Sanitary Commissioner for Madras

To,

The Chairman,
Municipal Council, Bellary

Sir,

With reference to your letter N^o 11 of 20th January 1899, I have the honor to state, in your para 2, that I am certainly of opinion that a measure against plague your Council should appoint a Chief Sanitary Inspector. I respect that a Municipality of the size of Bellary should have such a subordinate at all times, with a view to securing uniformity in sanitary treatment of all parts of the town. So long as Sanitary Inspectors are detached in charge of scattered areas of the town, it is impossible to secure anything approaching system for the common good of the town, whilst the amount and outturn of work must vary with the individual peculiarities. Even granted that sense of honor and duty founded thereon, were in the majority of cases it must be ^{Better} to obtain a result according to a standard instead of an average. With a Chief Inspector to supervise the staff, this is possible, and

3
870/m/99

fact that Bellary is threatened with invasion
on three sides, I hold it is impossible to secure the
ade of work for its protection from ^{existing} Municipal

Now have in Mr Fairman a suitable
Sanitary Inspector for the work. To fulfil his duty,
sufficiently, considering the scattered condition of
it would be necessary for him to use more than
I therefore advise that double pony allowance
be given. In view of the increased responsibilities
work involved when compared to the charge of
it, I would also advise that his salary be raised
per mensem.

On your making this appointment, I
am a Certificated Sanitary Inspector on Rs 35
to take up Mr Fairman's former duty. The
expense per mensem for providing one extra
Sanitary Inspector and one Chief Sanitary
would therefore amount only to Rs 70 per mensem.

I have seen

To,

The Sanitary Commissioners
for Madras

Sir,

I have the honor to inform you
have entertained the following additional
establishment as suggested by you.

- 4 Passport checking officers
8. Toll gate guards
- 2 Toll gate supervisors (one has been ordered
to inspect Moka, Gooky and Herahal gates -
other the divisional Inspector of Cowl
to do in addition to his own work)

Twenty tickets were also sent
but 7 men have been already employed and
a reference is made on the Municipal Chair and
Tirupathi.

No mounted order is to be sent
for the Secretary and will be entertained shortly.

2. I request also that you will be
enough to inform me whether it is necessary
a Chief Sanitary Inspector on Rs 70+30 salary

at once in view of obtaining the sanction of
but for the same if necessary.

I have &c

SURGEON-LIEUT. COL. W. G. KING, M.B., C.M., D.P.H.,
SANITARY COMMISSIONER FOR MADRAS
CORRESPONDENCE 870 m

To

THE

Secretary to Government
Local & Municipal

Enclosures 4

SIR,

I have the honor to
herewith for the information
Government the accom-
ing correspondence
passed between myself and
Chairman, Municipal
Bellary, urging the
for appointing a Chief
Inspector for the town
measure against plague
In G.O. N° 4 m dated 14th Jan
3(2) Government approved
proposal that a Chief Sanitary
Inspector should be appointed
in Towns having a population
of and above 50,000. Therefore
I think be the slightest
that to attempt to move

Sanitary

my Staff as a mass of
by making each Sanitary
ector responsible for his
to the Secretary or
man, is erroneous. One
capable of devoting his
to time to the details of
itary methods should have
and of the staff, and be
own responsible to the
itary and Chairman not
for his own work but
of his subordinates. This
think, a principle that cannot
ided when dealing
a town of the importance
llary; but, when a town
class is threatened
plague, and actually
to the expense of enter-
ing a plague preventive
it, it seems to me most
hazardous economy to at-
tempt to do without this
a and most important
whet of the sanitary
who should be capable
securing that full benefit,
for

for money expended in
by exacting complete ob-
punctuality, and system-
methods employed. On
visit to Bellary, the
Commanding the Sta-
made special represen-
to me as to the aban-
faithful work in it
had a matter as me
and publick censured
and insisted that
present state of Bellary
a standing danger
health of the troops.
I am not of opinion
Bellary compares de-
unfavorably with our
municipalities in
sidency, I coincide with
in thinking there is
room for improvement
hold that the street-
ing of the menial
(scavengers) and the
ment of a Chief Sanitary
Inspector who should be
capable of supervising
whole establishment
best advantage, are

essential steps.

On the above grounds, I
Government will be
to require the Bellary
Principal Council to re-con-
sider its determination not
to appoint a Chief Sanitary
Officer at least until
the time as Government
is no longer class the
District as "under
sanitation", with reference
to the same.

I have the honor to be
Sir

Commissioners' letter to the
of the 17th March 1899 regarding

appointment of a Chief Sanitary
for Bellary, referred by the
to the Municipal Council for

I have the honor to state as follows

2. Now that plague may be con-
to have died out in the District
everywhere a reduction or a

Plague staff, is becoming feasible,
 it is of opinion that the question
 of appointing a Chief Sanitary Inspector
 is safely deferred as the financial
 needs of the Municipality needs the
 of every possible item of expenditure.
 The Council does not consider it necessary
 to decide the more general
 as to the necessity or otherwise
 of a Chief Sanitary Inspector as a part
 of a permanent sanitary staff of
 the Municipality. Nevertheless it may
 be out of place, to mention that
 the opinion of the Council, Bellary is
 a place to be amenable
 to daily supervision of a single
 person, the person of a Chief Sanitary Inspector
 as a result, they fear, will be, that this
 will not be able to do justice
 as is required of him. Secondly
 Bellary is expected in ordinary
 healthy

In the budget for
 the current year credit
 has been taken for a
 loan of Rs 12,000 for
 improvement of funds for
 plague charges and
 even in this case
 the closing balance
 amounts to Rs 2500
 or only 2.1 per cent
 of the ordinary receipts

healthy times to do the general
 over his Sanitary staff and what
 done by one man is being done
 and the appointment of an additional
 will, the Council thinks without making
 improving matters only slacken the
 responsibility of the Secretary, the
 of the Sanitary Commissioner
 population of 50000 or more
 controlling authority like a Chief
 Inspector may well apply to
 places or places more compact than
 but Benicetah, Bawl Bazaar and
 Cantonment of Bellary are so far
 from each other by distance and
 so much to be done in each of them
 that the only feasible way of working
 is dividing Sanitary officers and making
 the Sanitary officers responsible
 for his own section.

H. In conclusion the Council
 respectfully to state that
 is at present no necessity
