Plague Report Salem

District.

The Collector of Salem Date 8th December 99 No. 405/1

1. Name of town or village. Bericay

2. Population of town or village. 1857.

3. Plague cases up to date of last report
 Number of seizures. 25
 Number of deaths. 20
 Date of last report. Indigenous.

4. Date of present attack. About 17th November but only discovered 2nd December

5. When reported by telegram? 8th December 1899.

6. Imported or indigenous? Uncertain, but I should say imported

7. Brief history of case. A. Muhammadan named Padeha mean Sahel aged 25 was found on 2nd instant by the Circle Inspector in a house in Bericay in a very weak state with temperature 102°. Report was sent to Additional medical officer who went and examined him on 5th November and found him to have enlarged glands and a red-lined tongue and all symptoms of plague.

8. If imported, had patient a passport? It is said that he had been to Mysore territory to get "Silk worms" and got fever there.

9. Steps taken to isolate and treat the patient. Patient only isolated on 6th instant by me by force as he refused to listen to the Supervisor and Inspector.

10. Steps taken towards the segregation of contacts.—

Contacts were ordered to be segregated by additional medical officer on 5th, but they stoutly refused, eventually only one male and three females moved out on 7th morning after compulsion and two other male contacts were still abroad then and went down on 7th morning to Bericay. I had one of them, the father of patient Mohamed Navoz, Aham caught by the Station House officer and segregated before I left Bericay, the other could not be found. I left word for

11. Steps taken towards the evacuation and disinfection of the infected house.—

House was evacuated with great difficulty only on morning of 7th instant, and will be disinfected today.

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures?—

Yes. ~~the~~ the inmates have given great trouble. I have applied for their prosecution.

There are seven members in this family Mohamed Navoz Aham (the father), Abdul Razak and Abdul Majid (brothers),

13. Remarks.—

Razak and Abdul Majid (brothers), Padeha mean Sahib (the patient) and three females. The man must have been ill for some time as he is in a very weak state and can hardly walk. He was kept hidden inside his house by his relatives and not shown to the village drum riff or any one and no one was allowed to enter the house on account of the gotha females; it was only by mere chance that the Circle Inspector heard of this illness. By private informants, he then went to the house and produced them with great reluctance. It was just a case of plague. I think an example should be set of those people and that they should be severely punished for concealing this case and then refusing to turn out at once when ordered to do so. I have applied to the Sub Collector for their prosecution.

Endd on 16-12-99. No (True copy) Sd/ J. French, Captain. Special Plague Officer. Submitted to Government in the Local and Municipal Department and the Sanitary Commissioner for Madras.

Robert B. Clegg

Esq.,

Ag. COLLECTOR AND DISTRICT MAGISTRATE,

Salem,

TO

THE SECRETARY TO GOVERNMENT,

Local And Municipal

DEPARTMENT,

Madras.

SIR,

With reference to your memorandum Ref. on C

No. 4057 dated 22nd December 99 calling for a report as to

how the persons who concealed the plague case at Berikai have been dealt with, I have the honour to state that the

prosecution of the head of the family who offered obstruction to the carrying out of plague measures has been sanc-

tioned and the case is pending before the Special Sub-

Magistrate, Hosur.

I have the honour to be,

Sir,

Your most obedient servant

For Ag. Collector.

4. Measures taken for the suppression of plague.

The infected villages have all been evacuated

Commissioner for Madras

2/11/1898

Perforated

and the houses of patients and contacts disinfected with perchloride of mercury. Arrangements for guarding the Camps and for house-to-house inspection in order to find out any concealed cases have also been made.

5. Success of plague measures.

There have been no fresh attacks since the 2nd December and it may

therefore, be hoped that the disease has been brought under control. The cases in camp are few and most of them are improving, one being as old as 12th October, 1899. One case was discharged on the 4th instant.

6. Attitude of the people towards plague measures

Satisfactory.

7. General remarks.

As stated above there have been no fresh cases from the 2nd instant. There is reason to hope that the disease is subsiding.

Plague Report Salem District.

Date 18 December 99 No. _____

1. Name of town or village.— Vaniambadri

2. Population of town or village.— 16,080

3. Plague cases up to date of last report { Number of seizures.— 17
Number of deaths.— 13
Date of last report.— 27. 11. 99.

4. Date of present attack.— 10. 12. 99

5. When reported by telegram?— 10. 12. 99

6. Imported or indigenous?— Imported

7. Brief history of case.— One Jaffer Hussain, Came here from
Trinapattin and on the 7th instant (on which date he came here)
he was found to be suffering from elephantiasis. He
was kept under close observation and was daily observed
by the Hospital assistant. This morning he was found to
develop symptoms of plague i.e. he had an enlargement of glands
in the right side of the neck.

