ORDER—No. 1597 M., dated October 1899.

Having reviewed the administration reports of the several district municipalities for the year 1898–99 in the Proceedings read above, the Government will now consider them collectively.

2. There was some improvement in the punctuality with which these reports were submitted. But only four of them were received on or before the prescribed date, while three (from Madura, Cannanore, and Walajapet) were more than two months, and the one from Vizagapatam was upwards of three months late. If proper arrangements are made, there can be no difficulty whatever in submitting these reports so as to reach Government on the 1st of June. His Excellency the Governor in Council must therefore insist upon absolute punctuality in this respect in future. The statements submitted with the reports were, on the whole, prepared with greater care and accuracy than in the previous year; but there is still much room for improvement, especially in Cuddapah, Rajahmundry, Kurnool, Tellicherry, Vellore and Walajapet. All Chairmen of Municipal Councils are requested to give their earnest attention to this matter.

I.—CONSTITUTION OF MUNICIPAL COUNCILS.

3. As in the previous year, the number of municipalities administered under Act IV of 1884 was 58. The following statement shows the constitution of the several Municipal Councils on the 31st March 1899 as compared with the corresponding figures for the year 1897–98:—

Year.	Sanctioned strength.		Actual strength on the 31st March.				Total.		Grand total.	Europeans and Eurasians.	Natives.
			Officials.		Non-officials.						
	Nominated.	Elected.	Nominated including *ex-officio*.	Elected.	Nominated.	Elected.	Nominated.	Elected.			
1897–98	560	405	175	19	326	348	501	367	868	145	723
1898–99	463	502	177	20	301	352	478	372	850	147	703

The number of elective seats on the Tellicherry Municipal Council was, during the year under review, reduced from thirteen to nine and that on the Cuddalore Council from fifteen to seven, the Councils as they were then constituted having been found to be unequal to the administration of municipal affairs in an efficient manner. On the other hand the elective system of appointing councillors was extended to the 22 municipalities noted in the margin. There was thus a decrease of 97 in the sanctioned number of nominated councillors and a corresponding increase in that of the elected members. The actual strength of the Municipal Councils at the end of the year was 850 against 868 in 1897–98, and of this number 23·2 per cent. were officials against 22·4 per cent. Four Councils, namely those of Adóni, Srívilliputtúr, Tinnevelly and Srírangam, consisted entirely of native members as compared with seven in the previous year.

4. The elective system of appointing councillors was in force in the 36 municipalities shown in Appendix II against 34 in the previous year. The total population of these towns according to the census of 1891 is 1,341,000, and of this number 2·8 per cent. were qualified to vote at elections against 3 per cent. in 1897–98. One hundred and thirty-seven seats were filled by election during the year and 86 of these were contested, 61·2 per cent. of the registered number of voters attending the poll against 53·9 per cent. in the previous year. In the Municipalities of Chingleput and Tiruvannámalai the elective system was not introduced, while the remaining twenty towns to which the privilege was extended did not exercise it during the year under review. The population of these towns is 361,000.

5. During the year under review the right of electing the Chairman was withdrawn from the Municipal Council of Tellicherry in consequence of the unsatisfactory manner in which the administration had been conducted for some time past. There were thus 38 Municipal Councils which had this privilege at the close of the year as compared with 39 in the previous year. On the 31st March last [illegible] the 58 Chairmen were non-officials, being the same as on the corresponding date in 1898, as shown in the subjoined abstract :—

Year.	Number of Municipalities in which the Chairman was an official.			Number of Municipalities in which the Chairman was a non-official.			Number in which the office was vacant and the Revenue Divisional Officer was in temporary charge under section 15 of the Act.	Grand Total.

1897–98	8	7	15	5	26	31	12	58
1898–99	12	8	20	5	26	31	7	58

6. As in the previous year, the average sanctioned strength of the several Municipal Councils was seventeen and the average actual strength fifteen. The number of meetings held was 1,685 or 25 less than in 1897–98, while the number adjourned for want of a quorum was 159 as in that year. The average attendance of the members was 8·4 or 49·4 per cent. of the sanctioned strength against 8·8 or 51·8 per cent. of the strength in the previous year. There was a slight decline in the attendance of the non-official members, which was nevertheless fair; but that of officials was again indifferent.

II.—Receipts.

* This is Rs. 718 more than the closing balance of 1897–98, as shown in the accounts of that year, the difference being due to corrections made after audit.

There was again a decrease of Rs. 1,39,295 in the current receipts, owing chiefly to a fall under grants from Government, sale-proceeds of Government securities and loans, which was partly counterbalanced by an increase under the several taxes, miscellaneous and advances recovered. The variations under the several heads are noticed below.

A.—Receipts from Taxation.

8. *Tax on Buildings and Lands.*—During the year under review the rate of the tax on buildings and lands was raised from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. of their annual value in Berhampur, Salem, Tiruppattúr and Bimlipatam and from $6\frac{1}{4}$ to $7\frac{1}{2}$ per cent. in Srívilliputtúr. The rate of the tax on buildings was increased from $7\frac{1}{2}$ to $8\frac{1}{2}$ per cent. in Adóni and Walajapet, from $7\frac{1}{2}$ to 8 per cent. in Kurnool, from $6\frac{1}{2}$ to $7\frac{1}{2}$ per cent. in Bezwada, from 6 to $7\frac{1}{2}$ per cent. in Chicacole, and from $6\frac{1}{4}$ and 6 per cent., respectively, to 7 per cent. in Anakápalle and Parlákimedi, while in Chidambaram it was reduced from 8 to 7 per cent. In other respects the rates and methods of taxation remained practically unaltered.

9. There was no material change in the principles on which the valuation of rental for the purpose of house and land tax assessments was made in the several Municipalities; but the house-tax registers were revised during the year in fourteen towns and the land-tax registers in eighteen. The registers of these taxes cannot, however, be yet regarded as complete in all towns, and the Municipal Councils concerned have been directed to bring the assessments into accord with those obtaining in the other Municipalities.

10. Appendix III shows the demand, collection and balance of the tax on buildings and lands in each Municipality and the subjoined abstract compares the totals for all Municipalities with the figures for the previous year :—

* This is Rs. 5,571 more than the balance shown as outstanding on the 31st March 1898 owing to corrections made after audit.
† Excludes penalties, Rs. 204.

The net current demand of this tax exceeded that of the previous year by Rs. 48,153. The increase was spread over fifty Municipalities, the largest increase occurring in Kumbakónam and Calicut where the registers were revised, in Salem where the rate of the tax was raised from 7½ to 8½ per cent., and in Ootacamund where it was only nominal, being due to the fact that the demand for the previous year did not include the assessments of the land-tax. In Cuddapah the demand was practically the same as in 1897–98, while in the remaining seven towns there was a decrease which, however, was very small. The remissions granted by the Municipal Councils on appeal amounted to Rs. 1,466 against Rs. 1,033 in the previous year. There was a slight improvement in the current collections, which amounted to 88·7 per cent. of the demand against 87·6 per cent. in 1897–98; but the percentage of the arrear collections, viz., 62·3, remained almost stationary. The whole or nearly the whole of the current demand was realized in Bezwada, Periyakulam, Tiruppattúr, Tinnevelly and Tuticorin, while in 32 other towns the collections exceeded 90 per cent. of the demand. The percentage of current collections to the demand was, however, low in Dindigul (66·9), Gudiyáttam (42·1) and Vizagapatam (21·3), and the arrear realizations were extremely poor in Berhampur (31·1 per cent.), Ootacamund (22·1) and Vizianagram (14·1). In Ootacamund the short collections were mainly due to the fact that the whole of the land-tax for the previous year also had to be collected during the year under review and to a doubt as to the liability of Government forest lands to the municipal tax, while in Vizianagram they were caused by a considerable portion of the balance having been written off as irrecoverable. The reasons assigned for the poor collections in the other cases were generally unsatisfactory and the Councils concerned have been directed to take vigorous steps to adjust all outstandings in the current year. A sum of Rs. 17,623 was remitted and written off as irrecoverable against Rs. 13,947 in 1897–98. The balance at the close of the year amounted to Rs. 1,17,483 or Rs. 558 less than at its commencement and the outstandings in Bellary, Madura, Calicut, Ootacamund and Vizagapatam were very large.

