4. Measures taken for the
suppression of plagueThe people of the infected
village continue to live
in huts outside the village.
The village is being disinfected
and proper watch maintain-
ed therein as well as
within the area of the
preventive circle formed
been

as explained in the last diary. From the Sanitary Commissioner's telegram received this day it would appear that the Chinese pumps for disinfection purpose ordered by the Collector will shortly be received.

5. Success of plague measures. There were no fresh cases from the 21st to the 31st October. On the 1st November a police Constable named

Rungasawmy who was on duty at Tagarapuram was suspected of plague and was at once removed to the plague hospital. I went on the following day with the Civil Apothecary, Kollegal and found that the case was one of genuine plague. The necessary precautions by way of segregating the contacts &c have been taken. Of the two persons who were in the camp in the previous week one has almost recovered. The other is still lingering and is expected to recover.

6. Attitude of the people towards plague measures. This is eminently satisfactory as explained in the previous diaries.

7. General remarks. It was thought that the

plague had been stamped out at Tagarapuram; but the fresh attack which occurred on the 1st November indicates the necessity for continued vigilance. The absence of a competent medical officer (besides the Hospital Assistant) on the spot is much felt, especially when a fresh case occurs in the Camp.

The cold weather is fast approaching and sheds for the Police and the plague officers on duty at Tagarapuram require to be constructed immediately. It is feared otherwise that their health may suffer and that they may even be exposed to danger.

Plague establishments
at Kovur & Godavari North

FOR ORDERS.

In his letter of the 5th September
despatched of this for 1485 Bd/13-10-99
the Collector of Godavari made
the following proposals among
others as regards the Staff
of plague duty at the Kovur
and Godavari North railway
Stations.

- (1) Kovur. The Stationmaster
should issue passports to
arrivals from infected places
in lieu of the local hospital
Assistant who was till
recently attending to his duty.
- (2) Godavari North. The
hospital Assistant employed
for watching arrivals
at the Station and issuing
passports should be replaced
by

that it is undesirable to entrust
 the inspection of arrivals & the
 issue of passports to the Stationmaster,
 that the Local H.A. of Kovur shall
 continue the inspection at as
 before, and that as regards
 Godavari North, the passport
 work may be entrusted to a
 Special Sub Sanitary Inspector on
 Rs 20, if it cannot be done by the
 existing local medical staff, if
 any.

Order No 1609 P. 11-28-99
 The following telegram will be
 despatched to the Collector of
 Godavari: —

Wise a. folios. Depos.
 "At Kovur. Hospital Sub. Sta. Continue
 issuing passports as before. At Godavari
 North either keep a Hospital Sub. or
 an Sub Sanitary Inspector on Rs. 20.
 A Clerk is not suitable for this
 important station."

Godavari District,
Collector's Office,
Dated Cocanada, 30 Oct. 1899.

FROM

31 OCT 1899

J. A. CUMMING, Esq.,

ACTING COLLECTOR,

GODAVARI DISTRICT.

TO

THE Secretary to Government,
Local and Municipal
Department, Madras.

SIR,

With reference to the orders
of Government in para 1 of G.O. No.
1485 P, dated 13-10-99, so far as this
District is concerned, I would res-
pectfully submit that my proposals
do not tend "to relax inspection
at Rajahmundry". I propose to
continue inspection of arrivals but
to reduce the cost of the Establishment

Mr S.C. Consider
that substitute of a
Chief for the H.H.
is necessary

Entertained for the purpose both at Kovur & Godavari North Railway Stations. In the former station the Station Master has been entrusted with the duty and the local Hospital Assistant relieved of it. At the latter station, the Hospital Assistant has been replaced by a Clerk on Rs 20.

2 According to the orders now issued by Government the local Hospital Assistant is to carry out the inspection of trains at Kovur and the establishment at Godavari North is to be dispensed with. The Hospital Assistant at Kovur has never done more than inspect arrivals at Kovur with a view to issuing passports and I don't see

how he can inspect all passengers passing through Kovur unless Kovur is made a "railway inspection station" and notified as such under Regulation 14. That will of course involve a large increase in establishment and an alteration in the timing of the trains which is not, I understand, at present contemplated.

3. In these circumstances I would again urge the retention of the establishment at Godavari North and the Inspection work etc

at Kover be carried out by the
Station Master as proposed by
me. I request that orders be
issued by telegram.

I have the honor to be,

Sir,

Your most obedient Servant.

S. J. Munnings
ag Collector.
