ORDER. No. 1152 P. Mis 22/7/99

The list of infected and notified areas having been from time to time very considerably reduced, the Government considers that the services of a special Hospital Assistant for the observation of passport holders in the Trichinopoly Municipality are no longer needed. The services of the retired Hospital Assistant employed for the purpose should therefore be dispensed with at once, the Hospital Assistant in charge of the Municipal

Hospital being required
to do the work.

The correct attention is drawn to the fact that very much greater reduction has been made in the number of unfilled places & that therefore the number of passengers to be checked must have largely decreased. He is requested to say exactly what are the duties of each of the said Employed at present &

The Coll. reports that the S.M.O. is unable to reduce the Establishment, which the Govt. remarked, seemed more than was necessary. Submitted that the Coll. be asked to state exactly what each person does.
