FEBRUARY.

Municipal Budget.

Reviewing the Tinnevelly — for 1899–1900.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

Read—the following papers:—

From M.R.Ry. P. M. KAILASAM PILLAI Avargal, Chairman, Municipal Council, Tinnevelly, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional Officer and the Collector of Tinnevelly), dated 23rd December 1898, Gov. Cur. No. 111.

I have the honour to submit the budget estimates of receipts and charges of the Tinnevelly Municipality for the year 1899–1900, together with the revised estimates for the year 1898–99. An extract from the proceedings of the Council, dated the 10th December 1898, is enclosed.

Revised Estimate for 1898–99.

Receipts.

2. The total receipts for 1898–99 estimated at Rs. 29,010 in the original estimates remain unaltered in the revised estimates, the increase under certain items, chiefly under Tax on buildings, Sale-proceeds of old materials, Fines, Contributions to the hospital and Cess-pool fees—being counterbalanced by the decrease under other items—mainly under Tax on vehicles, carts and animals, Warrant fees, Private scavenging fees and Sewage farm. Persons that have their permanent dwellings outside of the Municipal limits but carry on trade in this Municipality used to take out licenses from this office for their vehicles, carts and animals. But the District Board appears to be of opinion that they should take out licenses from its office and consequently such persons have taken out licenses there for the current year. Hence the decrease under these heads. As for the private scavenging system every effort is being made to extend it, and the collections for the last eight months have nearly reached the actuals of 1897–98. There is still great opposition and much aversion to the system. The progress made is, however, satisfactory, though it has not been found possible to extend the system to such an extent as to realize in the current year the original budget figure, viz., Rs. 1,800. It has been resolved upon to open during the year two lanes and provision is made in the next year's budget to open some more lanes. There is every indication that the opposition will die out in course of time, and till then, I think it is better to push on the system gradually. The sewage farm has not yet been opened. The site selected is too far from the main portions of the town, and it is not possible to cart away the sewage water to that place. The ground is also very low and requires to be raised before grass can be grown upon it. It is besides very near some dwelling houses, and I think it will be injurious to the health of the people close by to convert the ground into a sewage farm. These considerations have stood in the way of the farm being opened. Hence nothing has been realized under this head. I, however, think that an experiment may be made by carting away to that place the sewage water of the ward nearest to it and by opening a farm on a small scale. This will be done during 1899–1900 and provision is made in the budget for the purpose. Other variations are explained in column 7 of Statement VI.

Charges.

3. The total estimated charges for 1898–99, as now revised, are Rs. 31,330, which fall short of the original estimate only by Rs. 140. Variations occur chiefly under Grants 3 and 4. No caste lady was available for being sent for medical training. The number of scavengers and private scavenging toties was not employed to the full extent provided for. Only 11 scavengers were employed as against 14 provided for in the budget. This was because some of the latrines were in objectionable places and their use had to be discontinued therefore. Suitable sites have been selected and the latrines are being fixed. The maximum number will be employed from January next. It is also proposed to engage three additional sweepers for the rest of the year. The number of private scavengers employed during the past eight months was 21 as against 27 provided for in the budget. The full number will be employed in the course of this year and the next. There is a saving of Rs. 200 under the lighting contingencies on account of cheapness in the price of oil. It had been resolved upon to extend the Kuravar street bridge to prevent congestion of water and to acquire land for the purpose. But the Executive Engineer was of opinion that the congestion of water could not be avoided to any appreciable extent and the proposal was therefore given up altogether. Hence the saving of Rs. 300 under Compensation for lands. The savings under these and other minor items go to meet, in the revised estimate, the increased provision of Rs. 220 under private scavenging contingencies and the moiety of contribution towards the construction of Raja Sir S. Ramaswami Mudaliyar's Women's Dispensary and Maternity Hospital at Vannarpet, to which the Council has promised to contribute Rs. 2,000. A separate correspondence follows for obtaining the sanction of Government for the purpose. Half of the amount is provided for in the revised budget and the other half in the budget for the next year. The other variations are explained in column 7 of Statement VI. The revised estimate leaves a balance of Rs. 10,330, which forms the opening balance for 1899–1900.

Budget Estimates for 1899–1900.

Receipts.

4. The fees and taxes are proposed to be levied for the next year at the same rates as in the current year, except the tax on carts, &c., which it is proposed to levy at the maximum rate of Rs. 2 per half-year.

5. The receipts, excluding the opening balance, are estimated at Rs. 30,070 against Rs. 29,010 in the revised estimate. The important variations are explained below. The receipts from the tax on buildings are raised to Rs. 11,000, as it is proposed to make a general revision under section 66 (2) of the Act and those under tax on carts, &c., to Rs. 1,200 for reasons referred to in paragraph 4 *supra*. During the current year sheds in the Pennington market and a latrine were demolished and the materials sold. No such special receipt is expected in the next year, and hence the decrease under sale-proceeds of old materials. Fines under Municipal and other Acts are estimated to come up to Rs. 800 against Rs. 600, budgeted for the current year, and Rs. 950 in the revised estimate. Under Contributions from Government, credit is taken for Rs. 170, being a third grant on behalf of the Panchama school building to be erected at a cost of Rs. 500 during the next year and for Rs. 12, being the increased grant towards the pay of the gymnastic instructor, which is raised from Rs. 10 to Rs. 12 as recommended by the Director of Public Instruction. With the opening of lanes the private scavenging service is expected to advance. Hence the provision of Rs. 1,800 against Rs. 1,500 in the revised estimate. As mentioned above, an experiment will be made next year by opening the sewage farm on a small scale andRs. 100 is expected to be realized under this head.

Charges.

6. It may be stated at the outset that the budget for charges is prepared so as to keep the expenditure within the income expected for the year. For the last several years, the yearly expenditure has exceeded the income and this state of things is considered by the Council to be unsatisfactory. There should be a reserve fund for the

water-supply scheme which is absolutely necessary for this town, and this reserve fund is likely to be eaten up, if the expenditure be allowed to exceed the income year by year.

