Passport Rules.

Prescribing the procedure to be followed in giving to the Mysore authorities intimation of the departure of persons to any place in that State within ten days of their arrival from an infected area.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—again the following papers:—

G.O., No. 1080 P., dated 15th September 1898.

ABSTRACT.—Passing orders on Salem Collector's reference regarding the issue of passports to certain classes of persons who constantly pass to and fro between Salem and Bangalore districts.

Proceedings of the Plague Commissioner, No. 193, dated 15th October 1898.

ABSTRACT.—Prescribing the procedure to be followed in recovering passports in the case of persons who change their residence within ten days of their arrival.

Proceedings of the Plague Commissioner, No. 635, dated 11th November 1898.

ABSTRACT.—Stating that the recovery of passports granted by British authorities to travellers returning to the Mysore State is unnecessary.

Proceedings of the Plague Commissioner, No. 127, dated 17th January 1899.

ABSTRACT.—Approving, as a special case, of the proposal of the Salem Collector to recover from travellers returning to Mysore B passports at the road frontier inspection stations.

Proceedings of the Plague Commissioner, No. 1183 P., dated 1st May 1899.

ABSTRACT.—Prescribing a form of intimation of change of residence of travellers within ten days, under Mufassal Regulation 17-iv and Plague Commissioner's Proceedings No. 193, dated 15th October 1898.

G.O., Mis. No. 1202 P., dated 7th August 1899.

Read—the following letter from ROBERT B. CLEGG, Esq., I.C.S., Collector and District Magistrate, Salem, to the Secretary to Government, Local and Municipal Department, dated 13th July 1899, Ref. No. 1145-P.C.

With reference to Regulation 17-iv of the Original Mufassal Regulations, as revised in G.O., No. 381 P., dated 11th March 1899, I have the honour to request instructions whether intimation of the departure of any traveller from an infected area to a railway station in the Mysore Province within ten days of his arrival should be telegraphed to the Assistant Surgeon on plague duty at Yeswantpur or to the Residency Surgeon, Bangalore, as the case may be. I raised this question in September 1898, and it was then ordered that as only a small part of the Bangalore City was infected and not the whole of the district, intimation should continue to be sent (G.O., No. 1080 P., dated 15th September 1898). Since then, however, plague spread to almost all parts of the Mysore Province and subsided. There is now a recrudescence

in the Bangalore City and in a number of villages in the Bangalore district and the disease still continues in the Mysore City and the Kolar Gold Fields, while outside the Mysore State there is very little plague within this Presidency, so that the probabilities of plague spreading from the Mysore Province to the British territory are greater than in the other way. Most of the people returning to the Mysore Province are those who come from the Mysore State itself, and there is no object in the Mysore authorities requiring that the intimation of the departure of such individuals should be telegraphed to them. Under the orders of the Plague Commissioner, Madras, no intimations are sent by the Chief Medical Officer, Jalarpet (Regulation 17 viii), of those going from infected areas direct to the Mysore State, *via* Jalarpet, nor are those returning through the frontier stations intimated (*vide* Plague Commissioner's Proceedings, No. 127/11, dated 17th January 1899). It seems therefore anomalous to require that intimation should be sent only in respect of those returning within ten days by rail.

2. Whilst on this subject, I may state that, under the existing orders, it is only from places where travellers from infected areas are watched in the Mysore State that original B passports can be recovered through them (*vide* Plague Commissioner's Proceedings, No. 193, dated 15th October 1898, and No. 635, dated 11th November 1898). We have no means of knowing exactly in what places in the Mysore Province they are watched and in what, not. As a rule no notice is taken of our passports by the Mysore authorities, and this has already been represented to Government; the practice of sending C passports and endeavours to recover B passports cause a good deal of trouble and waste of time. In fact, only a few passports are recovered every now and then from the Kolar Gold Fields. I suggest, therefore, that the passports of travellers returning to the Mysore State otherwise than through the frontier stations may also be recovered here by the local authorities at the time of their departure, or if this is not deemed desirable, at any rate that telegraphic intimation of the departure and the forwarding of C passports to the Mysore local authorities may be dispensed with. Our local authorities may communicate the fact of the departure to the Tahsildar to account for the traveller. I solicit orders.

