SUBJECT.

Water supply scheme for
B. & C.

FOR ORDERS.

In its Proceedings
A. 165, dated 13th April 1899, disposed.
U. in G.O. No. 661 M. dated 11th May 1899.
Vide para. 11 of the Resolution. Sanitary Board suggested that before proceeding further with the scheme for the water supply of B. & C. submitted by the Sanitary Engineer, a double twin well, each twelve feet inside diameter, should be sunk at the site which might be chosen by the Local officers in consultation with Mr. Jones for the pump-house, and stated that from experiments made by Mr. Jones while he was building the railway bridges, it was thought that the twin well would give all the water that the town would require even with a considerable increase of population. In case the water

from this well ^{should be} found to be contaminated, the Sanitary Board pointed out, that the well would remain the pump well of the pump house in the Scheme prepared by the Sanitary Engineer, with slight improvements.

The Sanitary Engineer was thereupon requested to undertake without delay the sinking of the double ^{twin} well suggested to the Sanitary Board and to submit Estimate of the Cost of carrying out in view to the Municipal Council being instructed to place the necessary funds at his disposal - Vide go No 661 M. dated 11th May 1899.

2. In the first of the letters read above, the Sanitary Engineer estimated the Cost of sinking the well referred to at Rs 1035.5, and requested that the Municipal Council might be asked to supply him with funds directly so that he might proceed with the work at once, but ^{he} pointed out that the Council had no funds as the year was expected to close with balance of only Rs 2410.

3. The Municipal Council, to which a reference was made in the latter, states that it ~~proposes~~ will pay

U.

Civ. 1381 M.

in end. no 631 B.
13-6-99

3.

pay Rs 6000 at once from the Sources and provide the balance Rs 4355 in the revised Estimate the same early in January 1900 Rs 1000 from the allotment in new work buildings Rs 500 " " Repairs. Cont Rs 3000 " " Epidemic and Rs 1500 from the C

The Council however proposes to for the first three items in the revised Estimate for the year. The Chairman forwarding the Council's resolution states that he intends to prop

levy of a water and drainage 6 1/4 per Cent on the Annual value of all buildings and lands to provide funds for the construction of water works under the provisions of Act IV of 1884, as if Government approves of this under Section 50 of the Act requests that the Govt majority of the Cost, placing the sum of Rs 500000 Sanctioned

D. Go. no. 320 M. dated 24th 1896, at the disposal of Municipality.

The Head Assistant

misses the opinion that the whole
subject should be given up as being
inhabitable to a place like Bezwada
which is well supplied with water
in which can ill afford the money
costly experiments and states that
to him he is strongly supported
by the Superintending Engineer.
The Collector concurs in the opinion
expressed by the Head Assistant Collector
points out that the proposal of the
Municipal Council to surrender Rs 3000
in allotment under epidemic charges
advised, that the proposed transfer
of Rs 2500 of Rs 1000 and Rs 500 res-
pectively provided in the budget to
discharge obligations to the Government
to the District Board into which
the Council has entered, is open to
objection, that the allotment
of Rs 300 from the Closing balance,
will reduce the working balance
to Rs 2 1/4 per Cent of the receipts,
and that the Council's proposals to
insert the budget allotments for
the above referred to in the ex-
penditure of being able to provide for
the revised estimate are
impracticable, but show

vide para. 2 of his letter E.

This is not the case.
MA

Cap. W. M. Ellis

vide para. 5 of his letter.

had financing.
5. Before however discussing the
financial proposals the Council, it
seems to be desirable to take the opinion
of the Sanitary Board on the objections
raised by the Head Assistant Collector
and the Collector to the proposed
experiments.
6. The second letter read above is
a petition from the Residents of Bezwada
urging the necessity for a good water
supply for Bezwada.

Civ. 2070m

V.R.
9/9/99

M. Jones refers to the existing
supply (Flag 8) seems to make it quite
unnecessary to refer again to the Sanitary
Board as to the quality of the Bezwada water.
The discussion that has gone on for years
has settled that neither a thing
at Sanitary Board nor do it refer to
point to O. King whose opinion
is certain to be that the water of the
Town is quite unfit for consumption.
If the Sanitary Board is not to be respected,
it only remains to be considered
whether the Municipality are right in
their way of finding the necessary
money. The proposal appears open

MA, n. 9. 29.

Order No 1367 dated 18/9/99

The government agrees with the Council that the proposals of the Bezwada Municipal Council for meeting the charge in connection with the sinking of the twin well in that town should be sanctioned. The Council had better wait until they can definitely decide how much work can be set apart for the work in this year & what funds can be allotted in the budget for the next year. The work might then be begun in February or March 1900. The Government will await definite proposals for meeting the charge which should be submitted later in the year.