7. *Grant 1.*—A sum of Rs. 3,200 or nearly 69 per cent. of the estimated income from tolls is provided under New Works and Repairs—Communications as detailed in Statement II-A. Rs. 500 is allotted for the opening of lanes and Rs. 200 for the construction of side-walls in roads and Rs. 2,500 for the maintenance of roads and streets. Under *Buildings* Rs. 200 is allotted for the purchase of corrugatediron latrines and Rs. 500 for the construction of Panchama school building and Rs. 400 for repairs to buildings-markets, dispensary, latrines and bathing ghauts. It should be stated in this connection that the Surgeon-General with the Government of Madras recommends the marginally-noted proposals, and no provision is made in the budget for the reasons given below: —

(*a*) Removal of the hospital outside the town.
(*b*) Removal of the cholera shed outside the town.
(*c*) Construction of additional wards for high caste patient and venereal cases.
(*d*) Construction of lying-in ward.

(*a*) *Removal of the hospital outside the town.*—The hospital is now situated in the centre of the town and is resorted to largely. To remove it outside the town is likely to affect its utility. Besides, the town is surrounded by nunja lands. To buy some of them at an enormous cost, to raise the ground at an equally heavy cost, and to put up substantial buildings on it, mean a very large outlay of money which the Council is not in a position to incur at present. The sale of the present buildings will not adequately cover the large outlay that will have to be incurred if the proposal be given effect to.

(*b*) *Removal of the cholera shed outside the town.*—This will necessitate a separate establishment and also an outlay for lands, buildings, &c., which the Council is not in a position to meet.

(*c*) *Separate wards for high caste patients and venereal cases.*—These are no doubt necessary. Provision was made in the current year's budget for the purpose. In view of the increased provision that had to be made under Epidemic charges, Government in its Order, Mis. No. 1962 M., dated 22nd November 1898, postponed this work. To build the wards in front of the hospital as was intended at first, the space available seems to be insufficient. The adjoining buildings may be acquired for this purpose. The price is likely to be very high, and the Council, for reasons set forth in paragraph 6, is not in a position to meet the cost in the next year. This is, therefore, postponed.

(*d*) *Lying-in ward.*—It is not necessary to provide for a separate ward, as a maternity hospital is to be built soon and as the Council has promised to contribute towards it in view of its utility to the people of this Municipality.

Besides, all these proposals may lie over till the Municipality is extended, which is likely to be done soon, when the Council will be in a position to consider the whole matter with reference to the wants of the people of the adjoining villages to be added to this Municipality.

Rs. 200 has been allotted for construction of petty drains as recommended by the District Medical and Sanitary Officer and another Rs. 200 for repairs to existing drains. Provision was being made for sinking drinking-water wells for the last three years, and the Council has succeeded in sinking only one well up to date. It has been found impossible to select proper sites for sinking wells. There are already about 50 public wells besides very many wells in private compounds. The Council does not therefore think it necessary and feasible to sink any more wells. The only real way of supplying pure water to the town at all times of the year is to bring into effect, as early as possible, some water-supply scheme, for which a sum of Rs. 10,300 is reserved.

8. *Grant 2.*—In view of the unavoidable increased expenditure under other grants, the Council resolves to reduce fixed and result payments to Rs. 1,400. As most of the schools are fairly furnished and accommodated, building, furniture, &c., grants have been reduced to Rs. 160. As there is a Panchama teacher under training at an increased rate of stipends for the current year, Rs. 120 provided for stipends

to normal students in the original budget was raised to Rs. 140 in the revised budget. It is brought back to the original figure, Rs. 120, for 1899–1900. The increase sanctioned in the pay of the gymnastic instructor is referred to in paragraph 5 *supra*.

9. *Grant 3.*—The old compounder on Rs. 12 has been replaced by a new one on Rs. 9. The pay of the ward attendant who has been doing his work satisfactorily for the past 10 years is raised from Rs. 6 to Rs. 7. Better furniture is provided for as recommended by the Surgeon-General. Contributions to Provincial funds for Medical College, &c., are provided for, with reference to the actuals of 1897–98. The other moiety of Rs. 1,000 towards the construction of the maternity hospital is proposed to be contributed during 1899–1900. It is proposed to continue the 48 sweepers provided for in the revised budget during 1899–1900 also, and to increase the pay of the road-watering coolies from Rs. 4 to Rs. 5 each, as no hands were procurable in the current year at Rs. 4 per mensem. The chief sanitary inspector has rendered good service. His pay was increased to Rs. 30 when the Council proposed to entertain a maistry on Rs. 15, instead of an assistant inspector on Rs. 20. The Government did not accept this proposal and in consequence the pay of the chief inspector was brought back to Rs. 25. The Council has now resolved to increase his pay by Rs. 3. The second circle maistry was registrar of births and deaths on Rs. 12–8–0 per mensem and he consented to be transferred to the sanitary department with a hope that, if the Government accepted the proposal of the Council to appoint a maistry on Rs. 15 instead of an assistant inspector on Rs. 20 he would be able to draw Rs. 15 per mensem. He now draws only Rs. 12 per mensem and the Council has resolved to increase his pay by Re. 1. Most of the carts now in use have become old and damaged and an additional sum of Rs. 200 is provided for the purchase of carts. In view of fact that segregation sheds have been already erected at a cost of Rs. 805, it has been resolved to allot Rs. 1,500 for epidemic charges.

10. *Grant 4.*—Rs. 1,800 is allotted for lighting contingencies to meet the fluctuating price of kerosine-oil and Rs. 100 to the purchase of seeds, &c., to the sewage farm. As provision has been made for compensation of lands required for communications and buildings under the respective heads, no provision is made for lands under this grant.

