SEPTEMBER.

Administration Report.

Reviewing the — of the Anakápalle Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From M.R.Ry. V. RAMAMURTI CHETTI Garu, Chairman, Municipal Council, Anakápalle, to the Secretary to Government, Local and Municipal Department (through the Head Assistant Collector, Narsapatam), dated 21st July 1899, No. 228.

I have the honour to submit my report on the administration of this Municipality for the official year 1898–99, together with the prescribed statements of receipts and charges.

I.—CONSTITUTION OF THE COUNCIL.

2. The maximum number of councillors to this Municipality is thirteen, as prescribed in G.O., No. 864, Financial, dated 13th April 1883. The constitution of the Council was, on the 31st March 1899, one ex-officio, three official and nine non-official, making a total of thirteen, councillors.

3. The office of the Chairman was held by me, the local Sub-Registrar of Assurances, throughout the year, but during my absence on other duty as Acting District Registrar from 13th October to 9th December 1898, my powers were under section 32 of sub-section 4 of the District Municipalities Act delegated to M.R.Ry. G. Hanumantharao Nayudu Garu, the local Deputy Tahsildar, and a councillor of this Council as well.

4. The system of appointing municipal councillors by election was for the first time introduced in this Municipality from December 1898. Four out of the thirteen councillors are sanctioned to be elected under this system. The Chairman is also appointed by election, which privilege this Council has been exercising for the last fourteen years.

5. The total number of meetings actually held during the year was nineteen against eighteen in the previous year. Besides these, three meetings were adjourned for want of quorum.

6. The average attendance at the meetings actually held was 6·21, viz., 1·68 of official and 4·53 of non-official members. The average attendance of Europeans was ·10, while that of natives was 6·11.

II.—RECEIPTS.

7. The year opened with a balance of Rs. 1,317–0–4. The total current receipts, inclusive of the opening balance, amounted to Rs. 16,278–14–6 against Rupees 18,804–13–2 of the previous year and Rs. 16,760 anticipated in the revised estimate. The decrease in the total amount of receipts in the year under report is chiefly due to the decrease in the "opening balance" of the year and partly to the decrease in the amount realised under "Taxes on arts", &c., which was explained in paragraph 3 of my letter, No. 18, dated 28th January 1899, giving cover to the budget of this Municipality for 1899–1900. A sum of Rs. 3,000, which was lent by Government (*vide* G.O., Mis. No. 488 M., dated 12th March 1897), was included in the sum of Rs. 4,429, the opening balance of the year 1897–98, whereas the opening balance of the year under report is the ordinary balance; hence the decrease under this head.

A.—Receipts from Taxation.

8. *House-tax.*—The tax under this head was levied at 7 per cent. on the actual rent value of the buildings. The assessment of the tax was based on the actual rental in the case of buildings let out. As regards houses which were not leased out, the actual rent was deduced from the rent of the model house in the neighbourhood, regard being had to position, extent, accommodation, comforts, and lastly local demand. The house-tax register was last revised in the year 1894–95. The demand originally fixed under this head was Rs. 2,795–14–2. No appeals were preferred against this assessment and hence no reduction was made in the original demand which remained final. The increase in the rate of tax being small, viz., from $6\frac{1}{4}$ to 7 per cent. and some petitions which were presented to the Council in the form of appeals, without the preliminary steps by means of revision petitions to the Chairman under section 69-A, having been converted into revision petitions which were disposed of, probably to the satisfaction of the petitioners, no regular appeals under section 97 (iii) of the Act were preferred as stated above. Of this amount Rs. 2,618–9–8 or 93·6 per cent. were collected during the year and Rs. 2–8–0 were remitted on account of vacant houses, leaving a balance of Rs. 174–12–6 for adjustment in the current year. Of the balance outstanding at the close of the year, a sum of Rs. 67–11–6 was subsequently realized and the remaining balance will be adjusted in the current year. The arrears outstanding at the commencement of the year together with those of previous years amounted to Rs. 298–8–9, of which Rs. 140–2–3 were collected and Rs. 4–4–0 were written off, leaving a balance of Rs. 154–2–6 for adjustment in the current year.

9. *Land-tax.*—The demand under this head was Rs. 2,416–14–4, of which Rupees 2,357–2–7 or 97·5 per cent. were collected within the year, leaving a balance of Rs. 59–11–9 to be adjusted in the current year. Of the balance outstanding, Rupees 24–9–9 were since collected. The arrears outstanding at the beginning of the year, together with those of the previous year, amounted to Rs. 98–3–2, of which Rupees 63–14–11 were collected during the year, leaving a balance of Rs. 34–4–3 for adjustment in the current year. The land-tax register was last revised in 1896–97. The assessment is based on the extent of land and the nature of the soil, the rates being $2\frac{5\,8}{1\,2\,1}$ pies on every 80 square yards of land in "Cheruvulopala" $1\frac{1\,1\,8}{1\,2\,1}$ pies in "Etiavala," $1\frac{5\,9}{1\,2\,1}$ pies in "Ava" and $\frac{1\,2\,0}{1\,2\,1}$ pies in "Cheruvuvenaka" divisions, sanctioned in G.O., Mis. No. 948 M., dated 24th September 1886.

10. *Tax on Arts, &c.*—The demand originally fixed by the Chairman under this head was Rs. 1,216. The Council remitted on appeal Rs. 214–8–0. Thus the demand as finally settled is Rs. 1,001–8–0, of which Rs. 921 or 91·08 per cent. were collected within the year and Rs. 26 were written off as irrecoverable on account of the poverty and death and desertion of certain tax-payers, and a sum of Rs. 54–8–0 still remains to be adjusted in the current year. The arrears outstanding at the beginning of the year under report, together with those of the previous years, amounted to Rs. 148–10–0, of which Rs. 17 were collected within the year and Rs. 101–8–0 were written off as irrecoverable, leaving a balance of Rs. 30–2–0 for adjustment in the current year.

The total number of persons finally assessed to the tax on arts, &c., is 340, of whom 1 was assessed under class III, 7 under class IV, 20 under class V, 5 under class VI, 44 under class VII, 73 under class VIII and 191 under class IX of the schedule A of the Madras Act III of 1897. The actual collections under this head fell short of the expected receipts shown in the revised estimate by Rs. 120. This was owing partly to the less number of traders that traded in this Municipality during the second half-year which being jaggery season usually induced outside traders to reside in this town, and partly to the protest of certain official members to pay their taxes on the plea that they resided in the town for less than 60 days during the half-year. In the case of these native officials it is not out of place to mention here that their families and servants live in this town during the whole half-year and enjoy all the benefits of the Municipal administration. The head of the family who is a paid Government officer is said to tour in his circle or division for more than four months in the half-year and a plea is put forth that he is not liable to be taxed. The question whether the family which enjoys the emoluments of its head who is a paid officer is

liable to pay profession-tax or not is pending disposal before the Council, and until this question is decided assessment on the income of these officers could not be made. The Council prays for orders of Government in this matter.

11. *Tax on Animals and Vehicles and Registration of Carts.*—The receipts under these heads amounted to Rs. 392–4–0 and Rs. 299–8–0 against Rs. 314–12–0 and Rs. 249, respectively, of the previous year.

12. *Coercive Processes.*—In 263 cases distraint warrants were issued, of which 189 were those that were executed and cancelled, and 74 remained unexecuted at the close of the year. In no case was property sold. No prosecutions for non-payment of tax were instituted against defaulters.

13. *Tolls.*—The amount realised by the auction sale of tolls was Rs. 9,455 as compared with Rs. 9,400 of the previous year. The small increase over the previous year is due to keen competition amongst lessees. Of this amount Rs. 110–7–0 were spent in constructing and repairing the thatched toll-sheds during 1897–98 and 1898–99. The net receipts under this head are therefore Rs. 9,344–9–0. Of this sum, 60 per cent. or Rs. 5,606–11–10 was paid over to the District Board as its share. Rs. 3,848–4–2 were credited to Municipal funds during the year under report. No expense was incurred in the collection of this amount, the lessees having the exclusive right of collecting tolls from the six gates.

14. The population of the town is, according to the last census, 17,010, and the total receipts exclusive of tolls amounting to Rs. 6,809–3–2, the average incidence was As. 6–5 per head or, if tolls be also included, As. 10–1 per head as compared with As. 6–1 and As. 9–6, respectively, in the previous year.

B.—Miscellaneous Receipts.

15. The total receipts under this head amounted to Rs. 4,265–7–4 against Rs. 4,172–9–9 of the previous year. The increase occurs chiefly under "Conservancy receipts", "Income from educational institutions" and "Grants and contributions".

16. *Rent of Lands.*—A sum of Rs. 2 was realised during the year on account of the annual rent of Municipal land excluded from a latrine site.

17. *Produce of Lands and Gardens, &c.*—Rs. 9–2–0 were collected under this head on account of sale-proceeds of ragi crop, &c., produced from the Municipal night-soil farm.

18. *Sale-proceeds of old Materials, empty oil-cans.*—A sum of Rs. 14–8–0 was collected during the year on account of sale-proceeds of empty tins and unserviceable articles against Rs. 14–4–0 of the previous year.

19. *Conservancy Receipts—Sale-proceeds of Night-soil, Street-refuse, &c.*—A sum of Rs. 240–4–0 was realised under this head during the year on account of the sale-proceeds of street sweepings and those of the Municipal cart-stand against Rupees 65–4–0 of the previous year. The increase is due to the collection in the current year of the outstanding arrears of the last year.

20. *Fees from Educational Institutions.*—These amounted to Rs. 1,241–14–3 as compared with Rs. 1,205–11–9 of the previous year and Rs. 1,230 anticipated in the revised estimate. The increase over the actuals of the previous year is due to the increased strength of the middle school.

21. *Sale-proceeds of Medicines and other Hospital Receipts.*—These were Rupees 12–8–7 against Rs. 12–13–10 of the last year and Rs. 20 anticipated in the revised estimate.

22. *Income from Markets and Slaughter-houses.*—The right of collecting fees in the Municipal markets, viz., vegetable and fish markets, was leased out for Rs. 536 against Rs. 602 of the previous year. The decrease is due to want of competition amongst renters. The whole amount, viz., Rs. 536, was fully realized during the year. The Municipal slaughter-house was leased out for Rs. 150, of which Rupees 148–8–0 were collected during the year, leaving a small balance of Rs. 1–8–0 for adjustment in the current year. The ground-rent of market godowns was collected departmentally, as usual. The total demand was Rs. 119–13–3, of which Rs. 61–7–3 were collected during the year and Rs. 5–11–3 were remitted by the Council on the ground that a certain godown was vacant during the whole year. The balance outstanding on the 31st March 1899 was therefore Rs. 52–9–9, of which Rs. 36–15–9 were subsequently collected in the current year.