With enclosure

Sir,

In returning herewith your
endorsement No 631 of the 13th June
1899, I have the honor to inform
you that the Council in its reso-
-lution No 7 20.6.99 has arranged
to pay Rs 6,000 at once and to
provide the balance of Rs 4,855
in the revised budget paying
the same early in January 1900.

2. The following are the
details of the amount proposed
to be paid.

Grant I.
Rs 1,000 from new works line items
This is the amount provi

in the Budget for payment
of the 5th instalment of the
value of the Municipal office
and this will be provided
again in the revised budget
for 1899-1900.

Rs. 500 Grant I Communications
Repairs. This is the amount
provided in the Budget
for payment to the District
Board towards the road
over Ancient to be consti-
tuted during hot season.
This will be provided again
in the revised Budget.

Rs. 1,500 From the closing balance
vide G.O. No. 246 M.
of 21. 2. '99.

Rs. 3,000 From Grant III Conser-
vancy, Epidemic charges.

Rs. 1,000 for cholera and

Rs. 1,390 for plague are

provided in the Budget

As there is no necessity

for Rs. 5,390 on these

two items, Rs. 3,000 are

transferred to this item and if
necessary the same will be provi-
ded in the revised Budget.

3. In this connection, I beg
to submit that I wish to propose
the levy of water tax at $6\frac{1}{4}$ per-
cent (or 0-1-0 on each rupee)
on all buildings and lands
to provide funds for the cons-
truction of the water works.
under the proviso ^{to} Section
47 of Act II of 1884 as amended
by Act III of 1897. if the Govern-
ment approves of my action
under section 50 of the Act.

4. I further beg to request
that the Government will
be pleased to pay the moiety
of the cost placing at present
the sum of Rs. 50,000 sanctioned
in G.O. No. 320 M. of 24. Feb.

1896 at the disposal of the
municipality.

Have the honor to be
Sir,

Your most obedt servant,

S. Lingappa

Chairman M.C.

For order

No 1579 of 28/6/99

Forwarded to the

Collector with

enclosure

2. The undersigned is of
opinion that the whole
of the projects should be
given up as being
unavailable to a place
like Bangalore which is
well supplied with water
& which can ill afford
the money for costly
experiments. In this view
he is strongly supported by
the Dy. Superintending
Engineer.

S. Lingappa
Dy. Secy.

Madras 378
M 988

Forwarded

2. The Council proposes to allot Rs 3000 of the Rs 4390
provided for Epidemic Charges. This can ~~possibly~~
enough be spared, but it is so early in the year
that it is impossible to say with certainty whether
it really can be, and until Plague has
entirely disappeared from this Presidency and
the adjoining Native States, it would be rash
to surrender so much.

3. As regards the Rs 1500 to be allotted out of the
closing balance, the result will be to reduce the balance
to Rs 910, or about $2\frac{1}{4}$ per cent of the receipts, a
low figure. Otherwise I have nothing to say against
it.

4. But the other proposals are open to grave objection.
The sums of Rs 1000 and Rs 500 are provided to discharge
obligations to the Government and to the District Board
into which the Council has entered. What is proposed
is to devote this money to another object altogether
and to take the chance of there being windfalls
and savings later on, out of which to allot the
money necessary to discharge these obligations. If
the Budget was framed with any forethought, it is
most unlikely that there will be improvements to
anything like that extent in the Revenue and
the Expenditure of the year, and the proposal is
therefore very bad finance.

5. I concur with the opinion expressed by the
Head District Collector.

21st July 1899

LOCAL & MUNICIPAL DEPT.

The humble memorial of the residents of
Beyrabad

31 JUL 1885

Most respectfully sheweth.

That considering the necessity of pure
water for the town of Beyrabad, the humble

memorialists have represented the advisability
of having a water scheme on the gubernatorial
visits to this place.

2. That the benevolent Government there-
upon instructed the Sanitary Engineer
to investigate a scheme and plans and
estimates have been prepared at the
expense of 4 or 5 thousand Rupees from
the Municipal funds.

3. That the paternal Government has
also provided to pay Rs 50000 for the said
scheme.

4. That the Memorialists hear that some
of the officers are of opinion that Beyrabad
being a smaller Municipality requires
no water works.

5 That the memorialists beg to submit
that Beysada is sadly in need of water

which fact can be ascertained from

gentlemen who have stayed long in
the district such as the Honorable

A. J. Arandel Esq; H. C. ~~Arandel~~ ~~Arandel~~ Esq;

J. M. Atkinson Esq; L. M. Wynne

Esq; H. S. N. Oldfield Esq; H. J. E.

Spring Esq &c.

That in the conclusion the humble
memorialists most humbly crave your
excellency to expedite the work and
quench the thirst of 20000 people of
Beysada with liquid gold.

For which act of kindness
we as in duty bound shall ever and ever
pray for your prosperity and longevity

We beg to remain