11. *Grant 5.*—The pay of the head clerk who was an unpassed man was Rs. 40 till 1891–92 when it was reduced to Rs. 35, as the cost of the office establishment exceeded 10 per cent. of the then estimated receipts which amounted to Rs. 21,400. No such objection exists at present as the income of the Municipality has considerably increased. On the other hand, there is a wide margin to admit the increase recommended below. The present head clerk and manager P. Muniappa Pillai is a graduate in arts. He has successfully held positions of trust and importance in the Educational department. Ever since he took charge of this office he is doing his work satisfactorily and systematically. He carefully attends to every branch of the work and is very energetic in the discharge of his duties. As it would be in the interests of the Municipality to properly remunerate such a really serving officer and retain his services, I proposed to increase his present pay Rs. 35, which is very inadequate, to Rs. 50. The Council has resolved to increase his pay to Rs. 45. The second clerk has been serving on his present pay for the last 15 years. The late Chairman considered him fit to be the head clerk and proposed to appoint him when the place fell vacant. But the Council was of opinion that higher educational qualifications were necessary, and consequently his claims were overlooked and the present incumbent was appointed. The Council has resolved to increase the pay of the second clerk to Rs. 30. I strongly recommend that the pay of the head clerk and that of the second clerk, as proposed by the Council, may be sanctioned by Government, as they deserve to be encouraged and as the office work has, of late years, considerably increased.

12. The other items of charges are almost the same as in the revised estimate and do not call for any remarks.

The year 1899–1900 will close with a balance of Rs. 10,470 against Rs. 7,830, the estimated balance in the current year's budget.

Proposition statements for charges proposed in establishment both for the revised budget and for the budget for 1899–1900 are herewith enclosed.

Cur. No. 2300—Gen.-Rev.

Submitted to the Collector.

2. Adequate provision has been made for communications in the budget estimate for 1899–1900.

3. The Council has not been sufficiently energetic in the matter of extending the private scavenging system. It is only very recently that the opening of two lanes has been sanctioned. I am sure that, if the Council creates facilities for access to the backyards of houses, the house owners will be very willing to avail themselves of the private scavenging system.

4. The sewage farm silt has received the approval of the District Medical and Sanitary Officer. The sooner the farm is worked the better.

5. In paragraph 7 of the report the Chairman observes that it has been found impossible to select proper sites for sinking drinking-water wells and that about 50 public wells already exist. Most of these public wells do not contain drinkable water and are therefore useless. What is wanted is a good number of wells containing good drinking-water. It does not appear that professional opinion has been obtained regarding the possibility or otherwise of providing the inhabitants with a sufficient number of wells containing good drinking-water. The water supply scheme is of course the best remedy for the existing evil. But the fruition of the scheme lies in the far future.

6. It seems to me that proposals to increase the pay of the establishment may be deferred pending the extension of the Municipality. The sanitary inspector, the head clerk and the second clerk are, no doubt, men deserving promotion. Their claims may be considered at the reorganization of the establishment that will naturally follow the extension of the Municipality.

(Signed) T. RAGHAVIAH,
Head-quarters Deputy Collector.

25th December 1898.

Ref. on Cur. No. 2300-Gen.-Rev.

Submitted to Government (Local and Municipal Department).

2. The statements of the Chairman in paragraph 2 are being inquired into. I am unable to obtain full information on the subject without delaying this report considerably.

3. The proposed increases in the salaries of the sanitary inspector, second circle maistry, Municipal office head clerk and office second clerk are, I think, uncalled for. The practice of raising salaries from time to time is objectionable and they should be fixed permanently once for all.

(Signed) E. SCOTT,
Acting Collector.

9th January 1899.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 11th January 1899, No. 383.

Referring to the budget estimate of the Tinnevelly Municipality for 1899–1900, I have the honour to recommend that to the allotments made therein under the several heads of Grant 2 a sum of Rs. 200 be added under Fixed and result grants, so as to raise the allotment to the current year's figure. With reference to the actuals of 1897–98 and in view of the fact that the fixed grant system has to be introduced during the next year, it is necessary that the current year's provision under this head should be repeated. With the modification suggested above, the net expenditure under Grant 2 will be Rs. 3,390. The estimated income of the Municipality from rents not having been communicated to me, I am not able to ascertain the exact proportion the net expenditure bears to the estimated income from taxation, markets and rents.

2. The entry "170" as grants from Government on account of Municipal schools is apparently an error for Rs. 20.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 21st January 1899, No. 86.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Tinnevelly Municipality for the year 1899–1900 is sufficient.

2. The increase of pay proposed in the case of the ward attendant is necessary.

3. The following recommendations, viz., removal of the hospital and the cholera shed outside the town, construction of additional wards for high caste patients and venereal cases and a lying-in ward, have not been carried out for want of funds.

From Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., I.M.S., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 31st January 1899, No. 293-S.

With reference to the budget estimate of the Tinnevelly Municipal Council, I have the honour to state that my remark on the current year's budget regarding the insufficiency of the existing scavenging staff does not appear to have engaged the attention of the Council. There seems no necessity for the extreme caution as to advance of private scavenging on account of opposition. The opposition is not to the private scavenging system, but to cessation of the Tinnevelly method of storing fœces on the premises for manure. This difficulty was successfully faced by the Palamcottah Municipality, and there is no reason why it should not be by the Tinnevelly Municipality.

2. The increase of salary proposed for the chief sanitary inspector has my support.

ORDER—No. 178 M., dated 11th February 1899.

The estimated receipts and charges of the Tinnevelly Municipality for 1899–1900, as passed by Government, are compared below with the budget and revised estimates for the year 1898–99 and the actuals of 1897–98:—

Revised Estimate for 1898–99.

2. The current receipts and charges are now estimated at Rs. 29,010 and Rs. 31,330, respectively, against Rs. 29,010 and Rs. 31,470 anticipated in the sanctioned budget. The result of the enquiry referred to in paragraph 2 of the Collector's endorsement should be reported to Government. The entertainment of three additional sweepers on Rs. 4 each, proposed in paragraph 3 of the Chairman's letter, the abolition of the post of gardener on Rs. 5 and the increase of Re. 1 in the salary of the road-watering coolies which are shown in the proposition statement are sanctioned, but reference should have been made to the two latter proposals in the Chairman's letter. With reference to G.O., No. 1259, Financial, dated 28th December 1898, communicated with G.O., No. 44 L., dated 11th January 1899, the allotment for epidemic charges will be reduced from Rs. 2,050 to Rs. 1,260. The balance to be carried forward to the ensuing year's budget will then be Rs. 11,120.

Budget Estimate for 1899–1900.