Order—Mis. No. 1202 P., dated 7th August 1899.

The Resident in Mysore will be addressed.

(True Extract.)

(Signed) M. HAMMICK,
Ag. Secretary to Government.

To the Collector of Salem.

READ—also the following paper:—

From the Resident in Mysore, to the Secretary to the Government of Madras, Local and Municipal Department, dated Bangalore, 12th September 1899, No. 3065.

With reference to your letter No. 1202 P., dated the 7th August 1899, on the subject of discontinuing the giving of intimation of the movements of passengers to the authorities in Bangalore and the Mysore State, I have the honour to state that such intimation should, I consider, continue to be sent in respect of persons leaving non-infected districts in the Madras Presidency for Mysore, who have originally come from infected areas, and have not stayed long enough in a non-infected district for the danger of infection to have passed. But, in the case of persons leaving Madras districts declared to be infected, there is no need for such intimation to be sent, as all arrivals from infected areas are observed at Bangalore.

2. All arrivals booking from any station within the boundary of a district where plague exists are considered at Bangalore to be infected arrivals, and are served with observation notices. In consequence all arrivals from the Salem district are now treated as being infected.

No. 1395 P., 20TH SEPTEMBER 1899.

ORDER—No. 1395 P., dated 20th September 1899.

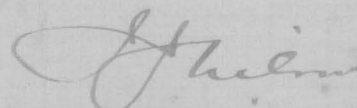

Communicated to the Collector of Salem and all other Collectors.

2. When a traveller from an infected place situated within or outside the Madras Presidency proceeds to any place in the Mysore Province either direct or after breaking his journey in any infected district in the Madras Presidency, no intimation need be given to the authorities in Bangalore or in the Mysore State.

3. When, however, a passenger from an infected place arrives in a non-infected district and then proceeds to Mysore before the expiry of the ten days' period of observation, intimation of his departure should be at once given to the authorities in Bangalore or Mysore. If the passenger travels by railway, the intimation should be addressed to the Assistant Surgeon, Yesvantpur, or the Residency Surgeon, Bangalore, as the case may be. If the passenger goes by road, the intimation should be sent to the local authority or the Amildar of the place of destination. In either case the passport given to the passenger may be recovered by the local authority of the place of departure or at the road frontier inspection station through which he may pass.

4. The instructions contained in Plague Commissioner's Proceedings, No. 1183, dated 1st May 1899, should be regarded as applicable within the Madras Presidency alone.

FROM

THE RESIDENT IN MYSORE.

To

The Secretary to the Govt. of Madras.
Local + Genl. Department.

Dated Bangalore, Sept: 1899.

SIR,

With reference to your letter

No: 1202 P dated the 7th August '99

on the subject of discontinuing the

giving of intimation of the move-

-ments of passengers to the

authorities in Bangalore and

the Mysore State, I have the honor

118
honor to state that such inti-
-mation should, I consider, con-
-sist to be given in respect
of persons leaving non-infected
districts in the Madras Presidency
for Mysore, who have originally
come from infected areas, and
have not stayed long enough in
a non-infected district for
the danger of infection to have
passed. But, in the case of
persons

persons leaving Madras districts
declared to be infected, there is
no need for such intimation
to be sent; as all arrivals
from infected areas are ob-
-served at Bangalore.

2. All arrivals booking
from any station within the
boundary of a district where
plague exists are considered
at

at Bangalore to be infected
arrivals, and are served with
observation notices. In consequence
all arrivals from the Salem
District are now treated as
being infected.

I have the honor to be,

Sirs,

Yours most obedient servant,

Hobbs

for Resident.
