North Arcot continues
to be free. The necessity
for the inspection of the

Until recently, there were

J. doctors. One of them has gone back
to England & the S.G. enquires whether
his place should be filled
dup. The Coll. states that a third
doctor is absolutely necessary
because besides the day trains,
there are two night trains (one
from Bangalore & another from Madras)
which have to be examined
simultaneously. There is now no
indigenous physician in the Madras
St. - the last case at Ranipet
occurred on the 21-6-98. If the inspection
of westward trains is now discontinued
the Coll. will not be able to do
without a third doctor but may
be able to reduce the
subordinate staff also.

2. The S.G. should have asked
for the orders of Govt. & not the opinion
of the Secy.

17/7/99
that Ranipet might be declared
uninfected from 21st inst. if no plague cases
occur hereafter. If this suggestion is accepted by H.M.
the inspection of westward trains
might be discontinued with effect from that date
& the S.G. informed that a 3rd med. officer
at Jalapet will not be needed.

GOVERNMENT OF MADRAS,

To

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,

Local & Municipal DEPARTMENT.

SIR,

Dr. J. Thomas on plague duty at Jalarpet having been permitted by Government to return to England, I have directed him to hand over charge to Dr. Low who is also at Jalarpet.

2. Now that plague has considerably decreased in the Mysore Province and Bangalore I do not consider it necessary to post a substitute for Dr. Thomas to Jalarpet. The present staff consist of Dr. Low (a European plague doctor), Mr. Staunton M.B., and 5 Hospital assistants and this I consider quite enough for the present. Kindly let me know your views in the matter.

I have the honor to be,

FROM

TO

THE SECRETARY TO GOVERNMENT,

Local & Municipal Department,

Madras.

SIR,

With reference to Government order
No 1811-P dated 10th instant, I have the
honour to state that I have already wired
to the Surgeon General for a third doctor
in place of Dr. J. Thomas at Polajpet.
The decrease in plague at Bangalore
and in Mysore does not in any way
diminish the work of examination
and intimation of passengers, and
the necessity for a third doctor is
just as real now as it was before.
Dr Low has been complaining of
excessive work since the removal
of Dr J. Thomas. You are aware
that, in addition to the day train, two
trains

trains come into Jolarpet at midnight and the examination of both has to be conducted at one and the same time or the railway company complains of delay. It is this night work that makes it so trying for the staff. The supervision of the Camps, passport work, and correspondence is heavy besides. The number of passengers in the detention Camp on 16th July (this being the time of rush from the mines) was 211 and the number in the plague hospital was 9. I consider that a third doctor is indispensable. Plague is again on the increase in the Mysore taluk bordering this district, and we cannot afford to relax our vigilance at Jolarpet.

I have the honor to be
