AUGUST.

Administration Report.

Reviewing the — of the Bellary District Board for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper:—

From E. A. ELWIN, Esq., Collector and President, District Board, Bellary, to the Secretary to Government, Local and Municipal Department, dated 14th July 1899, Dis. No. 388.

I have the honour to submit the report on the administration of Local Funds in this district for the year 1898–99.

I.—GENERAL.

2. There were, as in the previous year, three Taluk Boards and twenty Unions and their constitution and area remained unaltered.

3. *District Board.*—There were 35 members on the District Board at the end of the year against the sanctioned strength of 36. Of these 35, three were ex-officio, fifteen nominated and seventeen elected members. Six of the nominated and eight of the elected members were officials. Seven vacancies occurred among the nominated members, and all of them were filled up before the close of the year. Nine vacancies occurred among the elected members, of which eight were filled up before, and the ninth soon after, the close of the year. The elective seats on the District Board were distributed among the three Taluk Boards as in past years. The District Board met nine times against eleven times in the previous year. A quorum was invariably secured, and the average attendance at each meeting was nineteen (eight officials and eleven non-officials) against twenty (seven officials and thirteen non-officials) or 54 per cent. against 62 per cent. of the actual strength in the previous year.

4. *Taluk Boards.*—The three Taluk Boards were up to their full strength of 42 members on the last day of the year. Of these, fourteen were officials and 28 non-officials. Twenty-seven vacancies occurred, and all of them were filled up within the year. Thirty-five meetings were held against 36 in the previous year. The Hospet Taluk Board met but ten times and the reason assigned for non-compliance with the rule that Taluk Boards should meet at least once a month is that there was an insufficiency of subjects for discussion. The President's attention is being drawn to the fact that no departure from the above rule can be permitted. No meeting was postponed for want of a quorum. The average attendance was seven (two officials and five non-officials) against eight (two officials and six non-officials) or 50 per cent. against 62 per cent. in the previous year. The falling off in the attendance of non-officials was probably due to the enforcement of the plague regulations. The working of the Taluk Boards was fairly satisfactory.

5. *Unions.*—The sanctioned strength of the Union Panchayats was 113 and the actual strength on the 31st March was 112, of whom 24 were ex-officio, being village Reddis, fourteen other officials and 74 non-officials. The Panchayats held in all 258 meetings against 300, an average of thirteen meetings against fifteen in the previous year. The Kanekallu, Kudatini and Rayadrug Panchayats under the Bellary Taluk Board and the Hadagalli, Hampasagar, Hospet and Kotturu Panchayats under the Hospet Taluk Board failed to meet once a month. In the case of Hospet, the prevalence of plague constitutes, perhaps, a valid excuse for their failure, but the neglect of the rule on the subject in the other six unions is unsatisfactory. The Presidents of the

Taluk Boards concerned are being asked to adopt such measures as will prevent the recurrence of the irregularity. The largest number of meetings, namely 22, was held in the Holalagundi Union. Harpanahalli and Kosgi come next with nineteen meetings each. The average attendance in the various unions continued to slightly improve, being 3·9 (1·5 officials and 2·4 non-officials) against 3·7 (1·3 officials and 2·4 non-officials) in the previous year. No progress was made in the extension of the ward system. Except in the Rayadrug and Siruguppa Unions under the Bellary Taluk Board, where the Panchayatdars were indifferent to its advantages, the system worked well. The private scavenging system was introduced in the Rayadrug and Siruguppa Unions and seems likely to prove a success, as in the Alúr and Yemmiganúr Unions, where it continued to be in force. All the unions under the Adóni and Hospet Taluk Boards worked well, except Hampasagar under the latter since abolished in G.O., No. 994 L., dated 8th May 1899, while the work of the unions under the Bellary Taluk Board was throughout far from satisfactory. A heavy defalcation was during the year discovered in the Rayadrug Union, a detailed report on which was submitted to Government in this office letter, C. R. No. 1559, dated 15th February 1899, and disposed of in G.O., Mis. No. 992 L., dated 8th May 1899. The accounts of the other unions are now being overhauled and stricter supervision is being enforced.

6. *Financial position.*—The subjoined statement compares the receipts and expenditure of the year under report with those of 1897–98:—

	* 1897–98.				1898–99.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Opening Balance	23,624	— 41,017	10,959	— 6,434	25,938	— 13,243	15,311	28,006
Receipts	1,22,782	1,20,704	22,648	2,66,134	1,33,925	93,323	29,419	2,56,667
Allotment from District to Taluk Funds ..	— 3,178	3,178	..	..	..	..	..	..
Allotment from Taluk to Union Funds	..	— 4,735	4,735	..	..	— 1,492	1,492	..
Total ..	1,43,228	78,130	38,342	2,59,700	1,59,863	78,588	46,222	2,84,673
Expenditure ..	1,17,290	91,373	23,031	2,31,694	2,73,421	1,04,247	24,691	4,02,359
Balance ..	25,938	— 13,243	15,311	28,006	—1,13,558	— 25,659	21,531	—1,17,686

* The figures for 1897–98 have been adopted from the finally audited accounts of that year.

7. *District and Taluk Funds.*—Excluding the balances under the Union and Endowment funds, the District Board was left with a deficit of Rs. 1,13,558 and the Taluk Boards with a deficit of Rs. 38,365 at the close of the year. The deficit under District Funds is mainly due to the non-adjustment as yet from Provincial Funds of a large portion of the expenditure incurred from the former on the plague preventive measures, but ordered to be redistributed to the latter in G.O., No. 479, Financial, dated 4th April 1899. It is hoped that the deficit will be wiped off when the above redistribution is effected by the Accountant-General and when credit is taken for the loan of Rs. 52,000 from Imperial Funds provided for in the current year's budget.

An allotment of Rs. 33,500 has been made in the current year's budget in view to balancing the accounts of the Taluk Boards.

8. *Union Funds.*—None of the unions closed with a deficit. The allotment of Rs. 1,492 to union funds shown in the statement above represents the expenditure incurred under lighting charges.

9. *Incidence of Taxation.*—The incidence of Local Fund taxation per head of the population according to the census of 1891 was As. 3-7 including tolls and As. 3-2 excluding them against As. 4-6 and As. 4-1, respectively, in the previous year. The decrease is mainly due to the fact that the receipts under land-cess were less than in the previous year.

II.—Receipts.

10. *Opening balance.*—The year opened with a balance of Rs. 28,006, as audited by the Accountant-General, against a deficit of Rs. 6,434 in the previous year. Excluding debt heads, the actual receipts amounted to Rs. 2,12,713 * against Rs. 2,57,871 * in the previous year. The decrease is mainly due to the reduced income under land-cess.

* The percentages compared in the report are with reference to these figures.

11. *Land-cess.*—The cess continued to be levied at one anna per rupee of the assessment. The total demand including Rs. 25,023 under arrears amounted to Rupees 1,59,182. Rs. 1,36,355 or 86 per cent. of the demand were collected against Rupees 1,87,758 or 87 per cent. of the demand (Rs. 2,16,822) in the previous year. It will be seen that as compared with the previous year the decrease appears only in recoverable arrears, of which there was a larger amount, namely, Rs. 82,581, outstanding for collection at the beginning of that year owing to the unfavourable state of the season in 1896-97. A sum of Rs. 105 was written off as irrecoverable.

12. *Tolls.*—There were thirteen gates as in the previous year. Temporary gates were not opened at Kuruvatti and Mailar during the annual festivals at those places as pilgrimage to the festivals was prohibited by Government owing to the apprehension of a possible outbreak of the plague. There was no change either in the position of the gates or in the rates of tolls collected. All the gates were leased out, fetching Rs. 13,768 in all. The total demand, including arrears, was Rs. 13,880, of which Rs. 13,525 were collected during the year. Excluding Rs. 8 collected in excess on account of the Ujjini gate, the balance at the end of the year was Rs. 363. Of this an amount of Rs. 112 was remitted by the District Board in its resolution No. 9, dated 1st May 1899, in favour of the contractor of the permanent toll-gate at Mailar who had sustained heavy loss owing to the falling off in traffic consequent on the introduction of plague preventive measures. Thus there now remains a balance of Rs. 251 and for this demand notices have been issued. The Adóni and Bellary Municipalities as usual paid to Local Funds quarter and one-third respectively of the tolls realized within their limits, which amounted to Rs. 5,808. The income from all sources of tolls, including Rs. 17, being the interest charged on arrears of kists, and Rs. 8, excess collections, amounted to Rs. 19,350 against 19,040 in the previous year. The aggregate amount formed 9 per cent. of the total revenue against 7 per cent. in the previous year and the net receipts after excluding Rs. 76, being a portion of the expenditure incurred in working the Darogi gate departmentally in the previous year, but paid during the year under report, were equivalent to Rs. 36 per mile of road maintained by the Local Boards and covered nearly 27 per cent. of the total outlay for the upkeep of the roads including charges on account of bridges, culverts, etc., against 29 per cent. in the previous year. The difference between the percentages is due to the increase in expenditure under "Repairs—Communications."

13. *House-tax.*—This tax continued to be levied in all the unions at the maximum rates. There was an arrear, since determined to be Rs. 7,847 (*vide* explanation in the remarks column of statement VII), outstanding at the beginning of the year, which, together with the current demand of Rs. 23,047, raised the total demand to Rs. 30,894. Of this, Rs. 26,716 or 86 per cent. was collected against 73 per cent. in the previous year and against the revised estimate of Rupees 29,600. A sum of Rs. 443 was remitted on account of vacant houses and Rs. 70 were written off as irrecoverable by the Hospet Taluk Board. The collections in all the unions under the Adóni Taluk Board and in the Hadagalli, Kudligi and Kottur Unions under the Hospet Taluk Board were very good, the whole of the demand being realized, and unsatisfactory in the Hirehalu and Rayadrug Unions under the Bellary Taluk Board, where they hardly exceeded 50 per cent. of the demand. The whole of the large arrear balance of Rs. 1,922 (except Rs. 65), and the greater portion of the current balance of Rs. 1,743 appears against the unions under the last named Board, the President of which is being asked to give his personal attention to the matter and take energetic steps towards the realization of the outstandings. Distress warrants were issued in 455 cases against 774 and property was distrained in 350 cases against 323 in the previous year. Property was sold to the value of Rs. 32 in 49 cases, the

figures for 1897-98 being Rs. 25 in 63 cases. The number of houses assessed was 30,110, which is in excess of the number according to the census of 1891. The average incidence per house taxed was As. 12-3 against As. 12 in the previous year, the increase being due to the careful revision of the tax in the unions under the Hospet Taluk Board. Care was taken by the Presidents of Taluk Boards to prevent evasion of the tax.

14. *School Fees.*—The amount realized under this head was Rs. 5,570 against the budget estimate of Rs. 6,240 and the actuals of Rs. 5,551 in the previous year. The decrease under the estimate is due to the temporary closure of a few schools in the Alur and Hospet taluks on account of the prevalence of plague in these taluks.

15. *Sale-proceeds of Books.*—The receipts under this head amounted to Rs. 215 against the estimate of Rs. 250.

16. *Medical—Miscellaneous.*—An amount of Rs. 912 was realized under this head against an estimate of Rs. 1,530 and Rs. 622, the actuals of the previous year. The estimate was too high.

17. *Market rents.*—There were 24 markets under the control of the Taluk Boards as in the previous year, and they were freely resorted to by the public. No fees were collected at Hirehalu and Tekkalakotta. The remaining 22 were leased out for Rs. 5,158, of which Rs. 4,790 were realized, leaving a balance of Rs. 368. Almost the whole of this balance is covered by deposits made by contractors which were not adjusted before the close of the official year. Including the collection of the previous year's arrears Rs. 39, and the interest charged on arrears of kists Rs. 12, the total revenue under this head was Rs. 4,841 against Rs. 5,125 in the previous year and the revised estimate of Rs. 5,150. An amount of Rs. 564 was spent on public works towards the improvement of the markets at Hadagalli, Kanekal, Kosigi, Kottur and Serigeri. Owing to the poor state of the Taluk Funds, the sanction accorded by Government in its order No. 600 L., dated 16th March 1899, to the proposed appropriation for plague charges of the balance standing at the credit of the markets was not acted upon.

18. *Ferry rents.*—The ferries were sold for Rs. 5,130 for the year under report. The amount of contribution due to this district on account of the Hesrur-Sovinahalli ferry, as intimated by the Collector of Dharwar, in the Bombay Presidency, was Rs. 460.

Including the previous year's arrears since determined to be Rs. 141 (*vide* explanations in the remarks column of statement VII) the total demand was Rs. 5,731, of which Rs. 4,852 were collected. Adding to this Rs. 635, the amount remitted, and Rs. 53 collected in 1897-98, the balance outstanding was Rs. 191 for the realization of which steps have been taken. The total income under this head including Rs. 13, being the interest collected on arrears of kists, was Rs. 4,865 against the budget estimate of Rs. 7,300, and the actuals of Rs. 6,013 of the previous year. The decrease, which occurred chiefly under the Hospet Taluk Board, was due to the adoption of plague preventive measures, as a consequence of which certain ferries did not work and remissions had to be given to the contractors, and other ferries fetched comparatively low bids.

19. *Fishery rents.*—The current demand under this head was Rs. 1,783 against Rs. 486 in the previous year and an estimate of Rs. 1,710. Including the arrears of Rs. 54 of the previous year, the total demand was Rs. 1,837, of which Rs. 1,447 were collected. Rs. 54, arrears of the previous year, having been written off as irrecoverable and Rs. 57 out of the current demand having been collected in 1897-98, the balance outstanding was Rs. 279 for the realization of which steps have been taken. The increase in the demand over that of the previous year was due to the more favourable state of the season and keen competition at the sales.

20. *Rents and produce of land.*—The receipts amounted to Rs. 1,236 against Rs. 667 in the previous year and a revised estimate of Rs. 1,010. The increase was due to the prompt steps taken by the Presidents of the Taluk Boards concerned to collect within the year the arrear and current assessments on the inams under their Boards and to the assessment of the dasabandam inam at Halharivi having been made over to the Adóni Taluk Board during the year under report.

21. *Avenues.*—The receipts from this source amounted to Rs. 364 against the actuals of Rs. 672 in the previous year and the estimate of Rs. 700. The decrease is attributed chiefly to want of competition at the sales, but I cannot help thinking that this source of revenue is capable of considerable expansion and shall shortly go carefully into the matter. Of the 1,034 miles of road in charge of the Local Boards, 107 miles against 99 in the previous year were provided with avenues. The number of trees at the beginning of the year was 25,914 and 1,026 were planted against 1,224 that perished during the year. The average number of trees at the end of the year for each mile of road planted was 240 against 262 in the previous year. It is regretted that the number of trees which perished exceeded the number planted. The attention of the Local Fund Engineer will be drawn to this. The condition of the existing trees is on the whole fair. An expenditure of Rs. 2,068 was incurred against Rupees 1,290 in the previous year.

22. *Contribution from Provincial Funds.*—The contributions received on account of education amounted to Rs. 2,349 against Rs. 3,691 in the previous year and the estimate of Rs. 2,470, the decrease being due to the fact that there were no arrears outstanding as in 1897–98. The usual contribution of Rs. 4,700 was drawn from Provincial funds on account of the upkeep of the Ramandrug roads and credit has been taken in the accounts for an amount of Rs. 39,000 as a loan from Imperial funds to meet the plague charges debitable to this district.