3. *Receipts.*—The receipts for the ensuing year are entered as Rs. 30,070 against Rs. 29,010 in the revised estimate, an increase which occurs chiefly under the taxes on buildings and carts and private scavenging fees being partly counterbalanced by a decrease under fines. The Municipal Council's proposal to increase the rate of the tax on carts from three-fourths to the maximum is sanctioned. The revision of the house-tax registers should be undertaken at once and completed before the end of the current financial year, so that the revised assessments may be brought into force from the beginning of 1899–1900—*vide* section 66 (3) of the District Municipalities Act. The attention of the Municipal Council is drawn to the remarks of the Deputy Collector in paragraphs 3 and 4 of his endorsement.

4. *Charges.*—(1) The probable charges are put down at Rs. 29,930 against the revised estimate of Rs. 30,540, a decrease which appears under Grants 1, 2 and 4 being partly met by an increase under Grant 3.

(2) *Grant 1.*—For want of funds, the provision of Rs. 200 for the construction of side-walls in roads and of Rs. 200 under new works drainage will be struck out.

(3) *Grant 2.*—In the present state of the Council's finances, the Director's suggestion to increase the allotment for "Fixed and result grants" cannot be adopted; nor can the increase of Rs. 2 in the pay of the gymnastic instructor, proposed in paragraph 5 of the Chairman's letter, be approved. The attention of the Chairman is drawn to the omission pointed out by the Director in the last part of paragraph 1 of his letter read above and to the error noticed by him in paragraph 2.

(4) *Grant 3.*—The proposed increase in the salary of the hospital ward attendant is approved, but the increases in the salaries of the chief sanitary inspector and the sanitary maistry, proposed in paragraph 9 of the Chairman's letter, will be disallowed, with reference to the Collector's remarks in paragraph 3 of his endorsement. The provision for epidemic charges will be raised from Rs. 1,500 to Rs. 5,280, with reference to G.O., No. 1259, Financial, dated 28th December 1898, communicated with G.O., No. 44 L, dated 11th January 1899. With reference to the Surgeon-General's remarks in paragraph 3 of his letter read above, his attention is drawn to paragraph 7 of the Chairman's letter.

(5) *Grant 5.*—With reference to the remarks of the Deputy Collector and the Collector in paragraphs 6 and 3 of their respective endorsements, the Council's proposal to increase the salaries of the head and the second clerks of the Municipal office cannot be approved at present.

5. As revised by Government, the budget closes with a balance of Rs. 8,140 or 27·1 per cent. of the estimated receipts; but the greater portion of this sum will be required for expenditure on the water-supply scheme which is under investigation.

FEBRUARY.

Municipal Budget.

Reviewing the Tinnevelly — for 1899-1900.

GOVERNMENT OF MADRAS.

LOCAL AND MUNICIPAL DEPARTMENT.

READ—the following papers:—

From M.R.Ry. P. M. KAILASAM PILLAI Avargal, Chairman, Municipal Council, Tinnevelly, to the Secretary to Government, Local and Municipal Department (through the Revenue Divisional Officer and the Collector of Tinnevelly), dated 23rd December 1898, Gov. Cur. No. 111.

I have the honour to submit the budget estimates of receipts and charges of the Tinnevelly Municipality for the year 1899–1900, together with the revised estimates for the year 1898–99. An extract from the proceedings of the Council, dated the 10th December 1898, is enclosed.

REVISED ESTIMATE FOR 1898–99.

Receipts.

2. The total receipts for 1898–99 estimated at Rs. 29,010 in the original estimates remain unaltered in the revised estimates, the increase under certain items, chiefly under Tax on buildings, Sale-proceeds of old materials, Fines, Contributions to the hospital and Cess-pool fees—being counterbalanced by the decrease under other items—mainly under Tax on vehicles, carts and animals, Warrant fees, Private scavenging fees and Sewage farm. Persons that have their permanent dwellings outside of the Municipal limits but carry on trade in this Municipality used to take out licenses from this office for their vehicles, carts and animals. But the District Board appears to be of opinion that they should take out licenses from its office and consequently such persons have taken out licenses there for the current year. Hence the decrease under these heads. As for the private scavenging system every effort is being made to extend it, and the collections for the last eight months have nearly reached the actuals of 1897–98. There is still great opposition and much aversion to the system. The progress made is, however, satisfactory, though it has not been found possible to extend the system to such an extent as to realize in the current year the original budget figure, viz., Rs. 1,800. It has been resolved upon to open during the year two lanes and provision is made in the next year's budget to open some more lanes. There is every indication that the opposition will die out in course of time, and till then, I think it is better to push on the system gradually. The sewage farm has not yet been opened. The site selected is too far from the main portions of the town, and it is not possible to cart away the sewage water to that place. The ground is also very low and requires to be raised before grass can be grown upon it. It is besides very near some dwelling houses, and I think it will be injurious to the health of the people close by to convert the ground into a sewage farm. These considerations have stood in the way of the farm being opened. Hence nothing has been realized under this head. I, however, think that an experiment may be made by carting away to that place the sewage water of the ward nearest to it and by opening a farm on a small scale. This will be done during 1899–1900 and provision is made in the budget for the purpose. Other variations are explained in column 7 of Statement VI.

Charges.

3. The total estimated charges for 1898–99, as now revised, are Rs. 31,330, which fall short of the original estimate only by Rs. 140. Variations occur chiefly under Grants 3 and 4. No caste lady was available for being sent for medical training. The number of scavengers and private scavenging toties was not employed to the full extent provided for. Only 11 scavengers were employed as against 14 provided for in the budget. This was because some of the latrines were in objectionable places and their use had to be discontinued therefore. Suitable sites have been selected and the latrines are being fixed. The maximum number will be employed from January next. It is also proposed to engage three additional sweepers for the rest of the year. The number of private scavengers employed during the past eight months was 21 as against 27 provided for in the budget. The full number will be employed in the course of this year and the next. There is a saving of Rs. 200 under the lighting contingencies on account of cheapness in the price of oil. It had been resolved upon to extend the Kuravar street bridge to prevent congestion of water and to acquire land for the purpose. But the Executive Engineer was of opinion that the congestion of water could not be avoided to any appreciable extent and the proposal was therefore given up altogether. Hence the saving of Rs. 300 under Compensation for lands. The savings under these and other minor items go to meet, in the revised estimate, the increased provision of Rs. 220 under private scavenging contingencies and the moiety of contribution towards the construction of Raja Sir S. Ramaswami Mudaliyar's Women's Dispensary and Maternity Hospital at Vannarpet, to which the Council has promised to contribute Rs. 2,000. A separate correspondence follows for obtaining the sanction of Government for the purpose. Half of the amount is provided for in the revised budget and the other half in the budget for the next year. The other variations are explained in column 7 of Statement VI. The revised estimate leaves a balance of Rs. 10,330, which forms the opening balance for 1899–1900.