11. The incidence of the tax on buildings in the several Municipalities is shown in Appendix IV. The average was Rs. 2-7-7 against Rs. 2-6-0 in 1897–98. As usual the incidence was heaviest in the hill stations of Coonoor (Rs. 21–7–7) and Ootacamund (Rs. 14–2–11), and lowest in Tiruvannámalai (As. 14–4). In the remaining 55 towns it varied from Rs. 5–14–11 in Vizagapatam to As. 14–11 in Srívilliputtúr, being more than Rs. 3–8–0 in Cocanada (Rs. 5–3–11), Bimlipatam (Rs. 4–15–4), Cochin (Rs. 4–3–8), Cuddapah (Rs. 3–15–0) and Bezwada (Rs. 3–14–4) and less than Rs. 1–8–0 in Ongole (Rs. 1–7–4), Palni (Rs. 1–6–8), Periyakulam (Rs. 1–4–11), Gudiyáttam (Rs. 1–4–4) and Vellore (Rs. 1–3–1). The low incidence of this tax has been commented upon in the reviews of the individual reports and the Municipal Councils concerned have been directed to take steps to revise the assessments in the current year.

The extent of the land taxed in Calicut, Mangalore and Vizagapatam is not known. In the remaining 55 towns 62,591 acres of land were assessed at Rs. 81,661, which gives an average of Rs. 1–4–10 per acre against Rs. 1–0–10 in the previous year. Excluding Cochin where the incidence (Rs. 96–13–3) was abnormally heavy owing to special causes, the average assessment was highest in Guntúr (Rs. 11–14–4) and lowest in Tirupati (As. 3–3).

12. *Water and Drainage Tax on Buildings and Lands.*—The demand, collection and balance of this tax are shown in Appendix IV-A. During the year under review the rate of this tax was raised from 4 to 4½ per cent. of the annual value in Adóni and from 4 to 6 per cent. in Tanjore. The total net demand of the tax was Rupees 1,56,862 (Rs. 1,24,558 current and Rs. 32,304 arrears) against Rs. 1,28,327 in 1897–98. The collections improved slightly, the percentage of current collections to demand being 81·0 and that of arrear collections 67·7 against 77·9 and 64·5, respectively, in the previous year. The current collections were good in Kurnool (97·1 per cent.), but were indifferent in Dindigul (68·1) and bad in Vizagapatam (24·5), while the realization of arrears was very poor in Ootacamund (25·3). A sum of Rs. 2,351 was remitted and written off as irrecoverable, leaving a balance of Rupees 31,707, of which Rs. 14,794 were outstanding in Vizagapatam, Rs. 3,835 in Tanjore and Rs. 3,724 in Ootacamund. The Councils concerned have been directed to adjust the balances without delay.

13. *Tax on Arts.*—As in the previous year, this tax was levied in all the Municipalities except Karúr and Palni, where it has not yet been imposed. In all these towns the tax was levied on all classes of the schedule.

14. Appendix V shows the demand, collection and balance of the tax on arts in each Municipality and the totals for all Municipalities are compared in the following abstract with the figures for the previous year :—

Year.	Demand as originally assessed by the Chairman.		Remitted by the Council on appeal.		Demand as finally settled.		Collected.		Remitted and written off as irrecoverable.		Balance.		Percentage of collections to demand

* This is Rs. 425 more than the balance shown as outstanding at the close of 1897–98, the difference being due to corrections made after audit.
† Excludes penalties, Rs. 332.

The net current demand of this tax was Rs. 1,98,174 or Rs. 3,070 less than that of the previous year. The decrease occurred in 31 towns; but it was marked only in Kumbakónam (Rs. 1,882), Madura (Rs. 1,862), Tanjore (Rs. 1,507), and Vellore (Rs. 1,168), being due mostly to the assessment of the tax on incomes instead of on trades in accordance with the revised Schedule A annexed to the District Municipalities Act; and it was nearly counterbalanced by increases in the remaining 27 towns, which, however, were large in Trichinopoly (Rs. 2,233), Bezwada (Rs. 2,140) and Mangalore (Rs. 1,017). The remissions granted by Municipal Councils on appeal amounted to 6·2 per cent. of the demand against 8·6 per cent. in 1897–98; but they were very heavy in Vellore (34·6 per cent.), Anakápalle (17·6) and Wálajapet (17·1). The current collections, which amounted to 90·0 per cent. of the demand against 86·0 per cent. in the previous year, were good; but the arrear realizations amounting to 41·4 per cent. against 37·8 per cent. were still far from satisfactory. In Bezwada, Kurnool, Tiruppattúr, Vániyambádi, Palamcottah and Tinnevelly the whole or nearly the whole of the current demand was realized. In 28 other towns the collections amounting to more than 90 per cent. of the demand were good; but they were

indifferent in Srírangam (60·5 per cent.), Gudiyáttam (58 0) and Wálajapet (56·1). The proportion of arrears realized was very poor in Bellary and Vizianagram (17·8 per cent.), Tirupati (16·1), Tellicherry (15·9), Masulipatam (15·4), Walajapet (13·5) and Anakápalle (11·4) and the unadjusted balances in Madura, Calicut, Bellary and Vizagapatam were very heavy. The total amount remitted and written off as irrecoverable was Rs. 15,891 against Rs. 16,081 in the previous year. It may be noted that the demand as finally settled under this tax was Rs. 2,60,968 in 1895–96 and Rs. 2,73,380 in 1896–97. It fell to two lakhs in 1897–98 and was Rs. 1,98,174 in the year under report. The result of the revision of the schedule by the legislation of 1897 has thus been a fall of about 27·0 per cent. in the amount of the demand under this tax. Propably with more careful assessment some portion of this fall will be recovered in the future. The great difference in the rate of incidence in different towns seems to show that the assessments are not made with proper carein some towns.

15. The incidence of the tax on arts in the several Municipalities is shown in Appendix VI. The total number of persons assessed was 49,798 or 3·0 per cent. of the population of the towns concerned against 52,133 or 3·1 per cent. in the previous year, while the average incidence was Rs. 3–15–8 against Rs. 3–13–9. The incidence was high in Bimlipatam (Rs. 8–2–10), Cochin (Rs. 8–2–0), Cocanada (Rs. 7–9–4) and Tuticorin (Rs. 7–1–3), but it was low in Rajahmundry (Rs. 2–3–10), Calicut (Rs. 2–0–7), Chidambaram (Rs. 1–15–8) and Kumbakónam (Rs 1–12–4). There is, however, no apparent reason why the incidence in the last four towns should be so much below the general average, and the Municipal Councils concerned should bring the assessments on a level with those obtaining in the other towns.

16. *Taxes on Vehicles with springs, Animals and Carts.*—These taxes were again levied in all the Municipalities except Palghat, where the tax on animals has not yet been introduced. The receipts under these heads amounted to Rs. 1,75,231 against Rs. 1,68,525 in the previous year, and the Government trusts that further efforts will be made to develop this income.

17. *Tax on Servants.*—As in the previous year, this tax was levied in the hill Municipalities of Ootacamund and Coonoor at the rate of Re. 1 per mensem for each male servant. The revenue derived from this source amounted to Rs. 2,447 against Rs. 561 in 1897–98, the increase appearing in both these towns and being due in the case of Ootacamund to the levy of the tax for the whole year instead of only for eight months as in the previous year and in that of Coonoor to the arrival of the Gaekwar's retinue.

18. *Coercive Processes.*—The extent to which coercive measures were adopted for the collection of the taxes in the several Municipalities is shown in Appendix VII and the subjoined abstract compares the total figures for 1898–99 with those for the previous year:—

Year.		Number of warrants remaining unexecuted at the beginning of the year.	Number of warrants issued during the year.	Total.	Number of warrants adjusted during the year.	Number of warrants remaining unexecuted at the close of the year.
Tax on buildings and lands ..	1897-98	25,033	73,098	98,131	74,539	23,794

	1898-99	† 7,359	15,301	22,660	17,005	5,655

* This is 202 more than the figure shown as outstanding at the close of 1897–98 which was incorrect.
† Do. 104 less do. do. do. do.

The total number of warrants issued during the year was 73,468 or 19·9 per cent. less than in 1897–98—a satisfactory decline. Including the unexecuted warrants of the previous year, the total number for disposal was 104,621, of which 78,424 were executed or cancelled within the year, leaving 26,197 unadjusted at its close. The largest number of warrants was issued in Trichinopoly (6,002). In Bellary, Madura,

Calicut, Cannanore, Tellicherry and Mangalore also coercive measures were freely adopted; but the number of warrants issued in Anantapur, Chicacole, Parlákimedi, Bezwada, Coonoor, Mannárgudi and Bimlipatam was very small. More than 50 per cent. of the total number of warrants for disposal in Bellary and about 41 per cent. of that in Calicut remained unexecuted at the close of the year. The total amount covered by all the warrants was Rs. 1,75,671, and of this Rs. 1,18,875 were realized. Property was sold in 624 cases against 519 in the previous year, the sale-proceeds amounting to Rs. 1,231 against Rs. 1,379. The number of prosecutions instituted for failure to pay the taxes was 3,781, the largest number being in Calicut (1,035), Cannanore (491) and Salem (487).

