SUBJECT.

Alterations of Municipal Limits, Madura.

ORDER. No 1622 Muni 1-11-99

The Collector is requested to submit a revised sketch and statement of boundaries with reference to the following remarks:-

(1) In the cases noted below the survey numbers through which the boundary line passes are not given in the Definition of boundaries.

(a) From the map it is observed that the northern boundary line after reaching the stone fixed in Survey No 217 turns east and runs through S. No 217, 200 to; but in the statement of boundaries S. No 217 is not mentioned.

(b) From the map it is observed that the Southern boundary line joins the boundary stone fixed in the centre of S. No 217 turns

turns west and runs through S. Nos 148, 151, 150, 149 and 165 etc. but S. No 151 is omitted in the description of boundaries.

(c) According to the map, the same boundary line crosses the boundary between Inam Villapuram and Stalamattarai villages, thence it runs through P. Nos 203, 205-A etc. but P. No 205-A is omitted in the statement of boundaries.

(2) The western boundary line runs along the Southern border line of S. No 233 and passes through S. Nos 232, 238, 237 and 234 and on the Northern border line of S. No 234; but in the description of boundaries S. Nos 232, 238, 237 and 234 are omitted.

(2) In the statement of boundaries it is stated that the Northern boundary line runs through the border line of S. Nos 75 and 76, whereas it actually passes through them.

(3) In the statement of boundaries the Eastern boundary is said to commence from the stone fixed on the north bank of the Vaigai

Vaigai river, but from the sketch it appears that it commences from the stone fixed in S. No 241.

(4) The Southern boundary line is said to run through S. No 117, whereas from the map it appears that it only passes along the Northern, Eastern and Southern borders of this number.

(5) In the statement of boundaries it is said that the same boundary passes through P. No 26, which does not at all touch the line in the map.

(6) The western boundary is said to run along the water project bund in a North Eastern direction, whereas it actually runs in a North Western direction.

(7) The same boundary line is stated to run west of Survey No 228 till it meets the stone fixed in Survey No 233, but from the map it is observed that

This boundary line passes through
Survey No. 228.

(8) The same boundary is
said to end at the stone fixed
in S. No. 245 of the Vilangudi
village, where the Northern boundary
is said to commence, but in
the description of the Northern
boundary it is said to commence
from S. No. 246 in the same
village.

(9) Several roads and channels
given in the description of
boundaries and S. No. 163 through
which the Southern boundary line
is stated to run, have not been
marked on the sketch submitted
by the Collector.

2. The delay of more than
one year in submitting this notifi-
cation should have been explained.