III.—EXPENDITURE.

23. The total expenditure of the year exclusive of debt heads was Rs. 3,95,640 * against Rs. 2,23,725 in 1897–98, the increase being chiefly due to the measures adopted for the prevention of plague. The subjoined abstract shows the expenditure under each grant and its proportion to the total outlay as compared with the previous year :—

* The percentages compared in the report are with reference to these figures.

Grants.	Expenditure.		Percentage.	
	1897–98.	1898–99.	1897–98.	1898–99.
	Rs.	Rs.		
Grant 1	1,04,066	1,12,873	47	29
,, 2	33,918	24,027	15	8
,, 3	65,053	2,29,448	29	58
,, 4	4,394	3,796	2	1
,, 5	16,294	15,496	7	4
Total ..	2,23,725	3,95,640	100	100

The large difference in the percentages under each grant is wholly due to the increased expenditure incurred under Grant 3 which includes plague charges.

24. *Grant 1, Public Works.*—The details of expenditure on public works are shown in statement III. The total expenditure on works amounted to Rs. 89,936 against Rs. 74,257 or 97 per cent. of the allotment against 84 per cent. in the previous year. It amounts to 42 per cent. of the year's receipts and 23 per cent. of the total expenditure against 28 per cent. and 33 per cent. respectively in 1897–98 and was incurred by the agencies shown below :—

	Rs.
(1) Local Fund Engineer	87,536
(2) Union Chairmen	1,281
(3) Presidents of the Taluk Boards and Revenue Officers	1,119
Total ..	89,936

25. *New Works—Communications.*—The works originally provided for under this head in the budget were postponed and the amount allotted for them, viz., Rs. 5,400

was reserved to meet plague charges. During the course of the year, however, Rs. 8,815 were allotted by transfer from the maintenance grants for the construction of some much needed culverts on a few important roads, out of which sum Rs. 7,150 or 81 per cent. were spent against Rs. 3,978 in the previous year. The short outlay is attributed to the dilatoriness of the Hadagalli and the Harpanahalli overseers.

26. *Communications—Repairs.*—A sum of Rs. 71,767 or 99 per cent. of the revised grant (Rs. 72,696) was spent against 85 per cent. in 1897–98. It comprises Rs. 50,967 expended by the District Board, Rs. 18,412 by the Taluk Boards and Rs. 2,388 by the Panchayats. Of the 1,034 miles of roads under the charge of the Local Boards, 537 miles were repaired against 500 miles in the previous year. Of the roads repaired, 488 miles were main roads and 49 miles village roads. Excluding the expenditure on culverts, bridges, &c., the cost of repairing the village, taluk and district roads was Rs. 97,101 and 118 respectively per mile against Rs. 56, 74 and 138 in the previous year. No special repairs were executed on any of the roads.

27. The total outlay on roads ("New Works and Repairs") was Rs. 78,917 against Rs. 68,758 or 97 per cent. of the allotment against 84 per cent. in the previous year. The proportion of this expenditure to the net receipts from tolls plus half the receipts from land-cess was 90 per cent., a considerable improvement on the previous year when the percentage was only 61.

28. *Condition of roads.*—Except in the Hadagalli and Hospet taluks, the general condition of the roads in the district may be said to have improved. There are large quantities of famine materials still available for use and arrangements have been made to utilize them in the current year.

29. *Civil buildings.*—Rs. 6,255 were spent under this head against a revised grant of Rs. 6,342. The chief works executed were the completion of the chattram at Hirehalu and of the High School building at Harpanahalli. The latter was re-constructed so as to render it eligible for provincial grants, the last instalment of which was held over by the Director of Public Instruction on account of certain defects in the building. A sum of Rs. 2,511 was spent under repairs against an allotment of Rs. 2,925. The short expenditure is due to small savings under each work executed.

30. *Miscellaneous Public Improvements—New Works.*—The whole of the budget allotment under this head (Rs. 3,650) was set aside to meet plague charges, and a sum of Rs. 185 was spent out of Rs. 191 allotted during the year.

31. *Miscellaneous Public Improvements—Repairs.*—Rs. 2,068 were spent against an allotment of Rs. 1,700. The whole expenditure was incurred on account of avenues, and it exceeded the allotment owing to additional charges incurred in the carriage of water and the raising of mud walls for the protection of young plants.

32. *Local Fund Engineering Establishment.*—The cost of the establishment, including travelling allowances and contingencies, amounted to Rs. 20,215 against Rs. 19,664 or 23 per cent. of the total outlay on works by this agency against 27 per cent. in the previous year. The increase over the maximum limit prescribed by Government is due to short outlay and to the fact that the allotment on works was not sufficiently large. The expenditure on tools and plant (Rs. 1,437) also exceeded the prescribed limit by ·6 per cent. as a set of fresh tools had to be purchased.

33. *Staging Bungalows.*—The Local Boards had under their charge 13 bungalows against 14 in the previous year, as that at Kudligi was handed over to the Public Works Department under G.O., Mis. No. 2344 L., dated 9th December 1898. The rates of fees levied are detailed in the statement X. Rs. 731 were realized against Rs. 816 in the previous year, while the cost of establishments and contingencies was Rupees 1,042 against Rs. 951. The public works charges amounted to Rs. 404. A sum of Rs. 111, inclusive of Rs. 73, the previous year's arrears, was received from the Bellary Municipality as contribution, being half the net expenditure incurred on the Bellary travellers' bungalow. The condition of the bungalows was fair.

34. *Contribution.*—The usual sum of Rs. 160 was contributed to the Adóni Municipality on account of the upkeep of the Local Fund roads lying within its limits.

35. *Grant 2, Education—Inspection.*—There were, as in the previous year, six inspecting schoolmasters employed by the Board. These officers worked under the direct supervision of the Sub-Assistant Inspectors of Schools and their jurisdiction remained unchanged. The number of villages visited fell from 931 to 872, and the number of schools visited and prepared for examination, namely 1,028, remained almost stationary during the year under report. There was an increase in the number of schools opened from 120 in the previous year to 224. The work of this staff was, on the whole, satisfactory. The expenditure under this head amounted to Rs. 3,227 against Rs. 3,501 in the previous year and the estimate of Rs. 3,300.

36. *Sessional Schools.*—Four sessional schools were held at Adóni, Kottur, Kuditani and Rayadrug for three months at each place, and the usual stipend of Rs. 5 was paid to each student. The number of students admitted at these centres was 9, 15, 12 and 16, respectively, of whom 9, 15, 10 and 16 appeared for the Primary School examination and 5, 10, 6 and 14 passed completely. The schools were in charge of an untrained F.A. who has since been replaced by a trained Matriculate. The results of the Rayadrug school were good, while those of the other centres cannot be considered satisfactory. The average cost per student trained was Rs. 16 against Rs. 23 in the preceding year.

37. *Upper Secondary Schools.*—The upper secondary school at Harpanahalle continued to be the only institution of the kind. Its strength on the 31st March last was 79 pupils—31 in the upper secondary department and 48 in the lower secondary department—against 91 in the previous year. The results of the Matriculation examination were again very poor, as only one out of the thirteen candidates sent up for it passed. The results of the Lower Secondary examination, however, were tolerably fair, six pupils passing out of eighteen presented. The upper secondary department was worked at a net cost of Rs. 428 or Rs. 12 per pupil on the average, while the lower secondary department was worked at a profit of Rs. 7, the salary grants from Provincial funds being drawn in time.

38. *Lower Secondary Schools.*—The two lower secondary schools at Hospet and Rayadrug continued to work. The Hospet school had seventeen pupils on its rolls on the 31st March last against seventy in the previous year. The results of the Lower Secondary examination were bad, as only one passed out of thirteen pupils sent up for it. This discreditable state of affairs is attributed to the teaching staff. The headmaster has since resigned and the working of the school under the new headmaster will be closely watched during the current year. This school was worked at a net cost of Rs. 288 against a profit of Rs. 354 in the previous year, the reason for this being that a large amount of arrears of salary grants was drawn in 1897-98. The Rayadrug school had 38 boys on its rolls on 31st March last against 42 in the previous year. The results of the Lower Secondary examination were not good, as out of seven boys presented for it only one passed. The teaching staff has since undergone a change and the school is now in charge of an F.A. The net cost of maintaining this school was Rs. 797 against Rs. 737 in the previous year and the average cost per pupil rose from Rs. 18 to Rs. 21. The attention of the President of the Bellary Taluk Board is being drawn to the fact that the school is not working well and the Taluk Board will be asked to consider the advisability of reducing it to the primary grade if no improvement is shown during the current year.

39. *Primary Schools—Salary System.*—The four primary schools at Hospet, Hadagalli, Harpanahalli and Kotturu continued. On the 31st March last they had 471 boys and 6 girls on their rolls against 537 boys and 16 girls in the previous year. Out of the 60 pupils presented for the Primary School examination, 43 passed. The results obtained in the Hadagalli and Kotturu schools were very good, as all the pupils presented passed. Those obtained in the Harpanahalli school were creditable to the headmaster, eight pupils passing in the first-class out of seventeen, who came out successful, while in the Hospet school they were bad, five pupils only coming out successful out of twenty presented. The net cost of maintaining the upper and lower primary departments was Rs. 605 and Rs 1,162, making an average of Rs. 10 and Rs. 3 per pupil, respectively, against Rs. 8 and Rs. 3 in the previous year. The increase in the average is mainly due to a fall in the strength of the school at Hospet on account of the prevalence of plague at that place.

40. *Salary-result System.*—There were 35 schools at the beginning of the year—three were opened and one closed during the year. On the 31st March last the total strength of these schools was 1,474 boys and 237 girls against 1,524 boys and 221 girls in the previous year. The average attendance rose from 1,592 to 1,646. The net cost of maintenance was Rs. 7,728 against Rs. 7,877, but the average cost of each pupil was Rs. 5 as in the previous year. Of these schools, nine were exclusively for Panchamas and five for Muhammadans and they were attended by 162 boys and 9 girls and 165 boys and 8 girls, against 233 boys and 12 girls and 167 boys and 4 girls in the previous year. All the schools worked well, the Muhammadan school at Hospet and the Panchama school at Alur in particular showing improvement during the year under report.

41. *Aided Schools.*—The number of schools aided by the Local Boards rose from 495 to 547 and of pupils from 10,399 to 11,263. The number of pupils examined for grants was 9,730, of whom 6,307 or 65 per cent. were found qualified for them, the corresponding figures for 1897-98 being 8,982, 5,895 and 66. Out of Rs. 12,780 earned, Rs. 11,157 were passed for payment, of which Rs. 11,125 were paid during the year. The total expenditure including arrear payments amounted to Rs. 11,167 against the budget allotment of Rs. 10,700.

42. *Progress of Education.*—The net expenditure on education was Rs. 25,866 against Rs. 24,915 in the previous year and formed 12 per cent. of the total receipts against 9 per cent. The increase is mainly due to the fact that the receipts were less than in the previous year. The total number of boys and girls under instruction in the Board and aided schools, including 52 sessional school students, was 13,585 against 12,947 or 22 per cent. of the school-going population against 21 per cent. in the previous year.

43. *Grant 3, Medical and Sanitation—Hospitals and Dispensaries.*—The number of hospitals and dispensaries maintained by the Local Boards were five and nine, respectively, as in the previous year and the former contained as previously accommodation for 45 in-patients. The in-patients and out-patients treated were, respectively, 353 and 54,825 in number against 435 and 70,676 in the previous year. The considerable decrease in attendance at all the medical institutions is believed to have been largely due to the plague scare, though the closing of the Kurugodu dispensary for six months and of the dispensaries at Holalagundi, Kanekal and Kotturu at intervals, while the medical subordinates in charge of them were deputed on plague duty affected the returns to a small extent. The number of operations conducted was 1,905 with two deaths against 2,150 with five deaths in the previous year. The expenditure incurred on the maintenance of these institutions, excluding charges on account of the District Medical and Sanitary Officer's establishment, midwives and midwifery pupils, medical pupils, plague and cholera charges was Rs. 22,373 against Rs. 20,702 and the average cost of each patient As. 6-6 against As. 4-8 in the previous year. The increase in the average cost is due to the fall in the number of patients treated and to the increase in the total expenditure which is in turn due to the replacement of a few third-class hospital assistants in charge of dispensaries by men of superior grades and to a larger outlay on medicines and surgical instruments. The general health of the district prior to the outbreak of plague during the second half of the year was good. Plague imported from Guntakal and Gooty made its appearance first at Chippagiri on the 6th September last and spread to Molagavalli, Peddahotur, Tumvagal and Alur in the Alur taluk. The disease, probably brought in from the adjoining Kopbal jaghir of the Hyderabad State, appeared at Hospet on the 9th January last and subsequently at Chitwadgi. Up to the end of the year 270 attacks and 229 deaths had been reported, but there have since been really few cases and the district was practically free at the end of May last. The expenses incurred in connection with the plague including the cost of the preventive measures, which in a frontier district almost surrounded by plague-infected areas were necessarily conducted on a large scale, amounted to Rs. 1,72,205 against Rs. 9,002 in the previous year. Cholera prevailed in a sporadic form in all the taluks of the district except Adóni and caused 617 deaths including those in the Sanduru State and the two municipalities of Adóni and Bellary against 3,135 deaths in the previous year. An amount of Rs. 182 was spent under cholera charges against Rs. 1,149 in the previous year.

44. *Medical Schools and Pupils.*—The female student, who was undergoing training for the apothecary's grade at the Madras Medical College, passed the final examination held in March last. No student has since been sent up for training.

45. *Midwives.*—Each of the medical institutions, except that at Kotturu, had a midwife attached to it. These women attended 1,621 cases of labour against 1,197 or an average of 125 cases each against 92 in the previous year. The average cost per case was Rs. 1-5-8 against Rs. 1-8-9, the total expenditure being Rs. 2,198 against Rs. 1,853 in 1897-98.

46. *Vaccination.*—The vaccine staff remained the same as in the previous year. Vaccination was conducted with lanoline paste supplied from the Mysore Government Vaccine Institute at Bangalore and no animal or human lymph was used. The individual system of working and the reward and fine system referred to in last year's report continued to be in force. The total number of operations performed by the vaccine staff was 28,797, of which 27,303 or 95 per cent. were successful, the corresponding figures for the previous year being 30,838, 28,353 and 92, respectively. Though the quantity of the work turned out suffered, the quality improved. The decrease in the number of cases is attributed to the difficulty experienced in filling up, for want of competent men, the places of several vaccinators who were suspended or dismissed for falsifying their returns. It is also attributed to some extent to the fact that in certain instances the rural population mistook vaccination for inoculation against plague. The average cost of each successful case rose from As. 5-3 to Annas 5-5, the total cost of the department being Rs. 9,266 against Rs. 9,357 in the previous year. The expenditure on lanoline paste was Rs. 1,839 against Rs. 1,888 in the previous year. Medical subordinates performed 784 operations, of which 672 were successful, the corresponding figures for the previous year being 258 and 177. The total number of successful operations performed during the year was 27,975 or 34 per mille of the population against 35 per mille in 1897-98. The number of operations on children under one year of age was 15,175, of which 14,491 were successful; the numbers for 1897-98 were 15,428 and 14,398. The percentage of successful cases to the total number of births registered which was 24,922 was 58 against 64 in the previous year.

