Sir,

With reference to G.O.No.1039.P.Mis., dated 6th. July 1899, I have the honor to inform you that the 32 men now employed for Plague duty are not permanently attached to Plague hospitals, camps or to the Harbour, but are kept in Reserve. As necessity arises, they are sent in sufficient numbers to do duty at the above places, for the number of days their services may be required; hence, it is impossible to show them separately in the monthly statement.

I have the honor to be,

Sir,

Your most obedient servant,

A.P. Agar

Mr. I was apparently in error in thinking that all the extra police were at work in the Harbour. Perhaps ask the Comm. how to refer to the matter.

Ref on C. No. 2058 P. of 289
The Comm. of Police is requested to refer after consulting the President Mr. M. Comm. and the Port authorities whether any reduction can be made in the number of Police now specially employed for plague duty in the City - He is requested to submit submitting this report to show for June & July the roster of these men, showing on each day what duties the men were employed upon.

NOTE FOR THE Secretary.

In G.O. No 1039 P. of 6-7-25 in which the 'Statement Showing the Police Establishment on Plague duty in the Madras City in July 99' was recorded, the Commissioner of Police was requested to show separately in future the number of men employed at each plague hospital or camp and at the harbour. The Commissioner reports that it is not possible to do so as "the 32 men now employed for plague duty are not permanently attached to plague hospitals, camps or to the harbour, but are kept in reserve". He adds that the men are sent to the above places for duty for so long as may be necessary. The draft order of this Dept recording this letter was sent to Fin & Ins. for information. The Ins. Dept. has taken

NOTE FOR THE

The Services of the Special Police at the harbour for work connected with watching steamers would therefore be as necessary at present as they were during May. As regards their Services at plague camps and hospitals it is submitted that as the cold weather is approaching they might be required at any time on the occurrence of a plague case in the City.

This opportunity to enquire whether the strength of the Special Police force could not be reduced.

2. When the Commissioner of Police's letter of 14.4.88, applying for ~~sanction~~ the renewal of sanction of 100 for the continuance of the Special Police Force entertained for plague duty, was sent to this Dept for remarks the Secretary observed "These men must be sanctioned as long as Calcutta is infected. They are additional men who do nothing else but work connected with watching steamers from Calcutta. I don't think the Commr. can be called upon to find men for this work from his regular force."

To

The Secretary to Government,

Fort St. George,

Sir,

Adverting to your reference on Current No.2058.P, dated 10th.August 1899, I have the honor to report that the present strength of the special force for plague duty is 32 whereas from the roster for June and July 1899 herewith enclosed, it will be seen that the number of men employed for plague duty is 17 a day on an average, chiefly in the Harbour on quarantine work and the maximum 41 which is 9 in excess of the strength of the special force.

2----- As it is not known when plague may visit Madras or when we may have suspected cases to isolate in camps, I do not consider it advisable to reduce the number at present.

3----- The regular force is unable to supply any guards without seriously interfering with its regular duties, such as beat duty, regulation of traffic &c.

4----- The President, Municipal Commission, Madras, who has been consulted on the subject, is of opinion that it would be inadvisable to reduce the number of Police now employed on plague duty.

5----- The Presidency Port Officer whom I have also consulted, states that he is unable to suggest any method of reducing the number of Police on plague duty in the harbour and the number of men depends on the number of vessels in quarantine.
