Proceedings of the Plague Commissioner.

Read the following:-

Letter from the Sanitary Inspector on plague duty at Hindupur, No48, dated 9-12-98.

I respectfully beg to report that a Maharatta merchant aged about 30 years named Gyanathir, resident of Hindupur, was found by me to be attacked with plague this morning. By the time the Hospital Assistant came and examined he expired. Then I reported the matter to the Senior Assistant Surgeon and the Tahsildar. The body was buried in a selected place.

On enquiry I was informed by the father of the deceased that the Mahamadan boy who died on 7-12-98 was servant under the deceased. Both of them used to go to Bangalore very often by country cart on mercantile business. Their last trip to Bangalore was about 15 days ago. The two cases however seems indigenous. The mother of the Mahamadan boy was segregated yesterday by the Head Assistant Collector in the camp. The father and another female belonging to the deceased merchant refused to go to the camp. These are therefore segregated in the Toddy shop near sandy market. Just now received telegram from the Head Assistant Collector that they should be segregated in the camp or in the tent erected for the purpose. The Tahsildar is arranging for the same.

As I went to Kalluru yesterday I was not able to disinfect the Mahamadan boy's house. To day being sandy day coolies were not available. I shall disinfect the infected house tomorrow. I am also making enquiry if there are any other persons that were in contact with these. Police constables are posted to guard the infected houses and watch the segregated persons.

Endorsement.

I am also making enquiry if there are any other persons that were in contact with these. Police constables are posted to guard the infected houses and watch the segregated persons.

Endorsement.

Endorsement of the Collector of Anantapur, Ref. on C.
No. 1059, dated 12-12-98.

Copy forwarded to the Plague Commissioner, Madras, for
information. I came here on the 10th instant and inspected the
houses which lie in a lane in the centre of the town. Inmates have
been segregated in the Government camp and the two houses and toddy
shop are disinfected.

No. 952, dated 19th December 1898.

Recorded.

2. From the Sanitary Inspector's report it is not clear
how the cases arose. They appear to be imported, not indigenous.