19. *Tolls.*—Appendix VIII shows the statistics relating to tolls. As in the previous year, tolls were levied in 55 Municipalities. Fifty-one of these had toll-gates of their own, while the remaining four (Palamcottah, Tinnevelly, Srírangam and Trichinopoly) received, as usual, a share of the receipts from the gates managed by the District Boards. In Anantapur, Chicacole, Ellore, Kurnool, Gudiyáttam, Salem, Kumbakónam, Bimlipatam and Vizianagram, the tolls were collected departmentally, while in the other Municipalities they were leased out to contractors. The rate of tolls was raised from one-half to three-fourths in Periyakulam, from one-half to the maximum in Tiruppattúr, and from three-fourths to the maximum in Berhampur, Salem and Tanjore. The number of municipal toll-gates was 352 or 2 more than in the previous year and the gross collections amounted to Rs. 4,70,955 against Rs. 4,57,609. Of this sum, Rs. 1,29,148 were paid to District Boards, while the contributions received from those bodies amounted to Rs. 25,433. Thus the total receipts credited to Municipal funds under this head were Rs. 3,67,240 against Rs. 3,58,951 in 1897–98, the increase appearing chiefly in Madura where there was keen competition at the auction sale of the farm, in Ellore where the collection of tolls was managed departmentally and in Tiruppattúr and Tanjore where the rate of tolls was increased during the year.

20. *Incidence of Taxation.*—The general incidence of municipal taxation per head of the population was As. 15–4 including tolls and As. 11–11 excluding them against As. 14–4 and As. 11, respectively, in the previous year. Details of the incidence in the several Municipalities are given in Appendix IX.

B.—Miscellaneous Receipts.

21. The miscellaneous receipts amounted to Rs. 11,47,631 against Rs. 13,94,041 in the previous year, a decrease which appears chiefly under grants from Government, sale-proceeds of Government securities and loans being partly counterbalanced by an increase under recoveries for services rendered to private individuals, miscellaneous and advances recovered.

22. *Conservancy Receipts.*—These amounted to Rs. 31,580 against Rs. 26,281 in 1897–98. They were largest in Madura (Rs. 5,010), Trichinopoly (Rs. 3,929), Cuddalore (Rs. 2,209), Conjeeveram (Rs. 2,205) and Nellore (Rs. 2,014), but next to nothing in Parlákimedi, Cocanada, Tellicherry and Tiruvannámalai, while in Erode, Cochin and Coonoor no income whatever was derived from this source, owing in the case of the first to the sweepings not having been sold within the year and in that of the two last to want of demand for them. The desirability of converting these into a fruitful source of revenue has again been impressed on the Municipal Councils in the individual reviews.

23. *Fees and Revenue from Educational Institutions.*—The total income under this head was Rs. 1,20,531 against Rs. 1,16,256 in the previous year, the increase which appears mainly in Palghat, Salem and Máyavaram being due to improvement in the attendance at the Municipal schools and colleges.

24. *Fees and Revenue from Markets and Slaughter-houses.*—The receipts under this head amounted to Rs. 1,90,660 against Rs. 1,89,455 in the previous year. Of this, Rs. 1,42,104 appertained to markets and Rs. 47,336 to slaughter-houses, the balance, viz., Rs. 1,220, representing the income derived from the joint lease of the market and slaughter-houses in Palamcottah. The only Municipalities in which there were no public markets were Berhampur, Ellore, Chingleput, Cannanore, Tiruvannámalai,

indifferent in Srírangam (60·5 per cent.), Gudiyáttam (58 0) and Wálajapet (56·1). The proportion of arrears realized was very poor in Bellary and Vizianagram (17·8 per cent.), Tirupati (16·1), Tellicherry (15·9), Masulipatam (15·4), Walajapet (13·5) and Anakápalle (11·4) and the unadjusted balances in Madura, Calicut, Bellary and Vizagapatam were very heavy. The total amount remitted and written off as irrecoverable was Rs. 15,891 against Rs. 16,081 in the previous year. It may be noted that the demand as finally settled under this tax was Rs. 2,60,968 in 1895–96 and Rs. 2,73,380 in 1896–97. It fell to two lakhs in 1897–98 and was Rs. 1,98,174 in the year under report. The result of the revision of the schedule by the legislation of 1897 has thus been a fall of about 27·0 per cent. in the amount of the demand under this tax. Probably with more careful assessment some portion of this fall will be recovered in the future. The great difference in the rate of incidence in different towns seems to show that the assessments are not made with proper carein some towns.

15. The incidence of the tax on arts in the several Municipalities is shown in Appendix VI. There is, however, no apparent reason why the incidence in the last four towns should be so much below the general average, and the Municipal Councils concerned should bring the assessments on a level with those obtaining in the other towns.

B.—Miscellaneous Receipts.

21. The miscellaneous receipts amounted to Rs. 11,47,631 against Rs. 13,94,041 in the previous year, a decrease which appears chiefly under grants from Government, sale-proceeds of Government securities and loans being partly counterbalanced by an increase under recoveries for services rendered to private individuals, miscellaneous and advances recovered.

24. *Fees and Revenue from Markets and Slaughter-houses.*—The receipts under this head amounted to Rs. 1,90,660 against Rs. 1,89,455 in the previous year. Of this, Rs. 1,42,104 appertained to markets and Rs. 47,336 to slaughter-houses, the balance, viz., Rs. 1,220, representing the income derived from the joint lease of the market and slaughter-houses in Palamcottah. The only Municipalities in which there were no public markets were Berhampur, Ellore, Chingleput, Cannanore, Tiruvannámalai,

Srívilliputtúr, Tuticorin, Bimlipatam and Vizianagram. But in the first two of these towns the construction of such markets was either in progress or in contemplation, while in most of the other towns there were suitable private markets. As in the previous year, there were 107 Municipal markets, the largest number being in Srírangam (8), Trichinopoly (8), Madura (6) and Cochin (6). In fourteen of them the collection of fees was managed departmentally, while in the others it was leased out to contractors. The largest income was realized in Trichinopoly (Rs. 21,982), Coonoor (Rs. 10,500), Ootacamund (Rs. 9,112), Vellore (Rs. 8,984) and Madura (Rs. 8,821), and the smallest in Srírangam (Rs. 295), Anantapur (Rs. 279), Ongole (Rs. 210) and Bellary (Rs. 184). Excluding the expenditure of Rs. 16,803 incurred on these institutions on account of public works and establishment, the net receipts under this head in all the Municipalities except Palamcottah amounted to Rs. 1,25,301 as compared with Rs. 1,16,481 in the previous year.

25. *License Fees.*—Under this head an income of Rs. 39,335 was derived against Rs. 35,323 in 1897–98. It exceeded Rs. 1,500 in Madura (Rs. 2,337), Ootacamund (Rs. 2,093), Calicut (Rs. 1,841), Guntúr (Rs. 1,833), Bellary (Rs. 1,763), Negapatam (Rs. 1,659), Cocanada (Rs. 1,575) and Trichinopoly (Rs. 1,557), but was below Rs. 150 in Anantapur (Rs. 141), Parlákimedi (Rs. 140), Berhampur (Rs. 134), Tiruvannámalai (Rs. 109), Walajapet (Rs. 103), Bimlipatam (Rs. 95), Anakápalle (Rs. 81), Cochin (Rs. 78), Tirupati (Rs. 72) and Gudiyáttam (Rs. 68).

26. *Fines under Municipal and other Acts.*—The receipts under this head amounted to Rs. 40,518 against Rs. 32,768 in the previous year. They were more than Rs. 3,000 in Madura (Rs. 4,775), Kumbakónam (Rs. 3,605) and Bellary (Rs. 3,219), but were less than Rs. 100 in Vizagapatam (Rs. 95), Vizianagram (Rs. 94), Dindigul (Rs. 90) and Parlákimedi (Rs. 80).

27. *Grants and Contributions.*—The total amount of grants received from Provincial funds was Rs. 1,21,286 against Rs. 2,86,403 in the previous year. A grant of Rs. 52,110 was paid by Government to the Municipal Council of Cocanada in aid of its water-supply scheme and one of Rs. 2,400 to the Municipal Council of Ootacamund towards the cost of the diversion of the Westbury and Sigur road. The contributions received from Local Funds amounted to Rs. 99,849 and from other sources to Rs. 25,774 against Rs. 98,527 and Rs. 32,905, respectively, in 1897–98.