47. *Sanitation.*—The expenditure under the different heads of sanitation is shown below and compared with that of the previous year:—

	1897-98.	1898-99.
	Rs.	Rs.
Improvement of water-supply	2,553	1,222
,, village-site	92	1
Scavenging establishment	13,595	15,343
Arrangements at fairs and festivals	445	224
Other sanitary outlay	1,071	1,299

The details of the sanitary operations are given in statement XIV, from which it will be seen that seventeen existing sources of water-supply were repaired and fourteen drinking-water wells were guarded. Scavenging establishments were maintained in twenty unions and in three non-union villages. These establishments were supervised by the Chairman in twelve unions, by sanitary inspectors or Kolkars in eight other unions, by the village headmen in two non-union villages and by the Deputy Tahsildar in the remaining one. Sanitary arrangements were made during fairs and festivals at nine places, the decrease in the expenditure being due to the prohibition by Government of the attendance of pilgrims at several important festivals for fear of the introduction of plague. Four latrines for females were constructed and nine were repaired. The District Medical and Sanitary Officer visited and reported on two villages, his reports being sent to the Presidents of the Taluk Boards concerned for necessary action. The total outlay under this head was Rs. 18,089 against Rs. 17,756 in the previous year and a revised allotment of Rs. 18,390.

48. *Contribution.*—A sum of Rs. 2,433 was contributed to Provincial services against Rs. 1,346 in the previous year. The contribution to the Adóni and Bellary Municipalities for the upkeep of their hospitals amounted to Rs. 1,597 against Rs. 1,661 in 1897-98. The total expenditure under grant 3, inclusive of that incurred on account of plague, was Rs. 2,29,448 or 108 per cent. of the total receipts and 58 per cent. of the total expenditure against 25 per cent. and 29 per cent. in the previous year. The abnormal increase is due to charges incurred on account of plague. The proportion of the expenditure on medical service, vaccination, sanitation and bubonic plague to the total outlay under grant 3 was 12, 4, 8 and 75 per cent. against 54, 14, 27 and 14 per cent. in the previous year.

49. *Grant 4, Public and Charitable Institutions—Markets.*—The establishment and contingent charges of the markets amounted to Rs. 1,041 against Rs. 1,091 in the previous year. A sum of Rs. 564 was spent on public works towards the improvement of the markets, &c.

50. *Choultries.*—The Taluk Boards had 30 choultries under their control and the expenditure incurred, including the cost of repairing seven of them, amounted to Rs. 2,090 against Rs. 946 in the previous year. An amount of Rs. 1,452 was spent on the repairs referred to above. Hence the increase. Bapu Rao's choultry at Hampasagram continued to be the only endowed institution. The income from the lands attached to it was Rs. 143 against Rs. 54 in the previous year and the expenditure incurred on it was Rs. 36.

51. *Dasabandam Inams.*—An amount of Rs. 56 was spent for maintaining water-sheds and other contingencies on the Bellary-Siruguppa road.

52. *Lighting Charges.*—The lighting charges amounted to Rs. 1,564, inclusive of Rs. 72 incurred on lighting the Rayadrug market, against Rs. 1,980 in the previous year. The number of lights remained the same. The total outlay under grant 4 was Rs. 3,796 against Rs. 4,394 in the previous year, the difference being mainly due to the decrease in the lighting and water-shed charges.

53. *Grant 5, Supervision and Management.*—The total outlay under this head amounted to Rs. 15,496 against Rs. 16,294 and formed 7 per cent. of the receipts and 4 per cent. of the expenditure against 6 per cent. and 7 per cent. in 1897-98. The variations under the different minor heads are explained in statement I-B. The non-official members of the Taluk and District Boards were paid travelling allowance at the usual rates as in the previous year.

54. *Law Charges.*—A sum of Rs. 88 was incurred under this head, Rs. 53 by the Adóni Taluk Board and Rs. 35 by the Hospet Taluk Board. The former is covered by Government sanction, while the latter is not. The President of the Hospet Taluk Board is again being addressed in the matter.

55. The accounts of the department from January to December 1898 were examined by the Inspector of Local Fund Accounts who brought to light several defects in the Local Fund Engineer's office and remarked that its work was far from satisfactory. Necessary steps will be taken to rectify the defects and to avoid their recurrence.

56. This administration report was placed before the District Board on the 8th instant and a copy of its resolution accompanies.* The District Medical and Sanitary Officer's report as well as the statements forwarded by the Educational authorities are herein * enclosed.

* Will follow with the statements by separate packet.

Enclosure.

Medical Administration Report of the District of Bellary for the official year 1898-99—*vide* G.O., No. 735, Public, dated 2nd October 1894, C.B. No. 213.

Public Health.—The general health of the district, until the outbreak of plague during the latter part of the year, compares favourably with that of the previous years. Plague imported from Guntakal and Gooty made its appearance in several villages of the Alur taluk, the first case occurred at Chippagiri on the 6th September, from this village it spread to Mollagavalli, Peddakottur, Tharvagal, Chinnakottur, Marcutta and Alur town. A complete ambulance staff was employed to segregate the sick and contacts, treat cases, supervise evacuation and disinfection of the towns

and villages. Plague also appeared in Hospet on the 9th January 1899 and subsequently at Chitwadigi and is said to have been imported from the Bombay Presidency. I visited Hospet almost immediately after the outbreak and attended a meeting of the principal inhabitants and impressed upon them the necessity of immediate evacuation; they readily agreed and within a short time every one was in the fields. The additional medical officer, the ambulance staff and two medical subordinates were sent out to segregate the sick and supervise the disinfection of the town. The work being so indifferently carried out, the Collector considered it advisable to depute an Assistant Collector to personally superintend the disinfection and to have the houses which were supposed to have been disinfected re-done. The medical officer of the Hospet railway inspection station had plenty of accommodation in his hospital, and as he was willing to treat the cases, provided he had a small extra establishment, it was not considered necessary to go to the extra expense of building sheds. A few private hospitals were erected at Hospet by the people for the various castes. Disinfection in all towns and villages, except at Hospet, was done by sepoys under a British officer in a most efficient manner. Since the outbreak there have been 231 attacks and 195 deaths in the Alur taluk and 66 attacks and 63 deaths in the Hospet taluk. There were four deaths in the Bellary Municipality—all occurring in recent arrivals from Bangalore and Hospet in November 1898 and March 1899. In the Adóni Municipality there were two attacks and two deaths in January 1899. Inoculation was successfully carried out, 3,263 people submitted to the operation. The district was declared under observation under G.O., No. 936, dated 26th August 1898. Observation circles were formed and a special staff entertained. Later it was considered necessary to increase the number of circles, and at the end of the year there were 21 road frontier stations each in charge of medical subordinates and 53 observation circles with 12 supervisors, 53 circle inspectors and 15 assistant inspectors. In addition to the above, two ambulance staffs were formed in September 1898 and one in January 1899; they were employed in the several infected villages. An additional medical officer was appointed to the district in April 1898.

Other Epidemics—Cholera.—Six hundred and seventeen deaths are ascribed to cholera as against 3,135 in the preceding year. It mostly prevailed in the western taluks in a sporadic form. The following taluks were affected: Hospet 20 deaths in March 1899; Hadagalli 63 in May and July 1898 and March 1899; Harpanahalli 320 in April to June and August 1898 and February and March 1899; Kúdligi 81 in July to September 1898 and February and March 1899; Rayadrug 86 in December 1898 and January 1899; Alur 12 in February 1899; Bellary 27 in December 1898 and January and March 1899. In the Bellary town there were four deaths in January and February 1899. The Adóni town was quite free. Sanduru returned four cases in February and March 1899. Preventive measures were adopted and the progress of the disease was arrested.

Small-pox.—Three hundred and ninety-four deaths occurred as against 418 of the previous year. It prevailed in an epidemic form throughout the year in the district including the municipal towns of Bellary and Adóni; in these places, however, there were no deaths.

Fevers—prevailed more or less in an epidemic form all over the district during the whole twelve months; the number of deaths recorded was 5,758 as against 12,450 of last year. Influenza which is included under the head of fevers has, from time to time, re-appeared and has been followed by serious complications.

2. *Vital Statistics.*—The death-rate for the district including the Municipalities and the Sanduru State was 23·2 against 31·2, the preceding year; this decrease may be attributed to the very few deaths reported from cholera, small-pox and fevers. The death-rate recorded for the district alone excluding Municipalities and Sanduru State was 22·2 as against 30·3, the previous year. That for the Bellary town was 33·8 against 40·7; Adóni 27·3 against 37·0; and Sanduru State 26·4 against 28·8. In the district and municipalities there has been an increase of 3,000 births as compared with last year, and the birth-rate 31·2 as against 27·9. Excluding Municipalities

and Sanduru State, the birth-rate was 30·6 as against 27·6; that for the Bellary town 31·7 as against 26·9; Adóni town 49·2 as against 35·5; and the Sanduru State 28·8 as against 28·8 of the preceding year.

Judging from the figures, the registration of vital statistics has improved.

3. *Sanitation.*—There was a decided improvement in sanitation, due to stringent instructions having been issued to the plague staff to attend to the cleanliness of the villages and their surroundings, and also to the thorough cleansing and disinfection of all towns and villages infected with plague. Drinking-water, as usual, was obtained from tanks and wells. Great care was taken to prevent the several sources from contamination by employing watchmen to guard them. The number of watchmen should be increased.

4. *Vaccination.*—Lanoline paste obtained from Bangalore, sanctioned in G.O., No. 597, Local and Municipal, dated 27th March 1896, was used during the year with satisfactory results. Better progress has been shown in the vaccine operations conducted by medical subordinates according to G.O., Nos. 1657, 1657-A L., dated 30th August 1897. The total number of successful operations performed was 1,861.

There was no alteration in the sanctioned scale of the vaccination establishment. 28,797 cases were conducted (19,161 in the Bellary and 9,636 in the Harpanahalli ranges) as against 30,838 cases (19,872 in the Bellary range and 10,966 in the other range) of the preceding year. There was a decrease of 2,041 cases, of which 711 were in the Bellary range and 1,330 in the other range. The decrease in the Bellary range is due to the suspension and dismissal of several vaccinators and their places being vacant for some months for want of competent men. In the Harpanahalli range the decrease is attributable to similar causes and to the Deputy Inspector being ill and his place filled temporarily by a first-class vaccinator. Some of the vaccinators detected falsifying their returns were dismissed. Steps are now being taken to appoint more efficient men and I trust next year's results will be more satisfactory. The number of successful cases was 27,303 as against 28,353 of the preceding year, the successful percentage being 94·80 as against 91·94. The total cost of vaccine department was Rs. 9,265-3-6 as against Rs. 9,357-11-2 of the previous year.

The average cost of each successful case was As. 5-5 as against As. 5-3 in the preceding year. The number of vaccine operations performed on subjects under one year of age was 14,731 and the number returned as successful 14,101 as against 15,428 with 14,398 as successful in the previous year. Much progress cannot be expected in infantile vaccination until the unprotected registers are properly kept.

5. *Hospitals and Dispensaries—(a) Nature and sufficiency of Accommodation.*—As in the preceding year, there were five Local Fund hospitals with accommodation for in-patients as shown below:—

		Number of beds.
Local Fund hospital,	Hospet	10
Do.	Harpanapalli	8
Do.	Rayadrug	11
Do.	Alur	6
Do.	Yammiganur	10
	Total	45

The building of Sirugappah dispensary was formerly the Deputy Tahsildar's katcherry. It is badly ventilated and the accommodation is insufficient. The alteration of the existing building or the construction of a new one is necessary, some slight repairs and alterations for the other institutions are noted in the reports of the Taluk Boards.

(*b*) *State of Repair of Buildings.*—With the exception of Kavakal, all other institutions are in good repair.

(*c*) *State of Repairs of Furniture.*—Good.

(*d*) *Number of patients treated as compared with the previous year.*—During the year under report, the number of patients treated in the five hospitals and nine dispensaries was 353 in-patients and 54,825 out-patients as against 435 in and 70,676

out patients of the preceding year. The plague scare and consequent restrictions had much to do with the considerable decrease in attendance and also the closing of Kurugodu dispensary for 6 months and Kóttúru, Kollagundy and Kanakal dispensaries at intervals to provide medical aid in plague work.

(*e*) *Mortality and actual causes of it.*—There were 19 deaths among in and 44 deaths among out patients from the following causes: fevers, dysentery, diseases of circulatory, generative systems and respiratory organs.

(*f*) *Operations and Results.*—There were 1,905 operations performed during the year under report with 2 deaths as against 2,150 with 5 deaths in the previous year. The decrease is due to the temporary closing of four dispensaries and to the prevalence of plague in the district.

(*g*) *Establishment, whether sufficient and efficient.*—It is sufficient and efficient.

(*h*) *Midwives' work actually done.*—Thirteen midwives were employed; all dispensaries having one except Kóttúru. They conducted 1,621 cases as against 1,197 in the preceding year. The midwife at Kúdligi died on 25th March 1899 and steps were taken to fill up the vacancy.

(*i*) The dispensary for caste and gosha women.—*Nil.*

(*j*) *General Remarks.*—Number of villages inspected by the District Medical and Sanitary Officer and reported on two. Those inspected but not reported on 11. Captain C. L. Williams, I.M.S., acted as District Medical and Sanitary Officer from the 1st April to 30th October 1899, being relieved by Major J. W. Evans, I.M.S., the permanent incumbent, and when this latter officer was transferred to Trivandrum on the 30th November, Dr. Illingworth, additional Medical officer was in charge until my arrival on the 6th January 1899. Captain Williams being in an indifferent state of health, he was unable to tour much in the district; consequently he practically did scarcely any inspection work. Prior to my arrival, the additional Medical officer is stated to have visited several of the institutions, but placed nothing on record regarding them. I have, since my arrival early in January 1899, inspected two hospitals and one dispensary and also visited every village and town infected with plague. I regret to say that Dr. Illingworth, the additional Medical officer, since I took over charge of the district, has been of little or no assistance to me, he is not a willing worker, is unreliable and has not carried out the duties entrusted to him especially when on plague duty in Hospet and Alur.

Bellary, 30*th May* 1899. (Signed) R. PEMBERTON, Lieut.-Col., I.M.S., *Ag. Dist. Medl. and Sany. Officer, Bellary.*

From E. A. ELWIN, Esq., Collector and President, District Board, Bellary, to the Secretary to Government, Local and Municipal Department, dated 25th July 1899, C.R. No. 1201.

In continuation of this office Dis. No. 388, dated 14th July 1899, submitting the administration report of the District Board for 1898–99, I have the honour to furnish the following information and revised figures for incorporation in the report:—

(1) Result grants to the Local Fund schools under the Hospet Taluk Board were paid at the maximum rates.

(2) Details for the contribution from private individuals under VI. Public Works (1-A) are—

(*a*) Rupees 24 by the villagers of Yerraingligi, Bellary taluk, for the construction of a well for the Madigas.

(*b*) Rupees 93 by the villagers of Nagardona, Adóni taluk, for the repair of a choultry.

(*c*) Rupees 40 by the villagers of Ananthasenagudi for the construction of a road.