The arrears outstanding at the beginning of the year were Rs. 29–15–3, of which Rs. 19–15–3 were collected within the 31st March 1899, leaving a balance of Rs. 10 for adjustment in the current year.

23. *Warrant, Distraint fees and Recoveries on account of incidental expenses.*—These were Rs. 54–8–0 as compared with Rs. 18–12–0 of the previous year. Of this sum (Rs. 54–8–0), Rs. 24–4–0 were on account of warrant fees, Rs. 11–2–0 were on account of distraint fees, and Rs. 19–2–0 were on account of incidental expenses and such charges in connection with seizure and detention of unregistered carts under section 90 (2).

24. *License Fees.*— The amount collected as license fees was Rs. 80–15–2 against Rs. 80–7–6 of the previous year and Rs. 100 anticipated in the revised estimate. The item being of a fluctuating nature calls for no remark either for increase or decrease.

25. *Cart-stand Fees.*—The privilege of collecting cart-stand fees was leased out during the year for Rs. 501, as compared with Rs. 565 of the previous year. The decrease is due to want of competition amongst lessees. The whole of the leased amount was collected during the year.

26. *Miscellaneous Fees.*—Only one rupee was collected on account of fees for taking extracts from the register of deaths.

27. *Fines under Municipal and other Acts* amounted to Rs. 233–8–0 against Rs. 208–4–5 of the previous year and Rs. 300 estimated in the revised estimate. The decrease under the revised estimate may be attributed to the fact that the balance of fines under sections 3 to 5 of the Towns Nuisances Act, which werere alized during the year under report, is not as yet credited to Municipal funds.

28. *Grants and Contributions from Government*—were Rs. 36–10–8 against Rs. 40 anticipated in the revised estimate towards the pay of the gymnastic instructor.

29. (*a*) *Grants and Contributions from Local Boards.*—Rs. 500 was the usual amount of contribution received from the Taluk Board, Narsapatam, for the upkeep of the municipal dispensary.

(*b*) *Other purposes.*—A sum of Rs. 142–12–2 was realised under this head during the year. This amount is a moiety of the expenditure due to this Council by the District Board on account of the survey of lands which was undertaken at the joint cost of the District Board and this Council.

30. *Recoveries on account of services rendered to private individuals—Private Scavenging.*—Under this head Rs. 312–10–0 were collected as private scavenging fees against Rs. 346–15–6 of the previous year, and Rs. 26–8–0 as fees for cleaning cess-pools of certain private individuals against Rs. 27 of the previous year. The decrease is due to the fact that these fees were collected in the first quarter of 1897–98 at enhanced rate which was subsequently reduced. The private scavenging system was self-supporting during the year under report, the charges for the services being Rs. 322–2–3, inclusive of contingent charges connected with the service. The number of houses served by the municipal agency on the 31st March 1899 was 188 as compared with 147 of the previous year.

31. *Miscellaneous—Other Items—Refunds of Expenditure of previous years.*—A sum of Rs. 48–3–0 is the collection of balance of the last year's sale-proceeds of conservancy bullocks and carts which were sold away during the last month of last year, and of recoveries on account of damages to municipal lanterns.

Fees for Numbering Carts.—Rs. 33–9–0 were realized under this head during the year against Rs. 28–9–0 of the previous year. The increase is due to the larger number of carts registered during the year.

32. *Advances Recovered.*—A sum of Rs. 8 is the collection of balances of the outstanding advances made in the previous years and adjusted in the year under report under the item of "Advances recovered."

EXPENDITURE.

33. The total expenditure for the year amounted to Rs. 15,962–15–7 against Rs. 17,487–12–10 of the previous year and Rs. 16,120 anticipated in the revised estimate.

34. *Grant 1, Public Works.*—The total amount expended on public works was Rs. 3,950–9–4 against Rs. 3,754–9–7 of the previous year, and Rs. 4,290 allotted in the revised estimate. The details are as follows:

35. *New Works—Communications.*—The Santabayalu road which was commenced in 1896–97 was metalled and gravelled during the year under report at a cost of Rs. 42–13–4. A sum of Rs. 40–7–0 was spent in filling up a large pit in the new scavenging petta and Rs. 13–3–7 were spent in forming a road from the trunk road to the municipal office building.

36. *Repairs—Communications.*—A sum of Rs. 1,486–9–1 was spent under this head against Rs. 1,590 sanctioned in the revised estimate and Rs. 1,410–2–1, the actuals of the previous year. The less expenditure of over Rs. 100 is due to the deductions made for bad work of the roads and to the non-spreading of certain materials in some streets owing to the neglect of the contractor.

37. *The total length of roads* in the Municipality is 13 miles and 86 yards. Out of this length, 12 miles, 2 furlongs and 170 yards are maintained by this Council. The total length of metalled roads is 10 miles, 1 furlong and 208 yards; that of gravelled and unmetalled roads is, respectively, 1 mile, 1 furlong, 210 yards, and 1 mile, 4 furlongs and 108 yards.

38. *New Works—Buildings.*—Under this head Rs. 1,452–11–10 were spent against Rs. 1,700 sanctioned in the revised estimate. The following is the explanation for the less expenditure under this item:—

(*a*) The construction of the municipal office building, which was commenced last year, was completed (and occupied during the year under report) at a cost of Rs. 1,564–13–5, of which the payment of Rs. 200 was withheld until August 1899 with a view to expend it, for necessary repairs, if the building is damaged, in the meanwhile, by rains. If such repairs become unnecessary, the amount will be paid to the contractor. This the Council were obliged to do as they were not sure if the roofing and the materials used and the workmanship which to all appearance seemed pucka, are what they should be.

(*b*) A sum of Rs. 12–15–4 was spent on the construction of a tatty latrine at Sarabanda for females.

(*c*) The construction of six tolls-sheds which were commenced in the latter part of March 1898 was completed at a total cost of Rs. 72–15–1.

(*d*) A piece of land set apart for bullock slaughter-house was enclosed with palmyra fencing at a cost of Rs. 2–10–0.

39. *Repairs—Buildings.*—A sum of Rs. 91–12–8 was spent under this head, of which Rs. 28–8–7 were utilized in the repairs of the existing public latrines, Rupees 34–4–5 in the repairs of the thatched sheds in the municipal cartstand, Rs. 16–7–8 in the repairs of the municipal slaughter-house, middle, primary school buildings and shed in the municipal hospital compound, and Rs. 12–8–0 in the repairs of the toll-shed at "Gundalamettu."

40. *New Works—Drainage.*—With a view to drive off the filthy water from the end of the Kotinaveedhi masonry drain to the outside of the town, a petty sum of Rs. 5–3–3 was spent in excavating a new channel into the neighbouring fields.

41. *Repairs—Drainage.*—Rs. 48–8–8 were expended under this item for the repairs of the existing drains in Bandigadi Street, Kotiniveedhi and Gavarapallem.

42. *New Works—Water-supply.*—Three of the public wells which were without platforms had their platforms built, with cesspools into which waste water is collected, at total cost of Rs. 71–15–9 and another public well was provided with a cesspool at a cost of Rs. 10–15–7.

43. *Tolls and Road charges.*—The total amount expended on municipal roads during the year was Rs. 1,583 or 41·1 per cent., out of Rs. 3,848, municipal share

of the total income from tolls. The decrease under the usual percentage of 50 fixed by Government is due to the stoppage of works for sometime in the second quarter of the year and to the neglect of the contractor to completely execute the work in the subsequent period.

44. *Grant 2, Education.*—There were on the 31st March 1899 one Municipal Middle school on the salary system, one Municipal Upper Primary school, one night school, and one Lower Primary school for Pariah boys on the Salary-result system and seven schools on the result system, eleven schools in all with 545 pupils on the rolls as compared with thirteen schools with 556 pupils in the previous year. The decrease in the number of Municipal schools was due, as explained by the Assistant Inspector of Schools, to the amalgamation of one of the old schools with another school in the town. The total cost incurred under this head was Rs. 2,433 against Rs. 2,404 of the previous year as noted below:—

	1897–98.	1898–99.
	RS.	RS.
(1) Municipal school—		
(1) Salary system—		
(*a*) Middle school	1,178	1,154
(2) Salary-result System—		
(*a*) Secondary schools	..	..
(*b*) Primary „	694	732
(3) Grant-in-aid Schools—		
(1) Salary grants	..	..
(2) Results „	..	..
(*a*) Secondary schools	..	..
(*b*) Primary schools	410	372
Normal stipends	..	..
Inspection	..	55
Miscellaneous	122	120
Total ..	2,404	2,433

The increase in the year under report is chiefly due to the inspection allowance paid to the headmaster of the Municipal Middle school for inspection of the Municipal Primary schools in the Municipality.

(*a*) *Municipal Middle School.*—The number of boys under instruction on the 31st March 1899 was 66 against 54 on the corresponding date of the previous year. In the Lower Secondary examination, three out of eleven sent up came out successful. The average net cost of educating each pupil was Rs. 5 against the same amount of the previous year.

(*b*) *Salary-result Schools.*—There were three schools maintained under this system against the same number in the previous year. There was thus one Upper Primary school, one Lower Primary school for Pariah boys, and one night-school for labouring classes. The total number of pupils reading in all the Municipal Primary schools was 137 against 121 of the last year. The number of pupils that were presented for examination in these schools was 56 against 52 in 1897–98. Out of the 56 pupils examined 47 passed. The average net cost of educating each pupil was Rs. 3–10–3 against Rs. 3–9–4 in 1897–98. The increase being very insignificant calls for no remark.

(*c*) *Result Schools.*—There were seven of these schools against nine of the last year, one old school being amalgamated with another and one becoming an indigenous school. The total number of pupils at the close of the year was 342 against 381 of the last year. The decrease in the number of pupils is due to the transfer of one school to the list of indigenous schools as noticed above. The number of pupils presented for examination was 233 against 275, of whom 157 passed against 234. The Assistant Inspector of Schools remarked in statement IV-B relating to the results of the grant examination in these schools that the results deteriorated in the year in consequence partly of the deterioration in schools and partly of the examination having been conducted by an inexperienced officer. A sum of Rs. 372–6–0 was paid to the teachers as result grants during the year.

(*d*) *Inspection.*—A sum of Rs. 55 was spent under this item towards the inspection allowance of the headmaster of the Municipal Middle school for inspection of all the primary schools in the Municipality.

(*e*) *Miscellaneous.*—Rs. 120 were spent under this head towards the pay of the common gymnastic instructor.

(*f*) The number of boys of school-going age in the town was 1,273, of whom 586 were under instruction in schools.