8. If imported, had patient a passport?— He patient came here from Trinapattin
He had no passport

9. Steps taken to isolate and treat the patient.— The patient was removed
to the Segregation shed out of the town. The services of two
Police Constables have been applied for to guard the
shed.

10. Steps taken towards the segregation of contacts.— The contacts, two in number, have also been removed to the Segregation Camp.

11. Steps taken towards the evacuation and disinfection of the infected house.— The house in which the patient was, has been evacuated and is being disinfected thoroughly.

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures?— Nil.

13. Remarks.— (2 in number) to the Segregation Camp.

The hospital assistant's report about the case reached me at about 10 A.M. I at once hastened to the spot with the hospital assistant and removed the patient and the contacts. The house from which they were removed is being disinfected. I have applied for the services of two more police constables to guard the said house until it is thoroughly disinfected. A watchman and a toty have been posted at the Segregation Sheds to attend to the sanitary arrangements such as collection and burning of excreta &c. The patient died at about 5 P.M. this day and his burial will be attended to with due sanitary precautions which will be reported in detail tomorrow.

19/12/98

Plague Report Salem District.

Date 14th December 98 No.

1. Name of town or village.— Bonnam and apalli

2. Population of town or village.— 339

3. Plague cases up to date of last report
Number of seizures.— 1
Number of deaths.— 1
Date of last report.—

4. Date of present attack.— 10th December 1898

5. When reported by telegram?— 13th December 1898.

6. Imported or indigenous?— Imported from Dummazandram (Mysore Territory)

7. Brief history of case.— I received a report of the illness of this child "Baija" female aged 7 years (was her name last night) yesterday evening and as the Additional Medical Officer was away visiting other cases, I went down at once and examined her, but could not find any glands swollen. The child however, was unconscious. I told the relatives to keep her in the fields till the Additional Medical Officer should see her this morning. He did and pronounced it suspicious of plague.

8. If imported, had patient a passport?— Imported, but no passport.

9. Steps taken to isolate and treat the patient.— Removed to fields at once by village munsiff and now ordered to be removed to Kothakondapalli frontier station.

10. Steps taken towards the segregation of contacts — *contacts segregated in fields.*

11. Steps taken towards the evacuation and disinfection of the infected house. — *House evacuated and will be disinfected tomorrow.*

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures? — *None.*

13. Remarks. — *On enquiry I found that the father had been to Anikal lately from Dammasandram which is in Mysore territory and just across the border near Bonimandapalli and the patient was in the habit of going backwards and forwards between the latter village and Bonimandapalli.*

File

21/12/99

23-12-99

Plague Report *Salem* District.

Date *13* December *99* No. *13*

1. Name of town or village. — *Figur (near Chattrigiri)*
2. Population of town or village. — *693*

3. Plague cases up to date of last report { Number of seizures. — *21*
Number of deaths. — *20*
Date of last report. —

4. Date of present attack. — *Not known, said to have been taken ill on 11th, died 12th.*

5. When reported by telegram? — *12th December 1899.*

6. Imported or indigenous? — *Wired as indigenous as no history was forthcoming but please see "remarks".*

7. Brief history of case. — *A man named Chashanagiri aged 25 (Pariah) was reported to me to have died early on morning of 12th in a house in Figur. I*

went down at once and saw body and the additional Medical officer saw it after me the same morning. I found slight enlargement in right groin.

8. If imported, had patient a passport? — *It would appear from enquiry later that the man had been to Chattrigiri in Mysore territory on 30th ultimo, but this is only hearsay.*

9. Steps taken to isolate and treat the patient. — *No time to isolate or treat him.*

10. Steps taken towards the segregation of contacts.—

The three contacts are his brother (a Sowar in the Remount) and his sister-in-law living in same house and another brother who carried the corpse, the two latter have been segregated in remount Segregation Sheds. The former possessing an inoculation certificate was not — all their clothes however have been disinfected.

11. Steps taken towards the evacuation and disinfection of the infected house.—

House in Jigur has been evacuated, unroofed and disinfected.

12. Was there any opposition on the part of the inmates of the infected house or of the people of the village to the plague measures?— None.

13. Remarks.—

I found from later enquiry that this man had been working with a Contractor in the Remount up to the 30th ultimo, he then left his employer taking an advance of Rs 2 and said he was going to see his relatives at Madivalam near Bangalore — the relatives however are very reticent about this.