(3) The strength on the 31st March 1899 of the nine Panchama and the five Muhammadan schools was 162 boys and 9 girls and 165 boys and 12 girls, respectively, and not 117 boys and 8 girls and 119 boys and 7 girls, as reported in paragraph 40 of the report.

(4) In the statement showing the financial portion (paragraph 6 of the report), the allotment from the District to Taluk funds of 1897–98 is Rs. 3,178 and not Rs. 3,180 as entered therein. So also receipts of that year under the District and Taluk funds are Rs. 1,22,782 and Rs. 1,20,704 and not Rs. 1,22,784 and Rs. 1,22,702, respectively.

(5) Net cost of the salary-result schools was Rs. 7,728 and not Rs. 7,729 as entered in paragraph 40 of the report.

Order—No. 1711 L., dated 25th August 1899.

The Local Fund receipts and charges of the Bellary district for 1898–99 are compared below with the budget and revised estimates for the year and the actuals of 1897–98:—

	Actuals, 1897–98.	Budget estimate, 1898–99.	Revised estimate, 1898–99.	Actuals, 1898–99.

2. *Local Boards and Union Panchayats.*—The District Board met nine times against eleven in the previous year. There was a decline in the average attendance of members, which was indifferent in the case of officials, but fair in that of non-officials. The Taluk Boards of Bellary and Adóni met a sufficient number of times; but that of Hospet met only ten times owing, it is stated, to want of subjects for discussion. The attendance of their members, except in the case of non-officials on the Hospet Board, was fair. The working of these Boards is reported to have been fairly satisfactory. As in the previous year, twenty Union Panchayats were at work and they met on an average thirteen times each against fifteen. Those of Kanékallu, Kudatini, Rayadrug, Hadagalli, Hampaságaram, Hospet and Kóttúru, however, failed to meet once a month, as required by section 129 of the Local Boards Act. In the case of the last-named Panchayat this irregularity has been noticed by Government for the third year in succession. It is stated that the Presidents of the Taluk Boards concerned are being asked to take steps to prevent the recurrence of this irregularity. The attendance of the Panchayatdars continued to be fair, being four out of an average strength of six. The ward system of supervision which was in force in eight Unions is stated

to have worked well in all of them except Rayadrug and Siruguppa where the Panchayatdars were indifferent to its advantages. All the Panchayats under the Adóni and Hospet Taluk Boards except the one at Hampaságaram, which has since been abolished under G.O., No. 994 L., dated 8th May 1899, are reported to have worked well, while the working of the Panchayats under the Bellary Board was far from satisfactory.

3. *Receipts.*—(1) Owing to a decrease in the arrears at the beginning of the year, the demand under land-cess fell from Rs. 2,16,822 to Rs. 1,59,182 and the collections amounted to 86 per cent. of the demand against 87 per cent. in the previous year.

(2) The receipts from tolls amounted to Rs. 13,517 against Rs. 13,638 in 1897-98, the decrease being due chiefly to temporary gates not having been opened at Kuruvatti and Mylar during the annual festivals at those places and to the falling off in traffic consequent on the introduction of plague preventive measures.

(3) House-tax was again levied at the maximum rates in all the Unions in the district. The collections under this head rose from Rs. 20,948 or 73 per cent. of the demand to Rs. 26,716 or 86 per cent., the increase being due chiefly to the realization of a greater portion of the arrears outstanding at the beginning of the year. The current collections were good in all the Unions under the Adóni and Hospet Taluk Boards, with the exception of Hospet and Kampli, nearly the whole of the demand having been realized, but unsatisfactory in Haréhalu where more than 40 per cent. of the demand remained unadjusted. Four hundred and fifty-five warrants were issued for the collection of this tax against 774 in the previous year, the amount involved being Rs. 316; but property was distrained in 350 cases and sold only in 49 cases for Rs. 32.

(4) There were again 24 markets under the control of the Taluk Boards and fees were levied in all but two of them. The receipts from this source fell from Rs. 5,125 to Rs. 4,841; but the balance in their favour at the end of the year again rose from Rs. 6,188 to Rs. 9,424. This is not satisfactory, and every endeavour should be made to reduce this amount in the current year.

(5) Owing to want of competition at the sales, the income from avenues fell from Rs. 672 to Rs. 364; but the number of trees newly planted rose from 877 to 1,026, while the number of trees which perished exceeded the number planted by 198. The condition of the existing trees is reported to have been on the whole fair.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head amounted to Rs. 89,936 or 97 per cent. of the allotment against Rs. 74,257 or 84 per cent. in 1897-98 and the outlay on communications was also 97 per cent. of the allotment against 84 per cent. in that year, but it was only 90 per cent. of the minimum prescribed by Government. Village roads received more attention than in the preceding year, the expenditure thereon being Rs. 4,750 or 7·9 per cent. of the total outlay on roads against Rs. 3,358 or 5·8 per cent. Except in the Hadagalli and Hospet taluks, the general condition of the roads is stated to have somewhat improved. The cost of the Local fund engineering establishment was 23 per cent. of the outlay on works executed by that agency and that of tools and plant 1·6 per cent. against 27 and 1·5 per cent., respectively, in 1897-98, the increase over the maximum limits prescribed by Government being in the former case attributed to the short outlay and to the allotment for works not having been sufficiently large and in the latter to the purchase of a set of fresh tools.

(2) *Education.*—As in the previous year, the District Board employed six inspecting schoolmasters and the work done by them is reported to have been on the whole satisfactory. The Board continued to maintain four Sessional schools in which 52 students were trained. Of these 50 appeared for and 35 passed the primary examination. Of the 595 teachers employed in the Boards' and aided schools, as many as 113 were entirely unqualified. This is unsatisfactory. More effective measures should be taken to increase the number of trained teachers. One high and two Lower Secondary schools were again maintained by the Taluk Boards and the number of students that attended these schools fell from 203 to 134. From the Upper Secondary school at Harpanahalli 13 students were presented for the

but only one was successful. From this and the two Lower Secondary schools at Rayadrug and Hospet, 38 students appeared for the Lower Secondary examination, and 8 of them passed. There were 41 Boards' Primary schools attended by 2,188 pupils against 39 schools with 2,298 pupils in the previous year, and only 59 per cent. of the pupils presented for the several standard examinations were successful against 77 per cent. Nine of these institutions were set apart for Panchamas and five for Muhammadans and they were attended by 171 and 177 pupils, respectively. All these schools are reported to have worked well. In addition to these, 547 schools attended by 11,263 pupils were aided by the Local Boards with result grants against 495 schools with 10,399 pupils in 1897–98, and 65 per cent. of the pupils examined were found qualified for grants against 66 per cent. in that year. The total number of boys under instruction in the Board and aided schools was 21·2 per cent. of the male population of school-going age against 20·1 per cent. in the previous year.

(3) *Medical Relief.*—There were again five hospitals and nine dispensaries under the control of the Taluk Boards; but the number of patients treated in them fell from 71,111 to 55,178, the decrease being stated to have been largely due to the plague scare and to some extent to the closure of some of the dispensaries at intervals while the medical subordinates in charge were deputed to plague duty. As in the previous year, thirteen midwives were employed by the Taluk Boards and they attended in all 1,621 cases of labour or an average of ten each per mensem against 1,197 and eight, respectively, in 1897–98. The female student who was undergoing training for the apothecary grade in the Madras Medical College at the cost of the District Board passed the final examination held in March 1899. The attention of the President of the Bellary Taluk Board is drawn to the remarks of the District Medical and Sanitary Officer in paragraph 5 of his report regarding the insufficiency of accommodation in the building of the Siruguppa dispensary.

(4) *Vaccination.*—The total number of vaccine operations performed during the year was 29,581, of which 27,975 or 95 per cent. were successful, the corresponding figures for the previous year being 31,096, 28,530 and 92 per cent. The decrease in the number of operations is attributed to the difficulty in filling up, for want of competent men, the places of several vaccinators who were suspended or dismissed for falsifying their returns and to some extent to the rural population mistaking vaccination for inoculation against plague. Infantile vaccination made no advance, the number of children under one year successfully vaccinated being as in the previous year 17·7 per mille of the total population. The necessary steps should be taken to effect an improvement in this branch of the administration, for which there is much scope.

(5) *Sanitation.*—The expenditure under this head amounted to Rs. 18,089 against Rs. 17,756 in the preceding year, but it was 98 per cent. of the allotment against 103 per cent. Seventeen existing sources of water-supply were repaired and fourteen watchmen were employed to guard these sources against 37 and 17, respectively, in 1897–98. Twenty Unions and three other villages were provided with conservancy establishments against twenty and one, respectively, in the previous year and these are reported to have been properly supervised. The private scavenging system which continued to be in force in the Alúr and Yemmiganúru Unions was, during the year under review, introduced in the Rayadrug and Siruguppa Unions, where it is expected to prove a success as in the first two cases. The District Medical and Sanitary Officer visited thirteen villages and reported only on two of them. The attention of the Presidents of the Taluk Boards concerned is drawn to the remarks in paragraph 3 of his report regarding the necessity for increasing the number of tank and well watchmen.

(6) *Bubonic Plague.*—One railway and 21 road frontier inspection stations were established and the expenditure incurred on plague preventive measures amounted to Rs. 1,72,205 against Rs. 9,002 in the previous year.

(7) *Miscellaneous.*—It is observed from paragraph 54 of the report that an expe[illegible] was incurred by the Hospet Taluk Board on account of law [illegible] Government. This should now be obtained.

5. *General Remarks.*—The year closed with a deficit of Rs. 1,17,686, being the net result of a deficit of Rs. 1,51,923 under general funds and a balance of Rs. 21,531 under Unions and Rs. 12,706 under endowed institutions. This large deficit is attributed to the non-adjustment from Provincial funds of the expenditure incurred on plague preventive measures and it is hoped that it will be wiped off when the adjustment is effected and credit is taken for the loan of Rs. 52,000 from Imperial funds provided for in the current year's budget.

The administration of local affairs during the year under review continued to be on the whole satisfactory; but vaccination demands increased attention.

AUGUST.

Administration Report.

Reviewing the — of the Bellary District Board for 1898-99.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following paper :—

From E. A. ELWIN, Esq., Collector and President, District Board, Bellary, to the Secretary to Government, Local and Municipal Department, dated 14th July 1899, Dis. No. 388.

I have the honour to submit the report on the administration of Local Funds in this district for the year 1898–99.

I.—GENERAL.

2. There were, as in the previous year, three Taluk Boards and twenty Unions and their constitution and area remained unaltered.

3. *District Board.*—There were 35 members on the District Board at the end of the year against the sanctioned strength of 36. Of these 35, three were ex-officio, fifteen nominated and seventeen elected members. Six of the nominated and eight of the elected members were officials. Seven vacancies occurred among the nominated members, and all of them were filled up before the close of the year. Nine vacancies occurred among the elected members, of which eight were filled up before, and the ninth soon after, the close of the year. The elective seats on the District Board were distributed among the three Taluk Boards as in past years. The District Board met nine times against eleven times in the previous year. A quorum was invariably secured, and the average attendance at each meeting was nineteen (eight officials and eleven non-officials) against twenty (seven officials and thirteen non-officials) or 54 per cent. against 62 per cent. of the actual strength in the previous year.

4. *Taluk Boards.*—The three Taluk Boards were up to their full strength of 42 members on the last day of the year. Of these, fourteen were officials and 28 non-officials. Twenty-seven vacancies occurred, and all of them were filled up within the year. Thirty-five meetings were held against 36 in the previous year. The Hospet Taluk Board met but ten times and the reason assigned for non-compliance with the rule that Taluk Boards should meet at least once a month is that there was an insufficiency of subjects for discussion. The President's attention is being drawn to the fact that no departure from the above rule can be permitted. No meeting was postponed for want of a quorum. The average attendance was seven (two officials and five non-officials) against eight (two officials and six non-officials) or 50 per cent. against 62 per cent. in the previous year. The falling off in the attendance of non-officials was probably due to the enforcement of the plague regulations. The working of the Taluk Boards was fairly satisfactory.

5. *Unions.*—The sanctioned strength of the Union Panchayats was 113 and the actual strength on the 31st March was 112, of whom 24 were ex-officio, being village Reddis, fourteen other officials and 74 non-officials. The Panchayats held in all 258 meetings against 300, an average of thirteen meetings against fifteen in the previous year. The Kanekallu, Kudatini and Rayadrug Panchayats under the Bellary Taluk Board and the Hadagalli, Hampasagar, Hospet and Kotturu Panchayats under the Hospet Taluk Board failed to meet once a month. In the case of Hospet, the prevalence of plague constitutes, perhaps, a valid excuse for their failure, but the neglect of the rule on the subject in the other six unions is unsatisfactory. The Presidents of the

Taluk Boards concerned are being asked to adopt such measures as will prevent the recurrence of the irregularity. The largest number of meetings, namely 22, was held in the Holalagundi Union. Harpanahalli and Kosgi come next with nineteen meetings each. The average attendance in the various unions continued to slightly improve, being 3·9 (1·5 officials and 2·4 non-officials) against 3·7 (1·3 officials and 2·4 non-officials) in the previous year. No progress was made in the extension of the ward system. Except in the Rayadrug and Siruguppa Unions under the Bellary Taluk Board, where the Panchayatdars were indifferent to its advantages, the system worked well. The private scavenging system was introduced in the Rayadrug and Siruguppa Unions and seems likely to prove a success, as in the Alúr and Yemmiganúr Unions, where it continued to be in force. All the unions under the Adóni and Hospet Taluk Boards worked well, except Hampasagar under the latter since abolished in G.O., No. 994 L., dated 8th May 1899, while the work of the unions under the Bellary Taluk Board was throughout far from satisfactory. A heavy defalcation was during the year discovered in the Rayadrug Union, a detailed report on which was submitted to Government in this office letter, C. R. No. 1559, dated 15th February 1899, and disposed of in G.O., Mis. No. 992 L., dated 8th May 1899. The accounts of the other unions are now being overhauled and stricter supervision is being enforced.

6. *Financial position.*—The subjoined statement compares the receipts and expenditure of the year under report with those of 1897–98 :—

—	1897–98.*				1898–99.			
	District funds.	Taluk funds.	Union funds.	Total.	District funds.	Taluk funds.	Union funds.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.

Receipts	1,22,782	1,20,704	22,648	2,66,134	1,33,925	93,323	29,419	2,56,667
Allotment from District to Taluk Funds .	— *3,178*	3,178	..	..	..	..	..	..
Allotment from Taluk to Union Funds	..	— *4,735*	4,735	..	..	— *1,492*	1,492	..
Total ..	1,43,228	78,130	38,342	2,59,700	1,59,863	78,588	46,222	2,84,673
Expenditure ..	1,17,290	91,373	23,031	2,31,694	2,73,421	1,04,247	24,691	4,02,359
Balance ..	25,938	— *13,243*	15,311	28,006	—*1,13,558*	— *25,659*	21,531	—*1,17,686*

* The figures for 1897–98 have been adopted from the finally audited accounts of that year.