The usual statements received from the Assistant Inspector of Schools are enclosed.

45. *Grant 3, Sanitation and Medical Services—Hospitals and Dispensaries.*—There was one dispensary maintained by the Council during the year. The number of out-patients treated in it was 9,561 against 8,121, while that of in-patients was 106 against 127 of the preceding year. The hospital assistant has explained the increase and decrease in the number of in and out patients in his report herewith submitted. Rs. 1,832 were spent for maintaining the dispensary against Rs. 2,093 of the previous year and Rs. 1,750 estimated in the revised estimate. The increase over the revised estimate is due to the payment of the value of European medicines supplied from Messrs. Burgoyne, Burbidges & Co., London, to the Municipal dispensary.

The midwife attached to the Municipal dispensary attended 232 labour cases during the year against 179 of last year.

46. *Vaccination.*—There is one second-class vaccinator on a pay of Rs. 10 per mensem. Vaccination has been compulsory in this Municipality for the last eight years. The total number of operations performed during the year was 808 against 905 of the previous year. The decrease in the number of operations is due to the decrease in the number of unprotected cases in the town as explained by the local medical officer in his report. Of the total number of vaccinations, 792 were successful and 16 unsuccessful. Eighty-eight persons were prosecuted for failure to get their children vaccinated against 101 of the last year. All the vaccine operations were performed by means of animal lymph supplied from the Local fund depot, Vizagapatam. The total cost of vaccination during the year was Rs. 151–0–10 against Rs. 153–7–0 of the previous year. The average cost of each successful case is As. 3–1 against As. 2–8 of the previous year. The increase in the cost is due to the decline in the number of operations during the year.

47. *Vital Statistics.*—The total number of births registered is 600 against 496 of 1897–98, of which 300 are males and 300 are females against 261 males and 235 females in the preceding year or 35·3 per thousand of population as per last census. The total number of deaths registered is 377 against 456 of last year, of which 191 are males and 186 are females against 266 males and 190 females of the previous year or 22·1 per thousand of population as per last census. No prosecutions were instituted for failure to register births and deaths. The following were the causes of deaths registered during the year: Fevers 115, dysentery and diarrhœa 49, accidents and injuries 7, and other causes 206.

48. *Sanitation—Conservancy.*—The total expenditure under this head during the year was Rs. 4,726–7–4 against Rs. 4,773–5–4 of the previous year and Rs. 4,760 sanctioned in the revised estimate. The decrease under the actuals of the previous year was chiefly due to the fact that the conservancy establishment was in last year paid a small rate of famine batta. The roads and streets were daily swept and kept clean. The sweeping remarks of the acting hospital assistant about the sanitary condition of the town are untenable as he had little or no experience of the town. He was in charge of the hospital only for *five days* in the year under report. His failure to bring in time the defects, if they really existed, to the notice of the Council was not satisfactorily explained by him when he was asked to do so. There were five fixed masonry and 116 moveable iron dust-bins. The town sweepings are daily carted outside the town to the depots of the sweepings contractor to whom the cart-stand sweepings and the town refuse were sold for Rs. 125 for the year. There were 28 public latrines at the close of the year against 27 of the previous year. There are seventeen conservancy carts at work during the year, of which five are hired carts for removal of town sweepings and the rest are iron hand-carts for night-soil.

49. *Conservancy—Other Charges.*—A sum of Rs. 615–3–10 was spent under this head against Rs. 559–3–11 of the preceding year and Rs. 600 allotted in the revised estimate. The increase over the actuals of the previous year was due to the payment in the year under report of arrear balances due to the contractors for supplying grass, &c., for the fodder of the municipal conservancy bullocks in 1897–98.

50. *Private Scavenging.*—The number of private latrines under the Municipal agency at the close of the year was 188 as compared with 147 of the last year. Efforts are being taken to increase the number still further. The total amount of scavenging fees collected during the year was Rs. 339–2–0, while the expenditure including the contingencies was Rs. 322–2–3. The small surplus under this head is due to the inclusion in the former amount of the fees collected for cleaning the cesspools of private individuals. The private scavenging system in this Municipality during the year was therefore self-supporting.

51. *Plague Charges.*—A sum of Rs. 384–11–1 was spent under this head against Rs. 201–3–3 of the preceding year and Rs. 440 estimated in the revised estimate. The increase over the actuals of the last year was due to the entertainment of a special hospital assistant on plague duty on a salary of Rs. 25 *plus* an allowance of Rs. 10 per mensem.

52. *Grant 4, Lighting.*—The town was lighted by 121 lamps as compared with 113 of the preceding year, eight new lamps having been put up during the year. The total expenditure incurred during the year was Rs. 401–5–7 against Rs. 461–6–8 of last year and Rs. 360 estimated in revised estimate. The decrease in the expenditure was due to the fluctuations in the prices of kerosine-oil, &c., purchased for the purpose, while the increase over the revised estimate was due to the purchase of eight new lanterns and wooden posts. The charges were as follows:—

	RS.	A.	P.
(1) Establishment charges	143	14	0
(2) Contingencies	257	7	7

53. *Markets—Contingencies.*—A sum of Rs. 15–12–0 was spent under this head towards the rent of the fish-market.

54. *Avenues—Contingencies.*—A petty sum of Rs. 4–3–0 was expended under this head towards the contingent charges connected with the avenues planted in 1896–97.

55. *Survey of Lands.*—A sum of Rs. 65–11–0 was spent under this head in settlement of all dues to the Survey department. The proposal of the President of the District Board, Vizagapatam, to survey the lands in this Municipality for rearrangement of tolls was withdrawn by him and the survey operations were stopped as explained in paragraph 53 of the last year's administration report of this Municipality.

56. *Miscellaneous.—Other charges.*—Rs. 201–9–3 were spent under this head against Rs. 190 estimated in the revised estimate. They were composed of the following items:—

	RS.	A.	P.
Printing charges	179	5	0
Tom-tom „	1	8	0
Wages of coolies employed in detecting the unlicensed carts in the town	4	2	0
Wages of coolies and watchmen and incidental expenses incurred indistraining the property of a defaulting tolls-renter	18	2	3

57. *Contributions to Provincial Funds.*—These were Rs. 138, being composed of the following items:—

	RS.
Contribution to the Medical College	84
Sanitary inspection	42
Medical reserve staff	12

58. *Contribution to Local Boards.*—Rs. 15–9–0 were spent under this item on account of the contribution to the Taluk Board, Narsapatam, towards the proportionate cost of the reserve compounders in the District Surgeon's office.

59. *Supervision and Management.*—The total charges incurred under this head were Rs. 1,524-8-5 against Rs. 1,400 sanctioned in the revised estimate and Rupees 1,417-7-5 of the previous year. The increase is due to the cost of the Municipal account books and forms supplied from the Lawrence Asylum Press, Madras. The charges were—Rs. 106-4-7, inspection, Rs. 589-13-2, office establishment, Rupees 186-8-4, office contingencies, Rs. 287, collection establishment, Rs. 204-14-4, purchase of municipal account books and forms, and Rs. 150 contribution to the central office and audit establishments.

60. *Repayment of Debt.*—Rs. 373-6-0 were spent during the year towards the repayment of the loan of Rs. 3,000 made by Government to build the Municipal office and the interest thereon as detailed below :—

	RS.	A.	P.
On account of instalment paid during the year	258	3	0
On account of interest for the year under report	115	3	0

61. *Advances Recoverable.*—A sum of Rs. 10 was paid to the Municipal office manager as permanent advance for office contingent charges.

IV. CLOSING BALANCE.

62. The year closed with a balance of Rs. 315-14-11 as compared with Rupees 1,317-0-4 of the previous year and Rs. 640 estimated in the revised estimate.

63. *Municipal Accounts.*—The accounts for the year under report were not audited.

64. *Concluding Remarks.*—In conclusion, I beg to explain the delay in the submission of this report as follows. The draft of this report, which was ready about a month ago, was placed to be read at the meeting of the Council, held on the 27th June 1899. By the time the report was taken up to be read some of the members then present were eager to dissolve the meeting owing to the late hour in that night and desired that the reading of the report might be deferred to some other day. Subsequent to this three meetings were summoned and in none of these there was a quorum. The delay in the preparation of this report was also due to the pressure of work in the months of May and June in the local Sub-Registrar's office over which I preside. Thus, on the whole, the delay in the submission of this report was unavoidable.

A copy of the Council's resolution adopting the report is herewith submitted.

ENCLOSURE.

CONCISE Annual Report of the Municipal Hospital at Anakápalle for the official year 1898-99.

Public Health.—The health of the people of Anakápalle was on the whole good. No cholera nor small-pox prevailed during the year.

2. *Vital Statistics.*—The total number of births registered was 600 and that of deaths 377 against 496 and 455, respectively, of the previous year. The number of deaths when compared with the number of births seems to be low. This is accounted for by the non-occurrence of any epidemic disease.

3. *Sanitation.*—The sanitary condition of the town of Anakápalle was not at all satisfactory. The public latrines, especially the one situated by the side of the road leading to the railway station, is always kept in a bad and stinking state. Many of the vacant grounds in the town have been converted into actual latrines, which are allowed to remain in the same filthy state. The drainage system is incomplete. Many of the street drains are built on faulty level; hence sewage impurities stagnate and bad effluvia pervades. This defect has been existing in the town for a long time and immediate attention is necessary. The private scavenging system worked satisfactorily during the year.

Water-supply was good and sufficient.

4. *Vaccination.*—Infantile vaccination was very satisfactory during the year. The number of infants under one year of age vaccinated according to the rules laid down was 403 against 498 of the previous year. This number is nearly equal to the number of births of last year, which shows that the vaccination was satisfactorily performed during the year. The total number of cases vaccinated was 808 against 905 in the previous year. The decrease is certainly due to the fact that year after year the number of persons unprotected in the town is being reduced. The number of re-vaccination cases was 51.

5. *Hospitals and Dispensaries*—(*a*) *Nature and sufficiency of accommodation.*—The main ward which accommodates eight male patients is sufficient. There is another separate ward for the accommodation of two female patients and is sufficient. It was recommended by the Head Assistant Collector of Narsipatam that the two rooms which are now in use as office and dispensary rooms are too small and inadequate for the purpose, and that they should be enlarged and an operation room should be provided.

(*b*) *State of Repair of Buildings.*—The buildings were in good repairs.

(*c*) *State of Repair of Furniture.*—The furniture in good condition.

(*d*) *Inspections.*—(1) *Steps taken to carry out the recommendations, if any, of the Surgeon-General with the Government of Madras.*—Nil.

