SUBJECT.

Suggesting to Govt that, as the Sepoys sent on plague duty to Vellore are uninoculated and untrained, the Adjutant General or the General Officer Commanding Madras may be requested if more have to be sent from Madras to send at least half from the inoculated and trained men in Madras

Note for L & M Department.

Collector North Arcot reports that the sepoys sent to Vellore were all uninoculated and untrained.

Suggested that the Adjutant General or General Commanding the Division may be requested, if more have to be sent from Madras, to send at least half from the~~se~~ — men now held in readiness in Madras. These have all been inoculated & trained. I spoke about this with Col. Sir George Moore the other day, and he was quite agreeable; the system will enable a greater number to become trained before being put to work. The men in Madras have now drawn pay for a long time and done but little, while totally new men are sent straight off to active duty. I make the reference as I am off to Vellore tomorrow morning and hope to visit Arcot, and see how things are really going on there. It is possible that I may have to ask for — men for that place, for two indigenous attacks are reported from there.
