by the desire of the Executive Engineer,

ment will be pleased to accord
its sanction to the utilization
of the western glacis of the Fort,
as also of a portion of the southern

plague camps and hospitals.

2. Originally I in consultation
with the District Medical and
Sanitary Officer, selected a site
in Viradampett, a hamlet about
two miles from Vellore and had
the huts there constructed - but
when indigenous cases of plague
broke

broke out in Vellore, the collector of the District, the Plague Commissioner, and the District Medical and Sanitary officer after inspecting several other sites in and about this town finally selected the portions of the glaci now applied for, and had the camps and hospitals there constructed.

3. I may however mention that the camps and hospital at Virudampitt still stand and will be utilized when cases in the neighbourhood occur.

4. Under the circumstances set forth above, I have the honor to request the early sanction of Government.