(2) *Steps taken to carry out the recommendations, of other Inspecting officers.*—Nil.

(*e*) *Amount of recoveries from Patients who have been able to pay for their Diets and Medicines.*—Rs. 9-6-6 were recovered from patients for their medicines. No recoveries from patients for their diets as those who were able, provided for themselves their own diets.

(*f*) *Number of Patients treated as compared with previous years.*—One hundred and six in-patients and 9,561 out-patients were treated during the year under report against 127 and 8,121, respectively, during the previous year. The decrease in the number of in-patients is due to the fact that there was no famine during the year and the increase in the number of out-patients to the fact that ague, worms, ulcers, and skin diseases were prevalent to a greater extent.

(*g*) *Mortality particularly with reference to septic diseases acquired in hospitals.*—There were six deaths in the hospital, but none from septic diseases.

(*h*) *Operations and results.*—Three hundred and eighty-seven surgical operations were performed during the year, of which 12 were among in-patients and 375 among out-patients. Two cataract cases were operated by Lieutenant-Colonel A. H. Leapingwell during the year. All were successful.

(*i*) *Establishment whether sufficient and efficient.*—The establishment was sufficient and efficient.

(*j*) *Midwives—Work actually done.*—The municipal midwife conducted 232 labour cases during the year under report against 179 during the previous year. This shows that the midwife is working satisfactorily.

ANAKAPALLE,
30*th April* 1899. (Signed) K. KRISHNA AIYANGAR,
Hospital Assistant in charge.

No. 992-E.

Forwarded.

VIZAGAPATAM,
8*th May* 1899. (Signed) G. GIFFORD, Captain, I.M.S.,
Ag. Dist. Medical and Sanitary Officer.

No. P-[illegible]. 146.

Forwarded.

2. The roads are in fair order, but want seeing to in places.

3. The sanitation of the town is better than the hospital assistant in charge would lead one to expect. The drainage wants improvement, but the levels are difficult.

KASIMKOTA,
23*rd July* 1899. (Signed) R. B. WOOD,
Ag. Head Assistant Collector.

Forwarded.

2. The administration of the Municipality was, on the whole, satisfactory.

28*th July* 1899. (Signed) W. O. HORNE,
Collector.

ORDER—No. 1309 M., dated 9th September 1899.

The receipts and charges of the Anakápalle Municipality for 1898-99 are compared below with the budget and revised estimates for the year and the actuals of 1897-98 :—

—	Actuals, 1897-98.	Budget estimate, 1898-99.	Revised estimate, 1898-99.	Actuals, 1898-99.

Grand Total	17,488	15,280	16,120	15,963
Balance	1,317	810	640	293

2. The Municipal Council held nineteen meetings or one more than in the previous year and three others were adjourned for want of a quorum against five in that year. There was a decline in the average attendance of the members, which, however, continued to be fair in the case of non-officials, but was indifferent in the case of officials. The Collector will call the attention of the official members to G.O., No. 859 M., dated 10th April 1897.

3. *Receipts.*—(1) The demand under the tax on arts, as originally assessed by the Chairman, fell from Rs. 1,411 to Rs. 1,216, and notwithstanding the remark in paragraph 3 (1) of G.O., No. 1468 M., dated 17th August 1898, as much as 17·6 per cent. of this sum was remitted by the Municipal Council on appeal. This is not satisfactory. For these reasons the number of persons assessed to the tax and the net current demand under this head fell from 420 and Rs. 1,240, respectively, to 341 and Rs. 1,002. As the average assessment per head taxed was only Rs. 2–15–0 against the general average of Rs. 3–13–9 for Municipalities in 1897–98, the registers of this tax should be thoroughly revised in the current year and the result of the revision should be reported to Government as soon as it is completed. The Government is not prepared to advise the Municipal Council in the matter of levying the tax on the native officials referred to in paragraph 10 of the Chairman's report. The Council should take the best legal advice available and act on its own responsibility. Owing to the enhancement of the rate of the tax on buildings from $6\frac{1}{4}$ to 7 per cent. of the annual rental, the net current demand under this head increased by Rs. 256. The demand under the tax on lands, however, remained unaltered. From the note to statement I it appears that the house-tax registers are now five years old. These should also be completely revised in the current year as required by section 66 (2) of the Act and the result of the revision should be reported to Government as soon as it is finished.

(2) The current collections under the taxes on buildings and lands improved, while those under the tax on arts declined. In all these cases, however, they continued to be on the whole good. The arrear realizations under these heads, though much better than in the previous year, were still poor. The Government trusts that no pains will be spared to adjust the outstanding balances as soon as possible.

(3) There was an increase under tolls and conservancy receipts, which is explained in paragraphs 13 and 19 of the Chairman's report.

(4) The number of houses served by the private scavenging agency rose from 147 to 188 and the fees levied almost covered the cost of the service. The Government trusts that the efforts made in this direction will be sustained until all the private latrines in the town have been brought under the control of the Municipal Council. An income of Rs. 27 was realized as in the previous year for cleaning some private cess-pools.

4. *Expenditure*—(1) *Public Works.*—The Municipal office building, which was under construction in the previous year, was completed at a cost of Rs. 2,895. The expenditure on communications amounted to Rs. 1,583 or 42·2 per cent. of the net municipal income from tolls against the minimum of 50 per cent. prescribed by Government; but the short outlay is explained in paragraph 43 of the Chairman's report. The Head Assistant Collector reports that the roads are in fair order, but want seeing to in places. This should be attended to at once in the current year.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,154 or 10·8 per cent. of the receipts from taxation. Of this sum Rs. 857 were spent on primary, and the remainder on secondary, education. The Municipal Council continued to maintain one lower secondary school on the salary system and three primary schools on the salary-result system; but the number of primary schools aided with result grants was seven or two less than in the previous year. The attendance at the municipal schools, except the night school improved, but that at the aided institutions declined. The results of the Lower Secondary, departmental and grant examinations continued to be fair; but 7 per cent. of the allotment for result grants was allowed

to lapse, and the total number of boys under instruction in the municipal and aided schools fell from 554 to 543 or 42·7 per cent. of the male population of school-going age against the general average of 61·8 per cent. for Municipalities in 1897–98.

(3) *Medical Relief.*—There was an increase in the number of out-patients treated at the municipal hospital, but that of in-patients fell from 127 to 106, and these variations are explained in paragraph 5 (*f*) of the Medical report. The midwife attached to the municipal hospital attended 232 cases of labour against 179 in the previous year—a satisfactory advance. The attention of the Municipal Council is drawn to the remarks in paragraph 5 (*a*) of the Medical report regarding the inadequacy of the hospital accommodation.

(4) *Vaccination and Vital Statistics.*—It is to be regretted that the total number of vaccinations performed during the year again fell from 905 to 808. This decline is attributed to the decrease in the number of unprotected persons in the town; but this explanation cannot be considered adequate as the number of children under one year successfully vaccinated was only 401 or 23·6 per mille of the population against a registered birth-rate of 35·3 per mille. The Municipal Council should devote its special attention to this subject in the current year.

There was an increase in the number of births registered during the year, but a decline in that of deaths, which is explained in paragraph 2 of the Medical report. The returns in both cases, however, cannot be regarded as trustworthy, the rates recorded being much below the normal. Increased attention should be paid to the registration of vital statistics.

(5) *Sanitation.*—Nearly 8 per cent. of the allotment under this head was allowed to lapse; but the expenditure amounted to Rs. 4,726 or 31·6 per cent. of the current receipts. The Chairman's report furnishes hardly any information regarding the steps taken by the Municipal Council to improve the sanitary condition of the town; but paragraph 3 of the Head Assistant Collector's endorsement shows that it is still defective. The Government trusts that no pains will be spared to improve matters as funds become available.

5. *General Remarks.*—The year closed with a balance of Rs. 293 or only 2·0 per cent. of the current receipts.

Except as regards education, vaccination, registration of vital statistics and sanitation, which demand increased attention, the administration of the Municipality during the year under review continued to be fairly satisfactory.

SEPTEMBER.

Administration Report.

Reviewing the — of the Anakápalle Municipal Council for 1898–99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From M.R.Ry. V. RAMAMURTI CHETTI Garu, Chairman, Municipal Council, Anakápalle, to the Secretary to Government, Local and Municipal Department (through the Head Assistant Collector, Narsapatam), dated 21st July 1899, No. 228.

I have the honour to submit my report on the administration of this Municipality for the official year 1898–99, together with the prescribed statements of receipts and charges.

I.—CONSTITUTION OF THE COUNCIL.

2. The maximum number of councillors to this Municipality is thirteen, as prescribed in G.O., No. 864, Financial, dated 13th April 1883. The constitution of the Council was, on the 31st March 1899, one ex-officio, three official and nine non-official, making a total of thirteen, councillors.

3. The office of the Chairman was held by me, the local Sub-Registrar of Assurances, throughout the year, but during my absence on other duty as Acting District Registrar from 13th October to 9th December 1898, my powers were under section 32 of sub-section 4 of the District Municipalities Act delegated to M.R.Ry. G. Hanumantharao Nayudu Garu, the local Deputy Tahsildar, and a councillor of this Council as well.

4. The system of appointing municipal councillors by election was for the first time introduced in this Municipality from December 1898. Four out of the thirteen councillors are sanctioned to be elected under this system. The Chairman is also appointed by election, which privilege this Council has been exercising for the last fourteen years.

5. The total number of meetings actually held during the year was nineteen against eighteen in the previous year. Besides these, three meetings were adjourned for want of quorum.

6. The average attendance at the meetings actually held was 6·21, viz., 1·68 of official and 4·53 of non-official members. The average attendance of Europeans was ·10, while that of natives was 6·11.

II.—RECEIPTS.

7. The year opened with a balance of Rs. 1,317–0–4. The total current receipts, inclusive of the opening balance, amounted to Rs. 16,278–14–6 against Rupees 18,804–13–2 of the previous year and Rs. 16,760 anticipated in the revised estimate. The decrease in the total amount of receipts in the year under report is chiefly due to the decrease in the "opening balance" of the year and partly to the decrease in the amount realised under "Taxes on arts", &c., which was explained in paragraph 3 of my letter, No. 18, dated 28th January 1899, giving cover to the budget of this Municipality for 1899–1900. A sum of Rs. 3,000, which was lent by Government (*vide* G.O., Mis. No. 488 M., dated 12th March 1897), was included in the sum of Rs. 4,429, the opening balance of the year 1897–98, whereas the opening balance of the year under report is the ordinary balance; hence the decrease under this head.

A.—Receipts from Taxation.