BUDGET ESTIMATES FOR 1899–1900.

Receipts.

4. The fees and taxes are proposed to be levied for the next year at the same rates as in the current year, except the tax on carts, &c., which it is proposed to levy at the maximum rate of Rs. 2 per half-year.

5. The receipts, excluding the opening balance, are estimated at Rs. 30,070 against Rs. 29,010 in the revised estimate. The important variations are explained below. The receipts from the tax on buildings are raised to Rs. 11,000, as it is proposed to make a general revision under section 66 (2) of the Act and those under tax on carts, &c., to Rs. 1,200 for reasons referred to in paragraph 4 *supra*. During the current year sheds in the Pennington market and a latrine were demolished and the materials sold. No such special receipt is expected in the next year, and hence the decrease under sale-proceeds of old materials. Fines under Municipal and other Acts are estimated to come up to Rs. 800 against Rs. 600, budgeted for the current year, and Rs. 950 in the revised estimate. Under Contributions from Government, credit is taken for Rs. 170, being a third grant on behalf of the Panchama school building to be erected at a cost of Rs. 500 during the next year and for Rs. 12, being the increased grant towards the pay of the gymnastic instructor, which is raised from Rs. 10 to Rs. 12 as recommended by the Director of Public Instruction. With the opening of lanes the private scavenging service is expected to advance. Hence the provision of Rs. 1,800 against Rs. 1,500 in the revised estimate. As mentioned above, an experiment will be made next year by opening the sewage farm on a small scale andRs. 100 is expected to be realized under this head.

Charges.

6. It may be stated at the outset that the budget for charges is prepared so as to keep the expenditure within the income expected for the year. For the last several years, the yearly expenditure has exceeded the income and this state of things is considered by the Council to be unsatisfactory. There should be a reserve fund for the

water-supply scheme which is absolutely necessary for this town, and this reserve fund is likely to be eaten up, if the expenditure be allowed to exceed the income year by year.

7. *Grant 1.*—A sum of Rs. 3,200 or nearly 69 per cent. of the estimated income from tolls is provided under New Works and Repairs—Communications as detailed in Statement II-A. Rs. 500 is allotted for the opening of lanes and Rs. 200 for the construction of side-walls in roads and Rs. 2,500 for the maintenance of roads and streets. Under *Buildings* Rs. 200 is allotted for the purchase of corrugatediron latrines and Rs. 500 for the construction of Panchama school building and Rs. 400 for repairs to buildings-markets, dispensary, latrines and bathing ghauts. It should be stated in this connection that the Surgeon-General with the Government of Madras recommends the marginally-noted proposals, and no provision is made in the budget for the reasons given below :—

(*a*) Removal of the hospital outside the town.
(*b*) Removal of the cholera shed outside the town.
(*c*) Construction of additional wards for high caste patient and venereal cases.
(*d*) Construction of lying-in ward.

(*a*) *Removal of the hospital outside the town.*—The hospital is now situated in the centre of the town and is resorted to largely. To remove it outside the town is likely to affect its utility. Besides, the town is surrounded by nunja lands. To buy some of them at an enormous cost, to raise the ground at an equally heavy cost, and to put up substantial buildings on it, mean a very large outlay of money which the Council is not in a position to incur at present. The sale of the present buildings will not adequately cover the large outlay that will have to be incurred if the proposal be given effect to.

(*b*) *Removal of the cholera shed outside the town.*—This will necessitate a separate establishment and also an outlay for lands, buildings, &c., which the Council is not in a position to meet.

(*c*) *Separate wards for high caste patients and venereal cases.*—These are no doubt necessary. Provision was made in the current year's budget for the purpose. In view of the increased provision that had to be made under Epidemic charges, Government in its Order, Mis. No. 1962 M., dated 22nd November 1898, postponed this work. To build the wards in front of the hospital as was intended at first, the space available seems to be insufficient. The adjoining buildings may be acquired for this purpose. The price is likely to be very high, and the Council, for reasons set forth in paragraph 6, is not in a position to meet the cost in the next year. This is, therefore, postponed.

(*d*) *Lying-in ward.*—It is not necessary to provide for a separate ward, as a maternity hospital is to be built soon and as the Council has promised to contribute towards it in view of its utility to the people of this Municipality.

Besides, all these proposals may lie over till the Municipality is extended, which is likely to be done soon, when the Council will be in a position to consider the whole matter with reference to the wants of the people of the adjoining villages to be added to this Municipality.

Rs. 200 has been allotted for construction of petty drains as recommended by the District Medical and Sanitary Officer and another Rs. 200 for repairs to existing drains. Provision was being made for sinking drinking-water wells for the last three years, and the Council has succeeded in sinking only one well up to date. It has been found impossible to select proper sites for sinking wells. There are already about 50 public wells besides very many wells in private compounds. The Council does not therefore think it necessary and feasible to sink any more wells. The only real way of supplying pure water to the town at all times of the year is to bring into effect, as early as possible, some water-supply scheme, for which a sum of Rs. 10,300 is reserved.

