[illegible] all orders relating to Hospts, [illegible] 2 of [illegible] file [illegible]

17/12

All the Progs. ~~are~~ relating to Hospt are put up. It is believed that the G.O. mentioned in para 2 of the Note is the July order for which requisition is submitted for signature.

NHS 19/12/98

1,000—4-10-98.

NOTE FOR THE G.O.

Two references from the Surgeon General (Cur nos: 2334 & 2335) relating to the question of granting the deputation allowance of Rs. 10 sanctioned in G.O. No. 1153 P of 23-9-98 to the Hospital Assts at Conjeeveram & Bellary are submitted for orders.

[L. & M. 400—26-3-98.]

NOTE FOR THE Plague Comr:

We are continually receiving indents from Hospet and Tungabhadra for stores and medicines on account of the inspection camps there. Two of these will be found in Curs: 2131 & 2285 submitted herewith. In Cur 2131, the Coll: of Bellary asks for sanction which the medical officer Hospet had purchased without sanction. In the other current, the S.G. forwards an indent from the same officer for drugs and other articles. Some of these are not even in the list of equipment prescribed for a ten bed hospital on pages 107-112 of the Madras Plague Regulations & Rules.

2. The hospitals attached to plague inspection stations are not the same everywhere their size must vary from time to time according to their situation with reference to infected areas, and consequently when the scale of equipment for

[illegible]

road frontier inspection stations was fixed, but none was prescribed for railway ~~frontier~~ inspection stations, and the matter was left for special representation by the Officers in Charge – vide Ruling 2, page 116 of the Madras Plague Regulations. The medical officer Hospet submitted a general indent some time ago and this was sanctioned in G.O. No

Since then, he has been making additions & incurring expenditure on his own authority, and the Collr has been obliged to apply subsequently for sanction. This state of things can hardly be allowed. It is suggested that the Sanitary Commr or the Surgeon General or both in consultation should prepare (1) a scale of minimum equipment for each Ry inspection station which must always be kept in reserve, & (2) a scale of additional stores which should be obtained when the number of patients go above the number provided for in (1). Both these lists should contain articles which are absolutely necessary & which will be issued to patients free. A supplemental store of articles which rich patients may like to have & for which they will have to pay may also be ordered to be kept. Once the lists are drawn up for each station & sanctd by the Plague Commr, the question of replacing articles spent in the ordinary course may be left to the Collector.

[illegible]

P.C. 785 of 20/3/99
49

17/1

Order:—No. 130, **Dated** 17-1-1899

The incidents forwarded in the letters read above are [illegible]

Para 2. The standard scale of equipment for each road inspection station is given in pp. 118-119 of the Madras Plague Regulations and Rules. As regards Augmented Inspection Stations, the matter has been left to be settled on a special representation by the officer in charge. In consequence of this ruling, the ~~[illegible]~~ medical officers in charge of Hospitals and Temporary Inspection Stations have been sending [illegible]

for

for Various articles from time to time, while no similar application have been received from the other Stations. ~~[illegible] para 2(c) of G.O. No 1424 Pub. 2 S.P. the S.C. is required to control all expenditure connected with plague operation~~ ~~and~~ It is ~~also~~ desirable necessary that a uniform procedure should be adopted as far as possible in all Districts. The S.C. accordingly requests ~~that~~ the S.G. & the S.C. to draw up in consultation with each other (1) a scale of minimum equipment for each railway inspection station which must always be kept in reserve at that station, and (2) a scale of additional quantities of stores which should be obtained whenever the number of patients in the hospital or the people under segregation exceeds the number for which provision is made in the minimum scale. Both these lists should contain only those articles which are absolutely necessary & which will have to be issued free. A supplemental list of such articles which it may be desirable to have at hand for the convenience of patients & others & for which they will be required to pay ~~them~~ may also be prepared. Once these lists are drawn up for each railway inspection station and approved by the S.C., the question of replacing articles spent in the ordinary course will be left for ~~the final orders of~~ the Collectors concerned.