8. *House-tax.*—The tax under this head was levied at 7 per cent. on the actual rent value of the buildings. The assessment of the tax was based on the actual rental in the case of buildings let out. As regards houses which were not leased out, the actual rent was deduced from the rent of the model house in the neighbourhood, regard being had to position, extent, accommodation, comforts, and lastly local demand. The house-tax register was last revised in the year 1894–95. The demand originally fixed under this head was Rs. 2,795–14–2. No appeals were preferred against this assessment and hence no reduction was made in the original demand which remained final. The increase in the rate of tax being small, viz., from $6\frac{1}{4}$ to 7 per cent. and some petitions which were presented to the Council in the form of appeals, without the preliminary steps by means of revision petitions to the Chairman under section 69-A, having been converted into revision petitions which were disposed of, probably to the satisfaction of the petitioners, no regular appeals under section 97 (iii) of the Act were preferred as stated above. Of this amount Rs. 2,618–9–8 or 93·6 per cent. were collected during the year and Rs. 2–8–0 were remitted on account of vacant houses, leaving a balance of Rs. 174–12–6 for adjustment in the current year. Of the balance outstanding at the close of the year, a sum of Rs. 67–11–6 was subsequently realized and the remaining balance will be adjusted in the current year. The arrears outstanding at the commencement of the year together with those of previous years amounted to Rs. 298–8–9, of which Rs. 140–2–3 were collected and Rs. 4–4–0 were written off, leaving a balance of Rs. 154–2–6 for adjustment in the current year.

9. *Land-tax.*—The demand under this head was Rs. 2,416–14–4, of which Rupees 2,357–2–7 or 97·5 per cent. were collected within the year, leaving a balance of Rs. 59–11–9 to be adjusted in the current year. Of the balance outstanding, Rupees 24–9–9 were since collected. The arrears outstanding at the beginning of the year, together with those of the previous year, amounted to Rs. 98–3–2, of which Rupees 63–14–11 were collected during the year, leaving a balance of Rs. 34–4–3 for adjustment in the current year. The land-tax register was last revised in 1896–97. The assessment is based on the extent of land and the nature of the soil, the rates being $2\frac{5\,8}{1\,2\,1}$ pies on every 80 square yards of land in "Cheruvulopala" $1\frac{1\,1\,8}{1\,2\,1}$ pies in "Etiavala," $1\frac{5\,9}{1\,2\,1}$ pies in "Ava" and $\frac{1\,2\,0}{1\,2\,1}$ pies in "Cheruvuvenaka" divisions, sanctioned in G.O., Mis. No. 948 M., dated 24th September 1886.

10. *Tax on Arts, &c.*—The demand originally fixed by the Chairman under this head was Rs. 1,216. The Council remitted on appeal Rs. 214–8–0. Thus the demand as finally settled is Rs. 1,001–8–0, of which Rs. 921 or 91·08 per cent. were collected within the year and Rs. 26 were written off as irrecoverable on account of the poverty and death and desertion of certain tax-payers, and a sum of Rs. 54–8–0 still remains to be adjusted in the current year. The arrears outstanding at the beginning of the year under report, together with those of the previous years, amounted to Rs. 148–10–0, of which Rs. 17 were collected within the year and Rs. 101–8–0 were written off as irrecoverable, leaving a balance of Rs. 30–2–0 for adjustment in the current year.

The total number of persons finally assessed to the tax on arts, &c., is 340, of whom 1 was assessed under class III, 7 under class IV, 20 under class V, 5 under class VI, 44 under class VII, 73 under class VIII and 191 under class IX of the schedule A of the Madras Act III of 1897. The actual collections under this head fell short of the expected receipts shown in the revised estimate by Rs. 120. This was owing partly to the less number of traders that traded in this Municipality during the second half-year which being jaggery season usually induced outside traders to reside in this town, and partly to the protest of certain official members to pay their taxes on the plea that they resided in the town for less than 60 days during the half-year. In the case of these native officials it is not out of place to mention here that their families and servants live in this town during the whole half-year and enjoy all the benefits of the Municipal administration. The head of the family who is a paid Government officer is said to tour in his circle or division for more than four months in the half-year and a plea is put forth that he is not liable to be taxed. The question whether the family which enjoys the emoluments of its head who is a paid officer is

liable to pay profession-tax or not is pending disposal before the Council, and until this question is decided assessment on the income of these officers could not be made. The Council prays for orders of Government in this matter.

11. *Tax on Animals and Vehicles and Registration of Carts.*—The receipts under these heads amounted to Rs. 392–4–0 and Rs. 299–8–0 against Rs. 314–12–0 and Rs. 249, respectively, of the previous year.

12. *Coercive Processes.*—In 263 cases distraint warrants were issued, of which 189 were those that were executed and cancelled, and 74 remained unexecuted at the close of the year. In no case was property sold. No prosecutions for non-payment of tax were instituted against defaulters.

13. *Tolls.*—The amount realised by the auction sale of tolls was Rs. 9,455 as compared with Rs. 9,400 of the previous year. The small increase over the previous year is due to keen competition amongst lessees. Of this amount Rs. 110–7–0 were spent in constructing and repairing the thatched toll-sheds during 1897–98 and 1898–99. The net receipts under this head are therefore Rs. 9,344–9–0. Of this sum, 60 per cent. or Rs. 5,606–11–10 was paid over to the District Board as its share. Rs. 3,848–4–2 were credited to Municipal funds during the year under report. No expense was incurred in the collection of this amount, the lessees having the exclusive right of collecting tolls from the six gates.

14. The population of the town is, according to the last census, 17,010, and the total receipts exclusive of tolls amounting to Rs. 6,809–3–2, the average incidence was As. 6–5 per head or, if tolls be also included, As. 10–1 per head as compared with As. 6–1 and As. 9–6, respectively, in the previous year.

B.—Miscellaneous Receipts.

15. The total receipts under this head amounted to Rs. 4,265–7–4 against Rs. 4,172–9–9 of the previous year. The increase occurs chiefly under "Conservancy receipts", "Income from educational institutions" and "Grants and contributions".

16. *Rent of Lands.*—A sum of Rs. 2 was realised during the year on account of the annual rent of Municipal land excluded from a latrine site.

17. *Produce of Lands and Gardens, &c.*—Rs. 9–2–0 were collected under this head on account of sale-proceeds of ragi crop, &c., produced from the Municipal night-soil farm.

18. *Sale-proceeds of old Materials, empty oil-cans.*—A sum of Rs. 14–8–0 was collected during the year on account of sale-proceeds of empty tins and unserviceable articles against Rs. 14–4–0 of the previous year.

19. *Conservancy Receipts—Sale-proceeds of Night-soil, Street-refuse, &c.*—A sum of Rs. 240–4–0 was realised under this head during the year on account of the sale-proceeds of street sweepings and those of the Municipal cart-stand against Rupees 65–4–0 of the previous year. The increase is due to the collection in the current year of the outstanding arrears of the last year.

20. *Fees from Educational Institutions.*—These amounted to Rs. 1,241–14–3 as compared with Rs. 1,205–11–9 of the previous year and Rs. 1,230 anticipated in the revised estimate. The increase over the actuals of the previous year is due to the increased strength of the middle school.

21. *Sale-proceeds of Medicines and other Hospital Receipts.*—These were Rupees 12–8–7 against Rs. 12–13–10 of the last year and Rs. 20 anticipated in the revised estimate.

22. *Income from Markets and Slaughter-houses.*—The right of collecting fees in the Municipal markets, viz., vegetable and fish markets, was leased out for Rs. 536 against Rs. 602 of the previous year. The decrease is due to want of competition amongst renters. The whole amount, viz., Rs. 536, was fully realized during the year. The Municipal slaughter-house was leased out for Rs. 150, of which Rupees 148–8–0 were collected during the year, leaving a small balance of Rs. 1–8–0 for adjustment in the current year. The ground-rent of market godowns was collected departmentally, as usual. The total demand was Rs. 119–13–3, of which Rs. 61–7–3 were collected during the year and Rs. 5–11–3 were remitted by the Council on the

ground that a certain godown was vacant during the whole year. The balance outstanding on the 31st March 1899 was therefore Rs. 52–9–9, of which Rs. 36–15–9 were subsequently collected in the current year.

The arrears outstanding at the beginning of the year were Rs. 29–15–3, of which Rs. 19–15–3 were collected within the 31st March 1899, leaving a balance of Rs. 10 for adjustment in the current year.

23. *Warrant, Distraint fees and Recoveries on account of incidental expenses.*—These were Rs. 54–8–0 as compared with Rs. 18–12–0 of the previous year. Of this sum (Rs. 54–8–0), Rs. 24–4–0 were on account of warrant fees, Rs. 11–2–0 were on account of distraint fees, and Rs. 19–2–0 were on account of incidental expenses and such charges in connection with seizure and detention of unregistered carts under section 90 (2).

24. *License Fees.*—The amount collected as license fees was Rs. 80–15–2 against Rs. 80–7–6 of the previous year and Rs. 100 anticipated in the revised estimate. The item being of a fluctuating nature calls for no remark either for increase or decrease.

25. *Cart-stand Fees.*—The privilege of collecting cart-stand fees was leased out during the year for Rs. 501, as compared with Rs. 565 of the previous year. The decrease is due to want of competition amongst lessees. The whole of the leased amount was collected during the year.

26. *Miscellaneous Fees.*—Only one rupee was collected on account of fees for taking extracts from the register of deaths.

27. *Fines under Municipal and other Acts* amounted to Rs. 233–8–0 against Rs. 208–4–5 of the previous year and Rs. 300 estimated in the revised estimate. The decrease under the revised estimate may be attributed to the fact that the balance of fines under sections 3 to 5 of the Towns Nuisances Act, which wererealized during the year under report, is not as yet credited to Municipal funds.

28. *Grants and Contributions from Government*—were Rs. 36–10–8 against Rs. 40 anticipated in the revised estimate towards the pay of the gymnastic instructor.

29. (*a*) *Grants and Contributions from Local Boards.*—Rs. 500 was the usual amount of contribution received from the Taluk Board, Narsapatam, for the upkeep of the municipal dispensary.

(*b*) *Other purposes.*—A sum of Rs. 142–12–2 was realised under this head during the year. This amount is a moiety of the expenditure due to this Council by the District Board on account of the survey of lands which was undertaken at the joint cost of the District Board and this Council.

30. *Recoveries on account of services rendered to private individuals—Private Scavenging.*—Under this head Rs. 312–10–0 were collected as private scavenging fees against Rs. 346–15–6 of the previous year, and Rs. 26–8–0 as fees for cleaning cess-pools of certain private individuals against Rs. 27 of the previous year. The decrease is due to the fact that these fees were collected in the first quarter of 1897–98 at enhanced rate which was subsequently reduced. The private scavenging system was self-supporting during the year under report, the charges for the services being Rs. 322–2–3, inclusive of contingent charges connected with the service. The number of houses served by the municipal agency on the 31st March 1899 was 188 as compared with 147 of the previous year.