8. *Grant 2.*—In view of the unavoidable increased expenditure under other grants, the Council resolves to reduce fixed and result payments to Rs. 1,400. As most of the schools are fairly furnished and accommodated, building, furniture, &c., grants have been reduced to Rs. 160. As there is a Panchama teacher under training at an increased rate of stipends for the current year, Rs. 120 provided for stipends

to normal students in the original budget was raised to Rs. 140 in the revised budget. It is brought back to the original figure, Rs. 120, for 1899–1900. The increase sanctioned in the pay of the gymnastic instructor is referred to in paragraph 5 *supra.*

9. *Grant 3.*—The old compounder on Rs. 12 has been replaced by a new one on Rs. 9. The pay of the ward attendant who has been doing his work satisfactorily for the past 10 years is raised from Rs. 6 to Rs. 7. Better furniture is provided for as recommended by the Surgeon-General. Contributions to Provincial funds for Medical College, &c., are provided for, with reference to the actuals of 1897–98. The other moiety of Rs. 1,000 towards the construction of the maternity hospital is proposed to be contributed during 1899–1900. It is proposed to continue the 48 sweepers provided for in the revised budget during 1899–1900 also, and to increase the pay of the road-watering coolies from Rs. 4 to Rs. 5 each, as no hands were procurable in the current year at Rs. 4 per mensem. The chief sanitary inspector has rendered good service. His pay was increased to Rs. 30 when the Council proposed to entertain a maistry on Rs. 15, instead of an assistant inspector on Rs. 20. The Government did not accept this proposal and in consequence the pay of the chief inspector was brought back to Rs. 25. The Council has now resolved to increase his pay by Rs. 3. The second circle maistry was registrar of births and deaths on Rs. 12–8–0 per mensem and he consented to be transferred to the sanitary department with a hope that, if the Government accepted the proposal of the Council to appoint a maistry on Rs. 15 instead of an assistant inspector on Rs. 20 he would be able to draw Rs. 15 per mensem. He now draws only Rs. 12 per mensem and the Council has resolved to increase his pay by Re. 1. Most of the carts now in use have become old and damaged and an additional sum of Rs. 200 is provided for the purchase of carts. In view of fact that segregation sheds have been already erected at a cost of Rs. 805, it has been resolved to allot Rs. 1,500 for epidemic charges.

10. *Grant 4.*—Rs. 1,800 is allotted for lighting contingencies to meet the fluctuating price of kerosine-oil and Rs. 100 to the purchase of seeds, &c., to the sewage farm. As provision has been made for compensation of lands required for communications and buildings under the respective heads, no provision is made for lands under this grant.

11. *Grant 5.*—The pay of the head clerk who was an unpassed man was Rs. 40 till 1891–92 when it was reduced to Rs. 35, as the cost of the office establishment exceeded 10 per cent. of the then estimated receipts which amounted to Rs. 21,400. No such objection exists at present as the income of the Municipality has considerably increased. On the other hand, there is a wide margin to admit the increase recommended below. The present head clerk and manager P. Muniappa Pillai is a graduate in arts. He has successfully held positions of trust and importance in the Educational department. Ever since he took charge of this office he is doing his work satisfactorily and systematically. He carefully attends to every branch of the work and is very energetic in the discharge of his duties. As it would be in the interests of the Municipality to properly remunerate such a really deserving officer and retain his services, I proposed to increase his present pay Rs. 35, which is very inadequate, to Rs. 50. The Council has resolved to increase his pay to Rs. 45. The second clerk has been serving on his present [illegible] the last 15 years. The late Chairman considered him fit to be the head clerk [illegible] proposed to appoint him when the place fell vacant. But the Council was of opinion that higher educational qualifications were necessary, and consequently his claims were overlooked and the present incumbent was appointed. The Council has resolved to increase the pay of the second clerk to Rs. 30. I strongly recommend that the pay of the head clerk and that of the second clerk, as proposed by the Council, may be sanctioned by Government, as they deserve to be encouraged and as the office work has, of late years, considerably increased.

12. The other items of charges are almost the same as in the revised estimate and do not call for any remarks.

The year 1899–1900 will close with a balance of Rs. 10,470 against Rs. 7,830, the estimated balance in the current year's budget.

Proposition statements for charges proposed in establishment both for the revised budget and for the budget for 1899–1900 are herewith enclosed.

Cur. No. 2300—Gen.-Rev.

Submitted to the Collector.

2. Adequate provision has been made for communications in the budget estimate for 1899–1900.

3. The Council has not been sufficiently energetic in the matter of extending the private scavenging system. It is only very recently that the opening of two lanes has been sanctioned. I am sure that, if the Council creates facilities for access to the backyards of houses, the house owners will be very willing to avail themselves of the private scavenging system.

4. The sewage farm silt has received the approval of the District Medical and Sanitary Officer. The sooner the farm is worked the better.

5. In paragraph 7 of the report the Chairman observes that it has been found impossible to select proper sites for sinking drinking-water wells and that about 50 public wells already exist. Most of these public wells do not contain drinkable water and are therefore useless. What is wanted is a good number of wells containing good drinking-water. It does not appear that professional opinion has been obtained regarding the possibility or otherwise of providing the inhabitants with a sufficient number of wells containing good drinking-water. The water-supply scheme is of course the best remedy for the existing evil. But the fruition of the scheme lies in the far future.

6. It seems to me that proposals to increase the pay of the establishment may be deferred pending the extension of the Municipality. The sanitary inspector, the head clerk and the second clerk are, no doubt, men deserving promotion. Their claims may be considered at the reorganization of the establishment that will naturally follow the extension of the Municipality.

(Signed) T. RAGHAVIAH,
Head-quarters Deputy Collector.

25*th December* 1898.

Ref. on Cur. No. 2300-Gen.–Rev.

Submitted to Government (Local and Municipal Department).

2. The statements of the Chairman in paragraph 2 are being inquired into. I am unable to obtain full information on the subject without delaying this report considerably.

3. The proposed increases in the salaries of the sanitary inspector, second circle maistry, Municipal office head clerk and office second clerk are, I think, uncalled for. The practice of raising salaries from time to time is objectionable and they should be fixed permanently once for all.

(Signed) E. SCOTT,
Acting Collector.

9*th January* 1899.

From the Hon'ble Mr. D. DUNCAN, M.A., D.Sc., LL.D., Director of Public Instruction, to the Secretary to Government, Local and Municipal Department, dated Madras, 11th January 1899, No. 383.

