SUBJECT.

Plague Inspection at
Guntakal.

FOR ORDERS.

With a view to a better inspection at Guntakal if necessary, the Coll. of Anantapur was asked to report what trains were inspected there & whether it was necessary to continue such inspections or not. In reply he states that the following trains are examined:-
(1) Up train from Bangalore
(2) Down train from Hubli
(3) Down train from Bombay
As there is plague in Bombay & also in Bangalore, the Coll. & the Sanitary Commr. agree that these inspections should be maintained.
2 The history of the inspection Station

1945 P
2118

Station at Guntakal is as follows. It was first opened in February 1897 (vide para 4 of G.O. No. 2194.M. 4/15-2-97). In Oct 1897, Plague was reported to have reached Hubli & an inspection station was established at Hospet for examining trains coming from that quarter (G.O. No. 2393 d/1-11-97). In March 1898, elaborate preventive arrangements were considered necessary, the staff of Bellary & Hampden were placed under observation circles & road inspection stations were organized. As a part of these arrangements, the inspection at Guntakal was transferred to Junjabbada as being more efficient vide H.M.'s note at Flap G. In August 1898, Plague broke out almost simultaneously at Bangalore & Guntakal, and the inspection station at the latter place was revived for the purpose of

(1) examining passengers who from the west who halted at Guntakal for some hours before proceeding

by and the train

(2) for examining passengers from Bangalore until the inspection station at Hindupur was organized.

(3) all local passengers who started from Guntakal. (G.O. 809P 24-8-98.

It will be seen that the examination only in the case of (2), involved detention of trains, & that this detention was to last until Hindupur station began to work.

In January 1899, by which time plague had spread over the footy, Alur & Pathankot taluqs, a new inspection station was opened at Tadpathi, and it was ordered that the inspection at Guntakal should be restricted to

(a) Examination of all trains from Hindupur & Maddur

(b) examination of those passengers from the direction of Hospet & Junjabbada who alighted at Guntakal

And it was expressly stated that the detention of the Madras Ry. trains at Guntakal for the purpose of inspection would no longer be required (G.O. No. 263 27-1-98.

W

H

During decrease of plague, the
inspection station at Tadpatra
has been abolished (see No 6097
of 26-4-99). Anantapur & p
has been wholly free from plague
from the 2nd May 1899, Kurnool
from the 5 May & Bellary from
the 16 May. Guntakal is only
4 1/2 hours run from Hospet &
2 hours' run (by mail train) or
4 hours' run (by passenger train)
from Tatyabhadra. Up to date
3598 ~~have been~~ passengers have
been detained at Tatyabhadra
but not a single case of plague
discovered, and it seems quite
unnecessary to examine the
Madras Ry trains both at Guntakal
& Tatyabhadra. The inspection
at Guntakal may be abolished;
in fact it was ordered ~~to be~~ by the
S.C. & he discontinued in January
last.

As regards the S. M. Ry trains,
they are examined at Hospet & Hindupur
& it is doubtful whether they
should be again examined at
Guntakal. Plague at the
Hampi & Bangalore is very little
and

B

and there cannot now be much
emigration of people from those
places. In Dec 1898, 1899, the
S.C. brought to notice that the
public were put to no little
inconvenience by the large number
of inspectors and the H.M. then
remarked - "We ought to try
and minimize the inconveniences
as much as possible". Recently
the H.M. ^{first} approved of the suggestion
to close the Guntakal inspection
station, but subsequently
modified his opinion on the
representation of the Secy
Jany

S

It may be added that if the
S. M. trains which are examined
at Hindupur or Hospet are again
inspected at Guntakal, the Madras
Ry trains ~~from~~ to Raichur have
to wait for them & thus ^{often miss} connection
with the trains leaving Raichur for
Bombay. The Madras Ry has
complained about these delays

H. M.

Please see order at H. S.
below. The position is the
same or rather worse. (Plague
is increasing in the district
districts). As when that
decision was arrived at,
there seems no reason to
alter it at present.
Had I been aware of the above
decision I could not have
made the reference to the
Collector.

b. W.
28.7.99

Plague is increasing &
both the Col. & the
Sanitary Comm. desire to
retain Guntakal. The
existing arrangement
must be maintained
for the present.

note. Originally there was an inspection
Station at Guntakal. In April
1898, it was transferred to
Tungabhadra. When plague broke
out at Guntakal itself in August,
it was ordered that outward trains
should be inspected & subsequent
orders

H
was directed the inspection of
mound trains also. Plague
has now subsided & it is necessary
to consider the position, so that as
to see that no unnecessary
work is done. Hence to call

To

The Chief Secretary to Government,

Local and Municipal Departments,

Fort Saint George,

SIR,

I have the honour to request that you will be good enough to order whether the re-examination of the marginal - ly noted trains, on account of Plague should still be continued at Guntakal.

Although there are Plague inspections at Tungabhadra, Hospet, Thondapalli and Hindupur, the trains coming from Bombay, Hubli, Bezivade, and Bangalore are being examined at Guntakal with a view to prevent infection from being carried into the District.

According to Government Order No 50 P., dated 19th June 1899, Anantapur, Bellary and Tumac Districts have been removed from the list of infected area, and I have therefore

*Trains coming from
Bombay, Hubli, Bezivade
& Adilabad and Bangalore.*