28. *Recoveries for Services rendered to Private Individuals.*—The income under this head was Rs. 1,17,021 against Rs. 1,02,603 in 1897–98. Of this, Rs. 92,925 represent the fees recovered for the private scavenging service and the remainder those for other services. The private scavenging system was again in force in all the Municipalities and there was a further increase in the number of houses served by Municipal agency, which was 51,532 against 46,957 in the previous year and 43,666 in 1896–97. It was more than 2,000 in Trichinopoly (4,997), Negapatam (2,611), Palamcottah (2,527) and Mangalore (2,391), but was less than 150 in Anantapur (147), Parlákimedi (124) and Tiruvannámalai (100). This service is, however, capable of considerable extension, as the number of houses served by Municipal agency was only 18·2 per cent. of the total number assessed to the tax on buildings. The particular attention of Municipal Councils has been invited to this matter and to the necessity of conducting a systematic inspection of the private latrines and backyards and prosecuting the owners of such of them as are in an insanitary condition. The total amount of fees due for this service was Rs. 1,06,539; but of this, only Rs. 92,925 or 87·2 per cent. were collected within the year. Special stress has again been laid in the individual reviews on the necessity of collecting these fees in advance. It is, however, satisfactory to observe that the total expenditure on this account (Rs. 85,893) was more than covered by the receipts. The service was self-supporting in forty Municipalities against 31 in the previous year and the Government has directed that the surplus receipts under this head, if any, should be spent on its improvement or that the rate of fees should be reduced, as the service is not intended to be a source of revenue to Municipalities. In the remaining eighteen towns, the service was worked at a loss to the Municipal Councils which was heaviest in Rajahmundry (Rs. 1,641), Masulipatam (Rs. 1,171), Cannanore (Rs. 1,009) and Vellore (Rs. 862). The attention of these Councils has been drawn in the individual reviews to the desirability of making the service self-supporting.

III.—EXPENDITURE.

29. The following abstract shows the expenditure under the several heads as compared with the actuals of the previous year and the budget estimate for the year under review :—

Total including balance		40,06,743		32,86,568		34,41,670

The total charges amounted to Rs. 26,15,049 or Rs. 8,87,656 less than those of the previous year, a decrease which appears chiefly under Grants 1 and 4, and advances being partly counterbalanced by an increase under Grant 3.

Grant 1.—Public Works.

30. The outlay on public works was Rs. 5,95,028 against the budget estimate of Rs. 11,34,300 and the actuals of Rs. 10,41,099 in 1897–98. It amounted to 21·4 per cent. of the year's receipts and 22·8 per cent. of the total expenditure under all heads against 35·6 and 29·7 per cent., respectively, in the previous year. As compared with the budget estimate, there was a decrease under water-supply which occurred mostly in Cocanada, Vizagapatam, Tirupati and Dindigul. In Cocanada and Vizagapatam the short outlay was due to the inaccuracy of the estimates, the whole of the amounts available for expenditure having been provided in the budget, while as a matter of fact nothing more than what had been placed at the disposal of the Public Works Department in previous years was required for expenditure in the year under review, and in Tirupati it was the result of the non-adjustment of the amounts advanced to that department in previous years as anticipated in the budget. In Dindigul the provision made for the extension of the water-works could not be utilized as the project had to be abandoned as unsuitable.

31. *Roads.*—Under this head the expenditure amounted to Rs. 2,30,742 against Rs. 2,53,630 provided in the budget estimate and Rs. 2,69,787 actually incurred in 1897–98, the decrease as compared with the previous year's figure occurring chiefly in Mangalore, Chidambaram, Rajahmundry, Tanjore, Bellary, Calicut and Masulipatam and being partly counterbalanced by an increase in Ootacamund and Kumbakónam. Of this sum Rs. 30,447 were spent on new works and Rs. 2,00,295 on repairs against Rs. 36,143 and Rs. 2,33,644, respectively, in the previous year. The total length of roads maintained by the several Municipal Councils was 1,409 miles, of which 932 were metalled and 477 unmetalled. In Conjeeveram, Palghat, Ootacamund, Kumbakónam, Mannárgudi, Máyavaram and Negapatam, the length of unmetalled roads was large—a result which is ascribed to the existence in most of these towns of natural difficulties in metalling the roads; but the Government trusts that the Municipal Councils concerned will make earnest endeavours to reduce their extent. The condition of the roads in 46 out of the 58 Municipalities is reported to have been generally good. No information has been furnished in the case of Vizianagram; but in the remaining eleven towns noted in the margin the state of the roads was far from satisfactory. The Municipal Councils of these towns have been directed in the individual reviews to carry out the necessary repairs in the current year.

32. *Road Charges and Tolls.*—The expenditure on roads represented 64·8 per cent. of the net Municipal revenue from tolls against 74·6 per cent. in 1897–98. The percentage exceeded 100 in ten towns, but it fell below the minimum of 50 prescribed by Government in the 28 Municipalities noted in the margin. In Palni the short expenditure was allowed by Government in view of the large outlay which the Municipal Council proposed to incur in acquiring a site for the market, while in Parlákimedi, Kurnool, Karúr and Vellore, it was due to the paucity of funds. The short outlay in Rajahmundry and Dindigul is ascribed to payment not having been made for some of the works done during the year, while in the remaining 21 towns it was mostly due to a portion of the allotment for roads having been diverted to other urgent works or reserved for expenditure on plague preventive measures.

33. *Buildings.*—The outlay under this head was Rs. 50,601 on new works and Rs. 31,951 on repairs or Rs. 82,552 in the aggregate against Rs. 1,23,443 in the previous year. The decrease occurred mainly in Coimbatore, Kurnool, Palni, Ellore, Guntúr, Palghat and Cuddalore, being due to the absence of special works similar to those executed in the previous year. There were also noteworthy increases in Madura, Calicut and Kumbakónam. In Madura the increase was due to the construction of three latrines on the standard design and to the purchase of materials for the construction of three others, in Calicut to the provision of a burial-ground for Mappillas, and in Kumbakónam to the building of a branch dispensary.

34. *Drainage and Water-supply.*—The total expenditure on drainage amounted to Rs. 58,956 against Rs. 42,416 in 1897–98, Rs. 31,310 being spent on new works and Rs. 27,646 on repairs. The only new drainage work of importance under execution during the year was the realignment of the intercepting sewer at Ootacamund,

for which a sum of Rs. 24,610 was placed at the disposal of the Public Works Department. Under water-supply Rs. 73,977 were spent on new works and Rs. 1,07,040 on repairs against Rs. 4,15,980 and Rs. 1,07,696, respectively, in the previous year. The outlay under this head was large in Conjeeveram, where some improvements and extensions to the water-works were carried out at a cost of Rs. 49,162. The water-supply schemes of Cocanada, Tirupati and Vizagapatam, which had been undertaken in 1897–98, were under execution during the year. A scheme for the drainage of Tanjore was also sanctioned and a few other drainage and water-supply schemes were either under the consideration of Government or under investigation by the Sanitary Engineer. The progress made in each of these cases and the action taken in the other Municipalities in regard to drainage and water-supply are shown in Appendix X.

35. *Establishment.*—In Bimlipatam the execution of ordinary public works was supervised by the Chairman or councillors and in Anantapur and Karúr by the sanitary inspectors; but in the other towns either overseers or maistries were employed for this purpose. Excluding the establishments employed on drainage and water-supply works, the cost of which is included in the expenditure under these heads, the outlay on the public works establishments in Municipalities amounted to Rs. 30,468 or Rs. 478 more than in 1897–98 and represented 9·7 per cent. of the charges on account of roads and buildings against 7·6 per cent. in the previous year.

Grant 2, Education.

36. There was no change in the lines on which the educational operations of Municipal Councils were conducted. Excluding Rs. 3,689 spent on school buildings and debited to Grant 1, but including the contributions (Rs. 1,300) paid to Local and Provincial funds, the total outlay on education amounted to Rupees 3,52,361 against Rs. 3,42,801 in the previous year. The following abstract shows the particulars of the expenditure under the several heads as compared with the figures for the previous year:—

37. The number of Municipal schools and colleges on the 31st March 1899 was 318 or two less than in 1897–98. Twenty-seven of these were colleges and secondary schools and 291 primary schools. Of the former twenty-four were maintained on the salary system and the rest on the salary-result system, while all but nine of the latter were salary-result schools.

38. *Colleges and Secondary Schools.*—At the close of the year there were three second-grade colleges and thirteen upper secondary and eleven lower secondary

schools against three, twelve and thirteen, respectively, in the previous year. The subjoined statement shows the strength and cost of the higher departments of these institutions:—

—	Year.	Strength at the end of the year.	Average attendance.	Net cost.	Average cost of educating each pupil.
				Rs.	Rs. A. P.
Colleges and upper secondary schools and departments—					
All salary system	1897-98	1,329	1,107	— 2,670	..
	1898-99	1,615	1,513	— 2,332	..

