No. 17 of the Original Mufassal Plague Regulations in the case of incapacitated persons.

From the Collector of Bellary, dated 9th December 1898, Ref. on C. No. 2612-P.

ABSTRACT.—Communicating, for favour of opinion, copies of correspondence connected with the prosecution of a child, 3½ years old, which was not produced by its guardian for inspection during ten days after arrival from a plague-infected area, and suggesting the early amendment of the regulation on the subject.

Reference—on C. Nos. 264 and 2175, dated 31st December 1898.

As stated by the Collector of North Arcot, the passport rules contemplate the issue of a separate passport to each passenger, but do not contain any provision regarding the case of minors and incapacitated persons. In the case of these persons, the obligation to take out passports for them should, the Plague Commissioner thinks, vest in their legal guardians or the persons in charge of them during the railway journey, and the following addition to Mufassal Regulation 17 and City Regulation 22 is submitted for the approval of Government:—

“In the case of minors and incapacitated persons, the obligation to take out passports for them, to present them for daily inspection, to report truly their names and addresses, to intimate any changes in their residence and to comply otherwise with the requirements of this regulation, shall vest in their legal guardians or persons in whose charge they travel or who receive them at the railway station of destination.”

2. As regards the passport form, the only alteration that seems necessary is to substitute the words “present the above-mentioned person” for the word “appear” in the declaration. The entries 1—9 in the amended passport should relate to the minor or incapacitated person and not to the person signing the declaration.

Copy of Ref. On. C.R.522/27-11-98 from the Tahsildar of Harapanahalli to the Collector of Bellary.

I beg to report that the prosecution of the passport holder No.1603 issued by the medical officer at Mylar was recommended at the instance of Harapanahalli medical Officer in the bimonthly report for 31st October 1898. The age of the passport holder is only $3\frac{1}{2}$ years as entered in the passport since received in this office. I, therefore, beg permission to stay proceedings against the passport holder.

2. Passport No. 1603/7-10-98 is herewith submitted for kind reference and return.

Collector's N. D. on C.R. 2612P/1-12-98 in reply to the above.

Returned. The prosecution of the child may be dropped, and its parent or guardian proceeded against for not producing it.

Harapanahalli Tahsildar's Ref. On.P.C.R.522/6-12-98 to the Collector in reply to the above.

In returning your order No.2612P/1-12-98, I beg to enclose for kind perusal passport No.1603 issued to the child referred to. It contains the mark of the child in token of its signature and not that of the mother. There is no rule in the Plague Regulations binding the parent or other legal guardian to produce the child for observation for ten days on issue of a passport. In the absence of such a rule I respectfully beg to submit that the parent or guardian of the child cannot be criminally proceeded against for not producing it. Permission may be granted to stay proceedings against the parent or guardian of the child.

Ref. On. C. No. 2612-P/9-12-98.

Communicated (with the passport in original) to the Plague Commissioner for favour of opinion. This is the first instance in which it has been brought to my notice that a parent or

guardian of a child is probably not evading the Plague Regulations but failing to produce it for inspection for ten days after arrival from an area declared Plague infected. I am inclined to agree with the Tahsildar that the parent or guardian failing to produce the child cannot be proceeded against, and if this view is correct early amendment in this respect of the Regulation is highly desirable.

Copy of letter from the Collector of North Arcot, dated, camp
Vellore 4th October 1898.

Regulation No. 17 of the Original Mufassal Plague Regulations evidently contemplates the issue of a separate passport to each and every person coming from infected areas. The issue of separate passports to children below seven and to persons legally incapacitated will, however, be of no avail, for in case they fail to present themselves for observation no legal steps can be taken against them. On the other hand there is nothing in the existing rules or passport forms by which the guardians of such persons may be made responsible for presenting their wards for examination. I have therefore the honour to request that separate forms of passport may be prescribed for guardians of incapacitated persons. The question has arisen in practice at Arkonam