31. *Miscellaneous—Other Items—Refunds of Expenditure of previous years.*—A sum of Rs. 48–3–0 is the collection of balance of the last year's sale-proceeds of conservancy bullocks and carts which were sold away during the last month of last year, and of recoveries on account of damages to municipal lanterns.

Fees for Numbering Carts.—Rs. 33–9–0 were realized under this head during the year against Rs. 28–9–0 of the previous year. The increase is due to the larger number of carts registered during the year.

32. *Advances Recovered.*—A sum of Rs. 8 is the collection of balances of the outstanding advances made in the previous years and adjusted in the year under report under the item of "Advances recovered."

EXPENDITURE.

33. The total expenditure for the year amounted to Rs. 15,962–15–7 against Rs. 17,487–12–10 of the previous year and Rs. 16,120 anticipated in the revised estimate.

34. *Grant 1, Public Works.*—The total amount expended on public works was Rs. 3,950–9–4 against Rs. 3,754–9–7 of the previous year, and Rs. 4,290 allotted in the revised estimate. The details are as follows:

35. *New Works—Communications.*—The Santabayalu road which was commenced in 1896–97 was metalled and gravelled during the year under report at a cost of Rs. 42–13–4. A sum of Rs. 40–7–0 was spent in filling up a large pit in the new scavenging petta and Rs. 13–3–7 were spent in forming a road from the trunk road to the municipal office building.

36. *Repairs—Communications.*—A sum of Rs. 1,486–9–1 was spent under this head against Rs. 1,590 sanctioned in the revised estimate and Rs. 1,410–2–1, the actuals of the previous year. The less expenditure of over Rs. 100 is due to the deductions made for bad work of the roads and to the non-spreading of certain materials in some streets owing to the neglect of the contractor.

37. *The total length of roads* in the Municipality is 13 miles and 86 yards. Out of this length, 12 miles, 2 furlongs and 170 yards are maintained by this Council. The total length of metalled roads is 10 miles, 1 furlong and 208 yards; that of gravelled and unmetalled roads is, respectively, 1 mile, 1 furlong, 210 yards, and 1 mile, 4 furlongs and 108 yards.

38. *New Works—Buildings.*—Under this head Rs. 1,452–11–10 were spent against Rs. 1,700 sanctioned in the revised estimate. The following is the explanation for the less expenditure under this item:—

(*a*) The construction of the municipal office building, which was commenced last year, was completed (and occupied during the year under report) at a cost of Rs. 1,564–13–5, of which the payment of Rs. 200 was withheld until August 1899 with a view to expend it, for necessary repairs, if the building is damaged, in the meanwhile, by rains. If such repairs become unnecessary, the amount will be paid to the contractor. This the Council were obliged to do as they were not sure if the roofing and the materials used and the workmanship which to all appearance seemed pucka, are what they should be.

(*b*) A sum of Rs. 12–15–4 was spent on the construction of a tatty latrine at Sarabanda for females.

(*c*) The construction of six tolls-sheds which were commenced in the latter part of March 1898 was completed at a total cost of Rs. 72–15–1.

(*d*) A piece of land set apart for bullock slaughter-house was enclosed with palmyra fencing at a cost of Rs. 2–10–0.

39. *Repairs—Buildings.*—A sum of Rs. 91–12–8 was spent under this head, of which Rs. 28–8–7 were utilized in the repairs of the existing public latrines, Rupees 34–4–5 in the repairs of the thatched sheds in the municipal cartstand, Rs. 16–7–8 in the repairs of the municipal slaughter-house, middle, primary school buildings and shed in the municipal hospital compound, and Rs. 12–8–0 in the repairs of the toll-shed at "Gundalamettu."

40. *New Works—Drainage.*—With a view to drive off the filthy water from the end of the Kotinaveedhi masonry drain to the outside of the town, a petty sum of Rs. 5–3–3 was spent in excavating a new channel into the neighbouring fields.

41. *Repairs—Drainage.*—Rs. 48–8–8 were expended under this item for the repairs of the existing drains in Bandigadi Street, Kotiniveedhi and Gavarapallem.

42. *New Works—Water-supply.*—Three of the public wells which were without platforms had their platforms built, with cesspools into which waste water is collected, at total cost of Rs. 71–15–9 and another public well was provided with a cesspool at a cost of Rs. 10–15–7.

43. *Tolls and Road charges.*—The total amount expended on municipal roads during the year was Rs. 1,583 or 41·1 per cent., out of Rs. 3,848, municipal share

of the total income from tolls. The decrease under the usual percentage of 50 fixed by Government is due to the stoppage of works for sometime in the second quarter of the year and to the neglect of the contractor to completely execute the work in the subsequent period.

44. *Grant 2, Education.*—There were on the 31st March 1899 one Municipal Middle school on the salary system, one Municipal Upper Primary school, one night school, and one Lower Primary school for Pariah boys on the Salary-result system and seven schools on the result system, eleven schools in all with 545 pupils on the rolls as compared with thirteen schools with 556 pupils in the previous year. The decrease in the number of Municipal schools was due, as explained by the Assistant Inspector of Schools, to the amalgamation of one of the old schools with another school in the town. The total cost incurred under this head was Rs. 2,433 against Rs. 2,404 of the previous year as noted below:—

	1897–98. RS.	1898–99. RS.
(1) Municipal school—		
(1) Salary system—		
(*a*) Middle school	1,178	1,154
(2) Salary-result System—		
(*a*) Secondary schools	694	732
(*b*) Primary „	..	..
(3) Grant-in-aid Schools—		
(1) Salary grants	..	..
(2) Results „	..	..
(*a*) Secondary schools	410	372
(*b*) Primary schools	..	..
Normal stipends	..	55
Inspection	122	120
Miscellaneous	..	..
Total	2,404	2,433

The increase in the year under report is chiefly due to the inspection allowance paid to the headmaster of the Municipal Middle school for inspection of the Municipal Primary schools in the Municipality.

(*a*) *Municipal Middle School.*—The number of boys under instruction on the 31st March 1899 was 66 against 54 on the corresponding date of the previous year. In the Lower Secondary examination, three out of eleven sent up came out successful. The average net cost of educating each pupil was Rs. 5 against the same amount of the previous year.

(*b*) *Salary-result Schools.*—There were three schools maintained under this system against the same number in the previous year. There was thus one Upper Primary school, one Lower Primary school for Pariah boys, and one night-school for labouring classes. The total number of pupils reading in all the Municipal Primary schools was 137 against 121 of the last year. The number of pupils that were presented for examination in these schools was 56 against 52 in 1897–98. Out of the 56 pupils examined 47 passed. The average net cost of educating each pupil was Rs. 3–10–3 against Rs. 3–9–4 in 1897–98. The increase being very insignificant calls for no remark.

(*c*) *Result Schools.*—There were seven of these schools against nine of the last year, one old school being amalgamated with another and one becoming an indigenous school. The total number of pupils at the close of the year was 342 against 381 of the last year. The decrease in the number of pupils is due to the transfer of one school to the list of indigenous schools as noticed above. The number of pupils presented for examination was 233 against 275, of whom 157 passed against 234. The Assistant Inspector of Schools remarked in statement IV-B relating to the results of the grant examination in these schools that the results deteriorated in the year in consequence partly of the deterioration in schools and partly of the examination having been conducted by an inexperienced officer. A sum of Rs. 372–6–0 was paid to the teachers as result grants during the year.

(*d*) *Inspection.*—A sum of Rs. 55 was spent under this item towards the inspection allowance of the headmaster of the Municipal Middle school for inspection of all the primary schools in the Municipality.

(*e*) *Miscellaneous.*—Rs. 120 were spent under this head towards the pay of the common gymnastic instructor.

(*f*) The number of boys of school-going age in the town was 1,273, of whom 586 were under instruction in schools.

The usual statements received from the Assistant Inspector of Schools are enclosed.

45. *Grant 3, Sanitation and Medical Services—Hospitals and Dispensaries.*—There was one dispensary maintained by the Council during the year. The number of out-patients treated in it was 9,561 against 8,121, while that of in-patients was 106 against 127 of the preceding year. The hospital assistant has explained the increase and decrease in the number of in and out patients in his report herewith submitted. Rs. 1,832 were spent for maintaining the dispensary against Rs. 2,093 of the previous year and Rs. 1,750 estimated in the revised estimate. The increase over the revised estimate is due to the payment of the value of European medicines supplied from Messrs. Burgoyne, Burbidges & Co., London, to the Municipal dispensary.

The midwife attached to the Municipal dispensary attended 232 labour cases during the year against 179 of last year.

46. *Vaccination.*—There is one second-class vaccinator on a pay of Rs. 10 per mensem. Vaccination has been compulsory in this Municipality for the last eight years. The total number of operations performed during the year was 808 against 905 of the previous year. The decrease in the number of operations is due to the decrease in the number of unprotected cases in the town as explained by the local medical officer in his report. Of the total number of vaccinations, 792 were successful and 16 unsuccessful. Eighty-eight persons were prosecuted for failure to get their children vaccinated against 101 of the last year. All the vaccine operations were performed by means of animal lymph supplied from the Local fund depot, Vizagapatam. The total cost of vaccination during the year was Rs. 151–0–10 against Rs. 153–7–0 of the previous year. The average cost of each successful case is As. 3–1 against As. 2–8 of the previous year. The increase in the cost is due to the decline in the number of operations during the year.

47. *Vital Statistics.*—The total number of births registered is 600 against 496 of 1897–98, of which 300 are males and 300 are females against 261 males and 235 females in the preceding year or 35·3 per thousand of population as per last census. The total number of deaths registered is 377 against 456 of last year, of which 191 are males and 186 are females against 266 males and 190 females of the previous year or 22·1 per thousand of population as per last census. No prosecutions were instituted for failure to register births and deaths. The following were the causes of deaths registered during the year: Fevers 115, dysentery and diarrhœa 49, accidents and injuries 7, and other causes 206.