	1898-99	416	403	1,884	4 10 10

There was again an improvement in the strength and average attendance of the collegiate and upper secondary departments, which were worked at a profit of Rupees 2,332 against Rs. 2,670 in the previous year. In the lower secondary departments of the schools on the salary system, the receipts of which again exceeded the charges by Rs. 959, there was a decline in the attendance, while in these departments of the salary-result system schools both the attendance and the net cost fell, the cost per pupil being Rs. 4–10–10 against Rs. 5–7–6 in the previous year.

The upper secondary departments in Anantapur, Bellary, Chicacole, Cannanore, Palghat, Salem, Tiruppattúr and Máyavaram were worked at a profit, which was largest in Palghat, being due to improved attendance in the Victoria College and consequent higher receipts from school-fees. On the other hand the average cost of educating each pupil in these departments in Ootacamund (Rs. 96) and Walajapet (Rs. 21) and in the lower secondary department on the salary-result system in Salem (Rs. 38) was very high. In Ootacamund the circumstances are exceptional. The Municipal Councils of Walajapet and Salem should see that the cost of these schools is gradually reduced.

39. The annexed statement shows the results achieved by these institutions at the several public examinations:—

There was an improvement in the results of the First in Arts and the Matriculation examinations; but those of the Lower Secondary examination showed a decline which is to be regretted.

40. The following abstract shows the strength and cost of the primary schools and departments maintained by Municipal Councils as compared with the figures of the previous year:—

—	Strength at the end of the year.	Average attendance.	Net cost.	Average cost of educating each pupil.
			Rs.	Rs. A. P.
Salary system—				
1897-98	1,966	1,956	7,670	3 14 9
1898-99	2,041	1,969	6,249	3 2 9
Salary-result system—				
1897-98	15,422	14,358	65,340	4 8 10
1898-99	15,441	14,577	66,166	4 8 8

In both classes of schools the strength and average attendance showed a slight improvement. The average cost of educating each pupil fell from Rs. 3–14–9 to Rs. 3–2–9 in the schools on the salary system, while in those on the salary-result system it was almost the same as in 1897–98. The primary school on the salary system at Ootacamund was self-supporting, while in the following towns the net cost of each pupil was heavy:—

	Rs. A. P.
Salary system schools—	
Anantapur	19 7 0
Bellary	8 1 11
Salary-result system schools—	
Ootacamund	10 2 7
Madura	8 9 3
Negapatam	7 7 6
Dindigul	7 2 9
Cuddapah	7 0 10

Every effort should be made by the Municipal Councils of these towns to reduce this high cost.

41. *Gant-in-Aid Schools.*—Appendix XII shows the number and strength of the several departments of aided schools and the amount of grants paid to them. On the 31st March 1899 there were 881 schools of this kind or two less than in the previous year; but the number of pupils on their rolls rose from 60,106 to 61,737, the increase occurring chiefly in Conjeeveram, Erode and Cocanada where a larger number of schools was aided, and in Cuddalore and Vizagapatam where there was a general improvement in the attendance. Of the total number of pupils, 49,791 or 80·7 per cent. belonged to result system schools and the remainder to schools aided with salary grants. The total expenditure under grants of all kinds amounted to Rs. 96,658 or 98·6 per cent. of the allotment against Rs. 92,202 or 96·6 per cent. in 1897–98. In thirty Municipalities the percentage was either equal to or more than 100, while in two others it was less than 75. The explanations of the Councils concerned for the failure to utilize fully the budget allotments are summarized in Appendix XIII. Result grants were paid in all the Municipalities under the assignment system.

42. *Stipends in training schools and Inspection.*—Under normal stipends and inspection the expenditure amounted to Rs. 2,407 and Rs. 13,490, respectively, against Rs. 2,176 and Rs. 13,405 in 1897–98. The increase in the former case is encouraging; but having regard to the large proportion of unqualified teachers employed in the municipal and aided schools, the Municipal Councils should, in the opinion of Government, have devoted more funds to this purpose. The desirability of reducing the number of unqualified teachers has again been impressed upon Municipal

Councils in the individual reviews, and the Government trusts that the instructions on the subject will receive careful attention. Except in Anantapur, Walajapet, Chidambaram, Srívilliputtúr and Bimlipatam, where no special arrangements existed for the inspection of schools, one or more Inspecting Schoolmasters were employed in the several municipalities or the supervision of schools was conducted by the Local Fund Inspecting Schoolmaster, a contribution being paid to the District Board towards his salary.

43. *General Results.*—Appendix XIV shows the net expenditure on education and other particulars relating to municipal and aided schools. The total net expenditure under this head amounted to Rs. 1,96,430 or 12 per cent. of the municipal income from taxation against Rs. 1,90,754 or 12·5 per cent. in the previous year, and all but Rs. 32,167 or 16·4 per cent. of this sum was devoted to primary education. The proportion of the net expenditure to income from taxation was large in Walajapet (33·4 per cent.), Vellore (28·2), Tellicherry (20·5), Gudiyáttam (19·7), Chingleput (18·4) and Cannanore (17·3), but very small in Tiruppattúr (8·8), Madura (8·2), Coonoor (7·7), Ootacamund (7·0), Cocanada (6·5), Máyavaram (2·8) and Palghat (2·6), while in Anantapur the receipts exceeded the cost of education by Rs. 236. The total number of boys under instruction in the schools maintained and aided from municipal funds was 63 per cent. of the male population of school-going age against 61·8 per cent. in the previous year. The percentage was satisfactory in Ongole (116·8), Palamcottah (108·1), Chingleput (105·2), Erode (100·7), Karúr (95·7), and Guntúr (92·8); but it was small in Cocanada (39·9), Calicut (39·8), Srívilliputtúr (35·7) and Cochin (33·6).

Grant 3, Medical Services and Sanitation.

44. *Hospitals and Dispensaries.*—The charges under this head amounted to Rs. 2,80,400 against Rs. 2,87,710 in 1897–98. A decrease occurred in 34 Municipalities, but it was conspicuous only in Cocanada, Masulipatam, Tellicherry and Salem and it was partly counterbalanced by increases in the remaining towns, those in Madura and Trichinopoly being most marked. The fall in Cocanada was due to a portion of the allotment under this head having been transferred to plague charges and in Masulipatam to less expenditure on medicines, while in Tellicherry and Salem it is attributed to the non-payment of the cost of medicines purchased during the year. Every Municipality was provided with at least one hospital or dispensary. The hospitals at Dindigul, Ootacamund, Vizagapatam and Vizianagram continued to be under private management; but contributions were paid from Municipal funds for the upkeep of the first three of these institutions. As in previous years, the hospital at Tirupati was managed by the North Arcot District Board, while in Walajapet and Tanjore, accommodation for in-patients was provided in the American Mission hospital at Ránipéttai and in the Raja Mirasidar hospital maintained by the District Board of Tanjore, respectively. The number of persons treated in the several hospitals and dispensaries are shown in Appendix XV. There was a decline of 3,177 in the number of in-patients, while that of out-patients fell from 1,328,932 to 1,299,045, the decrease which occurred chiefly in Trichinopoly, Bellary and Kurnool being attributed to the plague scare. Rules for the reception and treatment of patients have been framed under section 127 of the District Municipalities Act by all Municipal Councils which have hospitals or dispensaries of their own, except those of Chingleput and Tiruvannámalai.

45. *Midwives.*—A midwife was attached to every hospital and dispensary. The total number of midwives employed was 78, or three less than in 1897–98; but the number of cases of labour attended by them rose from 6,775 to 7,262, which gives an average of 93 cases for each against 84 in that year—a satisfactory increase. The largest number of cases was attended by the midwives in Mangalore (354), Madura (302), Bellary (248), Vizagapatam (241), Mannárgudi (234), Anakápalle (232), Nellore (221), Kumbakónam (220), Trichinopoly (210) and Dindigul (206) and the smallest by those at Walajapet (46), Salem (45), Cuddapah and Vániyambádi (43), Cannanore (35) and Ootacamund (26). The Municipal Councils of the last four towns above named should spare no pains to secure better results in future.