7. *District and Taluk Funds.*—Excluding the balances under the Union and Endowment funds, the District Board was left with a deficit of Rs. 1,13,558 and the Taluk Boards with a deficit of Rs. 38,365 at the close of the year. The deficit under District Funds is mainly due to the non-adjustment as yet from Provincial Funds of a large portion of the expenditure incurred from the former on the plague preventive measures, but ordered to be redistributed to the latter in G.O., No. 479, Financial, dated 4th April 1899. It is hoped that the deficit will be wiped off when the above redistribution is effected by the Accountant-General and when credit is taken for the loan of Rs. 52,000 from Imperial Funds provided for in the current year's budget.

An allotment of Rs. 33,500 has been made in the current year's budget in view to balancing the accounts of the Taluk Boards.

8. *Union Funds.*—None of the unions closed with a deficit. The allotment of Rs. 1,492 to union funds shown in the statement above represents the expenditure incurred under lighting charges.

9. *Incidence of Taxation.*—The incidence of Local Fund taxation per head of the population according to the census of 1891 was As. 3-7 including tolls and As. 3–2 excluding them against As. 4–6 and As. 4–1, respectively, in the previous year. The decrease is mainly due to the fact that the receipts under land-cess were less than in the previous year.

II.—RECEIPTS.

10. *Opening balance.*—The year opened with a balance of Rs. 28,006, as audited by the Accountant-General, against a deficit of Rs. 6,434 in the previous year. Excluding debt heads, the actual receipts amounted to Rs. 2,12,713 * against Rs. 2,57,871 * in the previous year. The decrease is mainly due to the reduced income under land-cess.

* The percentages compared in the report are with reference to these figures.

11. *Land-cess.*—The cess continued to be levied at one anna per rupee of the assessment. The total demand including Rs. 25,023 under arrears amounted to Rupees 1,59,182. Rs. 1,36,355 or 86 per cent. of the demand were collected against Rupees 1,87,758 or 87 per cent. of the demand (Rs. 2,16,822) in the previous year. It will be seen that as compared with the previous year the decrease appears only in recoverable arrears, of which there was a larger amount, namely, Rs. 82,581, outstanding for collection at the beginning of that year owing to the unfavourable state of the season in 1896–97. A sum of Rs. 105 was written off as irrecoverable.

12. *Tolls.*—There were thirteen gates as in the previous year. Temporary gates were not opened at Kuruvatti and Mailar during the annual festivals at those places as pilgrimage to the festivals was prohibited by Government owing to the apprehension of a possible outbreak of the plague. There was no change either in the position of the gates or in the rates of tolls collected. All the gates were leased out, fetching Rs. 13,768 in all. The total demand, including arrears, was Rs. 13,880, of which Rs. 13,525 were collected during the year. Excluding Rs. 8 collected in excess on account of the Ujjini gate, the balance at the end of the year was Rs. 363. Of this an amount of Rs. 112 was remitted by the District Board in its resolution No. 9, dated 1st May 1899, in favour of the contractor of the permanent toll-gate at Mailar who had sustained heavy loss owing to the falling off in traffic consequent on the introduction of plague preventive measures. Thus there now remains a balance of Rs. 251 and for this demand notices have been issued. The Adóni and Bellary Municipalities as usual paid to Local Funds quarter and one-third respectively of the tolls realized within their limits, which amounted to Rs. 5,808. The income from all sources of tolls, including Rs. 17, being the interest charged on arrears of kists, and Rs. 8, excess collections, amounted to Rs. 19,350 against 19,040 in the previous year. The aggregate amount formed 9 per cent. of the total revenue against 7 per cent. in the previous year and the net receipts after excluding Rs. 76, being a portion of the expenditure incurred in working the Darogi gate departmentally in the previous year, but paid during the year under report, were equivalent to Rs. 36 per mile of road maintained by the Local Boards and covered nearly 27 per cent. of the total outlay for the upkeep of the roads including charges on account of bridges, culverts, etc., against 29 per cent. in the previous year. The difference between the percentages is due to the increase in expenditure under "Repairs—Communications."

13. *House-tax.*—This tax continued to be levied in all the unions at the maximum rates. There was an arrear, since determined to be Rs. 7,847 (*vide* explanation in the remarks column of statement VII), outstanding at the beginning of the year, which, together with the current demand of Rs. 23,047, raised the total demand to Rs. 30,894. Of this, Rs. 26,716 or 86 per cent. was collected against 73 per cent. in the previous year and against the revised estimate of Rupees 29,600. A sum of Rs. 443 was remitted on account of vacant houses and Rs. 70 were written off as irrecoverable by the Hospet Taluk Board. The collections in all the unions under the Adóni Taluk Board and in the Hadagalli, Kudligi and Kottur Unions under the Hospet Taluk Board were very good, the whole of the demand being realized, and unsatisfactory in the Hirehalu and Rayadrug Unions under the Bellary Taluk Board, where they hardly exceeded 50 per cent. of the demand. The whole of the large arrear balance of Rs. 1,922 (except Rs. 65), and the greater portion of the current balance of Rs. 1,743 appears against the unions under the last named Board, the President of which is being asked to give his personal attention to the matter and take energetic steps towards the realization of the outstandings. Distress warrants were issued in 455 cases against 774 and property was distrained in 350 cases against 323 in the previous year. Property was sold to the value of Rs. 32 in 49 cases, the

figures for 1897–98 being Rs. 25 in 63 cases. The number of houses assessed was 30,110, which is in excess of the number according to the census of 1891. The average incidence per house taxed was As. 12–3 against As. 12 in the previous year, the increase being due to the careful revision of the tax in the unions under the Hospet Taluk Board. Care was taken by the Presidents of Taluk Boards to prevent evasion of the tax.

14. *School Fees.*—The amount realized under this head was Rs. 5,570 against the budget estimate of Rs. 6,240 and the actuals of Rs. 5,551 in the previous year. The decrease under the estimate is due to the temporary closure of a few schools in the Alur and Hospet taluks on account of the prevalence of plague in these taluks.

15. *Sale-proceeds of Books.*—The receipts under this head amounted to Rs. 215 against the estimate of Rs. 250.

16. *Medical—Miscellaneous.*—An amount of Rs. 912 was realized under this head against an estimate of Rs. 1,530 and Rs. 622, the actuals of the previous year. The estimate was too high.

17. *Market rents.*—There were 24 markets under the control of the Taluk Boards as in the previous year, and they were freely resorted to by the public. No fees were collected at Hirehalu and Tekkalakotta. The remaining 22 were leased out for Rs. 5,158, of which Rs. 4,790 were realized, leaving a balance of Rs. 368. Almost the whole of this balance is covered by deposits made by contractors which were not adjusted before the close of the official year. Including the collection of the previous year's arrears Rs 39, and the interest charged on arrears of kists Rs. 12, the total revenue under this head was Rs. 4,841 against Rs. 5,125 in the previous year and the revised estimate of Rs. 5,150. An amount of Rs. 564 was spent on public works towards the improvement of the markets at Hadagalli, Kanekal, Kosigi, Kottur and Serigeri. Owing to the poor state of the Taluk Funds, the sanction accorded by Government in its order No. 600 L., dated 16th March 1899, to the proposed appropriation for plague charges of the balance standing at the credit of the markets was not acted upon.

18. *Ferry rents.*—The ferries were sold for Rs. 5,130 for the year under report. The amount of contribution due to this district on account of the Hesrur-Sovinahalli ferry, as intimated by the Collector of Dharwar, in the Bombay Presidency, was Rs. 460.

Including the previous year's arrears since determined to be Rs. 141 (*vide* explanations in the remarks column of statement VII) the total demand was Rs. 5,731, of which Rs. 4,852 were collected. Adding to this Rs. 635, the amount remitted, and Rs. 53 collected in 1897–98, the balance outstanding was Rs. 191 for the realization of which steps have been taken. The total income under this head including Rs. 13, being the interest collected on arrears of kists, was Rs. 4,865 against the budget estimate of Rs. 7,300, and the actuals of Rs. 6,013 of the previous year. The decrease, which occurred chiefly under the Hospet Taluk Board, was due to the adoption of plague preventive measures, as a consequence of which certain ferries did not work and remissions had to be given to the contractors, and other ferries fetched comparatively low bids.

19. *Fishery rents.*—The current demand under this head was Rs. 1,783 against Rs. 486 in the previous year and an estimate of Rs. 1,710. Including the arrears of Rs. 54 of the previous year, the total demand was Rs. 1,837, of which Rs. 1,447 were collected. Rs. 54, arrears of the previous year, having been written off as irrecoverable and Rs. 57 out of the current demand having been collected in 1897–98, the balance outstanding was Rs. 279 for the realization of which steps have been taken. The increase in the demand over that of the previous year was due to the more favourable state of the season and keen competition at the sales.

20. *Rents and produce of land.*—The receipts amounted to Rs. 1,236 against Rs. 667 in the previous year and a revised estimate of Rs. 1,010. The increase was due to the prompt steps taken by the Presidents of the Taluk Boards concerned to collect within the year the arrear and current assessments on the inams under their Boards and to the assessment of the dasabandam inam at Halharivi having been made over to the Adóni Taluk Board during the year under report.

21. *Avenues.*—The receipts from this source amounted to Rs. 364 against the actuals of Rs. 672 in the previous year and the estimate of Rs. 700. The decrease is attributed chiefly to want of competition at the sales, but I cannot help thinking that this source of revenue is capable of considerable expansion and shall shortly go carefully into the matter. Of the 1,034 miles of road in charge of the Local Boards, 107 miles against 99 in the previous year were provided with avenues. The number of trees at the beginning of the year was 25,914 and 1,026 were planted against 1,224 that perished during the year. The average number of trees at the end of the year for each mile of road planted was 240 against 262 in the previous year. It is regretted that the number of trees which perished exceeded the number planted. The attention of the Local Fund Engineer will be drawn to this. The condition of the existing trees is on the whole fair. An expenditure of Rs. 2,068 was incurred against Rupees 1,290 in the previous year.

22. *Contribution from Provincial Funds.*—The contributions received on account of education amounted to Rs. 2,349 against Rs. 3,691 in the previous year and the estimate of Rs. 2,470, the decrease being due to the fact that there were no arrears outstanding as in 1897–98. The usual contribution of Rs. 4,700 was drawn from Provincial funds on account of the upkeep of the Ramandrug roads and credit has been taken in the accounts for an amount of Rs. 39,000 as a loan from Imperial funds to meet the plague charges debitable to this district.

III.—EXPENDITURE.

23. The total expenditure of the year exclusive of debt heads was Rs. 3,95,640 * against Rs. 2,23,725 in 1897–98, the increase being chiefly due to the measures adopted for the prevention of plague. The subjoined abstract shows the expenditure under each grant and its proportion to the total outlay as compared with the previous year :—

* The percentages compared in the report are with reference to these figures.

Grants.	Expenditure.		Percentage.	
	1897–98.	1898–99.	1897–98.	1898–99.
	Rs.	Rs.		
Grant 1	1,04,066	1,12,873	47	29
,, 2	33,918	24,027	15	8
,, 3	65,053	2,29,448	29	58
,, 4	4,394	3,796	2	1
,, 5	16,294	15,496	7	4
Total ..	2,23,725	3,95,640	100	100

The large difference in the percentages under each grant is wholly due to the increased expenditure incurred under Grant 3 which includes plague charges.

24. *Grant 1, Public Works.*—The details of expenditure on public works are shown in statement III. The total expenditure on works amounted to Rs. 89,936 against Rs. 74,257 or 97 per cent. of the allotment against 84 per cent. in the previous year. It amounts to 42 per cent. of the year's receipts and 23 per cent. of the total expenditure against 28 per cent. and 33 per cent. respectively in 1897–98 and was incurred by the agencies shown below :—

	Rs.
(1) Local Fund Engineer	87,536
(2) Union Chairmen	1,281
(3) Presidents of the Taluk Boards and Revenue Officers	1,119
Total ..	89,936

25. *New Works—Communications.*—The works originally provided for under this head in the budget were postponed and the amount allotted for them, viz., Rs. 5,400

was reserved to meet plague charges. During the course of the year, however, Rs. 8,815 were allotted by transfer from the maintenance grants for the construction of some much needed culverts on a few important roads, out of which sum Rs. 7,150 or 81 per cent. were spent against Rs. 3,978 in the previous year. The short outlay is attributed to the dilatoriness of the Hadagalli and the Harpanahalli overseers.

26. *Communications—Repairs.*—A sum of Rs. 71,767 or 99 per cent. of the revised grant (Rs. 72,696) was spent against 85 per cent. in 1897–98. It comprises Rs. 50,967 expended by the District Board, Rs. 18,412 by the Taluk Boards and Rs. 2,388 by the Panchayats. Of the 1,034 miles of roads under the charge of the Local Boards, 537 miles were repaired against 500 miles in the previous year. Of the roads repaired, 488 miles were main roads and 49 miles village roads. Excluding the expenditure on culverts, bridges, &c., the cost of repairing the village, taluk and district roads was Rs. 97,101 and 118 respectively per mile against Rs. 56, 74 and 138 in the previous year. No special repairs were executed on any of the roads.

27. The total outlay on roads ("New Works and Repairs") was Rs. 78,917 against Rs. 68,758 or 97 per cent. of the allotment against 84 per cent. in the previous year. The proportion of this expenditure to the net receipts from tolls plus half the receipts from land-cess was 90 per cent., a considerable improvement on the previous year when the percentage was only 61.

28. *Condition of roads.*—Except in the Hadagalli and Hospet taluks, the general condition of the roads in the district may be said to have improved. There are large quantities of famine materials still available for use and arrangements have been made to utilize them in the current year.

29. *Civil buildings.*—Rs. 6,255 were spent under this head against a revised grant of Rs. 6,342. The chief works executed were the completion of the chattram at Hirehalu and of the High School building at Harpanahalli. The latter was re-constructed so as to render it eligible for provincial grants, the last instalment of which was held over by the Director of Public Instruction on account of certain defects in the building. A sum of Rs. 2,511 was spent under repairs against an allotment of Rs. 2,925. The short expenditure is due to small savings under each work executed.

30. *Miscellaneous Public Improvements—New Works.*—The whole of the budget allotment under this head (Rs. 3,650) was set aside to meet plague charges, and a sum of Rs. 185 was spent out of Rs. 191 allotted during the year.

31. *Miscellaneous Public Improvements—Repairs.*—Rs. 2,068 were spent against an allotment of Rs. 1,700. The whole expenditure was incurred on account of avenues, and it exceeded the allotment owing to additional charges incurred in the carriage of water and the raising of mud walls for the protection of young plants.

32. *Local Fund Engineering Establishment.*—The cost of the establishment, including travelling allowances and contingencies, amounted to Rs. 20,215 against Rs. 19,664 or 23 per cent. of the total outlay on works by this agency against 27 per cent. in the previous year. The increase over the maximum limit prescribed by Government is due to short outlay and to the fact that the allotment on works was not sufficiently large. The expenditure on tools and plant (Rs. 1,437) also exceeded the prescribed limit by ·6 per cent. as a set of fresh tools had to be purchased.

33. *Staging Bungalows.*—The Local Boards had under their charge 13 bungalows against 14 in the previous year, as that at Kudligi was handed over to the Public Works Department under G.O., Mis. No. 2344 L., dated 9th December 1898. The rates of fees levied are detailed in the statement X. Rs. 731 were realized against Rs. 816 in the previous year, while the cost of establishments and contingencies was Rupees 1,042 against Rs. 951. The public works charges amounted to Rs. 404. A sum of Rs. 111, inclusive of Rs. 73, the previous year's arrears, was received from the Bellary Municipality as contribution, being half the net expenditure incurred on the Bellary travellers' bungalow. The condition of the bungalows was fair.