48. *Sanitation—Conservancy.*—The total expenditure under this head during the year was Rs. 4,726–7–4 against Rs. 4,773–5–4 of the previous year and Rs. 4,760 sanctioned in the revised estimate. The decrease under the actuals of the previous year was chiefly due to the fact that the conservancy establishment was in last year paid a small rate of famine batta. The roads and streets were daily swept and kept clean. The sweeping remarks of the acting hospital assistant about the sanitary condition of the town are untenable as he had little or no experience of the town. He was in charge of the hospital only for *five days* in the year under report. His failure to bring in time the defects, if they really existed, to the notice of the Council was not satisfactorily explained by him when he was asked to do so. There were five fixed masonry and 116 moveable iron dust-bins. The town sweepings are daily carted outside the town to the depots of the sweepings contractor to whom the cart-stand sweepings and the town refuse were sold for Rs. 125 for the year. There were 28 public latrines at the close of the year against 27 of the previous year. There are seventeen conservancy carts at work during the year, of which five are hired carts for removal of town sweepings and the rest are iron hand-carts for night-soil.

49. *Conservancy—Other Charges.*—A sum of Rs. 615–3–10 was spent under this head against Rs. 559–3–11 of the preceding year and Rs. 600 allotted in the revised estimate. The increase over the actuals of the previous year was due to the payment in the year under report of arrear balances due to the contractors for supplying grass, &c., for the fodder of the municipal conservancy bullocks in 1897–98.

50. *Private Scavenging.*—The number of private latrines under the Municipal agency at the close of the year was 188 as compared with 147 of the last year. Efforts are being taken to increase the number still further. The total amount of scavenging fees collected during the year was Rs. 339–2–0, while the expenditure including the contingencies was Rs. 322–2–3. The small surplus under this head is due to the inclusion in the former amount of the fees collected for cleaning the cesspools of private individuals. The private scavenging system in this Municipality during the year was therefore self-supporting.

51. *Plague Charges.*—A sum of Rs. 384–11–1 was spent under this head against Rs. 201–3–3 of the preceding year and Rs. 440 estimated in the revised estimate. The increase over the actuals of the last year was due to the entertainment of a special hospital assistant on plague duty on a salary of Rs. 25 *plus* an allowance of Rs. 10 per mensem.

52. *Grant 4, Lighting.*—The town was lighted by 121 lamps as compared with 113 of the preceding year, eight new lamps having been put up during the year. The total expenditure incurred during the year was Rs. 401–5–7 against Rs. 461–6–8 of last year and Rs. 360 estimated in revised estimate. The decrease in the expenditure was due to the fluctuations in the prices of kerosine-oil, &c., purchased for the purpose, while the increase over the revised estimate was due to the purchase of eight new lanterns and wooden posts. The charges were as follows:—

	Rs.	A.	P.
(1) Establishment charges	143	14	0
(2) Contingencies	257	7	7

53. *Markets—Contingencies.*—A sum of Rs. 15–12–0 was spent under this head towards the rent of the fish-market.

54. *Avenues—Contingencies.*—A petty sum of Rs. 4–3–0 was expended under this head towards the contingent charges connected with the avenues planted in 1896–97.

55. *Survey of Lands.*—A sum of Rs. 65–11–0 was spent under this head in settlement of all dues to the Survey department. The proposal of the President of the District Board, Vizagapatam, to survey the lands in this Municipality for rearrangement of tolls was withdrawn by him and the survey operations were stopped as explained in paragraph 53 of the last year's administration report of this Municipality.

56. *Miscellaneous.—Other charges.*—Rs. 201–9–3 were spent under this head against Rs. 190 estimated in the revised estimate. They were composed of the following items:—

	Rs.	A.	P.
Printing charges	179	5	0
Tom-tom „	1	8	0
Wages of coolies employed in detecting the unlicensed carts in the town	4	2	0
Wages of coolies and watchmen and incidental expenses incurred indistraining the property of a defaulting tolls-renter	18	2	3

57. *Contributions to Provincial Funds.*—These were Rs. 138, being composed of the following items:—

	Rs.
Contribution to the Medical College	84
Sanitary inspection	42
Medical reserve staff	12

58. *Contribution to Local Boards.*—Rs. 15–9–0 were spent under this item on account of the contribution to the Taluk Board, Narsapatam, towards the proportionate cost of the reserve compounders in the District Surgeon's office.

59. *Supervision and Management.*—The total charges incurred under this head were Rs. 1,524–8–5 against Rs. 1,400 sanctioned in the revised estimate and Rupees 1,417–7–5 of the previous year. The increase is due to the cost of the Municipal account books and forms supplied from the Lawrence Asylum Press, Madras. The charges were—Rs. 106–4–7, inspection, Rs. 589–13–2, office establishment, Rupees 186–8–4, office contingencies, Rs. 287, collection establishment, Rs. 204–14–4, purchase of municipal account books and forms, and Rs. 150 contribution to the central office and audit establishments.

60. *Repayment of Debt.*—Rs. 373–6–0 were spent during the year towards the repayment of the loan of Rs. 3,000 made by Government to build the Municipal office and the interest thereon as detailed below :—

	RS.	A.	P.
On account of instalment paid during the year	258	3	0
On account of interest for the year under report	115	3	0

61. *Advances Recoverable.*—A sum of Rs. 10 was paid to the Municipal office manager as permanent advance for office contingent charges.

IV. CLOSING BALANCE.

62. The year closed with a balance of Rs. 315–14–11 as compared with Rupees 1,317–0–4 of the previous year and Rs 640 estimated in the revised estimate.

63. *Municipal Accounts.*—The accounts for the year under report were not audited.

64. *Concluding Remarks.*—In conclusion, I beg to explain the delay in the submission of this report as follows. The draft of this report, which was ready about a month ago, was placed to be read at the meeting of the Council, held on the 27th June 1899. By the time the report was taken up to be read some of the members then present were eager to dissolve the meeting owing to the late hour in that night and desired that the reading of the report might be deferred to some other day. Subsequent to this three meetings were summoned and in none of these there was a quorum. The delay in the preparation of this report was also due to the pressure of work in the months of May and June in the local Sub-Registrar's office over which I preside. Thus, on the whole, the delay in the submission of this report was unavoidable.

A copy of the Council's resolution adopting the report is herewith submitted.

ENCLOSURE.

CONCISE Annual Report of the Municipal Hospital at Anakápalle for the official year 1898–99.

Public Health.—The health of the people of Anakápalle was on the whole good. No cholera nor small-pox prevailed during the year.

2. *Vital Statistics.*—The total number of births registered was 600 and that of deaths 377 against 496 and 455, respectively, of the previous year. The number of deaths when compared with the number of births seems to be low. This is accounted for by the non-occurrence of any epidemic disease.

3. *Sanitation.*—The sanitary condition of the town of Anakápalle was not at all satisfactory. The public latrines, especially the one situated by the side of the road leading to the railway station, is always kept in a bad and stinking state. Many of the vacant grounds in the town have been converted into actual latrines, which are allowed to remain in the same filthy state. The drainage system is incomplete. Many of the street drains are built on faulty level; hence sewage impurities stagnate and bad effluvia pervades. This defect has been existing in the town for a long time and immediate attention is necessary. The private scavenging system worked satisfactorily during the year.

Water-supply was good and sufficient.

4. *Vaccination.*—Infantile vaccination was very satisfactory during the year. The number of infants under one year of age vaccinated according to the rules laid down was 403 against 498 of the previous year. This number is nearly equal to the number of births of last year, which shows that the vaccination was satisfactorily performed during the year. The total number of cases vaccinated was 808 against 905 in the previous year. The decrease is certainly due to the fact that year after year the number of persons unprotected in the town is being reduced. The number of re-vaccination cases was 51.

5. *Hospitals and Dispensaries*—(*a*) *Nature and sufficiency of accommodation.*—The main ward which accommodates eight male patients is sufficient. There is another separate ward for the accommodation of two female patients and is sufficient. It was recommended by the Head Assistant Collector of Narsipatam that the two rooms which are now in use as office and dispensary rooms are too small and inadequate for the purpose, and that they should be enlarged and an operation room should be provided.

(*b*) *State of Repair of Buildings.*—The buildings were in good repairs.

(*c*) *State of Repair of Furniture.*—The furniture in good condition.

(*d*) *Inspections.*—(1) *Steps taken to carry out the recommendations, if any, of the Surgeon-General with the Government of Madras.*—Nil.

(2) *Steps taken to carry out the recommendations, of other Inspecting officers.*—Nil.

(*e*) *Amount of recoveries from Patients who have been able to pay for their Diets and Medicines.*—Rs. 9–6–6 were recovered from patients for their medicines. No recoveries from patients for their diets as those who were able, provided for themselves their own diets.

(*f*) *Number of Patients treated as compared with previous years.*—One hundred and six in-patients and 9,561 out-patients were treated during the year under report against 127 and 8,121, respectively, during the previous year. The decrease in the number of in-patients is due to the fact that there was no famine during the year and the increase in the number of out-patients to the fact that ague, worms, ulcers, and skin diseases were prevalent to a greater extent.

(*g*) *Mortality particularly with reference to septic diseases acquired in hospitals.*—There were six deaths in the hospital, but none from septic diseases.

(*h*) *Operations and results.*—Three hundred and eighty-seven surgical operations were performed during the year, of which 12 were among in-patients and 365 among out-patients. Two cataract cases were operated by Lieutenant-Colonel A. H. Leapingwell during the year. All were successful.

(*i*) *Establishment whether sufficient and efficient.*—The establishment was sufficient and efficient.

(*j*) *Midwives—Work actually done.*—The municipal midwife conducted 232 labour cases during the year under report against 179 during the previous year. This shows that the midwife is working satisfactorily.

ANAKAPALLE,
30th April 1899.

(Signed) K. KRISHNA AIYANGAR,
Hospital Assistant in charge.

No. 992-E.

Forwarded.

VIZAGAPATAM,
8th May 1899.

(Signed) G. G. GIFFORD, Captain, I.M.S.,
Ag. Dist. Medical and Sanitary Officer.

No. P-Dis. 146.

Forwarded.

2. The roads are in fair order, but want seeing to in places.

3. The sanitation of the town is better than the hospital assistant in charge would lead one to expect. The drainage wants improvement, but the levels are difficult.

KASIMKOTA,
23rd July 1899.

(Signed) R. B. WOOD,
Ag. Head Assistant Collector.

Forwarded.

2. The administration of the Municipality was, on the whole, satisfactory.

28th July 1899.

(Signed) W. O. HORNE,
Collector.

ORDER—No. 1309 M., dated 9th September 1899.

The receipts and charges of the Anakápalle Municipality for 1898–99 are compared below with the budget and revised estimates for the year and the actuals of 1897–98 : —

—	Actuals, 1897-98.	Budget estimate, 1898-99.	Revised estimate, 1898-99.	Actuals, 1898-99.

Balance	1,317	810	640	293

2. The Municipal Council held nineteen meetings or one more than in the previous year and three others were adjourned for want of a quorum against five in that year. There was a decline in the average attendance of the members, which, however, continued to be fair in the case of non-officials, but was indifferent in the case of officials. The Collector will call the attention of the official members to G.O., No. 859 M., dated 10th April 1897.

