Through the Dy Collector of Trichinopoly.

SIR,

I have the honor to submit, for the sanction of the Government, two resolutions of the Council abolishing the post of Pwongor in the Municipal Hospital and sanctioning an increase of Rs 2 to the Special Clerk whose present pay is Rs 10 per mensem. The purchase and supply of diet articles required for daily consumption in the in-patient ward of the Hospital have now been arranged for on Contract System instead of purchasing by Pwongor as per recommendation of the District Surgeon, who is the president of Hospital Committee

LOCAL & MUNICIPAL DEPT.
CURRENT 21884.

SIR,

In returning the correspondence referred to me for remarks with your endorsement No. 701 dated 1st July 1899, I have the honor to state that on the representation of the Trichinopoly Municipality, the entertainment of a purveyor to Rs 30 per mensem was sanctioned for the Municipal Hospital in G.O. No. 1861 Dis. dated 22nd August 1883. and his pay was subsequently reduced to Rs 15.

2. The present District Medical and Sanitary Officer Trichinopoly states that he has introduced the contract system for the following reasons:-

"Since my arrival here seeing that the purveyor may obtain articles of medical comfort whenever required in a hurry from where he could and of questionable quality. I introduced the system of obtaining here in bulk. The articles therefore to be supplied by the purveyor were

were reduced to those of daily consumption of diet and a few contingencies. It was since found out by one of the Councillors that the rates charged for by the purveyor were too high and the passage and drayage excessive and the purveyor was suspended by the ^{then} Chairman. As I thought it was not possible to obtain the services of a perfectly honest man on Rs 15 and as the articles required for daily consumption were very few, they could ^{easily} be tendered for and the Contractor made to deliver the articles every day as required, by which the saving of the pay and the extras could be saved which could be otherwise utilized in improving the Hospital in the present crippled financial resources of the Municipality.

3. It has been the constant desire of Government that purchases should be made in the open market as it is often cheaper to buy daily supplies from the ordinary bazaar man than from a tenderer or contractor. vide para 10 of G.O. No. 1022, Public, dated 19th September 1896. To carry this out, Government is aware, the services of a purveyor is absolutely necessary. In a large Establishment like the Trichinopoly Municipality, the purveyor should be an intelligent and better paid official whose honesty should be guaranteed by a sufficient money deposit.

I enclose for the information

of Government copy of a Communication from Dr. Odara late District Medical and Sanitary officer Trichinopoly dated 8th July 1899 who concurs in my views. I cannot therefore approve of the removal of the purveyor from the Trichinopoly Municipal Hospital but must urge the necessity of his pay being increased to Rs 25 per mensem on his lodging a security of Rs 200 and trust that Government will approve of my proposal.

I have the honor to be,

Sir,

Your most obedient Servant,

C. S. S. S. S.

Surgeon General.

to the Surgeon
General with the Government of Madras
 No. _____, dated 8th July 1899.

In replying to your note of yesterday I should like to say that in my opinion there is nothing to recommend the system of providing articles of diet &c for hospitals by Contract, except it be a possible saving of time & trouble to the officer in charge. It stands to reason that a system of diet purchases must be cheaper than one by Contract and that the varying requirements of a large hospital must be better met by the former than by the latter arrangement.

In a large Establishment the purveyor should be an intelligent well paid official (whose honesty must be guaranteed by a sufficient money deposit.) & his purchases inspected daily by a responsible member of the Hospital staff is the resident medical officer or surgeon, while his accounts should be checked at frequent intervals by members of the Hospital Committee.