Referring to the budget estimate of the Tinnevelly Municipality for 1899–1900, I have the honour to recommend that to the allotments made therein under the several heads of Grant 2 a sum of Rs. 200 be added under Fixed and result grants, so as to raise the allotment to the current year's figure. With reference to the actuals of 1897–98 and in view of the fact that the fixed grant system has to be introduced during the next year, it is necessary that the current year's provision under this head should be repeated. With the modification suggested above, the net expenditure under Grant 2 will be Rs. 3,390. The estimated income of the Municipality from rents not having been communicated to me, I am not able to ascertain the exact proportion the net expenditure bears to the estimated income from taxation, markets and rents.

2. The entry "170" as grants from Government on account of Municipal schools is apparently an error for Rs. 20.

From Surgeon-General C. SIBTHORPE, C.B., F.R.C.P.I., Surgeon-General with the Government of Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 21st January 1899, No. 86.

I have the honour to state that the provision made in Grant 3 of the budget estimate of the Tinnevelly Municipality for the year 1899–1900 is sufficient.

2. The increase of pay proposed in the case of the ward attendant is necessary.

3. The following recommendations, viz., removal of the hospital and the cholera shed outside the town, construction of additional wards for high caste patients and venereal cases and a lying-in ward, have not been carried out for want of funds.

From Lieutenant-Colonel W. G. KING, M.B., C.M., D.P.H., Sanitary Commissioner for Madras, to the Secretary to Government, Local and Municipal Department, dated Madras, 31st January 1899, No. 293-S.

With reference to the budget estimate of the Tinnevelly Municipal Council, I have the honour to state that my remark on the current year's budget regarding the insufficiency of the existing scavenging staff does not appear to have engaged the attention of the Council. There seems no necessity for the extreme caution as to advance of private scavenging on account of opposition. The opposition is not to the private scavenging system, but to cessation of the Tinnevelly method of storing fœces on the premises for manure. This difficulty was successfully faced by the Palamcottah Municipality, and there is no reason why it should not be by the Tinnevelly Municipality.

2. The increase of salary proposed for the chief sanitary inspector has my support.

ORDER—No. 178 M., dated 11th February 1899.

The estimated receipts and charges of the Tinnevelly Municipality for 1899–1900, as passed by Government, are compared below with the budget and revised estimates for the year 1898–99 and the actuals of 1897–98:—

Revised Estimate for 1898–99.

2. The current receipts and charges are now estimated at Rs. 29,010 and Rs. 31,330, respectively, against Rs. 29,010 and Rs. 31,470 anticipated in the sanctioned budget. The result of the enquiry referred to in paragraph 2 of the Collector's endorsement should be reported to Government. The entertainment of three additional sweepers on Rs. 4 each, proposed in paragraph 3 of the Chairman's letter, the abolition of the post of gardener on Rs. 5 and the increase of Re. 1 each in the salary of the road-watering coolies which are shown in the proposition statement are sanctioned, but reference should have been made to the two latter proposals in the Chairman's letter. With reference to G.O., No. 1259, Financial, dated 28th December 1898, communicated with G.O., No. 44 L., dated 11th January 1899, the allotment for epidemic charges will be reduced from Rs. 2,050 to Rs. 1,260. The balance to be carried forward to the ensuing year's budget will then be Rs. 11,120.

Budget Estimate for 1899–1900.

3. *Receipts.*—The receipts for the ensuing year are entered as Rs. 30,070 against Rs. 29,010 in the revised estimate, an increase which occurs chiefly under the taxes on buildings and carts and private scavenging fees being partly counterbalanced by a decrease under fines. The Municipal Council's proposal to increase the rate of the tax on carts from three-fourths to the maximum is sanctioned. The revision of the house-tax registers should be undertaken at once and completed before the end of the current financial year, so that the revised assessments may be brought into force from the beginning of 1899–1900—*vide* section 66 (3) of the District Municipalities Act. The attention of the Municipal Council is drawn to the remarks of the Deputy Collector in paragraphs 3 and 4 of his endorsement.

4. *Charges.*—(1) The probable charges are put down at Rs. 29,930 against the revised estimate of Rs. 30,540, a decrease which appears under Grants 1, 2 and 4 being partly met by an increase under Grant 3.

(2) *Grant 1.*—For want of funds, the provision of Rs. 200 for the construction of side-walls in roads, and Rs. 200 under new works drainage, will be struck out.

(3) *Grant 2.*—In the present state of the Council's finances, the Director's suggestion to increase the allotment for "Fixed and result grants" cannot be adopted. Nor can the increase of Rs. 2 in the pay of the gymnastic instructor proposed in paragraph 5 of the Chairman's letter be approved. The attention of the Chairman is drawn to the omission pointed out by the Director in the last part of paragraph 1 of his letter read above and to the error noticed by him in paragraph 2.

(4) *Grant 3.*—The proposed increase in the salary of the hospital ward attendant is approved, but the increases in the salaries of the chief sanitary inspector and the sanitary maistry, proposed in paragraph 9 of the Chairman's letter, will be disallowed, with reference to the Collector's remarks in paragraph 3 of his endorsement. The provision for epidemic charges will be raised from Rs. 1,500 to Rs. 5,280, with reference to G.O., No. 1259, Financial, dated 28th December 1898, communicated with G O., No. 44 L, dated 11th January 1899. With reference to the Surgeon-General's remarks in paragraph 3 of his letter read above, his attention is drawn to paragraph 7 of the Chairman's letter.

(5) *Grant 5.*—With reference to the remarks of the Deputy Collector and the Collector in paragraphs 6 and 3 of their respective endorsements, the Council's proposal to increase the salaries of the head and the second clerks of the Municipal office cannot be approved at present.

5. As revised by Government, the budget closes with a balance of Rs. 8,140 or 27·1 per cent. of the estimated receipts; but the greater portion of this sum will be required for expenditure on the water-supply scheme, which is under investigation.

5P

Revised Estimate for 1898-99.

