General Letter No. 22.

FORT ST. GEORGE,
ACCOUNTANT-GENERAL'S OFFICE,
27*th November* 1899.

From

THE ACCOUNTANT-GENERAL,
Madras,

To

ALL COLLECTORS, INSPECTOR-GENERAL OF POLICE,
AND SECRETARY TO THE BOARD OF REVENUE,
SEPARATE REVENUE.

SIR,

In my general letter No. 21, dated 27th November 1899, I forwarded a list showing the proper classification of plague expenditure and how the different charges should be distributed. This deals with the charges as they should be taken for account purposes.

2. The Local Government desire, for purely administrative purposes, that a monthly statement should be forwarded to me by the 20th of each month (*vide* paragraph 5 of that general letter) showing the pay and allowances, drawn in the previous month, of officers and establishments under your control employed exclusively on plague duty, but not replaced by substitutes. Extra allowances on account of plague should not be shown as they are included in the statements of indirect expenditure.

3. You will be careful to note that the statement and the information given in it are entirely outside your accounts and the plague classification in them.

I have the honour to be,
Sir,
Your most obedient servant,

Accountant-General.

Encl 3847

TREASURY ACCOUNT DEPARTMENT.

General Letter No. 21.

CLASSIFICATION OF PLAGUE EXPENDITURE.

FORT ST. GEORGE,
ACCOUNTANT-GENERAL'S OFFICE,
27*th November* 1899.

From

THE ACCOUNTANT-GENERAL,
Madras,

To

ALL COLLECTORS, TREASURY OFFICERS,
AND OFFICERS INCURRING EXPENDITURE
IN CONNECTION WITH PLAGUE.

SIR,

I have the honour to communicate to you the following orders passed by Government regarding the classification of plague charges :—

1. The appended list shows the proper classification of charges commonly incurred in connection with plague.

2. "Direct" plague expenditure means expenditure exhibited in the Government accounts under the head 24-D. MEDICAL—*Grants for Medical Purposes—Expenses in connection with Bubonic Plague.* "Indirect" plague expenditure means *extra* expenditure due to plague but brought to account under the ordinary appropriate service heads.

3. The amount of "Indirect" plague expenditure is therefore not ascertainable from the ordinary Provincial and Incorporated Local Fund Accounts and special statements are prepared in the course of audit by the Accountant-General in the case of expenditure from General Revenues and by the Treasury officer in the case of expenditure from Incorporated Local Funds.

4. To facilitate the preparation of these statements all officers who draw bills for "Indirect" plague expenditure should write conspicuously at the head of each such bill, beside the account head, the word PLAGUE in red ink. If only some of the items in a bill are Indirect plague charges, the word PLAGUE should be written against each such item instead of at the head of the bill.

5. It is to be noted that pay and allowances of officers and establishments forming part of existing departments or services whose employment on plague duty does not involve the payment of salaries to other persons for the performance of their legitimate duties (even though they may be exclusively engaged on plague duties) and not receiving extra allowances on account of plague, do not constitute "Indirect" plague charges (and of course are not "Direct" plague charges) because they do not involve *extra* expense. A statement should be forwarded to the Accountant-General by the 20th of each month showing the pay and allowances, drawn in the previous month, of officers and establishments so employed.

6. From the above it will be seen that the distinction between "Direct" and "Indirect" plague expenditure affects the accounts of Incorporated Local Funds expenditure and Provincial expenditure. As regards Excluded Local Funds this distinction is unnecessary and all *extra* expenditure, *i.e.*, expenditure which would not have been incurred but for the occurrence or imminence of plague may be shown under the head *Plague*.

2/
Genl 3847

7. Contingent expenditure on account of plague, *e.g.*, stationery, postage, telegrams, office furniture and such like, should be charged against the heads of account to which the salaries of the officers incurring such expenditure are debited. In regard to establishments newly entertained to deal with plague, the principle that officers of superior grades should be charged to PROVINCIAL, and those of inferior grades to LOCAL, should be applied. With regard to establishments dependent on officers newly entertained to deal with plague, the principle that the charge should follow the pay of the officer on whom the establishment is dependent should hold both in regard to establishments and contingencies. The cost of tents supplied to officers on plague duty will follow the debit of the pay of the officers.

LIST OF PLAGUE CHARGES.

[*Note.*—The Regulations referred to in the list are the Additional Mufassal Regulations—G.O., No. 93 P., dated 26th February 1898.]