46. *Medical Training of Women.*—From the information received on this subject, which has been summarized as usual in Appendix XVI, it appears that no action was taken by most of the Municipal Councils in furtherance of female medical education. Five of the Councils, viz., those of Conjeeveram, Cuddalore, Guntúr, Srírangam and Vániyambádi state that there is no necessity for any action on their part in this matter, as in these towns female medical aid is provided by Mission agency or female medical practitioners or trained midwives are already employed in the hospitals and dispensaries maintained by the municipalities. From Chingleput a pupil was sent up for training as a midwife, while the Municipal Councils of Mannárgudi and Trichinopoly had each a woman under training for the apothecary grade in the Medical College at Madras. The Municipal Councils of Tinnevelly and Palamcottah have arranged to secure a female pupil to be trained as an apothecary at their joint cost. The need for similar action in other towns is evident from the fact that at present special arrangements for affording medical relief to women exist only in a small number of Municipalities and the earnest attention of the Municipal Councils concerned is invited to this matter. No information was furnished in several of the administration reports regarding the steps taken by Municipal Councils in this direction. This omission should be supplied in future reports.

47. *Vaccination.*—This subject has already been fully dealt with in G.O., No. 1498 L., dated 28th July 1899, reviewing the report of the Inspector of Vaccination. Appendix XVII shows the statistics relating to vaccination in the several Municipalities. As in the previous year, vaccination was compulsory in all the Municipalities. The total number of operations fell from 95,972 to 91,100; and of these 1,617, or 161 more than in 1897–98, were performed by medical subordinates. The quality of the work also deteriorated slightly, the percentage of reported success being 89·2 against 90·6 in the previous year. It was very good in Tiruppattúr, Vellore, Salem, Palghat, Madura, Srírangam, Tuticorin and Vániyambádi, but poor in Cocanada, Berhampur and Cuddapah. The total number of successful vaccinations was 47·7 per mille of the population against 51·1 per mille in 1897–98. It was largest in Cocanada (97·9 per mille), Ellore (97·5), and Coonoor (72·7), but very small in Tirupati (28·0) Walajapet (23·6), Mannárgudi (23·2), Berhampur (21·3) and Cuddapah (7·6). The total number of children under one year reported to have been successfully vaccinated was 44,904 or 26·4 per mille of the population against 46,339 or 27·2 per mille in the previous year. Taking the normal birth-rate to be 42 per mille, these results cannot be considered satisfactory, except in Tiruppattúr, Vániyambádi, Madura, Ootacamund, Salem, Erode, Chingleput, Periyakulam and Adóni, where the number of successful operations on children under one year ranged from 45·7 to 35·7 per mille. In Chicacole, Berhampur and Cuddapah, where the number was below 15 per mille, the work must be regarded as extremely bad. His Excellency the Governor in Council trusts that by carefully following the instructions issued in G.O., No. 1502 M., dated 19th October 1894 and by strictly enforcing the compulsory provisions of the Act, the Municipal Councils concerned will be able to report better results in future. The total number of prosecutions instituted for failure to have children vaccinated was 8,958 against 11,668 in 1897–98, the largest number being in Trichinopoly (1,852) and Cocanada (869). As in the previous year, the average cost of each successful vaccination by municipal vaccinators was As. 4–3. It was more than As. 8 in Walajapet, Tirupati, Coonoor, Cuddapah, Berhampur, Karúr and Bimlipatam and less than As. 3 in Ellore, Calicut, Salem, Madura, Anantapur and Cocanada.

48. *Vital Statistics.*—The following table compares the total number of births and deaths registered during the year with the figures for 1897–98:—

—	Births.	Rate per mille.	Deaths.	Rate per mille.
1897–98	54,356 *	31·9	55,217	32·4
1898–99	59,207	31·8	49,965	29·3

* This is 27 more than the figure shown in the corresponding statement for 1897–98, which was incorrect.

There was an improvement in the registration of births and a decline in that of deaths; but the rates recorded in both cases were much below the normal. As these returns are obviously untrustworthy, the Municipal Councils should take steps to secure accuracy in the registration of vital statistics. In Bellary, Cuddapah, Calicut, Cochin, Tellicherry, Nellore, Gudiyáttam, Tirupati, Vellore, Walajapet, Vániyambádi, Mangalore and Tuticorin the death-rate exceeded the birth-rate; but in most of these cases this was partly due to the prevalence of cholera. The registration of births in Cuddapah and of deaths in Palamcottah, Dindigul and Bimlipatam was greatly neglected. The special attention of the Councils concerned has been drawn to this matter in the individual reviews, and the Government must insist upon adequate measures being taken to effect an improvement. In forty municipalities, against 37 in 1897–98, prosecutions were instituted for failure to register births and deaths; but their number fell from 1,740 to 1,442. It was largest in Cocanada, Srírangam and Chidambaram, while in Palamcottah and Bimlipatam not a single prosecution was instituted, although registration in these towns was far from complete.

49. *Conservancy, Road-cleaning and Road-watering.*—A sum of Rs. 7,15,291 was spent under this head against the budget estimate of Rs. 6,75,100 and the actuals of Rs. 6,67,555 in 1897–98, the increase as compared with the previous year's figure appearing chiefly in Ootacamund, Vellore and Trichinopoly. It is noted with satisfaction that the expenditure exceeded the allotment by 6 per cent. The proportion of expenditure to the allotment was more than 100 per cent. in 27 municipalities; but it was less than 85 per cent. in three others. The expenditure amounted to 25·7 per cent. of the ordinary receipts, excluding special grants from Provincial funds and loans, against 25·8 per cent. in 1897–98. It was more than 25 per cent. in 37 municipalities and was not less than 15 per cent. in any town except Palghat, where it amounted to only 12·8 per cent. owing apparently to the outlay on plague preventive measures being considerably short of expectations. Appendix XIX shows the sanitary condition of the several municipalities when they were last visited by the Sanitary Commissioner or his Deputy. From this it will be seen that the sanitary condition of most of the towns is not satisfactory. It is, however, observed that Municipal Councils are generally alive to the importance of improving the sanitation of their respective towns and have been exerting themselves in this direction; but a great deal yet remains to be done. The Municipal Councils have been directed in the individual reviews to devote their special attention to this matter and with sustained energy to remedy the several sanitary defects as far as funds permit. The number of public latrines provided in the several Municipalities is shown in Appendix XX. The total number was 1,222 or six more than in the previous year or on an average one latrine for every 1,393 inhabitants. In 45 municipalities the proportion was less than the prescribed minimum of one for every thousand of the population. The attention of Municipal Councils is again drawn to this matter.

Grant 4, Lighting and Miscellaneous.

50. *Lighting.*—The expenditure under this head was Rs. 1,03,403 against Rupees 1,12,766 in 1897–98, the decrease appearing chiefly in Madura, Tanjore and Calicut. Appendix XXI shows the number of lights maintained in the several Municipalities. The total number was 15,278 or 357 more than in the previous year, giving an average of ten for every mile of road as in that year. The lighting in Coonoor continued to be very deficient, there being only three lamps for each mile of road.

51. *Public Garden, Survey of Land, Fire and other Charges.*—The charges under this head amounted to Rs. 71,170 against Rs. 1,03,403 in 1897–98 as detailed below:—

Only two Municipalities, viz., Coonoor and Ootacamund, had paid Chairmen; but in seventeen other towns there were Secretaries appointed under section 39-A of the District Municipalities Act. The expenditure under this head amounted to 8 per cent. of the ordinary receipts against 8·4 per cent. in the previous year and against the limit of 10 per cent. prescribed by Government. This proportion was exceeded in 24 towns; but in nine of them, viz., Adóni, Bellary, Madura, Nellore, Vellore, Salem, Chidambaram, Cuddalore and Tanjore, there were special reasons for the excess. In the remaining fifteen Municipalities noted in the margin there was no excuse whatever for the high expenditure, and the Municipal Councils concerned should take steps to reduce it.

53. *Indebtedness of Municipalities.*—During the year under review loans amounting to Rs. 50,223 were repaid, Rs. 4,116 were transferred to Sinking fund and Rupees 65,274 were paid as interest on the Municipal debt. Appendix XXII gives further details of the loans raised and of the amounts repaid and still outstanding.

54. The following brief review of the financial position of the Municipalities which are in debt to Government is added, as required by the Government of India, Home Department, in its letters, No. 132, dated 16th August 1898, and No. 30, dated 13th February 1899.