2. The current receipts and charges are now estimated at Rs 29010 and 31330 respectively, against Rs 29010 and Rs 31470 anticipated in the sanctioned budget. The result of the enquiry referred to in para. 2 of the Collector's Endorsement should be reported to Government. The entertainment of three additional sweepers on Rs 4 each, proposed in para 3 of the Chairman's letter, and the abolition of the post of gardener on Rs 5 and the increase of one rupee each in the salary of the road watering coolies which are shown in the Proposition statement are sanctioned, but reference should have been made to the two latter proposals in the Chairman's letter. With reference to G.O. No.1259 dated 28th December 1898

Vide also Prop. Statement J.

I. Financial communicated with G.O.No. 44 L, dated 11th January 1899, the allotments for epidemic charges will be reduced from Rs 2,050 to Rs 1,260. The balance to be carried forward to the ensuing year's budget will then be Rs 11,120.

Budget Estimate for 1899-1900.

3. Receipts:- The receipts ~~from~~ for the ensuing year are entered as Rs 30,070 against Rs 29,010 in the revised estimate, an increase which occurs chiefly under the taxes on buildings and carts and private scavenging fees being partly counterbalanced by a decrease under fines. The Municipal Council's proposal

in para 4

to

to increase the rate of the tax on carts from three-fourths to the maximum is sanctioned. The revision of the house-tax registers should be undertaken at once and completed before the end of the current financial year, so that the revised assessments may be brought into force from the beginning of 1899—1900 vide section 66 (3) of the District Municipalities Act. The attention of the Municipal Council is drawn to the remarks of the Deputy Collector in paras. 3 and 4 of his endorsement.

4. Charges-(1). The probable charges are put down at Rs 29,930 against the revised estimate of Rs 30,540, a decrease which appears under grants 1, 2 and 4 being partly met by an increase under grant 3.

(2) Grant 1. For want of funds, the provision of Rs 200 for the construction of side-walls in roads and Rs 200 under new works drainage, will be struck out. The attention of the Municipal Council is drawn to the remarks of the Deputy Collector in para. 5 of his endorsement.

(3) Grant 2. In the present state of the Council's finances, the Director's suggestion to increase the allotment for "Fixed and result grants" cannot be adopted. Nor can the increase of Rs 2, in the pay of the Gymnastic Instructor, proposed in para 5 of the Chairman's letter, be approved. The attention of the Chairman is drawn to the omission pointed out by the Director in the last part of para. 1 of his letter read above and to the error noticed by him in para. 2.

(4) Grant 3. The increase in the salary of the hospital ward attendant approved but the increases in the Salaries of and the Chief Sanitary Inspector and the Sanitary Maistry, proposed in para.9 of the Chairman's letter, will be disallowed, with reference to the Collector's remarks in para.3 of his Endorsement. The provision for epidemic charges will however be raised from Rs.1,500 to Rs.5,280 with reference to G.O. No.1259. Fin. dated 28th December 1898 communicated with Ft. No.44 L., dated 11th January 1899. With reference to the Surgeon-General's remarks in para.3 of his letter read above, his attention is drawn to para. 7 of the Chairman's letter.

(5) Grant 5. With reference to the remarks of the Deputy Collector and the Collector in paras.6 and 3 of their respective Endorsements, the Council's proposal to increase the salaries of the Head and the Second Clerks of the Municipal office cannot be approved at present.

5. As revised by Government, the budget closes with a balance of Rs.8,140 or 27.1 per cent of the estimated receipts; but the greater portion of this sum will be required for expenditure on the water-supply scheme, which is under investigation.

P. M. Ramaswami Pillai
Assistant Collector
23-12-98

Received the Proceedings of the Municipal Council of Kumbakonam dated 14th January 1899 and the Revised Estimate for 1899-1900.

Dated at Kumbakonam the 15th January 1899.

President
Municipal Council
Kumbakonam

To
The Personal Assistant to the Collector
Kumbakonam

Sir,

I have the honour to forward herewith the Revised Estimate of Receipts & Charges for 1899-1900 together with the Proceedings of the Municipal Council dated 9th January 1899 passed thereon by the Chairman.

I am
Sir
Your most obedient servant
President
Municipal Council
Kumbakonam

RECEIVED
26 DEC. 1898
TREASURY DEPUTY COLLECTOR'S OFFICE

RECEIVED
14 JAN 1899
PERSONAL ASSISTANT TO THE COLLECTOR
MUNI. ECL. & LEG. DEPTTS.

1/Tm/99.

Read letter No 5114 dated 24th September 1898 from the Director of Public Instruction forwarding his remarks on the educational Budget estimates for 1899-1900 submitted by the Inspector of Schools.

Read letter from the Asst Medical & Sanitary Officer No 504 dated 30th September 1898 forwarding the Medical Budget estimates for 1899-1900 and letter dated 4-12-98 from the same Officer forwarding the Sanitary proposals to be included in the Budget for the year

Read letter No 6406 dated 4th June 1898 from the Director of Public Instruction regarding a proposal for the establishment of a System of education for the deaf & dumb.

Read also the other connected papers.

Resolved that

(1) The Chairman be requested to make a general revision of the house tax Assessment lists under Section 66 (2) of the Amended Dist Municipalities Act before the close of the financial year

(2) The tax on carts be increased at the maximum rate of Rs 2 per half year from 1899-1900.

(3) In view of the increased unavoidable expenditure under other grants for 1899-1900 the following grants be reduced & Rs 1400 and the building future grants to Rs 160

(4) The gymnastic Instructors pay be raised from Rs 10 to Rs 12 as recommended by the Director of Public Instruction.

(5) The pay of the ward attendant in the Hospital be increased from Rs 6 to Rs 7

(6) The pay of the Chief Sanitary Inspector be raised from Rs 25 to Rs 28 and that of the 2nd Circle Inspector from Rs 12 to Rs 13

(7) The pay of the Head Clerk be raised from Rs 35 to Rs 45 and that of the 2nd Clerk from Rs 25 to Rs 30.

Resolved further that in view of the above Resolutions and other Circumstances noticed by the Council the draft Revised estimates for 1898-99 and the Budget estimates for 1899-1900 submitted by the Chairman be modified as shown in the Statement below.