34. *Contribution.*—The usual sum of Rs. 160 was contributed to the Adóni Municipality on account of the upkeep of the Local Fund roads lying within its limits.

35. *Grant 2, Education—Inspection.*—There were, as in the previous year, six inspecting schoolmasters employed by the Board. These officers worked under the direct supervision of the Sub-Assistant Inspectors of Schools and their jurisdiction remained unchanged. The number of villages visited fell from 931 to 872, and the number of schools visited and prepared for examination, namely 1,028, remained almost stationary during the year under report. There was an increase in the number of schools opened from 120 in the previous year to 224. The work of this staff was, on the whole, satisfactory. The expenditure under this head amounted to Rs. 3,227 against Rs. 3,501 in the previous year and the estimate of Rs. 3,300.

36. *Sessional Schools.*—Four sessional schools were held at Adóni, Kottur, Kuditani and Rayadrug for three months at each place, and the usual stipend of Rs. 5 was paid to each student. The number of students admitted at these centres was 9, 15, 12 and 16, respectively, of whom 9, 15, 10 and 16 appeared for the Primary School examination and 5, 10, 6 and 14 passed completely. The schools were in charge of an untrained F.A. who has since been replaced by a trained Matriculate. The results of the Rayadrug school were good, while those of the other centres cannot be considered satisfactory. The average cost per student trained was Rs. 16 against Rs. 23 in the preceding year.

37. *Upper Secondary Schools.*—The upper secondary school at Harpanahalle continued to be the only institution of the kind. Its strength on the 31st March last was 79 pupils—31 in the upper secondary department and 48 in the lower secondary department—against 91 in the previous year. The results of the Matriculation examination were again very poor, as only one out of the thirteen candidates sent up for it passed. The results of the Lower Secondary examination, however, were tolerably fair, six pupils passing out of eighteen presented. The upper secondary department was worked at a net cost of Rs. 428 or Rs. 12 per pupil on the average, while the lower secondary department was worked at a profit of Rs. 7, the salary grants from Provincial funds being drawn in time.

38. *Lower Secondary Schools.*—The two lower secondary schools at Hospet and Rayadrug continued to work. The Hospet school had seventeen pupils on its rolls on the 31st March last against seventy in the previous year. The results of the Lower Secondary examination were bad, as only one passed out of thirteen pupils sent up for it. This discreditable state of affairs is attributed to the teaching staff. The headmaster has since resigned and the working of the school under the new headmaster will be closely watched during the current year. This school was worked at a net cost of Rs. 288 against a profit of Rs. 354 in the previous year, the reason for this being that a large amount of arrears of salary grants was drawn in 1897-98. The Rayadrug school had 38 boys on its rolls on 31st March last against 42 in the previous year. The results of the Lower Secondary examination were not good, as out of seven boys presented for it only one passed. The teaching staff has since undergone a change and the school is now in charge of an F.A. The net cost of maintaining this school was Rs. 797 against Rs. 737 in the previous year and the average cost per pupil rose from Rs. 18 to Rs. 21. The attention of the President of the Bellary Taluk Board is being drawn to the fact that the school is not working well and the Taluk Board will be asked to consider the advisability of reducing it to the primary grade if no improvement is shown during the current year.

39. *Primary Schools—Salary System.*—The four primary schools at Hospet, Hadagalli, Harpanahalli and Kotturu continued. On the 31st March last they had 471 boys and 6 girls on their rolls against 537 boys and 16 girls in the previous year. Out of the 60 pupils presented for the Primary School examination, 43 passed. The results obtained in the Hadagalli and Kotturu schools were very good, as all the pupils presented passed. Those obtained in the Harpanahalli school were creditable to the headmaster, eight pupils passing in the first-class out of seventeen, who came out successful, while in the Hospet school they were bad, five pupils only coming out successful out of twenty presented. The net cost of maintaining the upper and lower primary departments was Rs. 605 and Rs 1,162, making an average of Rs. 10 and Rs. 3 per pupil, respectively, against Rs. 8 and Rs. 3 in the previous year. The increase in the average is mainly due to a fall in the strength of the school at Hospet on account of the prevalence of plague at that place.

40. *Salary-result System.*—There were 35 schools at the beginning of the year—three were opened and one closed during the year. On the 31st March last the total strength of these schools was 1,474 boys and 237 girls against 1,524 boys and 221 girls in the previous year. The average attendance rose from 1,592 to 1,646. The net cost of maintenance was Rs. 7,728 against Rs. 7,877, but the average cost of each pupil was Rs. 5 as in the previous year. Of these schools, nine were exclusively for Panchamas and five for Muhammadans and they were attended by 162 boys and 9 girls and 165 boys and 8 girls, against 233 boys and 12 girls and 167 boys and 4 girls in the previous year. All the schools worked well, the Muhammadan school at Hospet and the Panchama school at Alur in particular showing improvement during the year under report.

41. *Aided Schools.*—The number of schools aided by the Local Boards rose from 495 to 547 and of pupils from 10,399 to 11,263. The number of pupils examined for grants was 9,730, of whom 6,307 or 65 per cent. were found qualified for them, the corresponding figures for 1897-98 being 8,982, 5,895 and 66. Out of Rs. 12,780 earned, Rs. 11,157 were passed for payment, of which Rs. 11,125 were paid during the year. The total expenditure including arrear payments amounted to Rs. 11,167 against the budget allotment of Rs. 10,700.

42. *Progress of Education.*—The net expenditure on education was Rs. 25,866 against Rs. 24,915 in the previous year and formed 12 per cent. of the total receipts against 9 per cent. The increase is mainly due to the fact that the receipts were less than in the previous year. The total number of boys and girls under instruction in the Board and aided schools, including 52 sessional school students, was 13,585 against 12,947 or 22 per cent. of the school-going population against 21 per cent. in the previous year.

43. *Grant 3, Medical and Sanitation—Hospitals and Dispensaries.*—The number of hospitals and dispensaries maintained by the Local Boards were five and nine, respectively, as in the previous year and the former contained as previously accommodation for 45 in-patients. The in-patients and out-patients treated were, respectively, 353 and 54,825 in number against 435 and 70,676 in the previous year. The considerable decrease in attendance at all the medical institutions is believed to have been largely due to the plague scare, though the closing of the Kurugodu dispensary for six months and of the dispensaries at Holalagundi, Kanekal and Kotturu at intervals, while the medical subordinates in charge of them were deputed on plague duty affected the returns to a small extent. The number of operations conducted was 1,905 with two deaths against 2,150 with five deaths in the previous year. The expenditure incurred on the maintenance of these institutions, excluding charges on account of the District Medical and Sanitary Officer's establishment, midwives and midwifery pupils, medical pupils, plague and cholera charges was Rs. 22,373 against Rs. 20,702 and the average cost of each patient As. 6-6 against As. 4-8 in the previous year. The increase in the average cost is due to the fall in the number of patients treated and to the increase in the total expenditure which is in turn due to the replacement of a few third-class hospital assistants in charge of dispensaries by men of superior grades and to a larger outlay on medicines and surgical instruments. The general health of the district prior to the outbreak of plague during the second half of the year was good. Plague imported from Guntakal and Gooty made its appearance first at Chippagiri on the 6th September last and spread to Molagavalli, Peddahotur, Tumvagal and Alur in the Alur taluk. The disease, probably brought in from the adjoining Kopbal jaghir of the Hyderabad State, appeared at Hospet on the 9th January last and subsequently at Chitwadgi. Up to the end of the year 270 attacks and 229 deaths had been reported, but there have since been really few cases and the district was practically free at the end of May last. The expenses incurred in connection with the plague including the cost of the preventive measures, which in a frontier district almost surrounded by plague-infected areas were necessarily conducted on a large scale, amounted to Rs. 1,72,205 against Rs. 9,002 in the previous year. Cholera prevailed in a sporadic form in all the taluks of the district except Adóni and caused 617 deaths including those in the Sanduru State and the two municipalities of Adóni and Bellary against 3,135 deaths in the previous year. An amount of Rs. 182 was spent under cholera charges against Rs. 1,149 in the previous year.

44. *Medical Schools and Pupils.*—The female student, who was undergoing training for the apothecary's grade at the Madras Medical College, passed the final examination held in March last. No student has since been sent up for training.

45. *Midwives.*—Each of the medical institutions, except that at Kotturu, had a midwife attached to it. These women attended 1,621 cases of labour against 1,197 or an average of 125 cases each against 92 in the previous year. The average cost per case was Rs. 1-5-8 against Rs. 1-8-9, the total expenditure being Rs. 2,198 against Rs. 1,853 in 1897-98.

46. *Vaccination.*—The vaccine staff remained the same as in the previous year. Vaccination was conducted with lanoline paste supplied from the Mysore Government Vaccine Institute at Bangalore and no animal or human lymph was used. The individual system of working and the reward and fine system referred to in last year's report continued to be in force. The total number of operations performed by the vaccine staff was 28,797, of which 27,303 or 95 per cent. were successful, the corresponding figures for the previous year being 30,838, 28,353 and 92, respectively. Though the quantity of the work turned out suffered, the quality improved. The decrease in the number of cases is attributed to the difficulty experienced in filling up, for want of competent men, the places of several vaccinators who were suspended or dismissed for falsifying their returns. It is also attributed to some extent to the fact that in certain instances the rural population mistook vaccination for inoculation against plague. The average cost of each successful case rose from As. 5-3 to Annas 5-5, the total cost of the department being Rs. 9,266 against Rs. 9,357 in the previous year. The expenditure on lanoline paste was Rs. 1,839 against Rs. 1,888 in the previous year. Medical subordinates performed 784 operations, of which 672 were successful, the corresponding figures for the previous year being 258 and 177. The total number of successful operations performed during the year was 27,975 or 34 per mille of the population against 35 per mille in 1897-98. The number of operations on children under one year of age was 15,175, of which 14,491 were successful; the numbers for 1897-98 were 15,428 and 14,398. The percentage of successful cases to the total number of births registered which was 24,922 was 58 against 64 in the previous year.

47. *Sanitation.*—The expenditure under the different heads of sanitation is shown below and compared with that of the previous year:—

	1897-98.	1898-99.
	Rs.	Rs.
Improvement of water-supply	2,553	1,222
„ village-site	92	1
Scavenging establishment	13,595	15,343
Arrangements at fairs and festivals	445	224
Other sanitary outlay	1,071	1,299

The details of the sanitary operations are given in statement XIV, from which it will be seen that seventeen existing sources of water-supply were repaired and fourteen drinking-water wells were guarded. Scavenging establishments were maintained in twenty unions and in three non-union villages. These establishments were supervised by the Chairman in twelve unions, by sanitary inspectors or Kolkars in eight other unions, by the village headmen in two non-union villages and by the Deputy Tahsildar in the remaining one. Sanitary arrangements were made during fairs and festivals at nine places, the decrease in the expenditure being due to the prohibition by Government of the attendance of pilgrims at several important festivals for fear of the introduction of plague. Four latrines for females were constructed and nine were repaired. The District Medical and Sanitary Officer visited and reported on two villages, his reports being sent to the Presidents of the Taluk Boards concerned for necessary action. The total outlay under this head was Rs. 18,089 against Rs. 17,756 in the previous year and a revised allotment of Rs. 18,390.

48. *Contribution.*—A sum of Rs. 2,433 was contributed to Provincial services against Rs. 1,346 in the previous year. The contribution to the Adóni and Bellary Municipalities for the upkeep of their hospitals amounted to Rs. 1,597 against Rs. 1,661 in 1897-98. The total expenditure under grant 3, inclusive of that incurred on account of plague, was Rs. 2,29,448 or 108 per cent. of the total receipts and 58 per cent. of the total expenditure against 25 per cent. and 29 per cent. in the previous year. The abnormal increase is due to charges incurred on account of plague. The proportion of the expenditure on medical service, vaccination, sanitation and bubonic plague to the total outlay under grant 3 was 12, 4, 8 and 75 per cent. against 54, 14, 27 and 14 per cent. in the previous year.

49. *Grant 4, Public and Charitable Institutions—Markets.*—The establishment and contingent charges of the markets amounted to Rs. 1,041 against Rs. 1,091 in the previous year. A sum of Rs. 564 was spent on public works towards the improvement of the markets, &c.

50. *Choultries.*—The Taluk Boards had 30 choultries under their control and the expenditure incurred, including the cost of repairing seven of them, amounted to Rs. 2,090 against Rs. 946 in the previous year. An amount of Rs. 1,452 was spent on the repairs referred to above. Hence the increase. Bapu Rao's choultry at Hampasagram continued to be the only endowed institution. The income from the lands attached to it was Rs. 143 against Rs. 54 in the previous year and the expenditure incurred on it was Rs. 36.

51. *Dasabandam Inams.*—An amount of Rs. 56 was spent for maintaining water-sheds and other contingencies on the Bellary-Siruguppa road.

52. *Lighting Charges.*—The lighting charges amounted to Rs. 1,564, inclusive of Rs. 72 incurred on lighting the Rayadrug market, against Rs. 1,980 in the previous year. The number of lights remained the same. The total outlay under grant 4 was Rs. 3,796 against Rs. 4,394 in the previous year, the difference being mainly due to the decrease in the lighting and water-shed charges.

53. *Grant 5, Supervision and Management.*—The total outlay under this head amounted to Rs. 15,496 against Rs. 16,294 and formed 7 per cent. of the receipts and 4 per cent. of the expenditure against 6 per cent. and 7 per cent. in 1897-98. The variations under the different minor heads are explained in statement I-B. The non-official members of the Taluk and District Boards were paid travelling allowance at the usual rates as in the previous year.

54. *Law Charges.*—A sum of Rs. 88 was incurred under this head, Rs. 53 by the Adóni Taluk Board and Rs. 35 by the Hospet Taluk Board. The former is covered by Government sanction, while the latter is not. The President of the Hospet Taluk Board is again being addressed in the matter.

55. The accounts of the department from January to December 1898 were examined by the Inspector of Local Fund Accounts who brought to light several defects in the Local Fund Engineer's office and remarked that its work was far from satisfactory. Necessary steps will be taken to rectify the defects and to avoid their recurrence.

56. This administration report was placed before the District Board on the 8th instant and a copy of its resolution accompanies.* The District Medical and Sanitary Officer's report as well as the statements forwarded by the Educational authorities are herein * enclosed.

* Will follow with the statements by separate packet.

Enclosure.

Medical Administration Report of the District of Bellary for the official year 1898-99—*vide* G.O., No. 735, Public, dated 2nd October 1894, C.B. No. 213.