From Appendix XXII-A it will be seen that in the ten Municipalities noted in the margin the surplus of the ordinary receipts over the expenditure was larger than the instalments payable on account of the loans outstanding against them. In Calicut, Cochin, Tellicherry, Máyavaram and Anakápalle the incidence of taxation was far below the general average, while in Adóni, Conjeeveram, Dindigul and Trichinopoly the water and drainage tax, which is imposed for the purpose of raising funds required for meeting the repayment of the loans and the maintenance

There was an improvement in the registration of births and a decline in that of deaths; but the rates recorded in both cases were much below the normal. As these returns are obviously untrustworthy, the Municipal Councils should take steps to secure accuracy in the registration of vital statistics. In Bellary, Cuddapah, Calicut, Cochin, Tellicherry, Nellore, Gudiyáttam, Tirupati, Vellore, Walajapet, Vániyambádi, Mangalore and Tuticorin the death-rate exceeded the birth-rate; but in most of these cases this was partly due to the prevalence of cholera. The registration of births in Cuddapah and of deaths in Palamcottah, Dindigul and Bimlipatam was greatly neglected. The special attention of the Councils concerned has been drawn to this matter in the individual reviews, and the Government must insist upon adequate measures being taken to effect an improvement. In forty municipalities against 37 in 1897–98, prosecutions were instituted for failure to register births and deaths; but their number fell from 1,740 to 1,442. It was largest in Cocanada, Srírangam and Chidambaram, while in Palamcottah and Bimlipatam not a single prosecution was instituted, although registration in these towns was far from complete.

49. *Conservancy, Road-cleaning and Road-watering.*—A sum of Rs. 7,15,291 was spent under this head against the budget estimate of Rs. 6,75,100 and the actuals of Rs. 6,67,555 in 1897–98, the increase as compared with the previous year's figure appearing chiefly in Ootacamund, Vellore and Trichinopoly. It is noted with satisfaction that the expenditure exceeded the allotment by 6 per cent. The proportion of expenditure to the allotment was more than 100 per cent. in 27 municipalities; but it was less than 85 per cent. in three others. The expenditure amounted to 25·7 per cent. of the ordinary receipts, excluding special grants from Provincial funds and loans, against 25·8 per cent. in 1897–98. It was more than 25 per cent. in 37 municipalities and was not less than 15 per cent. in any town except Palghat, where it amounted to only 12·8 per cent. owing apparently to the outlay on plague preventive measures being considerably short of expectations. Appendix XIX shows the sanitary condition of the several municipalities when they were last visited by the Sanitary Commissioner or his Deputy. From this it will be seen that the sanitary condition of most of the towns is not satisfactory. It is, however, observed that Municipal Councils are generally alive to the importance of improving the sanitation of their respective towns and have been exerting themselves in this direction; but a great deal yet remains to be done. The Municipal Councils have been directed in the individual reviews to devote their special attention to this matter and with sustained energy to remedy the several sanitary defects as far as funds permit. The number of public latrines provided in the several Municipalities is shown in Appendix XX. The total number was 1,222 or six more than in the previous year or on an average one latrine for every 1,393 inhabitants. In 45 municipalities the proportion was less than the prescribed minimum of one for every thousand of the population. The attention of Municipal Councils is again drawn to this matter.

Grant 4, Lighting and Miscellaneous.

50. *Lighting.*—The expenditure under this head was Rs. 1,03,403 against Rupees 1,12,766 in 1897–98, the decrease appearing chiefly in Madura, Tanjore and Calicut. Appendix XXI shows the number of lights maintained in the several Municipalities. The total number was 15,278 or 357 more than in the previous year, giving an average of ten for every mile of road as in that year. The lighting in Coonoor continued to be very deficient, there being only three lamps for each mile of road.

charges of the water works, is now levied only at 4½ per cent. in the first and at 4 per cent. in the other towns against the maximum of 8 per cent. prescribed in the Act. In Cocanada a water and drainage tax of 1½ per cent. of the annual value has been imposed in the current year. While, therefore, the revenue in these towns may be expected to increase in future years, there is no reason why the expenditure should not be maintained at the present scale during the currency of the loans. The ability of the Councils concerned to discharge their liabilities to the State need not therefore be doubted. The same conclusion may be accepted in respect of the loan due by the Madura Municipality where a surplus revenue of Rs. 32,611 was available for payment of the yearly instalments due on the Government and debenture loans amounting to Rs. 11,651 and Rs. 2,860, respectively, or a total of Rs. 14,511.

In Cuddapah the surplus revenue was only Rs. 4,690 as against an annual repayment of Rs. 578 on account of the Government loan and one of Rs. 4,940, including interest, on account of debenture loans, while in Vizagapatam the surplus was Rs. 12,166 as compared with a fixed loan instalment of Rs. 12,545. In Coonoor and Tanjore also only Rs. 660 and Rs. 8,163, respectively, were available for meeting the repayments of the loans amounting to Rs. 906 and Rs. 11,294, respectively. At first sight, therefore, it would appear that the scale of expenditure in these towns does not leave a sufficient balance available for repayment of the loans; but it has to be noted that the expenditure in 1898–99 was above the average owing to extraordinary charges incurred in connection with the plague, which amounted to Rs. 1,678 in Cuddapah, Rs. 1,632 in Coonoor, Rs. 1,668 in Vizagapatam, and Rupees 2,009 in Tanjore. Excluding these special charges, the surplus revenue in the first three towns was more than sufficient to cover the payments on account of loans, while in the last it ~~still fell short of~~ is nearly equal to the loan instalment. In all these cases, however, the instalments due for 1898–99 have been paid up, the funds required being appropriated from the balances. The rate of the water and drainage tax has been increased in the current year from 3 to 4 per cent. in Cuddapah, while in Coonoor the question of increasing this tax is now under the consideration of the Municipal Council. In Tanjore and Vizagapatam, a considerable increase in the revenue is expected in consequence of the revision of the house-tax assessments. There will thus be no difficulty in these towns in providing for the repayment of the loans in future years. The following abstract shows the estimated income and expenditure for the current year and the surplus revenue available in them :—

—	Ordinary receipts.	Expenditure excluding loan transactions.	Surplus.
	Rs.	Rs.	Rs.
Coonoor	43,500	42,250	1,250
Cuddapah	47,160	40,740	6,420
Tanjore	1,02,040	84,340	17,700
Vizagapatam	91,440	51,360	40,080

The revenue of the Ootacamund Municipality in 1898–99 was less than the expenditure by Rs. 3,320. The decrease was, however, due to a large sum of Rupees 10,400 having been spent on plague-preventive measures, and excluding this special item of expenditure, there was a surplus revenue of Rs. 7,080 as compared with a total annual liability of the Council amounting to Rs. 11,336 (Rs. 5,976 being the annual instalment of the Government loans and Rs. 5,360 that of the debenture loans). The whole of this amount was, however, paid during the year under review, by an appropriation from the balance. A similar course was adopted in Kurnool, where the receipts fell short of the expenditure by Rs. 2,868 owing to the heavy outlay of Rs. 5,341 in connection with plague. In Ootacamund the rate of the water and drainage tax has been raised in the current year by 50 per cent., while in Kurnool the revision of the house and land tax registers is expected to result in an increase of revenue. The estimated receipts in these towns for the current year are Rs. 1,16,840

and Rs. 49,620, respectively, and the charges Rs. 87,550 and Rs. 40,730, leaving a surplus revenue of Rs. 29,290 and Rs. 8,890, respectively. There is thus ample provision for the repayment of the loans due by these two Municipalities.

A loan of Rs. 59,000 was taken by the Tirupati Municipality in 1897 for the water-supply scheme on condition of repayment in five equal annual instalments, with interest at 4¼ per cent. per annum. The repayment was to be made out of the contribution of Rs. 77,000 promised by the Mahant of Tirupati in aid of the scheme and payable at the rate of Rs. 12,000 yearly. The interest due on the loan in 1898–99 has been paid up; but the first instalment of the loan was not paid within the year, the Mahant's contribution not having been received before its close. This, however, has since been paid up. A water and drainage tax of 4 per cent. on the annual value of buildings and lands is to be levied from the 1st October 1899 and this is expected to bring in an annual revenue of Rs. 3,200, which will more than cover the payment on account of interest on the loan, and the rate of this tax will be increased when further funds are required for the maintenance charges of the works. The decrease of Rs. 2,128 in the receipts below the expenditure for 1898–99 is due mainly to the large outlay under epidemic charges, but the equilibrium of the Municipal finances was maintained by an appropriation from the balance, which on the 31st March 1899 was very nearly equal to the prescribed minimum.

The receipts of the Kumbakónam Municipality in 1898–99 were Rs. 78,877 and the expenditure Rs. 74,365, leaving a surplus revenue of Rs. 4,512 as against an annual loan instalment of Rs. 4,613. The expenditure, however, included epidemic charges amounting to Rs. 4,050, and excluding them, the surplus available was nearly double the repayment on account of the loan. The instalment due for the year was paid up by appropriation from the balance, and as a surplus revenue of Rs. 6,240 is anticipated in the current year, the ability of the Council to meet its present liability does not seem open to question.