3. *Receipts.*—(1) The demand under the tax on arts, as originally assessed by the Chairman, fell from Rs. 1,411 to Rs. 1,216, and, notwithstanding the remark in paragraph 3 (1) of G.O., No. 1468 M., dated 17th August 1898, as much as 17·6 per cent. of this sum was remitted by the Municipal Council on appeal. This is not satisfactory. For these reasons the number of persons assessed to the tax and the net current demand under this head fell from 420 and Rs. 1,240, respectively, to 341 and Rs. 1,002. As the average assessment per head taxed was only Rs. 2–15–0 against the general average of Rs. 3–13–9 for Municipalities in 1897–98, the registers of this tax should be thoroughly revised in the current year and the result of the revision should be reported to Government as soon as it is completed. The Government is not prepared to advise the Municipal Council in the matter of levying the tax on the native officials referred to in paragraph 10 of the Chairman's report. The Council should take the best legal advice available and act on its own responsibility. Owing to the enhancement of the rate of the tax on buildings from $6\frac{1}{4}$ to 7 per cent. of the annual rental, the net current demand under this head increased by Rs. 256. The demand under the tax on lands, however, remained unaltered. From the note to statement I it appears that the house-tax registers are now five years old. These should also be completely revised in the current year as required by section 66 (2) of the Act and the result of the revision should be reported to Government as soon as it is finished.

(2) The current collections under the taxes on buildings and lands improved, while those under the tax on arts declined. In all these cases, however, they continued to be on the whole good. The arrear realizations under these heads, though much better than in the previous year, were still poor. The Government trusts that no pains will be spared to adjust the outstanding balances as soon as possible.

(3) There was an increase under tolls and conservancy receipts, which is explained in paragraphs 13 and 19 of the Chairman's report.

(4) The number of houses served by the private scavenging agency rose from 147 to 189, and the fees levied almost covered the cost of the service. The Government trusts that the efforts made in this direction will be sustained until all the private latrines in the town have been brought under the control of the Municipal Council. An income of Rs. 27 was realized as in the previous year for cleaning some private cess-pools.

4. *Expenditure*—(1) *Public Works.*—The Municipal office building, which was under construction in the previous year, was completed at a cost of Rs. 2,895. The expenditure on communications amounted to Rs. 1,583 or 42·2 per cent. of the net municipal income from tolls, against the minimum of 50 per cent. prescribed by Government, but the short outlay is explained in paragraph 43 of the Chairman's report. The Head Assistant Collector reports that the roads are in fair order, but want seeing to in places. This should be attended to at once in the current year.

(2) *Education.*—The net expenditure under this head amounted to Rs. 1,154 or 10·8 per cent. of the receipts from taxation. Of this sum Rs. 857 were spent on primary, and the remainder on secondary, education. The Municipal Council continued to maintain one lower secondary school on the salary system and three primary schools on the salary-result system; but the number of primary schools aided with result grants was seven or two less than in the previous year. The attendance at the municipal schools, except the night school, improved, but that at the aided institutions declined. The results of the lower secondary, departmental and grant examinations continued to be fair, but 7 per cent. of the allotment for result grants was allowed

to lapse, and the total number of boys under instruction in the municipal and aided schools fell from 554 to 543 or 42·7 per cent. of the male population of school-going age against the general average of 61·8 per cent. for Municipalities in 1897–98.

(3) *Medical Relief.*—There was an increase in the number of out-patients treated at the municipal hospital, but that of in-patients fell from 127 to 106, and these variations are explained in paragraph 5 (*f*) of the Medical report. The midwife attached to the municipal hospital attended 232 cases of labour against 179 in the previous year—a satisfactory advance. The attention of the Municipal Council is drawn to the remarks in paragraph 5 (*a*) of the Medical report regarding the inadequacy of the hospital accommodation.

(4) *Vaccination and Vital Statistics.*—It is to be regretted that the total number of vaccinations performed during the year again fell from 905 to 808. This decline is attributed to the decrease in the number of unprotected persons in the town; but this explanation cannot be considered adequate as the number of children under one year successfully vaccinated was only 401 or 23·6 per mille of the population against a registered birth-rate of 35·3 per mille. The Municipal Council should devote its special attention to this subject in the current year.

There was an increase in the number of births registered during the year, but a decline in that of deaths, which is explained in paragraph 2 of the Medical reports. The returns in both cases, however, cannot be regarded as trustworthy, the rates recorded being much below the normal. Increased attention should be paid to the registration of vital statistics.

(5) *Sanitation.*—Nearly 8 per cent. of the allotment under this head was allowed to lapse, but the expenditure amounted to Rs. 4,726 or 31·6 per cent. of the current receipts. The Chairman's report furnishes hardly any information regarding the steps taken by the Municipal Council to improve the sanitary condition of the town; but paragraph 3 of the Head Assistant Collector's endorsement shows that it is still defective. The Government trusts that no pains will be spared to improve matters as funds become available.

5. *General Remarks.*—The year closed with a balance of Rs. 293 or only 2·0 per cent. of the current receipts.

Except as regards education, vaccination, registration of vital statistics and sanitation, which demand increased attention, the administration of the Municipality during the year under review continued to be fairly satisfactory.

2. The Municipal Council held nine-teen meetings or one more than in the previous year and three others were adjourned for want of a quorum against five in that year. There was a decline in the average attendance of the members which, however, continued to be fair in the case of non-officials but was indifferent in the case of officials. The Collector will call the attention of the official members to G.O. No. 859 M dated 10th April 1897.

3. Receipts (1) The demand under the tax on arts as originally assessed by the Chairman fell from Rs 1411 to Rs 1316 and notwithstanding the remark in para. 3 (1) of G.O. No. 1468 M dated 17th August 1898 as much as 17 .6 per cent of this sum was remitted by the Municipal Council on appeal. This is not satisfactory. For these reasons the number of persons assessed to the tax and the net current demand under this head fell from 420 and Rs 1,240 respectively to 341 and Rs 1002. As the average assessment per head taxed was only Rs 2-15-0 against the general average of Rs 3-13-9 for municipalities in 1897-98 the registers of this tax should be thoroughly revised in the current year and the result of the revision should be reported to Government as soon as it is completed. The Government is prepared to advise the Municipal Council in the matter of levying the tax on the native officials referred to in para.10 of

of the Chairman's report. The Council should take the best legal advice available and act on its own responsibility. Owing to the enhancement of the rate of the tax on buildings from 6 ¼ to 7 per cent of the annual rental the net current demand under this head increased by Rs 256. The demand ~~un~~ under the tax on lands, however, remained unaltered. From the note to statement I it appears that the house-tax registers are now five years old. These should also be completely revised in the current year as required by section 66 (2) of the Act and the result of the revision should be reported to Government as soon as it is finished.

Para. 8.

(2) The current collections under the taxes on buildings and lands improved while those under the tax on arts declined. In all these cases, however, they continued to be on the whole good. The arrear realizations under these heads, though much better than in the previous year, were still poor. The Government trusts that no pains will be spared to adjust the outstanding balances as soon as possible.

(3) There was an increase under tolls and conservancy receipts, which is explained in paras. 13 and 19 of the Chairman's report.

(4) The number of houses served by the private scavenging agency rose from 147 to 188 and the fees levied almost covered the cost of the service. The Government trusts that the efforts made in this direction will be sustained until all the private latrines in the town have been brought under the control of the Municipal Council. An income of Rs 27 was realized as in the previous year for cleaning some private cess-pools.

Para. 30.

4. Expenditure (1) Public Works. The municipal office building which was under construction in the previous year was completed at a cost of Rs 2,895

Para. 38 (a).

The expenditure on communications amounted to Rs 1583 or 42.2 per cent of the net Municipal income from tolls against the minimum of 50 per cent prescribed by Government, but the short outlay is explained in para 43 of the Chairman's report. The Head Assistant Collector reports that the roads are in fair order, but want seeing to in places. This should be attended to at once in the current year.

(2) Education. The net expenditure under this head amounted to Rs 1154 or 10.8 per cent of the receipts from taxation. Of this sum Rs 857 were spent on primary and the remainder on secondary education. The Municipal Council continued to maintain one lower secondary school on the salary system and three primary schools on the salary result system; but the number of primary schools aided with result grants was seven or two less than in the previous year. The attendance at the municipal schools except the night school improved but that at the aided institutions declined. The results of the lower secondary, departmental and grant examinations con

continued

2,196-Jan,99

continued to be fair, but seven per cent of the allotment for result grants was allowed to lapse and the total number of boys under instruction in the municipal and aided schools fell from 554 to 543or 42.7 per cent of the male population of schoo school-going age against the general average of 61.8 per cent for municipalities in 1897-98.

(3) Medical Relief. There was an increase in increase in the number of out-patients treated at the Municipal hospital, but that of in-patients fell from 127 to 106 and and these variations are explained in para 5 (f) of the Medical report. The midwife attached to the municipal hospital attended 232 cases of labour against 179 in the previous year - a satisfactory advance. The attention of the Municipal Council is drawn to the remarks in para. 5 (a) of the Medical report regarding the inadequacy of the hospital accommodation.

(4) Vaccination and Vital statistics. It is to be regretted that the total number of vaccinations performed during the year again fell from 905 to 808. This decline is attributed to the decrease in the number of unprotected persons in the town; but this explanation cannot be considered adequate, as the number of children under one year successfully vaccinated was only 401 or 23.6 per mille of the population against a registered birth rate of 35.3 per mille. The Municipal Council should devote its special attention to this subject in the current year.

Para 4 of medical report.

There was an increase in the number of births registered during the year, but a decline in that of deaths, which is explained in para. 2 of the Medical report. The returns in both cases, however, cannot be regarded as trustworthy, the rates recorded being much below the normal. Increased attention should be paid to the registration of vital statistics.

(5) Sanitation. Nearly eight per cent of the allotment under this head was allowed to lapse but the expenditure amounted to Rs 4726 or 31.6 per cent of the current receipts. The Chairman's report furnishes hardly any information regarding the steps taken by the Municipal Council to improve the sanitary condition of the town; but para. 3 of the Head Assistant Collector's endorsement shows that it is ~~not~~ still ~~free from~~ defective. The Government trusts that no pains will be spared ~~to remedy~~ to minimise them as funds become available.

5. General remarks. The year closed with a balance of Rs ~~516~~ 293 or only 2.0 per cent of the current receipts.

Except as regards education, vaccination, registration of vital statistics and sanitation which demand increased attention, the administration of the municipality during the year under review continued to be fairly satisfactory.
