No.

Salem COLLECTOR'S OFFICE,

Dated 27. 4. 1897.

FROM

Robert B. Clegg Esq., J.B.S.

Collector of Salem

To

The Sub-Collector, House

SIR,

Referring to your letter No 626 of the 11th instant, I have the honor to state that your proposals to withdraw guards from Gummalaipuram and Kempathi and to employ them in patrolling the tracks referred to by the Additional Medical Officer and the Plague Supervisor and to post a Sanitary Inspector to Superintend the working of these hems and to detain suspicious persons from the Mysore Frontier until proper issue passports are approved and sanctioned. One of the other circle or Sub-circle Inspectors below the Additional Medical Officer can be kept spare for the

the duty should be undertaken and posted to the
charge. It is observed that the sanctioned
strength of the guard at Gummalapuram
is only 6 constables and not 9 as stated
in your letter. Please let me know how you
arrange for the number required.

2. The tracks referred to by the Additional
Medical Officer and the plague supervisor
are 6 as follows:

- (1) Kamasanthuram Road
- (2) Track (A) via Kanganapalli
- (3) " (A) via Sengampalli
- (4) " (B) via Dalanapalli
- (5) " Connecting Maharajapada with
urigan and Gudipalli
- (6) Track leading from Kuppam to
Vattanapalli

Details should be reported as to how they
are to be patrolled by 9 persons, where their
posts will be, and how the Special Sanitary
Inspector to be posted at Vellanapalli
can effectively supervise their working.
A map should be submitted showing all

all the tracks referred to and the position
of the Mysore and North Arcot Districts
with which they communicate. The
guards should receive definite instruc-
-tions as to the names of the village
Munsiffs or other local authorities
before whom travellers from infected
areas are to be produced for hearing &
passports.

3. A frontier inspection station
is not necessary at Vellanapalli.
A shed may be erected there as
proposed.

4. The Kagganur inspection station
may be abolished leaving the village
Munsiff to guard the shed. A watchman
may be employed if required. The guard
or some of them should be utilized
in watching the Kagganur Road
under the Hospital Assistant of the
Begalur Station. A special passport issuing
officer seems unnecessary. The village
Munsiff

these tracks and to see that all arrivals
are passported and kept under observa-
-tion. The Sub-Collector proposes
that 9 lions be withdrawn from the
Frontier Stations on the western side
of the Haur Talug, plague having
subsided in the Mysore villages,
adjoining that portion of the Talug,
and that they be sent to patrol these
routes and prevent evasions. He
also suggests that a Sanitary Insp-
-ector should be posted at Veppana-
-palli to supervise the working of these
lions. A small shed with two
compartments should be erected
at Veppanapalli to be ready for
use should occasion arise for it.
I have sanctioned these proposals.

2. The Kagganur Frontier Insp-
-ction Station will be abolished
as already reported in para 2 of

My letter No 794 dated 20. 4. '99.

(not used in
P.C's office -
perhaps with
S.C.)

I enclose a copy of my letter to the
Sub-Collector in the matter and request
that my action may be approved.

I have the honor to be
Sir
Your most obedient servant

for a collector
