To
The Chairman and members
Municipal Council
Canaan

Gentlemen.

We, the undersigned ladies
of Canaan beg to draw the attention
of the Municipal Council to the very
unsatisfactory state in which the
beef and mutton market bazaar
in this town is kept. The place seems
to be in a most unsanitary state and
the quality of the mutton offered for
sale is simply disgraceful. We earnestly
beg that you will give this
matter your careful consideration
and take such steps as you may deem
necessary to remedy what seems to
us a very grave evil.

Yours faithfully,
Lucas, Gentlemen

(13) Read Collective petition from the
ladies of Cacauadu regarding the un-
satisfactory state in which the beef
and mutton market in this town
is kept.

As regards the location of
the beef and mutton stalls, the Council's
resolution dated 8th July last with

be carried out. It is resolved
unanimously that the build ings
near the Sheep Slaughter house
in Jagannakpore intended for
plague Camps be utilized for Slaughter
houses. The question of appointing
a Market Inspector will be considered
at the next budget. And in the mean
time the Certified Sanitary Inspector
will inspect the animals before
slaughtering them and see to their
wholesome condition.

Sir
In submitting copy of the
Council's resolution at its meeting
held on 16 September 1899, on the petition
of several English ladies of the town
(Copy enclosed) I beg to bring to your
notice that the present Sheep Slaughter
house is insufficient for the require-
ments of the town, and at times sheep
are being slaughtered on the adjoining
open ground. Further there is no Slaughter
house for Cattle, and the open ground
used for the purpose is close to habitations
of people of proverbially dirty habits
and the surroundings are most insan-
itary. To construct one that would
meet with sanitary requirements costs
much money which the Council cannot

in a position to provide

2. In the matter of expenditure on the equipment of plague camps, the town is only next to Mawar and pukka buildings were erected in the belief that they would be a saving in the long run. On the northern side of the town near the Railway Station, there is a pukka building consisting of one male patients' ward and one female patients' ward with cemented platforms and Mangalore tiled roofs and this building provides for 10 patients. There are besides 5 thatched out-houses 3 of which have cemented floorings. On the Jagannadhapore side of the town not far from the Sheep Slaughter house, there is a black of ground where two buildings are constructed for 12 patients, one to be used as male ward and the other as female ward in case of plague outbreak. The floors are well cemented and drains and cisterns are provided for the drainage. There are Mangalore tiled roofs and the buildings are well-ventilated halls.

3. As the advent of plague is a very uncertain and probably very remote thing, and as the accommodation on the northern side of the town is reasonably sufficient for

any contingency, and as there is ample space for additional buildings when necessary, the Council resolved to use the buildings near the Sheep Slaughter house for purposes of Slaughter houses. These being within small distance of each other, the officer concerned can conveniently inspect the animals and see ~~to~~ to their wholesome condition. This arrangement met with the approval of the local Civil Surgeon and the sanction of the Council consisting of the members. Rather than let the buildings dilapidate, these may be used to serve the present need, and ~~that~~ if Curtail plague expenditure to some extent. When Dr. Vickers came here on inspection tour I had a conversation with him, and he was agreeable to a proposal of the kind. I trust that the Council's resolution of aforesaid will meet with Government's approval, so as to enable me to give effect to it as soon as possible.

I have the honour to be