55. *Advances.*— The debit under this head was Rs. 44,909 against Rs. 4,89,588 in 1897–98, the decrease being due chiefly to the absence of any large advances similar to those made in that year on account of the Cocanada and Tirupati water-supply schemes.

56. *Closing Balance.*—The closing balances of all the Municipalities amounted to Rs. 6,71,519 or 24·1 per cent. of the current receipts. The percentage was high in Vizagapatam (246·0) and Cocanada (83·8), being due mainly to the inclusion of the amounts reserved for expenditure on water-supply schemes which were under execution. In 26 towns the balance was less than the prescribed limit of 10 per cent., while in Vellore, Berhampur and Mannárgudi the year closed with a deficit of Rupees 4,410, Rs. 64 and Rs. 276, respectively. In Vellore this was due to the poor collection of the taxes and in Berhampur partly to this cause and partly to a large outlay on account of plague, while in Mannárgudi it was only apparent, being the result of the nón-adjustment of certain deposits made by contractors.

57. *Municipal accounts.*—The work of auditing the municipal accounts continued to be conducted by the Inspector of Local Fund Accounts and his Assistants, under the supervision of the Accountant-General. His consolidated report on the audit of the accounts for 1898–99 has not yet been received.

58. *General Administration.*—The Government having commented at length on the working of each Municipality in its reviews of the individual reports, it will be sufficient to remark here that the administration was very unsatisfactory in Vellore, inefficient in Gudiyáttam and Tirupati, and indifferent in Bellary, Cuddapah, Berhampur, Chicacole, Masulipatam, Dindigul, Madura, Ongole, Walajapet, Salem, Tanjore, Trichinopoly, Vizagapatam and Vizianagram. In Adóni, Erode, Karúr, Bezwada, Guntúr, Palni, Periyakulam, Cochin, Palghat, Coonoor, Tiruppattúr, Vániyambádi, Cuddalore, Tiruvannámalai, Máyavaram, Palamcottah, Tinnevelly and Bimlipatam the administration was good, while in the remaining 23 Municipalities

it was fairly satisfactory. His Excellency the Governor in Council is gratified to observe that, on the whole, the administration of Municipal affairs compared favourably with that of the previous year and was fairly satisfactory.

APPENDIX XVI.

SHOWING the action taken by the Municipal Councils during 1898-99 on the resolution of the Government of India regarding the training of female medical practitioners, midwives and nurses.

Adóni.—No action was taken for training female medical practitioners.

Calicut.—The funds at the disposal of the Council will not permit of anything being done at present.

Chicacole.—The Council regrets it cannot, for want of funds, take any steps to provide female medical aid.

Chingleput.—A sum of Rs. 28-8-0 was spent on account of stipends paid to the midwifery pupil under training.

Conjeeveram.—There are two trained midwives already and the appointment of a Eurasian nurse on Rs. 50 has been sanctioned. Hence it was not considered necessary to train any more women at the cost of the Municipality.

Coonoor.—No female medical practitioners are trained.

Cuddalore.—No action need be taken by this Council towards training female medical practitioners as the Council has already got a competent female apothecary to afford medical relief to women.

Dindigul.—No woman was sent to Madras for medical training.

Gudiyáttam.—Nothing was done during the year in aid of the Dufferin Fund.

Guntúr.—The Council has taken no special action to further female medical education, as the need for it is satisfied by the American Mission which maintains a well-equipped hospital for affording relief to women and children.

Kurnool.—No women were trained as doctors or nurses for want of funds.

Mannargudi.—Rs. 300 were paid as stipend to the Dufferin Fund scholar undergoing training in the Medical College.

Negapatam.—The female student undergoing training in the Madras Medical College having absented herself from the Anatomy class, her stipend was discontinued. The Council intends to secure the services of a passed female hospital assistant and advertisements have been made in the papers inviting applications.

Ongole.—The Council regrets it could not provide for female medical aid as directed by Government.

Palghat.—No expenditure was incurred during the year.

Palamcottah.—No expenditure was incurred as no candidate was available. The Honorary Secretary of the Dufferin Fund, Madras, has been requested to engage a European, Eurasian or Native Christian woman to be trained at the joint cost of the Municipalities of Palamcottah and Tinnevelly.

Periyakulam.—No action was taken for training female medical practitioners.

Salem.—No action was taken.

Srirangam.—As the midwife was a trained woman, no expenditure was incurred in furtherance of female medical education. If funds allow, provision will be made in the ensuing year's budget for a scholarship in connection with the Countess of Dufferin's Fund.

Tinnevelly.—Rs. 180 were provided in the budget but could not be utilized for want of a candidate this year also; efforts are being made to secure one next year.

Trichinopoly.—A female apothecary is under training in the Medical College.

Vániyambádi.—No expenditure was incurred as the hospital midwife is a trained woman.

Walajapet.—The Council will provide for the medical training of women as soon as its finances improve.

remaining eleven towns noted in the
margin the state of the roads was far
from satisfactory. The Municipal Coun-
cils of these towns have been directed in
the individual reviews to carry out the
necessary repairs in the current year.

32. *Road Charges and Tolls.*—The
expenditure on roads represented 64·8
per cent. of the net Municipal revenue
from tolls against 74·6 per cent. in
1897–98. The percentage exceeded 100
in ten towns, but it fell below the mini-
mum of 50 prescribed by Government in
the 28 Municipalities noted in the margin.
In Palni the short expenditure was allowed
by Government in view of the large
outlay which the Municipal Council pro-
posed to incur in acquiring a site for the
market, while in Parlákimedi, Kurnool,
Karúr and Vellore, it was due to the pau-
city of funds. The short outlay in
Rajahmundry and Dindigul is ascribed to
payment not having been made for some
of the works done during the year, while
in the remaining 21 towns it was mostly
due to a portion of the allotment for
roads having been diverted to other
urgent works or reserved for expenditure
on plague-preventive measures.

33. *Buildings.*—The outlay under
this head was Rs. 50,601 on new works
and Rs. 31,951 on repairs or Rs. 82,552

APPENDIX XVI.

SHOWING the action taken by the Municipal Councils during 1898–99 in the resolution of the Government of India regarding the training of female medical practitioners, midwives and nurses.

Adóni.—No action was taken for training female medical practitioners.

Calicut.—The funds at the disposal of the Council will not permit of anything being done at present.

Chicacole.—The Council regrets it cannot, for want of funds, take any steps to provide female medical aid.

Chingleput.—A sum of Rs. 23-8-0 was spent on account of stipends paid to the midwifery pupil under training.

Conjeeveram.—There are two trained midwives already and the appointment of a Eurasian nurse on Rs. 50 has been sanctioned. Hence it was not considered necessary to train any more women at the cost of the Municipality.

Coonoor.—No female medical practitioners are trained.

Cuddalore.—No action need be taken by this Council towards training female medical practitioners as the Council has already got a competent female apothecary to afford medical relief to women.

Dindigul.—No woman was sent to Madras for medical training.

Gudiyáttam.—Nothing was done during the year in aid of the Dufferin Fund.

Guntúr.—The Council has taken no special action to further female medical education, as the need for it is satisfied by the American Mission which maintains a well-equipped hospital for affording relief to women and children.

Kurnool.—No women were trained as doctors or nurses, for want of funds.

Mannargudi.—Rs. 300 were paid on account of the stipend to the Dufferin Fund scholar undergoing training in the Medical College.

Negapatam.—The female student undergoing training in the Madras Medical College having absented herself from the Anatomy class, her stipend was discontinued. The Council intends to secure the services of a passed female hospital assistant and advertisements have been made in the papers inviting applications.

Ongole.—The Council regrets it could not provide for female medical aid as directed by Government.

Palghat.—No expenditure was incurred during the year.

Palamcottah.—No expenditure was incurred as no candidate was available. The Honorary Secretary of the Dufferin Fund, Madras, has been requested to engage a European, Eurasian or Native Christian ~~lady~~ to be trained at the joint cost of the Municipalities of Palamcottah and Tinnevelly.

Periyakulam.—No action was taken for training female medical practitioners.

Salem.—No action was taken.

Srirangam.—As the midwife was a trained woman, no expenditure was incurred in furtherance of female medical education. If funds allow, provision will be made in the ensuing year's budget for a scholarship in connection with the Countess of Dufferin's Fund.

Tinnevelly.—Rs. 180 were provided in the budget but could not be utilized for want of a candidate this year also; efforts are being made to secure one next year.

Trichinopoly.—A female apothecary is under training in the Medical College.

Vániyambádi.—No expenditure was incurred as the hospital midwife is a trained woman.

Walajapet.—The Council will provide for the medical training of women as soon as its finances improve.