Public Health.—The general health of the district, until the outbreak of plague during the latter part of the year, compares favourably with that of the previous years. Plague imported from Guntakal and Gooty made its appearance in several villages of the Alur taluk, the first case occurred at Chippagiri on the 6th September, from this village it spread to Mollagavalli, Peddakottur, Tharvagal, Chinnakottur, Marcutta and Alur town. A complete ambulance staff was employed to segregate the sick and contacts, treat cases, supervise evacuation and disinfection of the towns

and villages. Plague also appeared in Hospet on the 9th January 1899 and subsequently at Chitwadigi and is said to have been imported from the Bombay Presidency. I visited Hospet almost immediately after the outbreak and attended a meeting of the principal inhabitants and impressed upon them the necessity of immediate evacuation; they readily agreed and within a short time every one was in the fields. The additional medical officer, the ambulance staff and two medical subordinates were sent out to segregate the sick and supervise the disinfection of the town. The work being so indifferently carried out, the Collector considered it advisable to depute an Assistant Collector to personally superintend the disinfection and to have the houses which were supposed to have been disinfected re-done. The medical officer of the Hospet railway inspection station had plenty of accommodation in his hospital, and as he was willing to treat the cases, provided he had a small extra establishment, it was not considered necessary to go to the extra expense of building sheds. A few private hospitals were erected at Hospet by the people for the various castes. Disinfection in all towns and villages, except at Hospet, was done by sepoys under a British officer in a most efficient manner. Since the outbreak there have been 231 attacks and 195 deaths in the Alur taluk and 66 attacks and 63 deaths in the Hospet taluk. There were four deaths in the Bellary Municipality—all occurring in recent arrivals from Bangalore and Hospet in November 1898 and March 1899. In the Adóni Municipality there were two attacks and two deaths in January 1899. Inoculation was successfully carried out, 3,263 people submitted to the operation. The district was declared under observation under G.O., No. 936, dated 26th August 1898. Observation circles were formed and a special staff entertained. Later it was considered necessary to increase the number of circles, and at the end of the year there were 21 road frontier stations each in charge of medical subordinates and 53 observation circles with 12 supervisors, 53 circle inspectors and 15 assistant inspectors. In addition to the above, two ambulance staffs were formed in September 1898 and one in January 1899; they were employed in the several infected villages. An additional medical officer was appointed to the district in April 1898.

Other Epidemics—Cholera.—Six hundred and seventeen deaths are ascribed to cholera as against 3,135 in the preceding year. It mostly prevailed in the western taluks in a sporadic form. The following taluks were affected: Hospet 20 deaths in March 1899; Hadagalli 63 in May and July 1898 and March 1899; Harpanahalli 320 in April to June and August 1898 and February and March 1899; Kúdligi 81 in July to September 1898 and February and March 1899; Rayadrug 86 in December 1898 and January 1899; Alur 12 in February 1899; Bellary 27 in December 1898 and January and March 1899. In the Bellary town there were four deaths in January and February 1899. The Adóni town was quite free. Sanduru returned four cases in February and March 1899. Preventive measures were adopted and the progress of the disease was arrested.

Small-pox.—Three hundred and ninety-four deaths occurred as against 418 of the previous year. It prevailed in an epidemic form throughout the year in the district including the municipal towns of Bellary and Adóni; in these places, however, there were no deaths.

Fevers—prevailed more or less in an epidemic form all over the district during the whole twelve months; the number of deaths recorded was 5,758 as against 12,450 of last year. Influenza which is included under the head of fevers has, from time to time, re-appeared and has been followed by serious complications.

2. *Vital Statistics.*—The death-rate for the district including the Municipalities and the Sanduru State was 23·2 against 31·2, the preceding year; this decrease may be attributed to the very few deaths reported from cholera, small-pox and fevers. The death-rate recorded for the district alone excluding Municipalities and Sanduru State was 22·2 as against 30·3, the previous year. That for the Bellary town was 33·8 against 40·7; Adóni 27·3 against 37·0; and Sanduru State 26·4 against 28·8. In the district and municipalities there has been an increase of 3,000 births as compared with last year, and the birth-rate 31·2 as against 27·9. Excluding Municipalities

and Sanduru State, the birth-rate was 30·6 as against 27·6; that for the Bellary town 31·7 as against 26·9; Adóni town 49·2 as against 35·5; and the Sanduru State 28·8 as against 28·8 of the preceding year.

Judging from the figures, the registration of vital statistics has improved.

3. *Sanitation.*—There was a decided improvement in sanitation, due to stringent instructions having been issued to the plague staff to attend to the cleanliness of the villages and their surroundings, and also to the thorough cleansing and disinfection of all towns and villages infected with plague. Drinking-water, as usual, was obtained from tanks and wells. Great care was taken to prevent the several sources from contamination by employing watchmen to guard them. The number of watchmen should be increased.

4. *Vaccination.*—Lanoline paste obtained from Bangalore, sanctioned in G.O., No. 597, Local and Municipal, dated 27th March 1896, was used during the year with satisfactory results. Better progress has been shown in the vaccine operations conducted by medical subordinates according to G.O., Nos. 1657, 1657-A L., dated 30th August 1897. The total number of successful operations performed was 1,861.

There was no alteration in the sanctioned scale of the vaccination establishment. 28,797 cases were conducted (19,161 in the Bellary and 9,636 in the Harpanahalli ranges) as against 30,838 cases (19,872 in the Bellary range and 10,966 in the other range) of the preceding year. There was a decrease of 2,041 cases, of which 711 were in the Bellary range and 1,330 in the other range. The decrease in the Bellary range is due to the suspension and dismissal of several vaccinators and their places being vacant for some months for want of competent men. In the Harpanahalli range the decrease is attributable to similar causes and to the Deputy Inspector being ill and his place filled temporarily by a first-class vaccinator. Some of the vaccinators detected falsifying their returns were dismissed. Steps are now being taken to appoint more efficient men and I trust next year's results will be more satisfactory. The number of successful cases was 27,303 as against 28,353 of the preceding year, the successful percentage being 94·80 as against 91·94. The total cost of vaccine department was Rs. 9,265-3-6 as against Rs. 9,357-11-2 of the previous year.

The average cost of each successful case was As. 5-5 as against As. 5-3 in the preceding year. The number of vaccine operations performed on subjects under one year of age was 14,731 and the number returned as successful 14,101 as against 15,428 with 14,398 as successful in the previous year. Much progress cannot be expected in infantile vaccination until the unprotected registers are properly kept.

5. *Hospitals and Dispensaries—(a) Nature and sufficiency of Accommodation.*—As in the preceding year, there were five Local Fund hospitals with accommodation for in-patients as shown below:—

		Number of beds.
Local Fund hospital,	Hospet	10
Do.	Harpanapalli	8
Do.	Rayadrug	11
Do.	Alur	6
Do.	Yammiganur	10
	Total	45

The building of Sirugappah dispensary was formerly the Deputy Tahsildar's katcherry. It is badly ventilated and the accommodation is insufficient. The alteration of the existing building or the construction of a new one is necessary, some slight repairs and alterations for the other institutions are noted in the reports of the Taluk Boards.

(*b*) *State of Repair of Buildings.*—With the exception of Kavakal, all other institutions are in good repair.

(*c*) *State of Repairs of Furniture.*—Good.

(*d*) *Number of patients treated as compared with the previous year.*—During the year under report, the number of patients treated in the five hospitals and nine dispensaries was 353 in-patients and 54,825 out-patients as against 435 in and 70,676

out patients of the preceding year. The plague scare and consequent restrictions had much to do with the considerable decrease in attendance and also the closing of Kurugodu dispensary for 6 months and Kóttúru, Kollagundy and Kanakal dispensaries at intervals to provide medical aid in plague work.

(*e*) *Mortality and actual causes of it.*—There were 19 deaths among in and 44 deaths among out patients from the following causes: fevers, dysentery, diseases of circulatory, generative systems and respiratory organs.

(*f*) *Operations and Results.*—There were 1,905 operations performed during the year under report with 2 deaths as against 2,150 with 5 deaths in the previous year. The decrease is due to the temporary closing of four dispensaries and to the prevalence of plague in the district.

(*g*) *Establishment, whether sufficient and efficient.*—It is sufficient and efficient.

(*h*) *Midwives' work actually done.*—Thirteen midwives were employed; all dispensaries having one except Kóttúru. They conducted 1,621 cases as against 1,197 in the preceding year. The midwife at Kúdligi died on 25th March 1899 and steps were taken to fill up the vacancy.

(*i*) The dispensary for caste and gosha women.—*Nil.*

(*j*) *General Remarks.*—Number of villages inspected by the District Medical and Sanitary Officer and reported on two. Those inspected but not reported on 11. Captain C. L. Williams. I.M.S., acted as District Medical and Sanitary Officer from the 1st April to 30th October 1899, being relieved by Major J. W. Evans, I.M.S., the permanent incumbent, and when this latter officer was transferred to Trivandrum on the 30th November, Dr. Illingworth, additional Medical officer was in charge until my arrival on the 6th January 1899. Captain Williams being in an indifferent state of health, he was unable to tour much in the district; consequently he practically did scarcely any inspection work. Prior to my arrival, the additional Medical officer is stated to have visited several of the institutions, but placed nothing on record regarding them. I have, since my arrival early in January 1899, inspected two hospitals and one dispensary and also visited every village and town infected with plague. I regret to say that Dr. Illingworth, the additional Medical officer, since I took over charge of the district, has been of little or no assistance to me, he is not a willing worker, is unreliable and has not carried out the duties entrusted to him especially when on plague duty in Hospet and Alur.

Bellary, 30*th May* 1899. (Signed) R. PEMBERTON, Lieut.-Col., I.M.S., *Ag. Dist. Medl. and Sany. Officer, Bellary.*

From E. A. ELWIN, Esq., Collector and President, District Board, Bellary, to the Secretary to Government, Local and Municipal Department, dated 25th July 1899, C.R. No. 1201.

In continuation of this office Dis. No. 388, dated 14th July 1899, submitting the administration report of the District Board for 1898–99, I have the honour to furnish the following information and revised figures for incorporation in the report:—

(1) Results grants to the Local Fund schools under the Hospet Taluk Board were paid at the maximum rates.

(2) Details for the contribution from private individuals under VI. Public Works (1-A) are—

(*a*) Rupees 24 by the villagers of Yerraingligi, Bellary taluk, for the construction of a well for the Madigas.

(*b*) Rupees 93 by the villagers of Nagardona, Adóni taluk, for the repair of a choultry.

(*c*) Rupees 40 by the villagers of Ananthasenagudi for the construction of a road.

(3) The strength on the 31st March 1899 of the nine Panchama and the five Muhammadan schools was 162 boys and 9 girls and 165 boys and 12 girls and not 117 boys and 8 girls and 119 boys and 7 girls as reported in paragraph 40 of the report.

(4) In the statement showing the financial portion (paragraph 6 of the report), the allotment from the District to Taluk funds of 1897–98 is Rs. 3,178 and not Rs. 3,180 as entered therein. So also receipts of that year under the District and Taluk funds are Rs. 1,22,782 and Rs. 1,20,704 and not Rs. 1,22,784 and Rs. 1,22,702, respectively.

(5) Net cost of the salary-result schools was Rs. 7,728 and not Rs. 7,729 as entered in paragraph 40 of the report.

Order—No. 1711 L., dated 25th August 1899.

The Local Fund receipts and charges of the Bellary district for 1898–99 are compared below with the budget and revised estimates for the year and the actuals of 1897–98:—

2. *Local Boards and Union Panchayats.*—The District Board met nine times against eleven in the previous year. There was a decline in the average attendance of members, which was indifferent in the case of officials but fair in that of non-officials. The Taluk Boards of Bellary and Adóni met a sufficient number of times; but that of Hospet met only ten times owing, it is stated, to want of subjects for discussion. This irregularity should not be allowed to recur. The attendance of their members, except in the case of non-officials on the Hospet Board, was fair. The working of these Boards is reported to have been fairly satisfactory. As in the previous year, twenty Union Panchayats were at work and they met on an average thirteen times each against fifteen. Those of Kanékallu, Kudatini, Rayadrug, Hadagalli, Hampaságaram, Hospet and Kóttúru, however, failed to meet once a month, as required by section 129 of the Local Boards Act. In the case of the last-named Panchayat this irregularity has been noticed by Government for the third year in succession. It is stated that the Presidents of the Taluk Boards concerned are being asked to take steps to prevent the recurrence of this irregularity. The attendance of the Panchayatdars continued to be fair, being four out of an average strength of six. The ward system of supervision

which was in force in eight Unions is stated to have worked well in all of them except Rayadrug and Siruguppa where the Panchayatdars were indifferent to its advantages. All the Panchayats under the Adóni and Hospet Taluk Boards except the one at Hampaságaram, which has since been abolished under G.O., No. 994 L., dated 8th May 1899, are reported to have worked well, while the working of the Panchayats under the Bellary Board was far from satisfactory.

3. *Receipts.*—(1) Owing to a decrease in the arrears at the beginning of the year, the demand under land-cess fell from Rs. 2,16,822 to Rs. 1,59,182 and the collections amounted to 86 per cent. of the demand against 87 per cent. in the previous year.

(2) The receipts from tolls amounted to Rs. 13,517 against Rs. 13,638 in 1897-98, the decrease being due chiefly to temporary gates not having been opened at Kuruvatti and Mylar during the annual festivals at those places and to the falling off in traffic consequent on the introduction of plague preventive measures.

(3) House-tax was again levied at the maximum rates in all the Unions in the district. The collections under this head rose from Rs. 20,948 or 73 per cent. of the demand to Rs. 26,716 or 86 per cent., the increase being due chiefly to the realization of a greater portion of the arrears outstanding at the beginning of the year. The current collections were good in all the Unions under the Adóni and Hospet Taluk Boards, with the exception of Hospet and Kampli, nearly the whole of the demand having been realized, but unsatisfactory in Haréhalu where more than 40 per cent. of the demand remained unadjusted. Four hundred and fifty-five warrants were issued for the collection of this tax against 774 in the previous year, the amount involved being Rs. 316; but property was distrained in 350 cases and sold only in 49 cases for Rs. 32.

(4) There were again 24 markets under the control of the Taluk Boards and fees were levied in all but two of them. The receipts from this source fell from Rs. 5,125 to Rs. 4,841; but the balance in their favour at the end of the year again rose from Rs. 6,188 to Rs. 9,424. This is not satisfactory, and every endeavour should be made to reduce this amount in the current year.

(5) Owing to want of competition at the sales, the income from avenues fell from Rs. 672 to Rs. 364, but the number of trees newly planted rose from 877 to 1,026, while the number of trees which perished exceeded the number planted by 198. The condition of the existing trees is reported to have been on the whole fair.

4. *Expenditure*—(1) *Public Works.*—The expenditure under this head amounted to Rs. 89,936 or 97 per cent. of the allotment against Rs. 74,257 or 84 per cent. in 1897-98 and the outlay on communications was also 97 per cent. of the allotment against 84 per cent. in that year, but it was only 90 per cent. of the minimum prescribed by Government. Village roads received more attention than in the preceding year, the expenditure thereon being Rs. 4,750 or 7·9 per cent. of the total outlay on roads against Rs. 3,358 or 5·8 per cent. Except in the Hadagalli and Hospet taluks, the general condition of the roads is stated to have somewhat improved. The cost of the Local fund engineering establishment was 23 per cent. of the outlay on works executed by that agency and that of tools and plant 1·6 per cent. against 27 and 1·5 per cent., respectively, in 1897-98, the increase over the maximum limits prescribed by Government being in the former case attributed to the short outlay and to the allotment for works not having been sufficiently large and in the latter to the purchase of a set of fresh tools.

(2) *Education.*—As in the previous year, the District Board employed six inspecting schoolmasters and the work done by them is reported to have been on the whole satisfactory. The Board continued to maintain four Sessional schools in which 52 students were trained. Of these 50 appeared for and 35 passed the primary examination. Of the 595 teachers employed in the Boards' and aided schools, as many as 113 were entirely unqualified. This is unsatisfactory. More effective measures should be taken to increase the number of trained teachers. One high and two Lower Secondary schools were again maintained by the Taluk Boards and the number of students that attended these schools fell from 203 to 134. From the Upper Secondary school at Harpanahalli 13 students were presented for the Matriculation examination,

but only one was successful. From this and the two Lower Secondary schools at Rayadrug and Hospet, 38 students appeared for the Lower Secondary examination, and 8 of them passed. There were 41 Boards' Primary schools attended by 2,188 pupils against 39 schools with 2,298 pupils in the previous year, and only 59 per cent. of the pupils presented for the several standard examinations were successful against 77 per cent. Nine of these institutions were set apart for Panchamas and five for Muhammadans and they were attended by 171 and 177 pupils, respectively. All these schools are reported to have worked well. In addition to these, 547 schools attended by 11,263 pupils were aided by the Local Boards with result grants against 495 schools with 10,399 pupils in 1897–98, and 65 per cent. of the pupils examined were found qualified for grants against 66 per cent. in that year. The total number of boys under instruction in the Board and aided schools was 21·2 per cent. of the male population of school-going age against 20·1 per cent. in the previous year.

(3) *Medical Relief.*—There were again five hospitals and nine dispensaries under the control of the Taluk Boards; but the number of patients treated in them fell from 71,111 to 55,178, the decrease being stated to have been largely due to the plague scare and to some extent to the closure of some of the dispensaries at intervals, while the medical subordinates in charge were deputed to plague duty. As in the previous year, thirteen midwives were employed by the Taluk Boards and they attended in all 1,621 cases of labour or an average of ten each per mensem against 1,197 and eight, respectively, in 1897–98. The female student who was undergoing training for the apothecary grade in the Madras Medical College at the cost of the District Board passed the final examination held in March 1899. The attention of the President of the Bellary Taluk Board is drawn to the remarks of the District Medical and Sanitary Officer in paragraph 5 of his report regarding the insufficiency of accommodation in the building of the Siruguppa dispensary.

(4) *Vaccination.*—The total number of vaccine operations performed during the year was 29,581, of which 27,975 or 95 per cent. were successful, the corresponding figures for the previous year being 31,096, 28,530 and 92 per cent. The decrease in the number of operations is attributed to the difficulty in filling up, for want of competent men, the places of several vaccinators who were suspended or dismissed for falsifying their returns and to some extent to the rural population mistaking vaccination for inoculation against plague. Infantile vaccination made no advance, the number of children under one year successfully vaccinated being as in the previous year 17·7 per mille of the total population. The necessary steps should be taken to effect an improvement in this branch of the administration, for which there is much scope.

(5) *Sanitation.*—The expenditure under this head amounted to Rs 18,089 against Rs. 17,756 in the preceding year, but it was 98 per cent. of the allotment against 103 per cent. Seventeen existing sources of water-supply were repaired and fourteen watchmen were employed to guard these sources against 37 and 17, respectively, in 1897–98. Twenty Unions and three other villages were provided with conservancy establishments against twenty and one, respectively, in the previous year and these are reported to have been properly supervised. The private scavenging system which continued to be in force in the Alúr and Yemmiganúru Unions was, during the year under review, introduced in the Rayadrug and Siruguppa Unions, where it is expected to prove a success as in the first two cases. The District Medical and Sanitary Officer visited thirteen villages and reported only on two of them. The attention of the Presidents of the Taluk Boards concerned is drawn to the remarks in paragraph 3 of his report regarding the necessity for increasing the number of tank and well watchmen.

(6) *Bubonic Plague.*—One railway and ~~twenty-one~~ road frontier inspection stations were established and the expenditure incurred on plague preventive measures amounted to Rs. 1,72,205 against Rs. 9,002 in the previous year.

(7) *Miscellaneous.*—It is observed from paragraph 54 of the report that an expenditure of Rs. 35 was incurred by the Hospet Taluk Board on account of law charges without the sanction of Government. This should now be obtained.

5. *General Remarks.*—The year closed with a deficit of Rs. 1,17,686, being the net result of a deficit of Rs. 1,51,923 under general funds and a balance of Rs. 21,531 under Unions and Rs. 12,706 under endowed institutions. This large deficit is attributed to the non-adjustment from Provincial funds of the expenditure incurred on plague preventive measures and it is hoped that it will be wiped off when the adjustment is effected and credit is taken for the loan of Rs. 52,000 from Imperial funds provided for in the current year's budget.

The administration of local affairs during the year under review continued to be on the whole satisfactory; but vaccination demands increased attention.

2. Local Boards and Union Panchayats.

Vide paras. 3, 4 & 5 of the President's report.

The District Board met nine times against eleven in the previous year. There was a decline in the average attendance of the members, which was indifferent in the case of officials but fair in that of non-officials. The Taluk Boards of Bellary and Adoni met a sufficient number of times; but that of Hospet met only ten times owing, it is stated, to want of subjects for discussion. This irregularity should not be allowed to recur. The attendance of their members, except in the case of non-officials on the Hospet Board, was fair ~~continued to be on whole good~~. The working of these Boards is reported to have been fairly satisfactory. As in the previous year, twenty union panchayats were at work and they met on an average thirteen times each against fifteen, ~~in that year~~. Those of Kanekallu, Kudatini, Rayadrug, Hadagali, Hampasagaram, Hospet and Kotturu, however, failed to meet

meet once a month, as required by section 129 of the Local Boards Act. In the case of the last named panchayat, this irregularity has been noticed by Government for the third year in succession. It is stated that the Presidents of the Taluk Boards concerned are being asked to take steps to prevent the recurrence of this irregularity. The attendance of the panchayatdars continued to be fair, being four out of an average strength of six. The ward system of supervision which was in force in eight unions is stated to have worked well in all of them except ~~in the~~ Rayadrug and Sirugappa ~~unions~~, where the panchayatdars were indifferent to its advantages. All the Panchayats under the Adoni and Hospet Taluk Boards ~~are reported to have worked well~~ are reported to have worked well except the one at Hampasagaram which has since been abolished under G. O. No. 994 L dated 8th May 1899, while the working of

of the Panchayats ~~unions~~ under the Bellary Board was far from satisfactory.

Para. 11 of the Presb's report

3. Receipts.—(1) Owing to a decrease in the arrears at the beginning of the year, the demand under land-cess fell from Rs 2,16,822 to Rs 1,59,182 and the collections amounted to 86 per cent of the demand against 87 per cent in the previous year.

Para 12 — Do —

(2) The receipts from tolls amounted to Rs 13,517 against Rs 13,638, in 1897-98, the decrease being chiefly due to temporary gates not having been opened at Kurnool and Mylar during the annual festivals at those places and to the falling off in traffic consequent on the introduction of plague preventive measures.

Para 13 — Do —

(3) House-tax was again levied at the maximum rates in all the unions in the district. The collections under this head rose from Rs 20,948 or 73 per cent of the demand to Rs 26,716 or 86 per cent, the increase being due chiefly to the realization of

of a greater portion of the arrears outstanding at the beginning of the year. The current collections were good in all the unions under the Adoni and Hospet Taluk Boards, with the exception of Hospet and Kampli, ~~under the latter~~, nearly the whole of the demand having been realized, but unsatisfactory in Harihalu ~~the Rayadrug union under the Bellary~~ Board, where more than 40 per cent of the demand remained unadjusted. ~~It is stated that the whole of the~~ arrear balance and the greater portion of the current balance appear against the unions under the latter Board and that its President is being asked to take energetic measures towards the realization ~~of the outstandings~~. Four hundred and fifty five warrants were issued for the collection of this tax against 774 in the previous year, the amount involved being Rs 316; but property was distrained in 350 cases and sold only in 49

49 cases for Rs 32.

(4) There were again 24 markets under the control of the Taluk Boards and fees were levied in all but two of them. The receipts from this source fell from Rs 5,125 to Rs 4,841, but the balance in their favour at the end of the year again rose from Rs 6,188 to Rs 9,424. This is not satisfactory and every endeavour should be made to reduce this amount in the current year.

Para 21 of the Press Report

(5) Owing to want of competition at the sales, the income from avenues fell from Rs 672 to Rs 364, but the number of trees newly planted rose from 877 to 1026, ~~It is however, to be regretted that~~ while the number of trees which perished exceeded the number planted by 198. The condition of the existing trees is reported to have been on the whole fair.

4. Expenditure:- (1) Public Works.

The expenditure under this head amounted to

of to Rs 89,936 or 97 per cent of the
on allotment against Rs 74,257 or
84 per cent in 1897-98 and the
outlay on communications was
also 97 per cent of the allotment
against 84 per cent in that year,
but it was only 90 per cent of the minimum
prescribed by Government. Village
roads received more attention than
in the preceding year, the expenditure
thereon being Rs 4,750 or 7·9 per cent of the
total outlay on roads against Rs 3358 or 5·8
per cent. Except in the Hadagali
and Hospet talaks, the general
condition of the roads is stated to
have somewhat improved. The cost
of the Local Fund Engineering esta-
blishment was 23 per cent of the
outlay on works executed by that
agency and that of tools and
plant 1·6 per cent against 2·7 and
1·5 per cent respectively in 1897-98,
the increase over the maximum limits
prescribed by Government being, in
the former case attributed to the short
outlay

Para 28 of the Presb: report.

78

outlay and to the allotment for works
not having been sufficiently large
and that in the latter, to the
purchase of a set of fresh tools.

Para 35 of the Presb: report

(2) Education:— As in the pre-
vious year, the District Board em-
ployed six inspecting schoolmasters
and the work done by them is reported
to have been on the whole satisfactory.
The Board continued to maintain four
sessional schools in which 52
students were trained. Of these 60
appeared for and 35 passed the
Primary Examination. Of the 595
teachers employed in the Boards'
and aided schools, as many as
113 were entirely unqualified. This
is unsatisfactory. More effective
measures should be taken to in-
crease the number of trained
teachers. One High and two Lower
Secondary schools were again main-
tained by the Taluk Boards and
the number of students that attend-
ed these schools fell from 203 to 134.

From

From the Upper Secondary school at Harpanahalli thirteen students were presented for the Matriculation Examination, but only one was successful. From this and ~~from~~ the two Lower Secondary schools at Rayadrug and Hospet, 38 students appeared for the Lower Secondary Examination, and eight of them passed. There were 41 Boards' primary schools attended by 2,188 pupils against 39 schools with 2,298 pupils in the previous year, and only 59 per cent of the pupils presented for the several standard examinations were successful against 77 per cent. Nine of these institutions, ~~nine~~ were set apart for pauchamas and five for Muhammadans and they were attended by 171 and 177 pupils respectively. All these schools are reported to have worked well. In addition to these, 547 schools attended by 11,263 pupils were aided by the Local Boards with.

with result grants against 495 ~~s~~ schools with 10,399 pupils in 1897-98, and 65 per cent of the pupils examined were found qualified for grants against 66 per cent in that year. The total number of boys under instruction in the Board and aided schools was 21·2 per cent of the male population of school-going age against 20·1 per cent in the previous year.

Para 43 of the Pd's report

(3) Medical Relief.— There were again five hospitals and nine dispensaries under the Control of the Taluk Boards, but the number of patients treated in them fell from 71,111 to 55,178, the decrease being stated to have been largely due to the plague scare and to some extent to the closure of some of the dispensaries at intervals, while the medical subordinates in charge were deputed to plague duty. As in the previous year, thirteen midwives were employed by the Taluk Boards and they attended in all 1,621 cases of labour of an

average

average of ten each per mensem against 1197 and eight respectively in 1897-98. The female student who was undergoing training for the apothecary grade in the Madras Medical College at the cost of the District Board, passed the final examination held in March 1899. The attention of the President of the Bellary Taluk Board concerned is drawn to the remarks of the District Medical and Sanitary officer in para. 5 of his report regarding the insufficiency of accommodation in the building of the Dinguppa dispensary. ~~and the necessity of either making alterations to the existing one or the construction of a new one instead~~.

(4) Vaccination :- The total number of vaccine operations performed during the year was 29,581, of which 27,975 or 95 per cent were successful, the corresponding figures for the previous year being 31,096, 28,530 and 92 per cent. The decrease in the number

Para 46 of the Dist. report

number of operations is attributed to the difficulty in filling up, for want of competent men, the places of several vaccinators who were suspended or dismissed for falsifying their returns and to some extent to the rural population mistaking vaccination for inoculation against plague. In antile vaccination made no advance, the ~~continued to be~~ number of children under one year successfully ~~the same as in the previous year being~~ vaccinated being as in the previous year 17·7 per mille of the total population. The necessary steps should be taken to effect an improvement in this branch of the administration for which there is much scope.

(5) Sanitation. The expenditure under this head amounted to Rs 18,089 against Rs 17,756 in the preceding year, but it was 98 per cent of the allotment against 103 per cent. Seventeen existing sources of water-supply were repaired and fourteen watchmen were employed to guard these sources against 37 and seventeen respectively in 1897-98. Twenty units and three other

~~the Accountant General and when~~
nd credit is taken for the loan of ₹
Rs 52,000 from Imperial Funds provided for in the current year's budget.

The administration of local affairs ~~was on the whole fairly~~ during the year under review continued to be on the whole satisfactory; but ~~education~~, ~~medical relief~~, vaccination ~~and sanitation~~ demands increased attention.

SUBJECT.

Administration Report of the Bellary District Board for the year 1898-99

others villages were provided with conservancy establishments against twenty and one respectively in the previous year, and these are reported to have been properly supervised. The private scavenging system which continued to be in force in the Alur and Gemmiganuru unions was, during the year under review, introduced in the Rayadrug and Siruguppa unions, where it is expected to prove a success, as in the first two cases. The District Medical and Sanitary officer visited thirteen villages and reported only on two of them. The attention of the Presidents of the Taluk Boards concerned is drawn to the remarks in para. 3 of his report regarding the necessity for increasing the number of tank and well watchmen.

(6) Bubonic Plague :- ~~This epidemic was first imported into the district from Guntakal and Gooty.~~ One Railway and twenty-one road frontier inspection stations were established and ~~necessary steps were taken for the prevention and suppression of the plague~~ the expenditure

expenditure incurred on plague preventive measures amounted to Rs 1,72,205 against Rs 9,002 in the previous year. ~~The district is now almost free from this disease.~~

(7) Miscellaneous :- It is observed from para. 54 of the report that an expenditure sum of Rs 35 was incurred by the Hospet Taluk Board on account of law charges without the sanction of Government. This should now be obtained.

5. General Remarks :- The year closed with a deficit of Rs 1,17,686 being the net result of a deficit of Rs 1,51,923 under general funds and a balance of Rs 21,531 under union and Rs 12,706 under endowed institutions. This large deficit is attributed to the non-adjustment ~~as yet~~ from Provincial Funds of the expenditure incurred on the plague preventive measures and it is hoped that it will be wiped off when the above adjustment is effected by the
